Dear Mrs. Roosevelt.

Please let me congratulate you on your appointment to the U.N.O. They will get something done now.

I am enclosing my views or an eulogy on a very great man, I sincerely hope you like it.

Mr. Harry Truman is doing O.K. so tell him to keep on keeping on.

I am a Legionaire an A.F.L. Carpenter A.D.D.K.K. and D.A.V. I have 4 sons in Armed forces now, I surely hope something good will come from our tremendous effort to punish the Axis Brutes.

With kindest personal regards to you & yours & a very successful New Year.

Clinton A. Scharf.

Faithful Unto Death.

When the greatest Humitarian President & Diplomat that has lived, saw he was not going to live, thru the Inhuman, Titanic Struggle of Free People against Slavery, Barbarism, Atheism etc.

He kept faith with the American people at the Democratic Convention in Chicago when he insisted the Senator Harry Truman be his team-mate, in place of, Mr. Henry Wallace, who as Sec. of Agriculture didn't know that a female mule did not produce her kind.

When Franklin Delano Roosevelt became convinced that the Supreme Ruler of the Universe was calling him home, before the brutal inhuman struggle, the earthly bypaths, had ever been foolish enough to indulge in, would end,

He showed what a Man he was by picking a very capable Senator and Ex. Fighting Officer to be his Vice President.

Mr. Roosevelt was undoubtedly the greatest friend the forgotten man & women ever had. His three Years will be remembered in 2045. In fact he has met and helped more people than anyone living since The Lowly Nazarene was hung on a Cross by supposed to be People.

Abraham Lincoln was a great man no doubt, but he never could have filled Frank Roosevelt's shoes either in the U. S. or Abroad.

Mr. Roosevelt not only had a wonderful foresight, and an uncanny conception of events to come, He also had guts enough to make a decision and do it now.

Ten Centuries from now his name will still be on people's tongues, in every land on this Orb. He wasn't a Jefferson or Jackson Democrat for the simple reason their ideals would not work now. They both thot the Tomato was a love apple and possibly poison, but now we feed it to our infants and stop a swell head with the juice and build up our vitality with the same.

The Radio, Telaphoto and Plane knocked Tom Jefferson's idea of two hemispheres into a cocked hat. The Entire World is not as large as Cuba was ~~then~~ in 1790.

Washington was a great Engineer + General but he couldn't get along internationally as well as F. D. R.

It would be fitting for the H. H. O to be on Hide Park, New York State. He gave it Birth and the Ground to H. D. R.

He whipped one of the Scourges of Mankind (Infantile Paralysis). May his Humble Soul Forever Rest in Eternal Peace.

And his Dam Springs Project grow & prosper and aid the afflicted children of all races & creeds, it is our fault children are on earth, so the least we can do is aid and protect them.
