My dear Mrs. Roosevelt,

Thank you so much for your very charming letter about the Assembly of Women being held in October. As it is going to be rather difficult for me to come up at that time, I have decided not to accept their very kind invitation. I have really so many things to do in Jamaica, and His Excellency and I are hoping to go off on our first tour to the Cayman Islands and the Turks Islands and I am most anxious to start my Women's Federation there. It is working most successfully here and women of all colours and classes are working splendidly together.

I shall definitely be in New York next March when I am on my way home to England. I shall look forward so much to seeing you then.

With my kindest regards and every good wish for the excellent work I know you are doing on the United Nations Committee.

Yours very sincerely,

Molly Huggins
