Dear Miss Smith:

The wife of the Ambassador from India is very much interested in talking to people on labor education and various phases of American educational and political life. I told her I thought you were the person who could guide her best and I know you would be willing to talk to her. I hope you will introduce her to such people as you think would be helpful.

She also told me she wanted to make some contact with some labor organizations and I am sure you can arrange for that.

I hope the Labor Education Bureau is coming on well. With best wishes,

Very sincerely yours,
