The specifications may include an estimate of the total cost of the project which shall be prepared by the Department or Federal agency submitting the application. Such estimate of the total cost, if included in the specifications, shall serve as a basis for the adjustment of the fixed sum to be paid pursuant to subdivision (b) of this section for the administration, supervision, and management of the project by (1) increasing such sum, in accordance with a stated ratio specified in the contract, if the final cost of the project, as determined pursuant to subdivision (c) of this section, is less than the estimate of the total cost and (2) decreasing such fixed sum, in accordance with a stated ratio specified in the contract, if such final cost of the project is greater than the estimate of the total cost.

to be furnished by the Works Progress Administration. The contractor and each subcontractor shall submit reports at such times and on such forms as may be required by the Works Progress Administration covering purchases of, and requisitions for, materials, together with such other information as may be required to determine the progress and status of the completion of the work on the project.

"The contractor and each subcontractor shall report to the United States Department of Labor monthly, within five days after the close of each calendar month, upon forms to be prescribed, and in accordance with instructions to be furnished, by the United States Department of Labor, covering the number of persons on their respective payrolls directly connected with the project, the aggregate amounts of such payrolls and the man hours worked, and an itemized statement of the total expenditures for materials. The contractor shall also furnish to the United States Department of Labor the names and addresses of all subcontractors on the work, at the earliest date practicable.

"The Works Progress Administration, through its authorized agents, shall have the right to

inspect all work as it progresses, and shall have access to all payrolls, records of personnel, invoices of materials, and any and all other data relevant to the performance of this contract.

This paragraph shall not be construed to operate against the employment of physically handicapped persons, otherwise employable, where such persons may be safely assigned to work which they can ably perform.

"No person currently serving sentence to a penal or correctional institution shall be employed on the project.

"With respect to all persons employed on projects, except as otherwise provided in Regulation No. 2, (a) such persons shall be referred for assignment to such work by the United States Employment Service, and (b) preference in employment shall be given to persons from the public relief rolls, and, except with the specific authorization of the Works Progress Administration, at least ninety percentum (90%) of the persons employed on any project shall have been taken from the public relief rolls: Provided, however, that, expressly subject to the requirement of subdivision (b), the supervisory, administrative, and highly skilled workers on the project, as defined

in the specifications, need not be so referred by the United States Employment Service.

"Except as specifically provided above, workers who are qualified by training and experience and certified for work on the project by the United States Employment Service shall not be discriminated against on any grounds whatsoever.

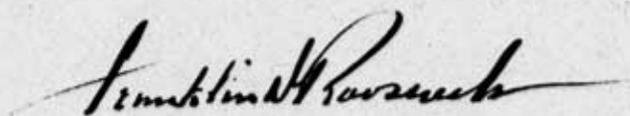

"Wages to be paid, or for which reimbursement is to be made, by the Federal Government may not be pledged or assigned, and any purported pledge or assignment shall be null and void."

Section 10. Contracts entered into pursuant to this Regulation shall not contain any provisions which shall conflict with, limit, or nullify any of the rules and regulations, including those contained herein, which have been prescribed by the President under the Emergency Relief Appropriation Act of 1935 or any of the provisions of said Act. All forms of such proposed contracts, except for non-federal projects, shall be submitted to the Works Progress Administration for prior approval.

Section 11. Nothing in this regulation shall be so construed or applied as to be in conflict with the provisions of section 1 of Executive Order No. 6166 of June 10, 1933, issued and promulgated pursuant to section 1, Title III, of the act of March 20, 1933, 48 Stat. 16.

PRESCRIBING RULES AND REGULATIONS RELATING TO WAGES,

By virtue of and pursuant to the authority vested  
in me by the Emergency Relief Appropriation Act of 1935,  
approved April 8, 1935 (Public Resolution No. 11, 74th  
Congress), I hereby amend Regulation No. 1, prescribed  
in Executive Order No. 7046 of May 20, 1935, as follows:

Strike out all of that paragraph of Part I of  
said Regulation No. 1 which reads as follows:

"Monthly earnings applicable to a city  
should in general apply also to contiguous  
urban areas, even though such urban areas  
are not in the same county. Monthly earnings  
applicable to the largest municipality in a  
county should in general apply also to the  
remainder of the county in which the munic-  
pality is located, but need not necessarily  
so apply in event that local circumstances  
warrant a different rate of earnings. If  
the territory covered by the operation of any  
individual project involves the application of  
more than one schedule of monthly earnings, the  
schedule of monthly earnings for any class of  
work on the project should be the higher  
schedule involved. In order to allow for these

and any other adjustments, the Works Progress Administrator or his representative may adjust the rate of earnings for any class of work in a locality by not more than 10 per cent from the monthly earnings shown in the foregoing schedule."

and insert in lieu thereof the following:

"The foregoing monthly earnings schedule is subject to the following adjustments:

"(a) The Works Progress Administrator, or representatives designated by him, may redefine any of the regions defined in the foregoing schedule whenever he or they find that it is necessary to do so in order to avoid undue inequality among workers accustomed to similarity of wage rates.

"(b) Monthly earnings applicable to an urban area within a county shall, in general, apply to contiguous urban areas in adjacent counties in the same region.

"(c) If the territory covered by the operation of any individual project involves the application of more than one schedule of monthly earnings the schedule of monthly earnings for any class of work on the project shall be the highest applicable schedule.

"(d) In order to adjust the monthly rate of earnings to local conditions and to avoid inequality among workers or classes of workers in

the same region the Works Progress Administrator, or representatives designated by him, may adjust the rate of earnings for any class of work on any project by not more than ten percent above or below the monthly earnings shown in the foregoing schedule, or as adjusted pursuant to clauses (a), (b), and (c) of this paragraph."
