My dear Mrs. Radner,

This little clipping I am sending has inspired me to compose the verse about your distinguished husband and America's first and most loved late President.

My dear Mrs. Radner,

I have difficulty for writing and composing verse. Some of the people who saw my writing think that some of it is good, but they are so preoccupied that they are in no position to put in touch with anyone who might help me. I should think I have some benefit out of it.

Trachtenburg,

Your good wish would mean so much, hoping you like the copy which you may keep.

Respectfully yours,
That gladdened the hearts, of every Mother-child.

Let's remember the day.

My Dear Mrs. Roosevelt:

Our mutual friend, Mrs. Samuel Dickstein, mentioned that you evinced an interest in a Pressure Cooker.

It would be my sincere pleasure to know that the "First Lady" was using one of my Pressure Cookers. Hence, under separate cover I am mailing you one.

Wishing you continued good health, I remain

Respectfully Yours,

JACQUES TRAUBE, Pres.
