DISMISSAL OF COMPLAINT UNDER SECTION 3 (e) OF TITLE I OF THE NATIONAL INDUSTRIAL RECOVERY ACT WITH RESPECT TO IMPORTS, LEGAL AND ILLEGAL, OF CERTAIN WATCHES, WATCH MOVEMENTS, AND PARTS OF WATCH MOVEMENTS

A complaint under Section 3 (e) of the National Industrial Recovery Act addressed to me by the American Jeweled Watch Manufacturers' Association of the United States has been filed with the National Recovery Administration alleging that certain watches, watch movements and parts of watch movements are being imported into the United States on such terms or under such conditions as to render ineffective or seriously to endanger the maintenance of the President's Reemployment Agreement, under which the domestic industry is operating.

After an examination of said complaint and of the report and recommendation of the National Industrial Recovery Board, with respect thereto, I find that the facts do not warrant further investigation in accordance with Section 3 (e) of said Act.

I, therefore, direct that no further action be taken with regard to said complaint and that the complainant be so notified.

The term "Casinghead gasoline plant" shall include every plant or device by the use of which gasoline or natural gasoline or casinghead gasoline (as those terms are commonly understood in the industry), or any of them, is extracted by any process or method from natural gas or casinghead gas, or from any gas liberated from petroleum in the process of refining.

Section 6. The term "pipe line" shall include every line of pipe, however constructed and regardless of length, and all receiving, storage and delivery tanks and facilities used in the operation thereof, by which petroleum or any petroleum product is transported, regardless of whether or not such line of pipe is owned, in whole or in part, by the person producing, refining, processing, manufacturing, purchasing, cleansing, or marketing such petroleum or such petroleum product, or by any or all such persons jointly, or by any other person or combination of persons, except that the term "pipe line" shall not include any line from a well to lease storage, or any line used in actual plant operations, and not used in the receipt/or delivery of petroleum or petroleum products. The

terms "pipe line system" and "gathering system" are included within the term "pipe line".

Section 7. The term "transporting agency" shall include railroads, pipe lines, gathering systems, tankers, barges, trucks, or any other means of conveyance used for transporting petroleum or petroleum products.

Section 8. The term "storer" shall include every person who places petroleum or any petroleum product in any receptacle and keeps the same in any such receptacle for any period of time longer than is usually required in the ordinary conduct of business to move the same currently into the channels of trade and commerce; but excluding the ordinary working stocks of refiners and transporters by pipe line.

Section 9. The term "petroleum" when used singly and separate and apart from "product" shall include petroleum in its crude form, and the terms "product (or products) of petroleum" or "petroleum product (or products)" shall include any article produced or derived in whole or in part from petroleum or any product thereof by refining, processing, manufacturing or otherwise. Whenever natural gas is produced in conjunction or coincidentally with petroleum, such natural gas and all products derived therefrom shall be considered petroleum products. The terms "oil", "crude oil", and "crude petroleum" shall be considered synonymous with petroleum in these regulations.

Section 10. The term "barrel of petroleum" means 42 United States gallons of petroleum measured and calculated to net or gross quantities in accordance with the regulations of the state authorities in force at the point of production, or in the absence of such regulations, measured and calculated in the manner generally in use in the industry at such point of production. The term "barrel" as used otherwise in these

regulations shall mean 42 United States gallons of the article referred to.

Section 11. The term "contraband oil" means petroleum or petroleum products, any part of the constituent petroleum or petroleum products of which was produced, transported, or withdrawn from storage in excess of the amounts permitted to be produced, transported, or withdrawn from storage under the laws of a state, or under any regulation or order prescribed thereunder by any board, commission, officer or other duly authorized agency of such state.

Section 12. The term "interstate commerce" shall include commerce between any point in a state and any point outside thereof, or between points within the same state but through any place outside thereof, or from any place in the United States to a foreign country, but only in so far as such commerce takes place within the United States.

REGULATION II

The Secretary of the Interior will, whenever the facts in any area render it necessary or appropriate for the enforcement of the provisions of the above-mentioned Act, designate such area (hereinafter sometimes referred to as "designated area") as subject to these regulations, and shall establish a board or boards to issue certificates of clearance in accordance with the provisions of said Act. He will establish such further regulations as may be necessary or appropriate in order to enforce the provisions of the said Act in any such area.

REGULATION III

No person shall ship or transport in interstate commerce from any designated area petroleum or petroleum products unless a certificate of

clearance covering such petroleum or petroleum products has been issued in conformity with the provisions of this Order.

No person shall ship or transport from any designated area petroleum or petroleum products not covered by a certificate of clearance if such petroleum or petroleum products are commingled with petroleum or petroleum products all or part of which are to be shipped or transported in interstate commerce.

Whenever petroleum or petroleum products shall be shipped or transported from any designated area without a certificate of clearance first having been issued therefor, no person shall ship, reship or transport in or divert into interstate commerce such petroleum or petroleum products, in whole or in part, or any petroleum or petroleum products commingled therewith unless a certificate of clearance covering such petroleum or petroleum products has been issued therefor.

The provisions of this Order shall apply to petroleum and petroleum products transported in interstate commerce in railroad engine tenders or in vessels of all kinds whether as part of the cargoes or for consumption.

The certificates of clearance hereinabove referred to shall be known as "Tenders".

REGULATION IV.

Each board established in accordance with Regulation II, hereinafter referred to as "boards", shall consist of one or more persons who shall be appointed from time to time by the Secretary of the Interior and who shall serve at his pleasure. Whenever any board consists of more than one person, such board may designate one or more of its members to act for the board. Each board is charged with the duty of hearing and investigating all applications for tenders prescribed by this Order and of

determining as a matter of fact whether the petroleum and petroleum products for which a tender is requested do or do not constitute contraband oil. In the case of applications for tenders covering petroleum or petroleum products not produced, refined, processed or manufactured on the date application is made, each board is charged with the duty of determining whether or not facts have been presented showing that the petroleum or petroleum products to be transported will or will not constitute contraband oil as above defined if the terms of the application are fulfilled. Each board is further charged with the duty of approving such applications for tenders if it finds that the petroleum or petroleum products are not or will not constitute contraband oil. No tender shall be approved until application for approval has been presented on a form approved by the Secretary of the Interior, nor unless the reports hereinafter required have been made and are in order, nor until complete information has been furnished by the applicant enabling the Board to calculate and ascertain the true facts concerning the petroleum or petroleum products covered by the application.

Production of books and records of the applicant relative to an application for a tender may be required by any board for inspection before approval thereof, and any board may require the submission of specific information relative to an application in the form of sworn statements or otherwise, and may itself or through its agents examine any properties and facilities which it deems may afford information necessary to pass upon an application.

Each board is authorized to make regulations governing its procedure. The members of each board shall have power to administer oaths or affirmations. No tender shall be approved except after hearing held not less

than twelve hours subsequent to the filing of the application therefor and after notice has been given by posting a brief description of the application on a bulletin board at or near the place of hearing. Each board is authorized, in cases of emergency, to waive any of the formal requirements of this Order, provided that the substance thereof is maintained, and provided that notice of such waiver be given at the next succeeding hearing held by the board.

REGULATION V.

An application for approval of a tender may be made to a board where the ultimate destination of the movement of petroleum or petroleum products is unknown at the time of application, and application for approval of a tender may further be made, at the option of the applicant, even though the immediate movement of the petroleum or petroleum products is intrastate, if the applicant contemplates that in the future such petroleum or petroleum products, or products derived from such petroleum or petroleum products will be moved in interstate or foreign commerce.

REGULATION VI.

Where application is made for approval of a tender covering petroleum commingled with petroleum which is not shown to have been produced, transported or withdrawn from storage within the amounts permitted by state law, or regulations or orders prescribed thereunder, such tender shall not be approved, nor shall a tender covering any product of such commingled petroleum be approved; and where application is made for approval of a tender covering any petroleum product commingled with a petroleum product derived from petroleum which is not shown to have been produced, transported or withdrawn from storage within the amounts permitted

by state law, or regulations or oders prescribed thereunder, or commingled with petroleum which is not shown to have been so produced, transported or withdrawn from storage, such tender shall not be approved.

REGULATION VII

Any person transporting petroleum or any petroleum product covered by a tender shall endorse on the back of such tender a sworn return showing the quantity of petroleum or petroleum products actually transported, using the form on the reverse side of the copies designated "Tender Original" and "Tender Return" for this purpose and shall deliver in person or by mail the copy designated "Tender Return" to the board issuing the tender. Said delivery in the case of pipe lines shall be made within ten days, and in the case of other transporting agencies, within two days after the date of the last shipment made under said tender, or within the same periods of time after the expiration of the tender, whichever event first occurs. Said return shall be signed and sworn to by a duly authorized agent of the pipe line or other transporting agency.

REGULATION VIII

The first transporting agency, other than a pipe line, transporting petroleum or petroleum products from any designated area in interstate commerce shall stamp on the shipping papers the following: "This shipment is covered by Tender No.____, issued by _____ on the ___ day of _____, 193__", (the number, the title of the board and the date shall be filled in to identify the Tender). Pipe lines shall, in lieu of such stamp on the shipping papers, notify the consignee in writing within three days after the date of delivery to such

consignee of the date, the title of the board, the number of the tender and the amount and kind of petroleum or petroleum products delivered thereunder. No person transporting petroleum or any petroleum product shall receive any more of the commodity than is covered by the tender, and no such person shall receive any different commodity than is described therein.

REGULATION IX

Every transporting agency, other than a pipe line, transporting petroleum or any petroleum product from any designated area to a destination within the same state, which petroleum or petroleum product is not covered by a tender, shall stamp on the shipping papers a notation that the petroleum or petroleum product was transported from the designated area and that said petroleum or petroleum product and any petroleum or petroleum product commingled therewith may not be shipped, reshipped or transported in or diverted into interstate commerce unless an approved tender shall first be obtained. Such notation shall appear on the shipping papers covering every subsequent shipment of such petroleum or petroleum product within the state. Every pipe line transporting petroleum or any petroleum product from any designated area to a destination within the same state, which petroleum or petroleum product is not covered by a tender, shall notify in writing the consignee at or before the time of delivery to him that said petroleum or petroleum product was transported from the designated area, and that said petroleum or petroleum product and any petroleum or petroleum product commingled therewith may not be shipped, reshipped or transported in or diverted into interstate commerce unless an approved tender shall first be obtained.

REGULATION X

All persons producing, refining, processing, manufacturing, transporting, withdrawing from storage or otherwise handling petroleum or any petroleum product in any designated area shall permit any person or persons authorized by me or any board to enter upon their properties, plants and facilities, and to examine all the books and records kept or required to be kept in accordance with this Order, and all other books, papers, records, vouchers, run-tickets, bills of lading, way bills, charges, memoranda or other documents which are used by them in connection with producing, refining, processing, manufacturing, transporting, withdrawing from stoage or otherwise handling petroleum or any petroleum product, and to inspect such plants, facilities and properties, and to gauge tanks, and to examine wells, pipe lines, gathering systems, flow lines, pipe connections, storage tanks, loading racks, separators, pumps, meters or other measuring devices, and any other equipment or instruments.

REGULATION XI

Every producer and refiner in any designated area shall accurately gauge and measure all petroleum and petroleum products before any part thereof leaves his possession or control. No means or device which prevents or hinders such accurate measurement shall be used. Complete

and accurate records of all such measurements shall be kept up to date and preserved, and shall be open to the inspection of any person authorized by me or any board.
