Dear Jim -

I forward this your message about the labor specialists and lawyers to Dr. Humphrey, of the Department of Human R

for his consideration.
February 18, 1947

Mrs. Franklin D. Roosevelt
Hyde Park, New York

Dear Eleanor:

As you may know, I have been Director of the Industrial Labor Division in the National Housing Agency for the past year. The Agency is now being rapidly liquidated and is releasing some excellent young men experienced in labor law and labor relations. Since I understand that your Committee of the United Nations is planning to use some labor specialists and labor lawyers, I thought you might be interested in knowing that this source of supply exists. Several of these men are of the very highest caliber and I would not hesitate to recommend them without qualifications. If your Committee is interested, I would be glad to furnish their names and addresses.

Dorothy has been made Honorary Chairman of the Conference of Social Workers in Puerto Rico and has been invited down there for their meeting the last week of March. We are both going, after which we will look forward very much to going back to Rhinebeck where I hope we shall see more of you.

Sincerely,

James R. Bourne
