Mrs. Franklin D. Roosevelt,
Hyde Park, New York.

Dear Mrs. Roosevelt:

Colonel West came to see me this morning and I had a most interesting talk with him.

I arranged a conference between him and Marshall Field and my understanding is that Mr. Field will take up with the Foundation the matter in which Colonel West is interested. I am not sure that any large amount will become available, but perhaps something will be done.

We also arranged that Colonel West would be given the names of other organizations which might support his work.

I hope you have been having a fine and restful summer.

Cordially,
Louis S. Weiss

Dear Mr. Baruch:

I do not know whether Colonel West's story will be of interest to you but Franklin started this going and I hate to see it spoiled by Congress' lack of action for one year, so I make bold to ask you to see and talk to Colonel West.

I shall of course be satisfied that your judgment is correct in any decision which you make.

Cordially yours,

July 22, 1946

Dear Mr. Weiss:

I would be very grateful if you would see and talk to Colonel West,

My husband and I became very much interested in the problem of Liberia and he started this medical mission. It seems very important to me that it be continued over this crucial year.

I think you will be interested or I would not ask you to see Colonel West and try to interest Mr. Marshall Field,

Very sincerely yours,

July 22, 1946

My dear Frank:

I wonder if you would talk to George Allen and Henry Morgenthau after seeing Colonel West, if you think it important,

I know Franklin had a very deep interest in improving the conditions of the natives not only in Liberia but throughout Africa. The fact that he started this mission on its way makes me feel that every effort should be made to tide it over this crucial year.

I am sorry to take up your time in this way, but I know you will be interested,

Very cordially,

Dear Mrs. Roosevelt:

We wish to express to you our deepest appreciation for your contribution which helped to make it possible for us to attend Camp Chesapeake at North East, Maryland.

We feel that we both have gained a greater knowledge and understanding of National and International Problems through our experiences and discussions in this camp; and our mingling with boys and girls of different races and nationalities.

Again we wish to thank you for your generosity, and are hoping that we will be able to do something for our High School which will give the students a better understanding of the problems which the world faces today.

Sincerely yours,

Mary Jane Hurley
