Dearest Cousins-

When we first met Cousin Franklin, he remarked, "Did we know they were related to the Bullocks", and I remarked we had heard about same, but was afraid they would not want to claim kin with us. I said "I will claim kin with your family + Teddy, but not Alice as she don't want to claim kin with you" he laughed.

He said he traced the three Bullock Bros who came over on Mayflower + they all descended from those.

We think he was the greatest man that ever lived + we miss him + cried when he passed. Our Church is old + dilapidated + has a small membership, we want a new brick or cement church with chimes or a memorial window for your fine family.

We have an extra fine pastor, who was a Missionary to China + his son 17 yrs. has polio, he has served churches in large cities like N. Y. we are lucky to get him + we want to build a new church, we have sold dinners + had rummage sales.

So, if you have any rummage or books we could use same on church fund.

Wishing you + family a Happy
New Year,

Your devoted friends
Rev. + Mrs. Oscar Bulloch.
