To
Mrs Franklin Delano Roosevelt
N.Y.C.

Dear Mrs Roosevelt

I thank you heartily for your kind message and was so happy to learn from yourself that I have were not injured thanks God. I want to announce to you, Mrs Roosevelt, that after so many years separation a account of the war I do hope to see soon my children my two daughters one is the Princess Lydia Obolensky who has already the honor to be known to you as she is the one who attended with me the hist

rical luncheon at Hyde Park
sat to the left to Hur never to be
forgotten President then Governor
and it was me who predicted the
Governorship sending my book with
his picture (fr. a news-paper) pasted
and the dedicace was: to the most
charming Governor to be! Mr Roose-
velt remember it a the luncheon and
said to me: "What will be the next?"
The next: Your Excellency will be the
next President! Mrs James Roosevelt
heard about and since the election
to the the Presidency was realized,
the dear Lady considered me as a
clairvoyante. Amongst so many hu-
manitarian reforms the late President
in 1932 decreeted that every one who
arrived to this country before this
year even only as a guest can become
a Citizen and in 1937 I became a
citizen; once it was a letter from Your
excellente self: "that You think that
I am a desirable guest" when I needed a
prolungation and Mrs James Roosevelt

wrote another when I applied for
Citizenship so when my dossier was put be
fore the Judge who had to examine
me looking at the letters his Honnor
said: "I don't need to ask You what is
the name of the President and smilingly
added, after a few questions: "Well That
too You will be a good Citizen. Ten
years, near, elapsed but thankfull
memories are alive in my heart
and this time as a Citizen I come
to beg You, Mrs Roosevelt, to give me
a letter for the American Consul in
Paris to facilitate the granting of the
visa for my two daughters the seconde
one is Princess Paola Wiazemsky to come
to visit me for a duration of six months.
I have a nice 4 rooms apartment, I
send my Affidavit declarading that
there is over 1000 dell in my banque and

they will provide for themselves
tickets to go and return.
I am giving French and Russian
leçons (my book: "The Secrets of the
Prussian Court" is just terminated now
and will be translated in French and
Russian later in Spanish and Italian).
But to see my children is the
main object in my life and after
all the anxieties through wich
I went through during this long
years of war, I aged and not
feeling very well... So, you
the perfect model of a lo-
ving Mother I beg you again
and again to help me to see
my daughters.....
With all my apologies
to allow myself to disturb
you dear Mrs Roosevelt, I
remain for ever Your's affectionately
devoted
