Mrs Eleanor Roosevelt,
Hyde Park, N.Y.
Dear Mrs Roosevelt:

NOV 10, 1947
Menner, Colo.

Library

I'm enclosing a palm written
by my husband, before he passed
on in Dec. 1946.

I discovered it quite by
accident a short time ago;
as it fell out of a book he
often used, as I accidentally
knocked it off of a shelf.

We both had great admiration
for both yourself and the late
President, and somehow, I
just had to send it to you. If
you will please keep it.

Respectfully,

(Mrs) Claire Krueger
1356 Adams St.
Menner, Colo.

TO OUR PRESIDENT

FRANKLIN DELANO ROOSEVELT -

1933 - 1945

In valley deep with fear and doubt
He took the oath to lead us out
With courage strong and vision clear
He rent the mantle "fear of fear".

The way was long and arduous bent
With task at home and world event
But through it all there was his smile
To stay our hope in life worth while.

Those persecuted far and wide
His name for refuge loud they cried,
As if, that in his very name
Their foes could be brought back to shame.

The war 'most won on every hand,
He led us to the promised land
Of Peace on Earth goodwill to men -
And he went on without us then.

My dear Mr. Kruse:

In answer to your letter which I found on my return from Geneva, I am more familiar with the books which are given every two years to the White House by the publishers. We received those and placed them in a room down on the basement floor.

There were, of course, books from the Library of Congress in the White House when we arrived but we accumulated books so rapidly, I think they were gradually returned to the Library of Congress to make room on the shelves for the books which had come to us.

My husband read a great deal of biography and always enjoyed any book he could lay his hands on.

Very sincerely yours,

Mrs. Roosevelt

I shall be deeply indebted to you if you could find it possible to describe any association that you or your family might have had with the White House Library, as suggested by the above or similar points.

May I also take this opportunity of expressing to you my own thanks, as one individual citizen of this grand country of ours, for the fine job you are doing with your colleagues in the organization of the United Nations. It was also my assignment, jointly through the State Department and the Library of Congress, to select the books for and organize a library of over five thousand volumes for the San Francisco Conference. I therefore have always felt a keen kinship with the organization, and I already know your views on the importance of books and learning in the scope of international planning and cooperation.

May continued success be yours, and may you feel the warmth of loyalty that your many friends held for you.

Respectfully yours,

Paul Kruse
