Best wishes
E.U. by Self
April 16, 1946

Dear Commander Wyatt:

I am very glad you are developing so many interests and I shall be glad to have a belt. My waist measure is 38 inches.

I haven't the different photographs which you want and in any case, I do not like reproductions of myself.

Very sincerely yours,
My dear Mrs. Roosevelt:

Being a Villager when I am not at sea I have known that you lived around the corner at 29 Washington Square South, so this past Sunday I dropped in to inquire how to get in touch with you. I was informed by the gentleman inside the door that you would not be back from Hyde Park until Tuesday of this week. As my leave of absence from my ship terminates before noon Tuesday, I have to go back to Boston tonight.

What I wanted to see you for was to see if it would be possible to borrow from you a few photographs or snapshots you might have which would show one or two profiles of your face, also views from different angles. These would be used for wood carving, which I intend to do during this coming patrol. These patrols are rather extended and lengthy and there are times when it becomes very monotonous. To alleviate this, we have developed all kinds of hobbies. Mine for this next trip is going to be that of wood carving, a moderate amount of which I did as a youngster, which was quite a while ago.

I would have liked to have dropped in and said "Hello", as I have always been a great roofer for you and your husband.

The angles I would like to have would be "from ahead" (full face), "from each bow", (which would be forty five degrees from ahead), and "from each beam" (or profile from each side, if possible with the shoulders showing). With regard to your husband, there are a great many photographs which have been taken from time to time and I have my friends working on that, but if you have a few that I could borrow I would appreciate that also, very much. Every one of these will be returned, and I hope, in just as good condition as I receive them.

This last trip the hobby seemed to be making belts. If you will let me know how much you are around the waist, I will make one for you that I believe you might like to wear during the summer time.

Very sincerely yours,

E. L. Lyte
