Boh-Bon

[Bohny] January 30, 1946

Dear Mrs. Roosevelt,

I have just finished listening to the March of Dimes Program. Gladys Swarthout just sang "Smiling Thru the years" and I couldn't help but think she might be singing that song for you in memory of your dear husband one whom we all loved so well and miss more as time goes on. I am just one obscure person with these thoughts but you both must have had a wonderful love between you. I have four children ranging from 1 to 8 yrs. and like all people

with children I fear "Polio" your husbands memory will always be revered for this wonderful program which he founded. In closing I would like very much to express my fondness for you. I have often wondered at your stamina to offset the critisicim which you have received in the past years but that only shows how very big you are in your attitude about ignoring things of that sort.

I will close now wishing you many years of continued good health.

Mrs Eugene Bohny
42 Elmwood Dr.
East Paterson, N.J.

Bonde

April 29, 1946

My dear Mr. Thomson:

Dr. and Mrs. Bonde from Switzerland, who are friends of Dorothy Canfield Fisher, came in to see me. They are anxious to start a junior college in connection with the school they have been running in Lenox, Massachusetts, since 1937 and hope to make it a school and college with a duplicate in Geneva so that groups of European and American children can work together and spend part of their time in each place.

I told them that whatever they did should be done in connection with UNESCO. Therefore, Dr. Bonde will send you his material and will talk with you, if you wish.

Very sincerely yours,

Mr. Charles A. Thomson
Office of International Information &
Cultural Affairs
State Department
Washington 25, D. C.

Bonde

April 29, 1946

Dear Mr. Lie:

Dr. and Mrs. Bonde have been running a school in Lenox, Massachusetts, during the war and used to have a school in Europe. They are planning to reopen their school in Geneva and have the students interchange and spend part of their time in each place.

Possibly in the United Nations group there would be children that would like to attend their school, so I told them to write to you direct and send you their material.

They are friends of Dr. and Mrs. Fisher. She is Mrs. Dorothy Canfield Fisher, a well known writer in this country and a woman of broad sympathy and interests, and her sponsorship insures the character of Dr. and Mrs. Bonde.

Very sincerely yours,
