SKINNER, W. R.
APR 12 1945

Dear Mrs Roosevelt.

When it came out in the paper that you were going to the Calif. meeting of Allied Nations Peace Conference it made me and several other friends very happy. I hope you or any other women who may attend can have some voice in the business also. Women of these enlightened days ought to be represented at all such occasions. There is one question I wish an answer to. Why is it that our boys or girls have to sign over all children to the Catholic Church if they are Protestants? This country was settled by Puritans who were Protestants so why should we have to give in this way? Almost all the money where a church service is needed it is a Priest and his.

One of the speakers at our Methodist Church quite recently spoke of this also. St. Patrick's Day is celebrated with almost all wearing something green. They and Jews can walk out of a business on their holidays etc. One of our laws is the right to practice religion as we wish but this compulsory law of the C. Church over powers that law doesn't it? This signs away the children with out their knowledge before their birth.

About divorce I can't see why a person should live a life of misery tied to some one impossible to get along with. All the fuss that was created at the time of King Edwards marriage to a divorced lady was silly.

I hope I will receive an answer.
Thanking you I am
Yours Respectfully
Mrs W. R. Skinner
