LETTERS TO THE SUN

Vivid Memories.

To the Editor: How many vivid memories come back to us on this second anniversary of our beloved President's Roosevelt's death!

Thinking back and then reviewing all that is today makes us wish so fervently for a great leader like him, with his patience, his vision and that perfect understanding of life and all its frailties. Perhaps then we could have that peace for which we long and pray—a peace that shall be real and everlasting.

Of course he had his enemies—Hitler hated him, too—but billions, not millions, loved him all over the world and looked to him as their leader toward that peace eternal for which he gave his life.

puppet government guards, destroyed and burned practically all of their towns, villages, factories, railroads, etc.

Today we see how all the big heads in Washington daily use nice talk to promote the loan for Greece and Turkey. Poor Czechoslovakia! She was the first on the Hitler timetable to be attacked and conquered. Her people fought Hitler's henchmen in every way for seven long years. Slovak people rose up and fought against the Nazi brutal regime in August, 1944, and helped our own American and Russian armies finish the big fight against the Teuton aggressors. And now we refuse to help this poor democratic country with a loan.

I really don't understand why.

Use for U.M.W. Fines.

To the Editor: I would like to make a suggestion to those gentlemen who imposed fines on John L. Lewis and the mine workers' union. I say, let these gentlemen hand these fines over to the families of those miners who so valiantly went to their deaths in the Centralia disaster. Our miners are the most important cog in the wheel. Without them, the wheels of our great industries cannot turn. Think it over, you gentlemen.

Deaf to Czech Needs.

To the Editor: A few months ago we heard from Washington that negotiations for a 90-million-dollar loan for Czechoslovakia was delayed. This 90-million-dollar loan the Czechoslovakian government intended to use for reconstruction of their devastated country, especially the eastern part of Slovakia, where the Nazi panzer division and Marshal Tito's

Communist Strategy.

To the Editor: In regard to Milburn Akers' column on the FEPC bill, it occurred to me that it might be part of a plan for the Communists to kill a liberal bill by supporting it. After all, Communism hasn't a chance here as long as democracy works. If we eliminate injustice, poor living conditions, etc., the Communists can have nothing convincing to say and nobody to listen to them.

How many vivid memories come back to us on this second anniversary of our beloved President Roosevelt's death. Thinking back and then reviewing all that is today makes us wish fervently for a leader dynamic as he was, with so much patience, far-sighted vision and such perfect understanding of life with all its frailties. Perhaps then we could have that peace for which we all long and pray,—a peace that shall be real and everlasting.

Of course, he had enemies. Hitler hated him, too. But billions all over the world loved him and looked to him as their leader.

Franklin Roosevelt led us to the "Promised Land" and now may his spirit eventually guide us to that promised goal.

'Lend lease' to vets

Why doesn't the government do

Everything but houses

While in the service, we got to hear a lot about Private Enterprise, the American Way, and how we'd all be taken care of. To date we can't find a place to live. Instead, we are flooded with ballpoint pens, bubble gum, new soaps, perfumes and atrophied breakfast foods—but no houses. Where are they? In Glocca Morra?

Learn etiquette, men

Remember way back when a gentleman wouldn't get on a street car until all the women were on. The men actually push the women aside, nowadays. Remember when a gentleman offered a woman his seat on a street car? Today he makes a mad rush for it even though women are standing, too. Young girls are more thoughtful than men. They offer their seats to elderly women. Of course, all men can't be judged the same but the majority of the male species ought to read up on etiquette.

Dear General Bradley:

There is a young man in whom my husband was much interested named Augustus C. Gutrie. He was taken into the Army in 1945.

He had some trouble with a collapsed lung. Since his return to civilian life, this has been bothering him considerably. He is taking an appeal of the claim which he has made.

I have no idea what should be done about his case but I should be grateful when the doctor turns in his proper reports if there could be careful consideration given.

The letter which he received from the Veterans Administration is marked NK 8D, C-7 415 569.

It may take him a little time to turn in the doctor's report because the doctor who took care of him is still in the Army.

Very sincerely yours,

Augustus C. Gutrie
