Dear Mrs. Roosevelt,

Please note the little paper enclosed, edited on the transport that my son was on during his service in our navy.

Knowing I was a devoted admirer of the greatest humanitarian that has ever lived, by his deeds and accomplishments, more valuable to this still
I appreciate words by this Chaplain in question, may I take combined, my son the liberty and sincere brought the little pleasure of passing this little paper to you. Very truly yours.

RADIO NEWS DIGEST

The death of President Roosevelt overshadowed all news of the week.

The sudden passing of the CJO Executive stunned the entire world and came at a time when the Allies were nearing victory over Germany. Vice President Truman has taken over the reins of the government and has pledged that we will not falter in our successful prosecution of the war.

In Europe the Yanks have driven to within fifty miles of Berlin and the announcement is expected momentarily that all organized resistance has ceased. Some sources expect the surrender of the Nazis before the convening of the San Francisco conference the latter part of the month.

On Okinawa the Americans were encountering stiff resistance from what was described as "Siangfici Line" defense. Progress was slow but gains were being made. The Yanks were eliminating the Japs at a ratio of 10 to 1. 8291s continued to hammer at Japanese industry. The giants are being escorted by long range fighters. The great "Suidachi Line" was captured in ruins from the hands of attackers by the Superforts. This is Japan’s largest aircraft manufacturing plant. No important moves have been made by the new Jap cabinet.

A great man died today. A very great man. A man whose greatness was in his love for the common man; his concern for small businesses; his humanity in the treatment of the little nations; his undisguised efforts to recover the dignity of labor. Never, perhaps, since the days of the Apostle Paul has what a man thought and said and did been so far-reaching. In all the corners of the earth some man there are and some men there must always be to whom the simple, unaffected utterance "my friends" will continue to ring with a goodness that is the very core of spiritual greatness.

Franklin Delano Roosevelt was an able politician but always on a plane where common decency held sway. He was a man of vision and saw that equal opportunity and equal understanding and guidance were the birthright of every man. His ideals of class or color were always subordinated to his recognition and respect for the good, however small, that any group could offer.

This man walked with a cane, but there was something about his carriage that spoke of a limitless strength and power to pursue the right as God had given him to see the right. They say he was a new kind of Democrat. I say he was also a new kind of Republican. He won the person as well as hisvote, and what man Democrat or Republican would do himself the dis-honor to maintain that this is not the silent aim of both parties.

The report is that his heart failed him, perhaps so - but this much we know beyond the shadow of a doubt - he never failed his heart nor the heart of any other man of whatever race or color or creed whose heart was in his country. The memory of such a man demands that we fall not; and by the grace of God - we shall not! - Chaplain Jack Ogden.
WELL DONE

The Commanding Officer wishes to express his deep appreciation of the splendid job done by the officers and crew during recent operations. The performance of all hands upheld the highest traditions of our Navy.

CENSORSHIP

Chief Censor DE RINCON has given the "green light" to mention the following places in your correspondence: Pearl Harbor, until further notice; Emotok, Ulithi, Palau, and the International Date Line. Furthermore, you may state that you have been in action and that you have seen Jap planes shot down in raids BUT DO NOT INDICATE in any manner the area in which the ship has been operating as this type of information is subject to being cut out of your letters. Remember, the smallest bit of this kind of information may be important - to the enemy. Use judgement for the less cutting necessary means faster handling of everyone's mail. For benefit of all, DO NOT try to EVADE censorship!

THE WARDROOM - 1944

DIVINE WORSHIP /2 Hatch - 1000

1. It is a fine mark of civilization, 2. It proves I have self control, 3. It indicates how clearly my mind operates.

RELIGIOUS & WELFARE

1. The Chaplain is plenty miffed about the unrestrained profanity that he hears being used by nearly all recent enlisted men and also among some officers. Navy regs expressly forbid the blasphemous use of profanity in the same article which it condemns gambling and immoral acts. The Chaplain does not believe a man can be forced to give up swearing by penal law against it, but he does believe there is enough common decency in men not to degrade himself nor his fellows with vulgarity, irresponsible talk and lack of self control.

VERSE OF THE WEEK

ROMANS 1: 16-17 "For I am not ashamed of the gospel of Christ; for it is the power of God unto salvation to every one that believeth to the Jew first, and also to the Greek. For therein is the righteousness of God revealed from faith to faith; as it is written, 'Thou shalt live by faith.'"

Mrs. Roosevelt
New York

Dear Mrs. Roosevelt:

I have wanted to write you ever since our dear President passed away. He did more than any man and to day it seems the most of his passing and the world's sorrow is being realized. We are reading his last year's speech and he said he did not know what the Russians were going to do. Well, now we are hearing that he was right. But now I feel he was in perfect accord with his policy and acting accordingly. The outcome is against the action of the Russians, and elsewhere we would have done everything to help the needy, but not to help a monarchy. I am for peace. I am for peace and I say that we have suffered all the world of Greece, and who want freedom. If that money had been used to help them to production, and to set up a real democracy, I don't know what we could have believed. As it is now, there has been such peace before the American people. The freedom, our boys fought and died for, and for which I feel President Roosevelt gave his life for, is never mentioned. It seems sad for me to write to Washington and by a vote, vote up and other nations or a world to carve a mass murder with the atom. I only say that Hitler was a criminal, not a leader, and that if this was for anyone to go on unpunished I am a democrat. My father was a democrat.
will never vote for President Truman and that is the way most people feel about it; we don't want another war. We don't want to enslave other people let each nation have their own government as long as they are satisfied with what I think. When I made up my mind to be a National Republican, England and the W.I. said we can't interfere with a National Government unless it interfered with W.I. and the Rhineland, but for all of Pater and Magdala our enemies who caused the world to suffer now I am not writing this, he can not blame me because I knew you could not favor this decree going forth, and be said I feel you and your doors have favor and influence that you with others might cause a protest to go with that would slow the progress of another war, of which the wounded from the last war are not all recovered, besides the blind and crippled. I see each day, the high to low, great debts and lack of all the laws, standard of character, diligence of your youth and honors. If you know an answer as to any difficulties or look, I wish you would express the same to the people and to me a friend admiring and well wishes to you and your family.

Genuinely,
