Saulpaugh -

I am glad to know that you have made satisfactory arrangements for your visit to the Sun. I will not be at Lake Success until June 9th ~~[illegible]~~ & then I will be

there for a 2 weeks meeting of the [illegible] Com

Dear Mrs. Roosevelt,

It was indeed sweet of you to offer to get tickets for the Historical Clubs' visit to the United Nations. They couldn't decide when to go but at our meeting today it was voted to go on May 6th —

Some young fellow by the name of De Gaster (Holland) who is studying at Bard College and claims to be a part of the U. N. spoke to us a few weeks ago.

Mrs. Palmer Hart who is our

President seemed to be very much impressed by him so when he offered to accompany us and also get the tickets she accepted. She told me to tell you we were grateful for your kindness but that it seemed easier for this man to make the arrangements and that perhaps we could see you there.

Truthfully, I was very sorry and so were many of our club members and the people who said definitely they would go were very few so she suggested taking people outside the club ~~though~~ I have no idea what will happen.

I was so pleased when your letter came suggesting you were willing to help us. Perhaps it is better

this way because you always have so many demands.

No Muriel hasn't any children. Her husband returned just before Easter and is very cooperative. It will be such a relief when it is all settled.

Anniversaries aren't pleasant are they? Still you have so much to look back upon - a wonderful life given for his country. I am sure the majority of people appreciate all he did and look back on him with great pride and admiration.

Very sincerely yours,
Cecelia H. Saulpaugh.
