Mrs Eleanor Roosevelt  
Hyde Park, New York, N.Y.

Dear Mrs. Roosevelt; I am please to write you, and I hope you will accept this as a symble of my devotion to the one that you have always represented so willingly and pleasingly. I have just been discharged from the Navy.

While sering in the Navy, I spent sometime writing. I was very much preturbed at the news of our great President. I wrote this as a memory of our Great Friend.

If you approve of this, will you please notify me as to whera I may obtain some pictures of Mr. Roosevelt, so that I may have this poem written under his picture, and would you mine if I would have this published?

My father, who is by name, F.R. Betton, and one of the executive offices of the National Farm Labor Union, ask me to write you concerning this poem.

If you can give all the information about this as to how I should this, I will appreciate it very much.

Yours Truly  
F. Wesley Betton

**"IN REMEMBRANCE"**  
\*\* \*\*\*\*\*

In 1932 our country was in a critical shape,  
Not in one, but every state.  
We elected the man of our choice,  
And later heard his voice.

He was heard on radios and screens,  
We read his messages in papers and magazines.  
\*We will work with all our might,  
To over come this stricken fight!

\*These situations shouldn't worry a few,  
This country was, and still is for all of you!  
He prayed earnestly as he kneeled,  
Hoping to find a new deal.

As time past things got better,  
Making it easy for every debtor.  
Working for the benefit of the forgotten men,  
Resulting in winning many a friend.

Our country was becoming disturbed,  
Through the news that it heard.  
\*But to war, if we must send our men,  
We will march through Tokyo and Berlin!

The passing of the ~~sum~~ lend lease,  
Was the beginning of \*World Freedom and Peace!  
That \*Man\* the world will never forget,  
Redeemed many nations from the pit.

The world will remember his concessions,  
Through his mental possessions.  
Making the necessary preparations,  
To secure peace through the United Nations.

He will still be \*The Great Inspiration!  
For this and every succeeding generation.  
We knew he was a man worthwhile,  
When he first walk down the aisle.

"CHRISTMAS BLESSING"  
\*\*\*\*\*

Of all the days of the year,  
This day should be of more fear.  
Remembering Christmas for what it stands.  
Giving part of the WHOLE,  
To redeem both body and soul,  
Over all the lands.

He gave part of the WHOLE as a gift,  
That we may observe every cliff,  
Throughout our natural life.  
For Him seeking to find cover,  
Was His Dear Loving Mother,  
For this day, She bore the Savior Christ.

The part of the WHOLE was sent to earth,  
And bore the pains from birth,  
Exemplifying the life to live.  
The lives of others, He did mold,  
Before unifying the WHOLE,  
From birth, His life was to give.

UNITED KINGDOM DELEGATION,  
HOTEL WALDORF-ASTORIA,  
NEW YORK.

5th November 1946.

*Dear Mrs Roosevelt.*

Thank you very much for your charming message of welcome to the United States of America and the lovely sheaf of autumn flowers and foliage. I am very touched by your kind thought.

With kindest regards from Mr. Bevin and myself.

*Yours very sincerely*  
*Clarence Bevin.*

Mrs. Franklin D. Roosevelt.

Bey

December 16, 1946

Dear Dr. Bey:

I told you that I would write you the two stories which I repeated to you the other night.

The first one would be remembered, I am sure, by one of your own leaders because it was on his return from Casablanca that my husband told us that he had advised one of the Arabian leaders always to retain sufficient oil under their own management so that they might always have sufficient reserves to run the development of an irrigation system, which would make the desert flower. He felt that there was water enough which could be pumped to the surface and that this would mean raising the standard of living for the whole Arab population.

On a later occasion, on his return from Yalta when my husband had had an opportunity of talking to King Ebn Saud, he told us that the King was not particularly interested in either the development of agriculture or forestry, but that he felt the younger generation might be, and that he thought the development of TVAs could be accomplished which would be of great value to the people as a whole in the Arab states.

My husband even said that when he was through in Washington, he would be interested to live for a while in the Near East helping in this development. We, as a family, teased him about this and told him we felt he had undertaken enough problems in his life and thought the time had come for him to give up trying to solve other people's problems and take a rest. My husband seemed to think he would be most interested in this undertaking. He felt it might even help to solve the difficult problem of Palestine, for an economic develop-

ment which raised the standard of living for everyone might ease the tension and make the settlement of that question a less tense problem.

Very sincerely yours,
