Dear Mr. Roosevelt and Son.

I read in August 22 an article in the Chicago Sun that was written by your son. I have enclosed a copy to the Chicago Sun newspaper. In the paper that I read about your son regarding his father, the late President Franklin D. Roosevelt, the people of Yugoslavia signed an agreement to your son, but your son had written. They read an article in the paper saying that your late President will be the History of America. And since the History of America we will never have another President like President Roosevelt.

He was a man of humanity, born for the poor unskilled man. He was right with us to everyone, as matter of fact, he had a personality, a helpful speech, whenever he had stood him on any program. I asked him in my song, the way he had spoken to America. People of America should realize what we had
lost a son. lost a mother. The people
the country. Why don't they let people
peace. I have the greatest sorrow, my deepest
prayers, your children, your loss, a good
husband, my children. lost a good father.
we lost a good father too. We only didn't
deliberate this country, but any little country
in Europe. My memory of Franklin D. Roosevelt
spirit of him is always in my heart. I hope she will never forget him till the end of
our time. Since he died nothing has gone
wrong. I am proud I am American. I'm
but I'm not satisfied. Harpersfield. To the
lands of my brother, father. I am 24 years
in the U.S., since I came. I love from Harpersfield.
Harpersfield, I was never in position to see
anything but first chance if I want to go
mother of some. I will visit the grave of
town of our father of the country. I will
put a beautiful crown of roses on her grave
and I will give a speech for the nation of
Harpersfield. I am not a woman of politics but
a simple mother of children as honeymoon.
I don't know if Chicago's been going to put my article in the paper, but everything is moving along in the little I sent them. I'm not sure if they can many people can survive the many years.

Mrs. N. C. Kosakoff
3118 N. Western
Chicago, Ill.

Even if President Bush built a Partisan Social Security, Imperial America, if he were still alive then wouldn't be anything wrong with anything, everything, going wrong. A tribute of President Roosevelt in every land of my home. I always pray for him.

Mrs. Ada Kosakoff
Whom it may concern:

I was born in the Russian Ukraine. There I graduated High School and attended the University of Kharkov, majoring in History and Literature.

I came to the United States in 1914 and settled in Chicago, Ill. My early years in this country I concentrated on acquiring a command of the English language. In 1917 I entered the Crane Junior College (premedical) and graduated in 1919.

My intentions were to follow the medical profession, but due to financial circumstances and my marriage in 1920, I changed my career: I took up bookkeeping in order to help my husband build up the business, "The Servall Utility Co."

In 1936 I did some extensive traveling: I criss-crossed Russia and spent, quite, some time in Poland, Checoslovakia, Austria, Switzerland, France and England.

My husband's death, in 1937, caused the close of my business career; from then on I devoted my time, entirely, to traveling. My daughter being a balerina, I accompanied her throughout Europe. We lived, mostly, in France which gave me an opportunity to get acquainted with the country; to learn the customs of the French people, their life and, somewhat, the language.

Back in the United States in 1939 I took up residence in New York City.

In 1942, having taken a Civil Service test, I worked in Washington, D. C., for the U. S. Coast Guard. Having started in the Complaint Department, I was, later on, transferred to the Library. (Attached is a letter of recommendation from my superior).

In 1947 I, again, traveled extensively throughout England, Belgium and France.

I am a woman with a great deal of diversified experiences. In addition to my knowledge of English and Russian (some French and Slavic languages), I have acquired a knowledge of people, human relations and am well posted on current events.

I believe, my services would be very valuable to an organization like yours.

I would appreciate an interview at your earliest convenience.

Very truly yours,

Rae Kramer

Mr. W. Webster Keefer
Federal Bureau of Investigation
Department of Justice
Washington, D.C.

Dear Webster:

This will introduce you to Mrs. Rae Kramar, who is now employed in my office in a clerical capacity, Grade CAF-2. She has decided to resign her position here next month and go to New York, in order to be near her daughter, her only relative in this country.

As it will be necessary for her to procure some kind of work in New York, she thought it might be possible, with her knowledge of the Russian language, and other qualifications, to obtain employment with the FBI in New York.

Mrs. Kramar is loyal, thoroughly industrious and agreeable, and I believe that she would perform her duties in a commendable manner.

Thanking you for your consideration of her case, I remain,

Sincerely yours,

WALTER B. IVERSON,
Assistant Chief, Statistical Division.
Jan 27, 1947

Dear Mrs. Roosevelt,

Most people are agreed that Mr. Roosevelt been alive the shameful conditions regarding veterans housing would not be in existence today.

How would Mr. Roosevelt with his characteristic soundness for tackling a situation gone about alleviating the situation?

Leonard Kratish

My dear Mrs. Roosevelt:

Professor J. Kratochvile, the Chairman of the Workers Academy of the town of Sušice, Czechoslovakia, and the Secretary of the Academy have requested the Embassy to deliver to you the enclosed letter, together with a handmade letter folder produced by the feminine members of the organization as a token of their deep appreciation of your personal work on behalf of human rights and that of the late President Franklin Delano Roosevelt.

In complying with their request, I take pleasure in sending you enclosed the letter and the folder and would like to associate myself with the sentiments of the senders.

Very sincerely yours,

Josef Hanč
Minister Plenipotentiary, Chargé d’Affaires, a. i.

Mrs. Eleanor Roosevelt,
29 Washington Square, West
Apartment 15-A,
New York 11, New York.
June 9, 1947

Mrs. F. D. Roosevelt  
Hyde Park, N. Y.

Dear Mrs. Roosevelt:

As one of millions of admirers of your late husband and the ideals for which he stood, may I take the liberty of writing this letter to you?

Yesterday, I visited Hyde Park with my wife and our two children, David aged 7 and Suzanne aged 12. I need not tell you how very much we all were impressed with what we saw and felt. My children, young as they are, felt that we all lost something when the late President passed on, and the monument you so generously gave to the country in the form of this National Shrine is indeed wonderful.

My purpose in writing is to express the sincere thanks of my family and myself for permitting us the opportunity to share in seeing the great esteem in which our dear President was held by dignitaries and common peoples alike, and also to see the simple manner in which he lived.

My family joins me in wishing you, the wife of our dear friend, all that is good in life for many years to come.

Very sincerely,

[Signature]

Gene L. France
I was very much interested in your letter.

In answer to question #1, I think the development of cloning energy has a great effect on people's thinking.

Question 2 - I agree of course.

I think we are to pose 3 - an award named is of great value.
My dear Mrs. Roosevelt:

As you know, the Society for the Psychological Study of Social Issues, consisting of over 600 American psychologists, sociologists, anthropologists, and other social scientists, was organized ten years ago to promote action-related research in the areas of significant contemporary social issues. This year, in furtherance of this objective, we plan to make a $1,000 Government bond Award to the individual or group contributing the best action-related research in the field of the social implications of atomic energy. This has been made possible by a gift to the Society by one of its members, Mr. Edward L. Bernays.

We believe that the development of atomic energy has created an issue of major social significance. We believe that sound, objective research aimed at exploring the social implications of atomic energy in terms of attitudes, fears, hopes, and thinking of the American people will aid us all in the formulation of a desirable policy with respect to the problems of atomic energy. We further believe that the results of such research, to be made effective on the action level, must be given the widest possible publicity. It is for these reasons that we are contemplating the establishment of the above Award.

We are eager to have your advice about the desirability of our proposed plan. Specifically, we would like to have your opinion on these questions:

(1) The significance of the problem of the social implications of atomic energy and the desirability of fostering scientific research in that area.

(2) The importance of having such scientific research become public
property and its results as widely publicized as possible, in order to stimulate thought and action.

(3) The value of bestowing the Award to help in the achievement of these objectives.

Because you are a leader of an important segment of American opinion, your judgment on these matters will be welcomed.

The following eminent social scientists have consented to serve as judges: Dr. Ruth Benedict of Columbia University; Dr. Alexander Leighton of Cornell University; Dr. Rensis Likert of the University of Michigan; Dr. Gardner Murphy of City College; and Dr. Talcott Parsons of Harvard University.

I shall greatly appreciate any expression of opinion you care to offer on the questions raised above.

Cordially yours,

David Krech

Chairman

Committee on

Social Implications

of Atomic Energy
