

ORDER

Under Act of February 22, 1935.

By virtue of and pursuant to the authority vested in me by the Act of Congress entitled "An Act to regulate Interstate and Foreign Commerce in petroleum and its products by prohibiting the shipment in such commerce of petroleum and its products produced in violation of State law, and for other purposes", Public No. 14, 74th Congress, approved February 22, 1935, and the Executive Order of the President of the United States, No. 6979 (February 28, 1935), and pursuant to my order No. 1, this date promulgated thereunder; and

WHEREAS, I find that large quantities of contraband oil, as defined in said Act of Congress, are originating in the East Texas Field, as hereinafter defined, and are being shipped and transported in interstate commerce from the East Texas Field; and

WHEREAS, I find that the potential production of petroleum in said East Texas Field is very large and greatly in excess of actual production at this time; that the actual production of petroleum in said East Texas Field is approximately seventeen per cent. of the total actual production of petroleum in the United States; that there has been over a long period of time and is now substantial actual production in said Field in excess of the amounts permitted to be produced under the Laws of the State of Texas and under the regulations and orders prescribed thereunder by the Railroad Commission of Texas, a substantial part of which moves in interstate commerce; that there is actually situated in said Field at this time large quantities of contraband oil, a substantial part of which is immediately available for interstate transportation; that there are in said Field numerous wells, refineries, reclamation plants, casinghead gasoline plants, pipe lines, railroads, loading racks, gathering systems, tank trucks, storage facilities, and other equipment and plants used in connection with the production, refining, processing, manufacturing, storage, and transportation of petroleum and petroleum products; that by-passes and other devices and operations have been used over a long period of time and are now used in said Field to obstruct the enforcement of the Conservation Laws of the State of Texas and the orders of the Railroad Commission of Texas thereunder; that the foregoing facts relating to the facilities, plants and equipment, and the methods of operation thereunder, make it difficult, if not impossible, to prevent shipments in interstate commerce prohibited by said Act without the use of certificates of clearance as authorized by said Act; and

WHEREAS, I find that it is necessary and appropriate for the enforcement of the provisions of said Act to require certificates of clearance for petroleum and petroleum products moving or to be moved in interstate commerce from said East Texas Field, and to establish a Board for the issuance of such certificates; and

WHEREAS, I find by reason of the matters and things hereinabove set forth that the regulations prescribed by my order No. 1 under said Act are necessary and appropriate for the enforcement of the provisions of said Act in said East Texas Field;

NOW, THEREFORE, it is ordered:

Mr. William R. Vallance
Assistant Legal Adviser
State Department, Room 261
Washington, D. C.

My dear Mr. Vallance:

It has just come to my attention that in the letter of April 27, 1935 which the Secretary of the Interior addressed to the Secretary of State transmitting certain Executive Orders, there were inadvertently omitted the forms which were approved by Order No. 2.

Pursuant to a telephone conversation between yourself and a member of the staff of this Board I now forward these to you with the request that they be incorporated as a part of Order No. 2 which was transmitted to the Department of State on April 27. These forms numbered 1, 2, 3 and 4 were approved in Article III of Order No. 2 and Forms A, B, C and D were approved in Article IV of the same Order.

In accordance with your request there is also enclosed herewith a copy of the press release which was issued covering both of the Orders which were transmitted on April 27.

Your cooperation in having brought this matter to our attention is sincerely appreciated.

Yours sincerely,

John L. Tracy

VOID AFTER 7:00 A. M. OF THE FIRST DAY OF THE CALENDAR MONTH SUCCEEDING THE DATE OF APPROVAL. Approval of this tender constitutes a certificate of clearance to transport the petroleum covered hereby in interstate or foreign commerce. Approval of this tender is not a certification that the petroleum covered hereby is legal, but does signify that data have been presented to the Federal Tender Board indicating that the petroleum was not produced, transported or withdrawn from storage in excess of the amount permitted to be produced, transported or withdrawn from storage by State Law or Regulation or Order prescribed thereunder.

INSTRUCTIONS: When used as an application for an approved tender for the transportation from the East Texas Field in interstate or foreign commerce of petroleum produced or to be produced in the East Texas Field or for the transportation of petroleum commingled or to be commingled with such petroleum as to be transported, this form is to be made out in quadruplicate by the owner or part owner of the petroleum covered by this application or his or its duly authorized agent. The original, so marked and printed on white paper, when approved and signed by the Federal Tender Board, becomes an approved tender and it with the "Tender Return" copy must be filed with the transporting agency before said agency may receive for transportation or transport the petroleum covered by this application for approved tender; after the original has been approved and signed by said Board, the duplicate, so marked and printed on yellow paper, shall be retained by said Board; the triplicate, so marked and printed on pink paper, shall be retained by the shipper; and the quadruplicate, which is marked "Tender Return" and printed on green paper, shall be delivered with the original to the transporting agency for his use in making the endorsement and return required. The original, so endorsed, is to be retained by the transporting agency as a permanent record. This application must be supported by producers' affidavits on Federal Forms 1 or 2 and, if one or more transporting agencies intervene between the place of production and the place of delivery for transportation in interstate or foreign commerce, by affidavits executed by each such intervening transporting agency on Federal Form 3, which in turn shall be supported by producers' affidavits on Federal Forms 1 or 2. The supporting affidavits shall be attached to the duplicate copy of this application. If an application is supported by affidavits on Federal Form 2, or affidavits supported by affidavits on Federal Form 2, the shipper may ship and the transporting agency may transport the petroleum covered by the application during the first ten days of any calendar month in anticipation of approval of the application, provided that the shipper shall agree to reduce the amount he will ship during the remaining portion of the month by such amount as the application is reduced by order of the Federal Tender Board. If an application for approved tender is supported by affidavits on Federal Form 1 or affidavits supported by affidavits on Federal Form 1, no petroleum shall be received or shipped thereunder in anticipation of approval of the tender. Supporting affidavits on Federal Forms 1 and 2 must not be attached to a single Federal Form 3, but separate applications and affidavits on Federal Form 3 must be executed. If affidavits on Federal Forms 1, 2 or 3 are used as support for more than one tender or affidavit, the supporting affidavits shall be attached to the duplicate copy of the tender or affidavit first executed and note made on the face of subsequent tenders or affidavits describing the tender or affidavit to which the support has been attached. Do not attach duplicate copies of supporting affidavits to subsequent tenders or affidavits.

When used as an affidavit in support of an application for an approved tender, rather than as an application itself, this form is not to be presented to the Federal Tender Board for approval, but is to be attached to the duplicate copy of the application. It need not be filled out in quadruplicate and the transporter need not file a return. It, in turn, must be supported by producers' affidavits on Federal Forms 1 or 2 and, if one or more transporters intervenes between the place of production and the place of delivery to the affiant, affidavits by each intervening transporter on Federal Form 3.

Approval of this tender constitutes a certificate of clearance to transport the petroleum products covered hereby in interstate or foreign commerce. Approval of this tender is not a certification that the petroleum products covered hereby are legal, but does signify that data have been presented to the Federal Tender Board indicating that the products were not manufactured from petroleum produced, transported or withdrawn from storage in excess of the amount permitted to be produced, transported or withdrawn from storage by state law or regulation or order prescribed thereunder.

INSTRUCTIONS: When used as an application for an approved tender for the transportation from the East Texas Field in interstate or foreign commerce of petroleum products processed or refined in the East Texas Field, this form of application is to be made out in quadruplicate by the owner or part owner of the product covered by this application, or his or her duly authorized agent. The original, so marked, and printed on white paper, when approved and signed by the Federal Tender Board becomes an approved tender and it with the "Tender Return" copy must be filed with the transporting agency before said agency may receive for transportation or transport the product covered by this application; the duplicate, so marked, and printed on yellow paper, shall be retained by said Board; the triplicate, so marked, and printed on pink paper, shall be retained by the shipper; and the quadruplicate, which is marked "Tender Return" copy and printed on green paper, shall be delivered with the original to the transporting agency for his use in making the endorsement and return required. The original, so endorsed, is to be retained by the transporting agency as a permanent record. This application must be supported by evidence that none of the petroleum from which the product tendered was manufactured, was produced, transported or withdrawn from storage in excess of the amount permitted by orders of the Railroad Commission of Texas. After any shipper of petroleum products has established for any tender that his stocks on hand were legally produced or manufactured from legally produced petroleum, it shall be necessary for the purposes of this application, for him to attach to the duplicate copy of subsequent applications affidavits on Federal Forms 1 or 2, and, if one or more transporting agencies intervene between the place of production and the shippers receipt of the petroleum, affidavits by each such intervening transporter on Federal Form 3, and if petroleum products have been received, affidavits on Federal Form 4, supporting the fact that all petroleum or petroleum products received by said shipper subsequent to the last preceding approved Federal Tender for products was produced, transported and withdrawn from storage in accordance with the orders of the Railroad Commission of Texas. If affidavits on Federal Forms 1, 2, 3 or 4 are used as support for more than one tender or affidavit, the supporting affidavits shall be attached to the duplicate copy of the tender or affidavit first executed and note made on the face of subsequent tenders or affidavits describing the tender or affidavit to which the support has been attached. Do not attach duplicate copies of supporting affidavits to subsequent tenders or affidavits.

When used as an affidavit in support of an application for an approved tender, rather than as an application itself, this form is not to be presented to the Federal Tender Board for approval, but is to be attached to the duplicate copy of the application. It need not be filled out in quadruplicate, and the transporter need not file a return. It in turn must be supported by producer's affidavits on Federal Forms 1 or 2, and if one or more transporters intervene between the place of production and the place of delivery to the affiant, by affidavits on Federal Form 3.

Section 1. For the purposes of the said resolution, it is hereby determined that Germany has been and is now in arrears in payments of principal and interest under the debt-funding agreement between Germany and the United States dated June 23, 1930, with respect to the obligations of Germany on account of awards entered and to be entered by the Mixed Claims Commission, United States and Germany. The period in which Germany is in arrears shall be deemed to continue for the purposes of this order until it is determined by the President that such period has terminated.

Section 2. The restrictions imposed by the said resolution are hereby removed except as to the following payments, conveyances, transfers, or deliveries of money or property or of the income, issues, profits, or avails thereof:

1. To any person who was on April 6, 1917, or who at any time since that date has been, a German national, unless such person is entitled to receive payment under section 9, subsection (b)(1), of the Trading with the Enemy Act, as amended, or unless such person is a national of the United States at the time of payment, conveyance, transfer or delivery, and was on June 1, 1934, the legal and beneficial owner of the claim to the money or property or the income, issues, profits, or avails thereof, and on or before June 1, 1934, the United States received written notice of such ownership.

2. To any person domiciled or resident within the territory of Germany, except a natural person who is a national of the United States at the time of payment, conveyance, transfer, or delivery.

3. To any corporation, association, or partnership, or other unincorporated body of individuals or a body politic which on or at any time since April 6, 1917, was organized or existed under the laws of Germany or had its principal place of business in Germany.

4. To any corporation, association, or partnership, or other unincorporated body of individuals, or a body politic in which a substantial legal or beneficial interest is owned directly or indirectly by any person to whom payment, conveyance, transfer, or delivery continues to be postponed under subdivision 1, 2, or 3 hereof, or to any person who is a trustee of such money or property for a person to whom payment, conveyance, transfer, or delivery continues to be postponed under subdivision 1, 2, or 3 hereof.

5. To the heirs, devisees, legatees, executors, administrators, representatives, creditors, successors, or assigns of any person to whom payment, conveyance, transfer, or delivery continues to be postponed under subdivision 1, 2, 3, or 4 hereof, except to such heirs, devisees, or legatees as are natural persons and have been nationals of the United States from June 1, 1934, to the time of payment, conveyance, transfer, or delivery.

Section 3. For the purposes of this Executive order, (a) the nationality, residence, domicile, or other qualification of claimants under the Trading with the Enemy Act, as amended, shall be that determined by the Attorney General; and (b) the nationality, residence, domicile, or other qualification of claimants to money or property or the income,

DISMISSAL OF COMPLAINT UNDER SECTION 3(e) OF TITLE I
OF THE NATIONAL INDUSTRIAL RECOVERY ACT WITH RESPECT
TO IMPORTS OF PEARL ESSENCE

A complaint under Section 3(e) of the National Industrial Recovery Act, addressed to me by three domestic producers of pearl essence, has been filed with the National Recovery Administration alleging that pearl essence is being imported into the United States on such terms or under such conditions as to render ineffective or seriously to endanger the maintenance of the Code of Fair Competition for the Chemical Manufacturing Industry under which they are operating.

After an examination of said complaint and the report and recommendation of the National Industrial Recovery Board with respect thereto, I find that the facts do not appear to be such as to warrant further investigation in accordance with Section 3(e) of said Act.

I, therefore, direct that no further action be taken with regard to said complaint and that the complainants be so notified.
