Mrs. F.D. Roosevelt,
E.S.M.

Dear madam,

The great love and respect felt in my country, Cuba, for your famous husband inspired me to undertake the creation of a portrait of him that would be unlike any other work of art ever attempted.

For a year I worked arduously and with great care on this portrait which is most unusual in that it is all hand embroidered with the fine "Lausi" thread. This thread is finer than human hair and requires meticulousness in use. The portrait looks like a pencil etching and it is only upon the closest inspection that one perceives how it was done.

I have come to the United States with the sole purpose of having you and your family see it before anyone else.

Enclosed is a photograph of the portrait. Unfortunately it hardly does justice to a work inspired by the admiration as great as that of my people.

With many thanks for the anticipated interest I hope you will take in my picture, I am attentively yours,
