THE PAY READJUSTMENT ACT

AS AMENDED TO MARCH 4, 1929, INCLUSIVE

[SEC. 1.] *Be it enacted by the Senate and House of Representatives of the United States of America in Congress Assembled*, That, beginning July 1, 1922, for the purpose of computing the annual pay of the commissioned officers of the Regular Army and Marine Corps below the grade of brigadier general, of the Navy below the grade of rear admiral, of the Coast Guard, of the Coast and Geodetic Survey, and of the Public Health Service below the grade of surgeon general, pay periods are prescribed, and the base pay for each is fixed as follows: U. S. Code. Pay periods, Regular Service.

The first period, $1,500; the second period, $2,000; the third period, $2,400; the fourth period, $3,000; the fifth period, $3,500; and the sixth period, $4,000.

The pay of the sixth period shall be paid to colonels of the Army * * * and officers of corresponding grade who have completed twenty-six years' service, or whose first appointment in the permanent service was in a grade above that corresponding to captain in the Army, or who were appointed to the Regular Army under the provisions of the first sentence of section 24, Act of June 3, 1916, as amended by the Act of June 4, 1920; * * * to lieutenant colonels of the Army * * * and officers of corresponding grade, * * * who have completed thirty years' service; and to the Chief of Chaplains of the Army. 37:1.

The pay of the fifth period shall be paid to colonels of the Army * * * and officers of corresponding grade who are not entitled to the pay of the sixth period; to lieutenant colonels of the Army * * * and officers of corresponding grade who have completed twenty years' service, or whose first appointment in the permanent service was in a grade above that corresponding to captain in the Army, or who were appointed to the Regular Army under the provisions of the first sentence of said section 24; * * * and to majors of the Army * * * and officers of corresponding grade who have completed twenty-three years' service: * * *

The pay of the fourth period shall be paid to lieutenant colonels of the Army * * * and officers of corresponding grade who are not entitled to the pay of the fifth or sixth period; to majors of the Army * * * and officers of corresponding grade who have completed fourteen years' service, or whose first appointment in the permanent service was in a grade above that corresponding to second lieutenant in the Army, or who were appointed to the Regular Army *to fill vacancies created by the increase of the commissioned personnel thereof in 1920;* to captains of the Army * * * and officers of corresponding grade who have completed seventeen years' service: * * *. 37:1 (Sup. II).

The pay of the third period shall be paid to majors of the Army * * * and officers of corresponding grade who are not entitled to the pay of the fourth, fifth, or sixth period; to captains of the Army * * * and officers of corresponding grade who have completed seven years' service, or whose first appointment in the permanent service was in a grade above that corresponding to second lieutenant in the Army, or whose present rank dates from July 1, 1920, or earlier; to first lieutenants of the Army * * * and officers of corresponding grade who have completed ten years, service; * * *

The pay of the second period shall be paid to captains of the Army * * * and officers of corresponding grade who are not entitled to the pay of the third or fourth period; to first lieutenants of the Army * * * and officers of corresponding grade who have completed three years' service, or whose first appointment in the permanent service was in a grade above that corresponding to second lieutenant in the Army; and to second lieutenants of the Army * * * and officers of corresponding grade who have completed five years' service.

The pay of the first period shall be paid to all other officers whose pay is provided for in this section.

37:2. During the existence of a state of war, formally recognized by Congress, officers of grades corresponding to those of colonel, lieutenant colonel, major, captain, and first lieutenants of the Army, holding either permanent or temporary commissions as such, shall receive the pay of the sixth, fifth, fourth, third, and second periods, respectively, unless entitled under the foregoing provisions of this section to the pay of a higher period.

37:3. 10:972. 37:3. Every officer paid under the provisions of this section shall receive an increase of 5 per centum of the base pay of his period for each three years of service up to thirty years: *Provided*, That the base pay plus pay for length of service of no officer below the grade of colonel of the Army, captain of the Navy, or corresponding grade, shall exceed $5,750. Nothing contained in the first sentence of section 17 or in any other section of this Act shall authorize an increase in the pay of officers or warrant officers on the retired list on June 30, 1922.

37:4. 10:683. For officers appointed on and after July 1, 1922, no service shall be counted for purposes of pay except active commissioned service under a Federal appointment and commissioned service in the National Guard when called out by order of the President. For officers in the service on June 30, 1922, there shall be included in the computation all service which is now counted in computing longevity pay, and service as a contract surgeon serving full time; and also 75 per centum of all other periods of time during which they have held commissions as officers of the Organized Militia between January 21, 1903, and July 1, 1916, or of the National Guard, the Naval Militia, or the National Naval Volunteers since June 3, 1916, and service as a contract surgeon serving full time, shall be included in the computation.

37:5. The provisions of this Act shall apply equally to those persons serving, not as commissioned officers in the Army or in the other services mentioned in the title of this Act, but whose pay under

existing law is an amount equivalent to that of a commissioned officer of one of the above grades, those receiving the pay of colonel, lieutenant colonel, major, captain, first lieutenant, and second lieutenant, being classified as in the sixth, fifth, fourth, third, second, and first periods, respectively. * * * Contract surgeons serving full time shall have the pay and allowances for subsistence and rental authorized for officers serving in their second pay period. * * * [Army field clerks and field clerks, Quartermaster Corps, shall have the allowances for subsistence and rental authorized for officers receiving the pay of the first period.] As amended by act of May 23, 1928 (45 Stat. 719), as amended by act of May 28, 1928 (45 Stat. 788), as amended by sec. 1, act of February 16, 1929 (45 Stat. 1186).

NOTES.—The omissions, indicated by asterisks, are of matter which concerns services mentioned in the first sentence of this section other than the Army. The amendatory act of February 16, 1929, refers only to the pay of warrant officers of the Navy, one of such omitted provisions.

The amendatory act of May 23, 1928, provided that the amendment thereby made should be effective from July 1, 1926, and that no back pay or allowances should accrue by reason of the passage thereof.

The amendatory act of May 28, 1928, struck out in the fifth paragraph the following words: "except those whose promotion is limited by law to this grade and who are not entitled under existing law to the pay and allowances of a higher grade." This amendment removed the restriction previously existing on captains of the Medical Administrative Corps who may not be promoted, under section 10 of the National Defense Act, page 25, ante, to higher grade, preventing them from receiving pay and allowances of a period higher than the third period.

For the service of officers in the service on June 30, 1922, which is "counted in computing longevity pay" under the provisions of the next to the last paragraph of the text, see section 11, act of May 18, 1920, set forth following as a cognate act, and paragraph 6 of section 127a, National Defense Act, page 87, ante.

COGNATE ACTS

Provided further, That the discharge and recommission of officers in the next lower grade shall not operate to reduce the pay or allowances which they are now receiving or to deprive them of credit for service now counted for purposes of pay or retirement. And provided further, That in computing for any purpose the length of service of any officer of the Navy, of the Marine Corps, of the Coast Guard, of the Coast and Geodetic Survey, or of the Public Health Service, who was appointed to the United States Naval Academy or to the United States Military Academy after March 4, 1913, the time spent at either academy shall not be counted. Act of February 11, 1925 (43 Stat. 872). 34:230.

That in determining the pay period and rights of retirement in the case of officers of the Regular Army, active duty performed as an officer of the Philippine Constabulary shall be credited to the 10:951a (Sup. II).

same extent as service under a Regular Army commission or other active duty recognized under the provisions of section 127a of the National Defense Act of June 3, 1916, as amended by the Act of June 4, 1920. Act of May 23, 1928 (45 Stat. 720).

NOTES.—The Comptroller General construes "all service" in section 11, act of May 18, 1920, above set forth, as meaning only service as "an officer or enlisted man" in the strictly military branches, and service corresponding to that of the military in the quasi military branches. 1 Comp. Gen. 246.

For other provisions of section 1, act of September 14, 1922, see cognate acts under section 4, National Defense Act, page 10, ante.

The provision of the act of June 7, 1924, set forth above, was repeated in the War Department appropriation act of February 12, 1925 (43 Stat. 896), and of April 15, 1926 (44 Stat. 257). See court decision following.

For appointment of Army field clerks, field clerks, Quartermaster Corps, and former quartermaster clerks as warrant officers, and their respective pay, allowances, retirement privileges, etc., see cognate acts set forth under section 4a, National Defense Act, page 14, ante.

COURT DECISION.—An officer of the Army is not entitled to count for longevity pay purposes his service as a cadet at the Military Academy. The proviso of section 11 of the act of May 18, 1920 (set forth as a cognate act above), does not deal with rules of longevity in any one service, but is intended to produce equality among all the services named, and did not repeal provisions in the Army and Naval appropriation acts of October 24, 1912 (37 Stat. 594), and March 4, 1913 (37 Stat. 891), respectively, directing that service in the Military and Naval Academies shall not be counted in computing for any purpose the length of service of any officer of the Army, Navy, or Marine Corps. United States *v.* Noce (1925), 268 U. S. 613.

Such officers whenever entitled to Federal pay, except armory drill and administrative function pay, shall receive as longevity pay, in addition to base pay provided but not exceeding the maximum pay prescribed by law, an increase thereof at the per centum and time rates up to thirty years provided in the tenth paragraph of section 1.

10:363.

In computing the increase of pay for each period of three years' service, such officers shall be credited with full time for all periods during which they have held commissions as officers of any of the services mentioned in the title of this Act, or in the Organized Militia prior to July 1, 1916, or in the National Guard, or in the Naval Militia, or in the National Naval Volunteers, or in the Naval Reserve Force or Marine Corps Reserve Force, when confirmed in grade and qualified for all general service, with full time for all periods during which they have performed active duty under reserve commissions, and with one-half time for all other periods during which they have held reserve commissions. As amended by section 1, act of May 31, 1924 (43 Stat. 250).

That hereafter members of the National Guard, the Officers' Reserve Corps, and the Enlisted Reserve Corps who have or shall become entitled for a continuous period of less than one month to Federal pay at the rates fixed for the Regular Army, whether by virtue of a call by the President, of attendance at school or maneuver, or of any other cause, and whose accounts have not yet been settled, shall receive such pay for each day of such period, and the thirty-first day of a calendar month shall not be excluded from the computation. Section 3, act of September 14, 1922 (42 Stat. 841), as amended by act of May 11, 1926 (44 Stat. 531). 32:159.

NOTES.—For other provisions respecting pay and allowances of National Guard officers, see section 14, post, and cognate acts thereunder; of reserve officers, see said section 14, post, and section 37a, National Defense Act, page 44, ante, and notes thereto.

For a recurrent provision in War Department appropriation acts as to reserve officers being on active duty for more than 15 days, see note to section 37a, National Defense Act, page 44, ante.

Rental allowance.

Sec. 6. Except as otherwise provided in the fourth paragraph of this section, each commissioned officer below the grade of brigadier general or its equivalent, in any of the services mentioned in the title of this Act, while either on active duty or entitled to active duty pay shall be entitled at all times to a money allowance for rental of quarters. The amount of such money allowance for the rental of quarters shall be determined by the rate for one room to be fixed by the President for each fiscal year in accordance with a certificate furnished by the Secretary of Labor showing the cost of rents in the United States for the preceding calendar year as compared with rents for the calendar year 1922. Such rate for one room is hereby fixed at $20 per month for the fiscal year 1923, and this rate shall be the maximum and shall be used by the President as the standard in fixing the same or lower rates for subsequent years.

37 · 10.

To an officer having a dependent, receiving the base pay of the first period the amount of this allowance shall be equal to that for two rooms, to such an officer receiving the base pay of the second period the amount of this allowance shall be equal to that for three rooms, to such an officer receiving the base pay of the third period the amount of this allowance shall be equal to that for four rooms, to such an officer receiving the base pay of the fourth period the amount of this allowance shall be equal to that of five rooms, and to such an officer receiving the base pay of the fifth or sixth period the amount of this allowance shall be equal to that for six rooms.

No rental allowance shall accrue to an officer, having no dependents, while he is on field or sea duty, nor while an officer with or without dependents is assigned as quarters at his permanent station the number of rooms provided by law for an officer of his rank or a less number of rooms in any particular case wherein, in the judgment of competent superior authority of the service concerned, a less number of rooms would be adequate for the occupancy of the officer and his dependents.

Regulations in execution of the provisions of this section in peace and in war shall be made by the President and shall, whenever practicable, in his judgment, be uniform for all of the services concerned, including adjunct forces thereof. As amended by section 2, act of May 31, 1924 (43 Stat. 250).

These regulations shall be uniform for all the services mentioned in the title of this Act. Subsistence for pilots shall be paid in accordance with existing regulations, and rations for enlisted men may be commuted as now authorized by law.

COGNATE ACT

10:716a (Sup. II).

** * * Provided, That hereafter enlisted men, including the members of the United States Army Band, entitled to receive*

allowances for quarters and subsistence shall continue, while their permanent stations remain unchanged, to receive such allowances while sick in hospital or absent from their permanent-duty stations in a pay status: Provided further, That allowances for subsistence shall not accrue to such an enlisted man while he is in fact being subsisted at Government expense. W. D. appropriation act of Apr. 15, 1926 (44 Stat. 257).

NOTES.—For other provisions affecting the pay and allowances of warrant officers, and prescribing who may receive the same, see section 9, ante, and notes thereto.

Mileage allowance.

37:20 (and Sup. II).

Sec. 12. That officers of any of the services mentioned in the title of this Act, when traveling under competent orders without troops, shall receive a mileage allowance at the rate of 8 cents per mile, distance to be computed by the shortest usually traveled route and existing laws providing for the issue of transportation requests to officers of the Army traveling under competent orders, and for reduction to be made from mileage accounts when transportation is furnished by the United States, are hereby made applicable to all the services mentioned in the title of this Act, but in cases when orders are given for travel to be performed repeatedly between two or more places in the same vicinity, as determined by the head of the executive department concerned, he may, in his discretion, direct that actual and necessary expenses only be allowed. Actual expenses only shall be paid for travel under orders in Alaska and outside the limits of the United States in North America. Unless otherwise expressly provided by law, no officer of the services mentioned in the title of this Act shall be allowed or paid any sum in excess of expenses actually incurred for subsistence while traveling on duty away from his designated post of duty, nor any sum for such expenses actually incurred in excess of $7 per day. The heads of the executive departments concerned are authorized to prescribe per diem rates of allowance, not exceeding $6, in lieu of subsistence to officers traveling on official business and away from their designated posts of duty.

Individuals belonging to any of the services mentioned in the title of this Act, including the National Guard and the reserves of such services, traveling under competent orders which entitle them to transportation or transportation and subsistence as distinguished from mileage, who, under regulations prescribed by the head of the department concerned, travel by privately owned conveyance shall be entitled, in lieu of transportation by the shortest usually traveled route now authorized by law to be furnished in kind, to a money allowance at the rate of 3 cents per mile for the same distance: Provided, That this provision shall not apply to any person entitled to traveling expenses under the "Subsistence Expense Act of 1926."

37:21.

In lieu of the transportation in kind authorized by section 12 of an Act entitled "An Act to increase the efficiency of the commissioned and enlisted personnel of the Army, Navy, Marine Corps, Coast Guard, Coast and Geodetic Survey, and Public Health Service," approved May 18, 1920, to be furnished by the United States for dependents, the President may authorize the payment in money of amounts equal to such commercial transportation costs

when such travel shall have been completed. Dependent children shall be such as are defined in section 4 of this Act. As amended by act of June 1, 1926 (44 Stat. 680), as amended by act of May 29, 1928 (45 Stat. 975).

NOTES.—The amendatory act of June 1, 1926, merely added the words "in Alaska and" in the second sentence of the first paragraph, although the whole section, as originally enacted, with this one addition, was repeated in the amendatory act; the amendatory act of May 29, 1928, added the second paragraph set forth above.

For the act of February 21, 1919, prescribing the construction to be given the words "child" and "children" under this section, see same set forth as cognate act under section 4, ante.

Although ordinarily acts prior in time to the two acts found in this pamphlet are not set forth herein, section 12, act of May 18, 1920, mentioned in the third paragraph of the text, follows as a cognate act because of its importance and the reference to it, not only in this section but in section 4b, National Defense Act, page 15, ante, and the act of February 21, 1919, set forth as cognate act under section 4, ante.

Recent War Department appropriation acts have also set the mileage allowance to reserve officers called into active service for training for 15 days or less at not to exceed 4 cents per mile.

COGNATE ACTS

10:756. *That hereafter when any commissioned officer, noncommissioned officer of the grade of color sergeant and above, including any commissioned officer of the Marine Corps of corresponding grade, warrant officer, chief petty officer, or petty officer (first class), having a wife or dependent child or children, is ordered to make a permanent change of station, the United States shall furnish transportation in kind from funds appropriated for the transportation of the Army, the Navy, the Marine Corps, the Coast Guard, the Coast and Geodetic Survey, and the Public Health Service to his new station for the wife and dependent child or children: Provided, That for persons in the naval service the term "permanent station," as used in this section, shall be interpreted to mean a shore station or the home yard of the vessel to which the person concerned may be ordered; and a duly authorized change in home yard or home port of such vessel shall be deemed a change of station: Provided further, That if the cost of such transportation exceeds that for transportation from the old to the new station the excess cost shall be paid to the United States by the officer concerned: Provided further, That transportation supplied the wife or dependent child or children of such officer, to or from stations beyond the continental limits of the United States, shall not be other than by Government transport, if such transportation is available: And provided further, That the personnel of the Navy shall have the benefit of all existing laws applying to the Army and Marine Corps for the transportation of household effects. Section 12, act of May 18, 1920 (41 Stat. 604).*

NOTE.—For the act of February 21, 1919, prescribing the construction to be given the words "child" and "children" under this section see same set forth as cognate act under section 4, ante.

II). *Hereafter officers and other members of the military establishment named in this paragraph [commissioned officers, warrant officers, contract surgeons, expert accountant, Inspector General's Department, Army field clerks and field clerks of the Quartermaster Corps] performing travel on Government-owned vessels for which no transportation fare is charged shall be entitled only to reimbursement of actual and necessary expenses incurred.*

War Department appropriation act of April 15, 1926 (44 Stat. 259).

NOTE.—The same provision, but limited simply to "officers," appears in the act of April 15, 1926, again, at page 283. Field clerks, as such, no longer exist. See act of April 27, 1926, set forth as cognate act under section 4a, National Defense Act, page —, ante.

Any officer or employee of the United States traveling on official business overseas to foreign countries, or to any of the possessions of the United States, shall travel and transport his personal effects on ships registered under the laws of the United States when such ships are available, unless the necessity of his mission requires the use of a ship under a foreign flag: Provided, That the Comptroller General of the United States shall not credit any allowance for travel or shipping expenses incurred on a foreign ship in the absence of satisfactory proof of the necessity therefor. Section 601, act of May 22, 1928 (45 Stat. 697). 46:891r (Sup. II).

Superintendents of the Nurse Corps shall receive a money allowance at the rate of $2,500 a year, assistant superintendents, directors, and assistant directors at the rate of $1,500 a year, and chief nurses at the rate of $600 a year, in addition to their pay as nurses. Nurses shall be entitled to the same allowance for subsistence as is authorized in section 5 of this Act for officers receiving the pay of the first period, and to the same allowance for rental of quarters as is authorized in section 6 of this Act for officers receiving the pay of the first period.

COGNATE ACTS

*That members of said Nurse Corps shall receive transportation and necessary expenses when traveling under orders, * * * Section 8, Chapter V, act of July 9, 1918 (40 Stat. 879).* 10:783.

Sec. 2. That the annual pay of a retired member of the Army Nurse Corps or the Navy Nurse Corps shall be 3 per centum of the annual active base pay which she is receiving at the time of retirement multiplied by the number of complete years of service rendered prior to retirement, but not exceeding 75 per centum of such annual active base pay; and, in addition, supplemental annual retired pay for each complete year of active service rendered prior to retirement in each of the grades hereafter named, as follows: Chief nurse, $18; assistant superintendent, $45; director, $45; assistant director, $45; superintendent, $75: Provided, That in computing the period of service in any grade for such supplemental retired pay any period less than a year served in any higher grade may be included. 10:1030 (Sup. ice as contract nurse prior to February 2, 1901, and service as a reserve nurse on active duty since February 2, 1901. Act of May 13, 1926 (44 Stat. 532).

NOTES.—For sections 1 and 4 of the act of May 13, 1926, see under section 10, National Defense Act, page 27, ante.

By section 1277, Revised Statutes, hospital matrons in post or regimental hospitals receive $10 a month and one ration in kind or by commutation.

That the provision above quoted from the act of July 9, 1918, is still in force, see 6 Comp. Gen. 543.

Pay and allowances of National Guard and reserve officers.

SEC. 14. That officers of the National Guard receiving Federal pay, except for armory drill, and reserve officers of any of the services mentioned in the title of this Act while on active duty shall receive the allowances herein prescribed for officers of the regular services in sections 5 and 6 of this Act.

37:23.

[Hereafter, in addition to the pay authorized in section 109, Act of June 3, 1916, as amended by the Act of June 4, 1920, field officers and lieutenants of the National Guard commanding organizations less than a brigade, and having administrative functions, shall receive $240 per year for the faithful performance of the administrative duties connected therewith;] and warrant officers of the National Guard shall receive not more than four-thirtieths of the monthly base pay of their grade for satisfactory performance of their appropriate duties, under such regulations as the Secretary of War may prescribe.

On and after July 1, 1922, the armory drill pay for enlisted men of the National Guard of the sixth grade shall be $1.15, and for those of the seventh grade shall be $1, [in lieu of that authorized in section 110, Act of June 3, 1916, as amended by the Act of June 4, 1920]; and the pay of enlisted men of the National Guard of the sixth and seventh grades shall be $1.15 and $1 per day, respectively, whenever they are participating in exercises provided for by sections 94, 97, and 99 of the National Defense Act, approved June 3, 1916.

NOTE.—The second paragraph of this section appears to have been superseded by a provision of section 3, act of June 3, 1924, amending section 109, National Defense Act, page 72, ante, so far as respects commissioned officers. As to that part of the section concerning warrant officers, said section 3, act of June 3, 1924, covers their compensation "for each regular drill or other period of instruction," whereas the above provision deals with their compensation "for satisfactory performance of their appropriate duties." The Militia Bureau considers attendance at armory drills the only "appropriate duties" for warrant officers and that the entire second paragraph was repealed by said section 3, act of June 3, 1924. See 4 Comp. Gen. 305. For pay of warrant officers, see table, page 123, post.

The reference in the third paragraph of the text to section 110, National Defense Act, as amended by the act of June 4, 1920, is no longer pertinent, as said section 110 (ante, p. 110) has been reenacted in amended form since the provision of the text became law.

[1] Allowances fixed by the President. (Act of Sept. 3, 1919, 41 Stat. 283.)

[2] Allowances in this column are on the basis of a month of 30 days. For a month of a greater or less number of days the amounts should be correspondingly increased or decreased.

[3] The maximum allowances which will accrue to an officer below the grade of brigadier general, to a brigadier general, or to a major general, will be such that the total of base pay, pay for length of service, and allowances for subsistence and rental of quarters will not exceed $7,200, $7,500, and $9,700, respectively, per annum. Deduction of the necessary amount should be made from the rental allowance. (Secs. 7 and 8, Pay Readjustment Act, p. 101, ante.)

[4] The total of base pay and pay for length of service of an officer below the grade of colonel shall not exceed $5,750. (Sec. 1, Pay Readjustment Act, p. 95, ante.)

Reserve officers on active duty are entitled to pay and allowances as of the pay periods prescribed in sec. 3, Pay Readjustment Act, p. 98, ante.

Nothing in the Pay Readjustment Act shall operate to reduce the pay of any officer on the active list below the pay he was entitled to receive by reason of his grade and length of service on June 30, 1922, exclusive of the temporary increase under the act of May 18, 1920 (41 Stat. 601). On and after July 1, 1922, he became entitled to the new allowances of the pay period in which he was placed by reason of his grade, length of service, and method of entry into the service. (Secs. 16 and 17, Pay Readjustment Act, p. 109, ante.)

Increase of pay for foreign service, and commutation of quarters, heat, and light were repealed, effective July 1, 1922, by sec. 15, Pay Readjustment Act, p 109, ante.

Section C (Revised)

PAY AND ALLOWANCES OF FEMALE NURSES, UNITED STATES NAVY

1. Tables V and V–A, headed "Pay and allowances of female nurses, United States Navy," give effect to section 13 of the act.

2. From and after 1 July, 1922, female nurses are entitled to the subsistence allowance of an officer drawing the pay of the first pay period, which amounts to 60 cents per day during fiscal year 1923, except when on duty and furnished quarters at hospitals and on board ship, when they shall be subsisted in kind, except that when, in the opinion of the commanding officer of a ship, it is considered more desirable that nurses maintain a mess of their own and receive the subsistence allowance in lieu of being subsisted in kind, the authorization of the Navy Department shall be requested. When on authorized leave of absence from hospital and ship, nurses are entitled to be credited with the subsistence allowance of 60 cents per day for such portion of the leave period as they are *not* being subsisted in kind.

3. When nurses are entitled to be credited with the subsistence allowance, either because they subsist themselves or by reason of authorized leave of absence, the commanding officer shall at the end of each month furnish the disbursing officer a certificate in the following form:

From: Commanding officer.
To: Disbursing officer.
Subject: Subsistence allowance for nurses.

You will credit the accounts of the following-named nurses with subsistence allowance at 60 cents per day between the inclusive dates stated, as these nurses, respectively, were not subsisted in kind:

Name ———, from ——— to ———, total days ———.

4. Nurses are also entitled to two rental allowances, or $40 per month during the fiscal year 1923, under the same conditions of duty and dependency as are set forth in section A for commissioned officers.

5. The old commutation of quarters, heat, and light, and additional pay for foreign service are abolished for nurses also after 30 June, 1922.

6. Nurses must present certified statements of service to the officers carrying their accounts in a manner similar to that prescribed in section A for commissioned officers. On transfer pay accounts, their service on 30 June, 1922, will be stated as follows:

"Total service 30 June, 1922, ——— years ——— months ——— days."

PSF: War 1-25-34

The selection of a Chief of Staff is the most important act a Secretary of War has to perform in time of peace, for it will determine whether or not his administration of the War Department will be a success.

It does not make much difference to the President who is Chief of Staff, so long as he is a good man, but it makes all the difference in the world to the Secretary of War, who has to live with him and work with him.

I recommend the reappointment of General Douglas MacArthur as Chief of Staff for the following reasons:

1. Because he is my right arm, and it is a sound principle of administration that the official who is held responsible for a Department should be allowed to choose his own subordinates. Otherwise he has no authority, and responsibility without authority is impossible.

2. Because he is by long odds the best qualified man in the Army for the position.

3. Because he is the best Chief of Staff the Army has ever had since the General Staff was created.

4. Because his reappointment will serve the best interests of the Army and of the Country.

5. Because he is in the midst of a constructive program, and should be allowed to finish it.

6. Because his reappointment will be approved by 90 per cent of the Army.

7. Because such disinterested men as General Pershing and Senator Shepard, whose judgments are worthy of respect, have strongly urged his reappointment.

8. Because he is young enough to be at the zenith of his powers and to serve a full four year tour.

9. Because he is an outstanding executive and has a brilliant staff record as well as a brilliant combat record.

10. Because he is not bound by old methods and traditions but is progressive and forward looking in his mental attitude and processes.

11. Because he is absolutely honest, fearless, and loyal to the Administration.

12. Because the four-year rule as applied to the Chief of Staff results in efficiency, vacillation in policy, changes in objectives, and retardation of progress. No private business would willingly part with an executive who had been trained by the corporation at great expense and had demonstrated his unusual capacity.

THE WHITE HOUSE
WASHINGTON

September 25, 1934.

MEMORANDUM FOR SECRETARY EARLY:

Major General Dennis E. Nolan retires April, 1936. The present Chief of Staff's tour ends November 21, 1934. If General Nolan were appointed, he would have about seventeen months service as Chief of Staff.

Major General F. R. McCoy retires October, 1938. If he were appointed at the expiration of the present Chief of Staff's tour, November 21, 1934, he would serve four years. In the event of General Nolan's appointment at the expiration of General MacArthur's tour, and in the event of General McCoy following General Nolan, General McCoy would serve from April, 1936, till October, 1938. These two officers would therefore, between them, serve out a normal four year tour.

There is nothing in present laws to preclude an officer serving less than four years as Chief of Staff, and many officers have served less than four years.

Dear Mr. President:

I have been waiting for an opportunity to thank you in person for the beautiful cuff links which you sent me as a Christmas gift, but I must fall back on this method of doing so.

The idea of having your initials and mine on the links is an intriguing one. I like being linked to you, and working with you, and I hope I may always deserve and have your confidence.

I shall always prize this gift most highly and I assure you that it will become one of our family heirlooms.

Faithfully yours,

Harry H. Woodring

The President,

The White House.

1. The following are the salient points of the Army Promotion Bill. It has been drawn so as to avoid all controversial issues, such as selection out, arbitrary selection up, independent branch promotion, re-arrangement of promotion list, etc. Every faction of thought can unite back of this simple bill. It makes no basic change in the present system but merely accelerates the rapidity of advancement.

2. Its cost would at its maximum amount to not more than three quarters of a million dollars a year, and the general average will approximate one-half million dollars a year. This lack of expense is due to the fact that in the armed services pay is based upon two factors, one, rank, and the other, time of service. The latter factor is the predominating one in this case. As the officers have stagnated in rank, their pay has increased, so that the officers that are advanced in rank by this bill will frequently draw only a very small increment of increased pay.

3. The present rate of promotion in the American Army is slower than that of any of the other great armies of the world. As a general basis of comparison, Army promotion is from seven to eight years behind that of the Navy.

4. The suggestion of obtaining more rapid promotion by eliminating qualified officers has many objections and has been discarded. A somewhat similar scheme in the Navy has been one of the main factors in imposing a personnel cost upon that service which is greater

now than the Army, although the Navy's commissioned strength is less than one-half of the Army and their enlisted strength in comparison is in the proportion of approximately 95,000 sailors and marines to 125,000 soldiers.

The Congress has been canvassed and if the President will approve this bill, will unquestionably pass it at once. The introduction of any of the controversial features would, of course, merely precipitate the same friction which has prevented a remedial bill from passage during the last seven years.

MEMORANDUM FOR

THE SECRETARY OF WAR

I am, with the utmost reluctance, under the necessity of telling you that I fear we cannot properly put through the trip to Indo-China, Java, Australia and Fiji. The State Department people all feel that because of the very ticklish situation in the Pacific at the present time, a visit of a member of the United States Cabinet to Saigon, the Dutch Indies and Australia would not be understood. The trouble is that there is no specific, clear reason for it. Furthermore, we had already turned down a visit to the Dutch Indies by our Minister to the Hague on exactly the same grounds.

In regard to Japan and China, I must get some later information. Probably it will be all right but there is some question about visiting several places in China and one place in Japan. This part of the trip must necessarily depend on things as they exist shortly before you sail.

THE SECRETARY OF THE NAVY.

WASHINGTON

2 August 1935

Dear Mr. President:

I am enclosing herewith a letter from the Secretary of War, dated 24 July, 1935, regarding a trip to the Far East, in connection with which instructions are requested.

It might be pertinent to invite attention to the fact that the cost of the routine operation of the heavy cruiser over the period required to make the full round trip would be $12,000.

The cost for a trip to Manila and return would be approximately $41,000., a difference of $29,000.; and the cost of the trip including Japan, China, Philippines, Saigon, Australia, New Zealand, Tahiti, and back to San Francisco would be approximately $76,000.

It will therefore be seen that there is a difference of $35,000. between the cost of a trip to Manila and return, and the cost of a trip including the other ports mentioned.

Sincerely yours,

WAR DEPARTMENT
WASHINGTON

July 24, 1935.

The Honorable,

The Secretary of the Navy.

Dear Mr. Secretary:

At a meeting of the Cabinet some time ago the President suggested that he would like to have as many of the Cabinet officers as possible visit foreign countries.

In connection with my prospective visit to the Philippine Islands to be present at the inauguration of the Commonwealth government next November, it was suggested that I visit certain foreign countries in the Western Pacific. The President has also expressed his approval of the suggestion that my trip be made on a man-of-war provided there were no objections on the part of the Navy Department.

I am accordingly submitting herewith a tentative schedule which has received the informal approval of the President, and request that I be advised as to whether or not it would be practicable for the Navy Department to provide a cruiser for the trip. Should this be possible, I should like to leave San Francisco about September 25th and return about the middle of December.

Sincerely yours,

Geo. H. Dern

Secretary of War.

COMMENDATIONS OF MAJOR GENERAL PARKER'S SUPERIORS

1. Colonel Wheeler (Cavalry) - under whom General Parker served as Lieutenant and Captain, says: "He was one of the best Lieutenants and Captains I ever knew. It was astonishing to see what he could accomplish in a given time."

2. General Thomas H. Barry - commanding Army of Cuban Pacification, afterwards Superintendent of the United States Military Academy, states: "I have personal knowledge of Captain Parker's ability as a linguist. I know of no officer in the Army, and my knowledge is extended, who has as fluent and correct a practical and theoretical knowledge of French and Spanish as he. I have used Captain Parker repeatedly as interpreter. His knowledge and ability in this respect preeminently qualify him for appointment as Professor of Modern Languages at West Point. I therefore urge consideration of him for such appointment when a vacancy occurs. Captain Parker is a capable, enterprising and progressive officer of alert mind. He is a polished gentleman, in every way suited for appointment as Professor of Modern Languages at the United States Military Academy." (1300806 AGO)

3. Service in Latin America - (War Department Records). His experience abroad, his knowledge of the Spanish language, thorough understanding of and sympathy with the Latin-American people gained by years of earnest and unselfish work amongst them, make him a valuable asset to the Government in connection with Latin-American affairs.

4. General Hugh L. Scott (1913), afterwards Chief of Staff of the United States Army, states in his report on progress made by Captain Parker, 11th Cavalry, with experimental squadron, - "* * * Captain Parker is an unusually competent drill master, who has been assisted by four exceptionally able assistants, and altogether it is believed that the exhibition was the best of its kind that I have ever witnessed. Captain Parker stated that his work was now finished with this squadron."

5. General, then Major Francis C. Marshall, 11th Cavalry - under whom General Parker served as Captain, said of him: "Captain Parker is essentially a soldier. Every faculty seems to be engrossed in preparing himself for his military duties. His enthusiasm is unbounded, his industry enormous. He seems never to relax; when not

5. General, then Major Francis C. Marshall, 11th Cavalry (Continued)

engaged in his routine duties he is working with his horses, or with his books and maps."

6. Major General Leonard Wood - Selected him to attend the French War College. He says of him: "I have known this officer for about fifteen years. He has been a hard and efficient worker in connection with the development of the Cavalry arm. He is a profound student of Military Art and is now completing the most advanced course at the French War College, being the only American officer ever permitted to take this course. He is eminently qualified for General Staff detail and is especially qualified for promotion in the Line. He commanded with distinction a regiment, a brigade and finally the First Division, having been selected to command this splendid division in the desperate fighting in the Argonne. If successful exercise of high command in time of war is an indication of fitness for promotion, Colonel Frank Parker stands out as being conspicuously fitted for promotion to the grade of Brigadier General, U. S. Army, and I recommend that he be promoted to that grade."

7. Colonel Logan (former Chief American Military Mission in France prior to U. S. entry into the War) - "Major Frank Parker is one of the best officers of our Army - discreet, loyal and deserving of confidence."

8. Colonel T. B. Mott, Military Attache, Paris, 1921, says - "Colonel Parker finished the course at the Ecole de Guerre in Paris in August, 1920. The Commanding General of that school, in approving the suggestion that Colonel Parker be enabled to take the highest course of instruction for officers in France (The Center of High Studies), spoke to me in terms of praise of his ability and energy and qualities as an officer."

9. Minister of War, French Republic - "Paris, 23 August 1921 - Cites in Army orders: PARKER, FRANK - General of the American Army, former commander of the 18th Infantry Regiment, former commander of the 1st Infantry Brigade, former commander of the 1st Infantry Division of the Army of the U. S. - General Officer of the finest attainments - after rendering, as representative of the American Army at French General Headquarters, the greatest service, showed successively at the head of a regiment, a brigade and a division admirable energy and leadership. For the Minister and by his order - the Lieutenant Colonel and Acting Chief of Cabinet (Signed) LAMAZE."

10. General Debeney - Chief of Staff of French Armies, and afterwards Commander of the First French Army during the World War (after the War, Chief of Staff, member of the Superior Council of War and Director of High Military Studies, France), states "I at once wish to say to you that you have been as highly regarded during your stay at the School as you were on the field of battle of 1918 beside the French Army." He further states in report from French War College "an officer of high conscience and great moral value. Wide experience in war; has extensive knowledge and constantly seeks to widen it. Industrious, active, good

10. General Debeney (Continued)

judgment, great decision and strong will * * * is destined to a brilliant career."

11. Major General Robert L. Bullard (Commander, Second Army, A.E.F.) rates him superior in knowledge of his profession (1924). He states "General Parker has demonstrated his merit in teaching, training in camps, in campaign and in battle - none better * * *"(1925). "He merits immediate promotion." "I feel that few, perhaps none, did more or better fighting than he in France."

12. General Ely, Commandant of Army War College, in letter October 17, 1925, rates General Parker No. 1 on the list of Brigadier Generals from the standpoint of efficiency. He says - "On account of his excellent work in the World War, his superior efficiency rating during his entire service and his constructive broadening and efficient work under me at the General Service Schools and at the Army War College, I placed Brigadier General Frank Parker as number one, on the entire list of Brigadier Generals in my estimation.

13. General Duncan (Major General, Commanding VII Corps Area), states: "I know of no Brigadier General so well qualified to carry on this educational work as is General Parker. He was the ablest fighting leader that came under my observation during the War * * * His superior qualifications carried him to the command of the 1st Division."

14. General Harbord says: "An excellent officer, leads troops well as proven by his career in the 1st Division."

15. General Preston Brown (1926) states: "His reputation in the service is of the highest, and that I have a very high opinion of his professional qualities as a soldier * * *."

16. General Pershing (Citation) - GENERAL HEADQUARTERS, AMERICAN EXPEDITIONARY FORCES, France, 12th March 1919. "* * * Under the provisions of Cablegram No. 2830, received from the War Department, March 1, 1919, the Commander-in-Chief in the name of the President has awarded the Distinguished Service Medal to you for exceptionally meritorious and distinguished service as set forth below -

Brigadier General Frank Parker

He commanded with marked distinction the 18th United States Infantry. Later as commander of the First Infantry Brigade, he exhibited qualities of rare leadership, superb courage and unusual initiative. Finally he commanded the 1st Division in the Argonne offensive in the autumn of 1918, where he showed himself to be a skillful leader of marked ability."

17. General Summerall - regards him as "one of the ablest if not the ablest fighting leader that came under my observation. His high soldierly character, his unswerving sense of duty, his unquestioned loyalty, affection for his men, dominant leadership make him of rare value to the service. He has earned the gratitude of the country."

17. General Summerall (Continued)

In 1919, General Summerall stated: "He is an officer of superior soldierly character, dominant leadership, fine loyalty and he commands the respect and admiration of his superiors and the affection of his troops. He may be relied upon to accomplish successful results in all circumstances."

In 1925, General Summerall stated: "I rate General Parker as superior under all headings - I place him No. 1 on the list of 44 Brigadier Generals."

General Summerall, in his article on "Leadership" in the Cavalry Journal of January 1921, writes: "By way of illustration, there comes to mind one of the most able regimental commanders in the War. He lived constantly among his men and demonstrated his courage by sharing their dangers. He knew every officer and many of the men by name. He showed them that he was familiar with their difficulties and their deeds and that he had a genuine affection for them. He spoke to them kindly, yet always as their leader, and he never failed to commend and reward them for conspicuous acts. He talked to them and made them think as he thought. Yet he did not spare them in their tasks, and he sent them to the assault with unflinching determination. Even when his losses were disabling, he executed an order to attack with perfect stoicism, though he received it with the full expectation that it would direct the relief of his regiment. His loyalty was such that he did not question authority, even in his thoughts, and his own character permeated his command. His officers and men really loved him, and after battle it was pathetic to hear many men, suffering grievously from their wounds, ask eagerly, did the Colonel come through safely. He combined the real elements of leadership, and he showed those same qualities when he commanded a brigade and a division. He was the type of leader who could always be relied upon to take his objective, and the taking of objectives is the real business of war. The officer to whom this refers is Brigadier General Frank Parker, who commanded continuously under me throughout the War, the 18th Infantry, the First Infantry Brigade and the First Division.

(Signed) CHARLES P. SUMMERALL
Major General, U.S. Army"

18. General Pershing, under date of November 29, 1918, writes: "It gives me great pleasure to inform you that on October 17th, 1918, I recommended you for promotion to the grade of Major General, basing my recommendation upon the efficiency of your service with the American Expeditionary Forces.

"The War Department discontinued all promotions of General Officers after the signing of the Armistice, and I regret that you will not therefore receive the deserved recognition of your excellent services."

Some 15 years after the War, General Parker wrote to General Pershing requesting him to put in writing a verbal commendation made to General Parker by General Pershing personally on November 15, 1918, when General Parker was commanding the First Division, A.E.F. General Pershing's reply is as follows:

18. General Pershing (Continued)

"May 18, 1933

My dear Parker:

I have received your letter of March 14th, and, as always, was very pleased to hear from you.

I recall very distinctly your visit to Chaumont on the occasion you mention, and I remember saying very earnestly something quite complimentary to you and the First Division, although I cannot now recall the identical words. Inasmuch as what I said was an enthusiastic, informal verbal greeting, it hardly seems consistent for me to attempt so long afterward to reproduce the exact wording used.

You know the high opinion I had then and still have of you and the magnificent unit which you commanded. I shall always hold to that same opinion and feel that you understand it, and that is the main fact after all.

The next time you are in Washington I should be glad if you will drop in and see me."

At a testimonial dinner given by the Veterans of the 1st Division at Dallas, Texas, on the occasion of General Parker's retirement; a letter from General Pershing, under date of August 11, 1936, was read. The following is an extract: "You Veterans of the gallant First can testify to the splendid services rendered by General Parker during the World War. His record with your division was outstanding. In fact, his entire military career has been marked by loyal and distinguished service. I shall be pleased if you will convey to him my most cordial greetings, and a warm welcome to the retired list."

19. Last Efficiency Report: Superior in all respects.

20. General Summerall, under date of November 17, 1930, writes: "It has been my interpretation of the Regulations that the Chief of Staff has no supervisory control over any one except the General Staff. No efficiency reports have, therefore, been prepared for general officers since 1927. At the same time, I cannot relinquish the office of Chief of Staff without making of record my estimate of your services and of your character as a leader and a commander.

"It is a matter of record that you served with my command in the First Division during the World War. Your performances were characterized by the highest courage, the loftiest devotion to duty, the most unswerving patriotism, the most profound sympathy and understanding of your officers and men, and by a quality of leadership which, in my judgment, has not been surpassed to my knowledge in this or any other generation in this country.

"Since the War you have exercised commands and assignments noted on your record and carrying with them the gravest responsibilities. You served under my command as a brigade commander in the Second Corps Area and reflected the qualities displayed by you in war. Upon assuming the duties of Chief of Staff, I ordered your assignment as Assistant Chief of Staff, G-3, where you remained until you were promoted

20. General Summerall (Continued)

to be a Major General. There, again, your dominant achievements have been one of the outstanding accomplishments of my incumbency. Notably, the mobilization plans of the country were revised and restated in a most skillful manner. You instituted the system of training higher units involving employment of armies, corps, divisions etc., in the Corps Area. You had formulated and published manuals of training of all the branches and services, including the Manual for the Higher Units. In these publications you have made accessible the art of war and the technicalities of each branch so that any one may readily acquaint himself with the elements of every echelon of command and organization.

"Upon your promotion to be a Major General, you were assigned to the command of the Sixth Corps Area. I have regarded this as the most vital and the one possessing the greatest possibilities for development, due to the character of the people and the status of the States in the Corps Area and to the fact that for a number of years no Corps Area Commander has remained any considerable time. In my judgment you have accomplished the greatest amount of progress in making real the Army of the United States under the National Defense Act. You have drawn to you the co-operation and loyalty, personal and official, of the National Guard, the Organized Reserves, the Reserve Officers Training Corps, and the Citizens Military Training Camps, as well as the Regular Army. Your contacts with the Governors, the Mayors, the State and Municipal officials, the Presidents and faculties of colleges and institutions of learning, have secured their complete cooperation. You have realized the real leadership which pertaines to a commander of a corps area, constituting as it does an efficacious federation with various military elements under his control. You have extended to these troops the training system of the High Command so that they have all participated in tactical exercises simulating those of war in which they would be a part of an Army.

"Your loyalty to me personally has been one of my crowning achievements of life. You have never failed to give me sound advice and in those cases where you were not entirely in accord you have adopted without mental reservation the directives which it seemed to me wisest to follow under the circumstances and have made them effective. In my judgment you have revealed as a soldier and as a man the highest ideals of the military leader. My profound gratitude will remain with you and my good wishes will ever be yours for continued success and happiness in the service of your country and in the profession that you love and to which you have dedicated your life."

21. Since 1929:

Upon conclusion of three year program of higher tactical training (1929-1932) terminating with the Field Army exercises at Camp Custer, Michigan, the Chief of Staff, U.S. Army, wrote: "The report of your Command Post Exercise has been received in the War Department. A study of it shows very clearly that the successful accomplishment of this highly important training exercise was due to the outstanding degree of leadership displayed by you in planning and executing the many problems involved, and to the excellent teamwork of your Staff and

21. Since 1929 (Continued)

your subordinates in the Regular Army, National Guard and Reserve. The Secretary of War desires to express to you and to the officers and men of the Army of the United States associated with you, his thanks and sincere appreciation of the excellent manner in which this exercise was conducted."

22. Upon the conclusion of the George Washington Bicentennial Celebration in the State of Illinois, Cook County and City of Chicago, Governor Emerson of Illinois, writes: "May I extend my personal congratulations upon the honor accorded you in the presentation of the George Washington Distinguished Service Order. Your patriotic serice to the Nation and your deep interest in higher citizenship and better government richly entitle you to the honor which has been conferred upon you."

23. Under date of October 13, 1932, General Douglas MacArthur, Chief of Staff of the American Army, writes: "The splendid tribute paid you by the Governor of Illinois and the Mayor of Chicago causes me as head of the Army the keenest satisfaction and gratification. It reflects not only your own splendid efficiency but that of the force under your command. My hearty congratulations and felicitations. I am having this correspondence made a part of your official record."

24. Under date of April 14, 1936, General Douglas MacArthur writes: "While I do not believe that officially I have any authority or privilege to formally report upon you, personally, I am delighted to tell you of the satisfaction I felt in your service under me in command of the Sixth Corps Area, the Second Army (1930-1933), and the Philippine Department (1933-1935). You exhibited in those commands the same energy, enthusiasm and leadership which so brilliantly characterized your long and distinguished military career. Especially in your relations with the civilian components in the Second Army Area did you exhibit those qualities of constructive initiative which were reflected in the efficiency of the Second Army.

"The papers carried word that you have been assigned to the command of the Eighth Corps Area rather than the Second Corps Area. In many respects, I believe that you would prefer this new assignment. It will carry with it more of the flavor of the field soldier which has always been the breath of life to your nostrils."

25. Under date of December 6, 1935, United States High Commissioner to the Philippine Islands, Frank Murphy, writes to Secretary of War George E. Dern: "On the eve of the departure from the Philippines of Major General Frank Parker, I feel impelled to report to you about his unusually fine work here, especially in connection with me as Governor-General.

"His splendid example as a soldier and his able leadership of the Department have caused him to be held in the highest esteem of the Philippine people and the American community. From the viewpoint of the central government, he has been singularly cooperative and always helpful. A striking example of his leadership has to do with aviation, where he performed a pioneering job of such dimensions and of such

25. United States High Commissioner to the Philippine Islands (Continued)

importance that I felt constrained to make the following special mention of it in my final report to the Philippine Legislature as a signal instance of American accomplishment in the Islands.

'At present there are some forty landing fields throughout the Islands, twenty of which have been constructed by the Philippine Government. This work is progressing as rapidly as possible so that within a year every town of the Philippines will be within a day's trip from Manila. Great credit is due to the Air Corps of the United States Army and in particular to the enthusiastic interest and support of Major General Frank Parker for the recent acquisition and construction of landing fields at strategic points. In addition, the Air Corps has made exhaustive surveys and has drawn up plans for a system of air routes covering the entire Archipelago.'

"General Parker personally led and accompanied these surveying parties to the uttermost regions of the Islands, enduring considerable hardships and at times great inconvenience, in his anxiety to complete this important work before leaving the Islands. This has been of great help to the people of the Philippines because remote areas heretofore only within reach of the larger centers two or three times a year now actually are within a few hours of the Insular and provincial capitals. This is important, in addition to its military and commercial significance, from the standpoint of health and welfare.

"From the day of his arrival in the Philippines he has demonstrated an enthusiastic interest in all things pertaining to the promotion of the general welfare. It should be noted that he was decidedly helpful on the several occasions when typhoons devastated portions of the Islands, doing everything possible to assist in the work of rescue and rehabilitation.

"General Parker will leave an enduring record of accomplishment as well as a fine spirit of goodwill on the part of all toward the great organization of which he is such an outstanding representative."

26. Under date of January 9, 1936, Secretary of War George H. Dern writes to Honorable Frank Murphy: "It gives me great pleasure to acknowledge the receipt of your letter of December 6, 1935, commending Major General Frank Parker, U.S. Army, for his services and cooperation while he was Commanding General of the Philippine Department, especially in regard to his work in connection with aviation.

"The Department greatly appreciates your words of praise regarding General Parker and is indeed glad to know that his work in the Philippines was of such an outstanding nature. I have directed that a copy of your letter be furnished to General Parker and the original filed with his efficiency record."

27. At a testimonial dinner given by the Veterans of the 1st Division at Dallas, Texas, on the occasion of General Parker's retirement, the following letters from Generals Pershing, Bullard, Summerall and McGlachlin were read -

Under date of August 11, 1936, General Pershing writes: "You Veterans of the gallant First can testify to the splendid services rendered by

General Parker during the World War. His record with your division was outstanding. In fact, his entire military career has been marked by loyal and distinguished service. I shall be pleased if you will convey to him my most cordial greetings, and a warm welcome to the retired list."

General Bullard, under the date of August 24, 1936, writes: "Than Parker none better. I asked for him."

Under date of August 26, 1936, General Summerall writes: "I wish, however, to extend my greetings to my comrades of the First Division and to General Parker on this occasion. In honoring him, you are reflecting the devotion that he so richly deserved and won from all by his masterly leadership and his indomitable resolution and courage in battle."

Under date of September 2, 1936, General McGlachlin writes: "It would give me great pleasure to be with the Texas and Oklahoma soldiers of the First Division who are to gather in honor of General Frank Parker. It was a foregone conclusion that the one whom you are gathering to compliment would not long await his star. His sterling character, sympathetic understanding, independence, fine appearance, unbounded energy and personal bravery guaranteed his future. To you all it is what you knew of him during the War and while we were 'over there' that will appeal. But you may be sure that had your acquaintance continued during his performance of duties of the greatest importance in peace your sentiments would not have changed."

28. Under date of September 30, 1936, Major General Hanson E. Ely, United States Army, writes to General Parker on the date of his retirement from active service:

"Your retirement today is a distinct loss to our Army. Our many years of comradeship have not only endeared you to me personally, but caused me to know your personal and military worth.

"In all your varied duties you excelled. No task was too hard - no other officer in my knowledge could have held the 1st Division to its work until it suffered the appalling losses it sustained July 18 to 22, 1918.

"You are commanding an Army and leaving the service with the respect and affection of all who have served over, with, or under you.

"I trust you may enjoy many happy years of retired life.

"Yours with greatest respect and affection."

29. Under date of September 29, 1936, General Charles P. Summerall, former Chief of Staff, United States Army, writes to General Parker on the eve of his retirement from active service:

"Your retirement from active service tomorrow is an occasion for congratulations and regret. Your career has been rarely equalled in the American Army. You have steadily advanced in attainments until on your retirement, you are probably the most accomplished officer professionally of your period. At the same time, your mastery of leadership has placed you where you have influenced more men for good than any contemporary. The army and the country owe you a lasting

debt of gratitude.

"Your retirement does not mean a termination of usefulness but rather an ending of a phase of your career. Many opportunities are afforded for your rare talents and your vigorous body and mind. I know that you will continue to exercise your influence for good and that the army will continue to profit by your prestige and your wisdom.

"With my profound gratitude for all that you have done to support me by your loyalty and your ability in so many varied fields, I am,"
