Can you tell me first name of Mr Shattuck with whom you dealt in Schrafft's Check from Mrs. Hearst was six thousand dollars not so bad. This is a lonesome place without the boss. She will be in New York Friday afternoon Saturday morning and again on Monday spending weekend with Mrs. Parrish. Have you the original Warm Springs films? They need these for Chicago exposition. Movie man here says you took two sixteen millimeter films when you were here. Please wire me.

Dear Miss Cook:

I beg to acknowledge receipt of your letter of Aug. 29th and also your telegram of Aug. 31st, and will be governed accordingly.

However, do not let this interfere with the arrangements that have been in effect, namely; that anytime anyone in The White House wants a 16mm projector just have him go to The Eastman Kodak Store and borrow same.

Also bear in mind that Eastman Kodak Company is always very glad to secure any films of any special events that the President or Mrs. Roosevelt or you would like.

Thank you for your interest in this matter.
With kindest regards, I am

Sincerely yours,

Darling,

I have looked over my old records and this is as near as I can estimate a budget that will carry us to July 31.

Will you ask Mr. Wells if the terms of a good 20% to 50% organizer I think if we could find a good one who knew his job - that it would not matter if he came from this state - The women do not seem to mind there are organizers coming from - and I think they are "set-up" if they think some one comes from West. They are always thrilled if they can get a speaker from some other state. Somehow they seem to think the known ones.

Anyway tell me what you think when I see you this week.

Emma Dupee has asked me to The newspaper dinner in Washington on Sunday March 1. I will come down to also go to the fries if it is convenient for you to come. I

Anna has been here all day and we have had a grand time. We were starving so went to Childs for lunch.

All my love dear. I do get some rest. I think you look more tired than Tommy.

Here is a kiss. -

Nancy.

Dear Miss Cook:

We have decided to let the plumbing out on contract, and are now engaged in writing specifications and making the necessary drawings.

It is very necessary that the fixtures be decided upon immediately. It is my understanding that you are to pick these out. We have gone over the plans and decided that fixtures of the following type are desirable.

- Water Closet Crane C-11206
- Lavatory " C-2260 P6 16" x17"
- Tub (Built In) " C-3370 LD 30"
- Kitchen Sink " C-10230 LD "25 x 20"

Could you let us know as soon as possible whether these agree with your idea, or if not, what types and dimensions would you prefer.

Very truly yours,

Mrs. Franklin D. Roosevelt,
Washington, D.C.

My Dear Mrs. Roosevelt:

I have learned from our county chairman Mr. William Dinneen, that he will endorse Mrs. Ruth Perrin as acting postmistress here. He says he has to make this decision because he has learned from good authority that you want her to have the job.

Mrs. Lenney recently received a letter from acting postmaster Mr. O'Mahoney under date of October 28 stating that you had reminded Mr. Farley that I am a candidate for the office. (Quote) In a short time the Civil Service Commission will be requested to hold an examination for the purpose of establishing an eligible register for this appointment. You probably know that appointments to positions of this kind are made by selecting one of the highest of the three eligibles. I shall have the matter looked into and will see to it that your interest is not forgotten when the appointment comes up for final action. (End of quote)

In view of the fact that Mr. Dinneen says that you want Mrs.
Perrin for post mistress here, will there be any chance of recommends being made, even though the other candidates received a higher rating? Of course, if this decision in Mrs. Perrin's favor is final, then the other candidates in the field feel that there is no object in taking the civil service examination.

I have nine of the fourteen county committee in the town of Potsdam which constitutes the major part of the organization here.

Mrs Lenney and I have been consistent party workers for years, and have always been sincere in our endeavors.

I trust, Mrs Roosevelt, that you will favor me with a reply at your earliest convenience.

Most sincerely,

James E. Lenney.

All my love dear. Take care.

Dearest Nan:

Why I did not talk to you yesterday about this I do not know, but the idea has just come to me that as long as we have to have the cement work done under the present bridge, it would be much more sensible to do it in the place where we eventually want a stone bridge. Concrete work will cost the same in either place and this would only add the change in the road. We could lay a wooden plank bridge there for the time being, planning to build our stone bridge on the same foundation later on. Won't you find out what this could be done for and, if possible, let us do it this way.

I am putting the specifications of the pool, which Eric brought me this morning, on Franklin's night table. I was tremendously thrilled by the houses yesterday. Louis is keen to go down in August and I shall certainly work on the Secretary too.

Sam dear:

Could we make the exhibition November 16th, as I am going to be there that night any way, and I might have to leave next morning as I promised to be in St. Louis on the 14th?

If Caroline would like me to speak for her, the two dates I could most easily make would be Thursday, October 25th, in Buffalo, or if you would rather have a morning meeting in Buffalo, I could take a night train out of Boston the night before, and then have an evening meeting in Syracuse on Thursday, the 25th, or a morning meeting on Friday, the 26th.

I plan to come to Hyde Park for that Saturday and Sunday, and to get into Albany, if possible, early enough on Friday to stop at the Huysk Hill, but of course I could do that if I had a morning meeting in Syracuse so I could plan to stay over in Albany Friday night and stop at the Huysk Hill on my way down to Hyde Park Saturday morning.

Earl said he would drive me down and spend the weekend with us.

Let me know if this will be of any use to Caroline or if there is something else she would rather have me do. If you would make out a special list of women whom you think likely to contribute to her campaign, I will sign the letters.
I wired Vera Whitehouse and am sending you her reply.

I am enclosing some checks. One is a contribution to Caroline's personal campaign and another one is to the regular campaign fund, which you can either turn in to the committee or ask them to let you keep for the women's campaign. I also am enclosing my yearly contribution of $100, which you need not deposit until later if you prefer to keep it until then.

I also am enclosing my check for the extra house account.

I haven't heard anything as yet from Mr. Lesser.

Affectionately,

Miss Nancy Cook

Mrs. Franklin D. Roosevelt
Washington, D.C.

My dear Mrs. Roosevelt,

No doubt you and your noble husband are both besieged by letters asking for contributions, but I trust you'll read this one and feel that it comes from one who truly desires a gift from you, because of our great esteem and love for you and our President. We feel too that it will be a very great honor to me to thus be recognized.

I am coming to you as Historian of the Adam Brown Post Charter D.A.R. to solicit this contribution. We will appreciate any contribution, no matter how small.

We are a chapter formed by widely scattered rural women, expect, about five or six who live in country towns. Then too, we have a few

non-resident members who were once residents of our county.

We have under way of construction a log-cabin chapter house and are trying to finish it and furnish it (at least furnish it so we can meet in it) without going in debt.

One of our town members gave us a large lot in Summit-Draymont, III, which is centrally located to our scattered membership and we have been trying for three years to build in order that we can go to our monthly meetings without such long drives. We have built a two-room cabin and have rock foundation, steps, and a large rock chimney. The steps and chimney are yet to be built, but will be in a few weeks. We hope at time move on. We hope to make a real beauty spot out of our grounds with shrubbery and flowers.

If you decide to make a contribution you or your husband, we will deeply appreciate it and will indeed be greatly honored to receive it from you. Just anything to go in a truly rustic home to help furnish it.

My membership number is 249,006. If you want any references you can call Registrar Miss. [Continued next page]
We Georgians are happy over the fact that we have the honor of calling our President an adopted son and that you and family are part-time residents of our state.

If you ever pass our way, we will be pleased for you to stop at our Chapter house at Summit-Faymont and see it and tell us just what you think about our headquarters.

I know you are interested in rural affairs and I've read much of your furniture work in the state of N.Y.

I trust you will accept this letter in all sincerity and know that it comes from one who sends it in sincerity.

Most cordially,

Jessie Coleman Pelletier

Man dearest:

Could you send my share of the Wal-Kill shop account to Elizabeth Read, 20 East 11th Street, as she is making out my income tax?

I will come up on Saturday morning, the 9th, on the 11:15 train, getting there at 12:58. Will you let me know definitely what time we have to be at the ski jumping and what time it will be over? Anna and John want to drive up on Saturday, probably getting in in the afternoon. They would like to stay at the Cottage Sunday morning and join us at the ski jumping. They would then like to drive me on to New York. If this is the case, you would not have to go to Bear Mountain in the morning. You could have some one bring you back in the afternoon, or you could go back with Arnold, unless you are going on to New York. In that case, I feel pretty sure there would be plenty of room for us both in the back of John's car.

I will get down some way in the morning perhaps by borrowing a Ford, if there is any one who could drive it back in the afternoon, or perhaps Marion and Molly would like to go out to Camp Tera also. I might even be able to get Jane Brett to meet me and take me over to Bear Mountain and back to the ski jumping. Any way, when I know the hour definitely, I can plan better.

I am awfully keen to hear how you thought things were in Reedsville. I had an interesting letter from Miss Clapp this morning.

Dear Eleanor:

You asked me to send you a note concerning Bill Simkin in Morgantown, who wants to take a homestead at Reedsville.

He has been manager of the Mountaineer Craftsmen’s Coop. Assn. at $28.00 a week — $23.00 of this is from the F.E.R.A. Professional and Non-Manual payroll and $5.00 is from the Cooperative payroll.

Of course he has gotten this much money when he gets it and as the enclosed letter shows this has not always been done.

Of course the important thing is that without his help the Cooperative work and hand work at Reedsville would be in a bad way. He has worked this up with these people from the bottom and knows them all and from your funds we have paid a great deal of money teaching him and it seems awful foolish that all this should be wasted.

The other man who wants to take a homestead is Fullmer. The Committee objected to him because he owns a little house in Masontown. He has very little ground and it is not of any use for a garden. He has been out of work for ages and has either been on the F.E.R.A. relief pay or the Homestead pay. If he hadn’t had this opportunity he would have been on relief, so I think it would be a good idea if this man were helped. If not, the government will have to take care of him in the future.
He is an A number one forge man and we have spent several hundred dollars teaching him as we were promised that he would be taken as a homesteader, so it seems foolish to me that this good material should be lost after our putting so much money into his education.

Do what you can about this.

Lots of love

Affectionately,

Dear Friends:

The local committee has informed me of the refusal of
our application as homesteaders on the grounds of excessive assets
and income. I am writing this letter to clarify a few statements
in our original application.

My salary as Supervisor of F.E.R.A. Woodworking projects
and acting Manager of the Mountaineer Craftsmen's Coop. Ass'n., is
$28.00 per week made up as follows: $23.00 per week on an F.E.R.A.
Professional and Non-Manual Payroll and $5.00 per week on the
Cooperative payroll. This would make a yearly income of $1400. If
it were a steady income. Anyone familiar with the F.E.R.A. payrolls
knows this inaccuracy of this income. For 11 consecutive weeks in
1934, I received no income whatever from this source and just recently
failed to receive one week's pay due to temporary stoppage of the
projects for lack of funds. I have also on several occasions not
taken the $5.00 per week from the Cooperative because of lack of
funds in the organization. Therefore the $1400 per year possible
income in reality is not realized.

The income of my wife's mother, Eva Commons, listed, I
believe at $200 per year cannot possibly be construed as a part of
our family income. She lives for about half of the year at her home
in Richmond, Indiana and the other half of the year with us. While
she is with us, we bear all the family expenses and in fact assist with
her expenses when she is not with us.

As to assets, with the exception of the $200. in the savings
bank and the $500 first mortgage, all other investments have yielded
no income for the past 3 years and are so tightly frozen that it is
very doubtful when and if they may be realized on. It does not seem
quite reasonable that a person should have to sign a paupers oath
in order to be considered as a homesteader.

Moreover, regardless of the matter of income, there is
in our minds a deeper problem presented in the refusal of our application.
We wish to help in the development of the Cooperative program of the
Reedsville Homestead. In our minds the only real way to do this is to
become an integral part of the community. We have here in West Virginia
many coal camps in which various persons connected with the companies,
live in surrounding cities or in relatively palatial homes near the
camps and come in to their work. We will not be a party to this sort
of arrangement in a homestead. We are at the present time living at
Morgantown and I am traveling to the homestead a day or two per week
assisting with the cooperative work. It is an entirely unsatisfactory
arrangement and we have tolerated it only as a temporary expedient. If the life in the homestead is denied to us, we are not interested in compromise measures such as living outside and coming in to work.

While I know it is not pertinent to the present question, it may be interesting to know that three years ago I resigned from a teaching position at $210 per month and refused an offer of $250 per month as Supervising Principal of a central New York School in order to come to West Virginia to assist in the Coal Fields work of the American Friends Service Committee. We feel that these three years have been the beginning of an apprenticeship in human relations which should aid us in being of assistance in some of the Homestead problems. We know that these problems are many but we are eager to be of what assistance we may in their solution.

Very sincerely yours,

William Simkin

Dearest Nani:

There seems to be a little mix-up on my $30,000. The radio people took out a small sum for extra expenses on the first broadcast and the complete amount does not seem to be there. Of course I can fill it in in the Autumn.

I want to know now exactly how much you have in the Hyde Park fund. This does not mean the handwork fund, but the actual fund, which should be $29,050. I will see how much more I can transfer from the Friends Service Committee to bring it up as near the total as possible.

Dearest Man:

It looks to me as though in some way, the Friends Service Committee has allocated more of my money that I actually had in the old fund and that they have used some of the East one so that what they now have actually to turn over to you is $4,943.40.

I am asking them to send you this amount which will give you $28,781.90 which is two hundred and some off which is actually short. This is just a little more than what was deducted for the Syracuse broadcast and represents, I imagine some expense in handling the money. I will remember to turn in the $200. to you the first thing in the autumn.

I am looking forward to seeing you the night of the 27th and think we are going to have a grand time. I would like to get home by lunch time on the 30th and as Mr. Baruch is not going down, I think it will be possible to start early in the morning. I want to go to the horse show at Fort Meyer that afternoon. I haven't been able to do anything which they asked me to do this winter so I think I ought to do this if possible.

I am glad the plants came and I am thrilled that Grace Hazen thinks she can come and work in the forge this summer and also that everything is going so well on the toys.

I will tell Franklin about the trout and I am trying to get the Cruickshank children into Hope Farm. I told Captain Lock that
I would give him the extra money later on but I gather that you have already paid $50 which I will try to give you when you come down.

Perhaps Clarence concluded that you only
wanted $18,000.00 and that I should be
asked for the rest before it is spent for
something else — as long as you have

Mrs. Franklin Roosevelt:

I have raised nearly the budget women's division for the year up to December thirty first, nineteen thirty five, for regular work I will be responsible for raising rest of regular budget for year. If any extra campaign work is needed or for national reporter plan up-state where they want speakers for summer conferences This I cannot promise to do on our regular budget. On the new budget I will need about two thousand up to December thirty first, nineteen thirty five Don't worry any one about it. We never got any money from any one except at campaign time and I don't think we ever will. I will try and raise new budget myself. Lovely here to-day. How I wish you were here. All my love, dear.

Nancy Cook.

My dear Miss Cook:

In the absence of Mrs. Roosevelt and Mrs. Scheider I have been asked to look after their mail here at the White House.

Mrs. E. W. Killen, of 14202 31st Avenue, Seattle, Washington, writes us that on February 19th last she sent to Mrs. Roosevelt at Hyde Park a portable doll's house, which she hoped to have developed in the Val-Kill Shop. She now asks that the doll house be returned to her.

For your information, Mrs. Killen says that the package was sent in care of Mrs. James Roosevelt.

Darling - this damn rose plant was shipped last week - I wish Mrs. Cherry at 237 East 22nd had gone - These were no rose plants - So I could not name it for them - But I put a tag on it saying 'if you can get it from your Val-Kill College garden' so all is well - The election is assured! Mrs. Franklin D. Roosevelt,
The White House,
Washington, D. C.

Dear Mrs. Roosevelt:

About Oct. 20th-25th, Miss Louise Cherry of 1182 Broadway or 237 East 20th Street, New York City, wrote you a letter.

Please, if possible, have one of your secretaries send her an immediate answer.

The subject matter had to do with sending a rose plant from your garden at Hyde Park to the garden of historical roses being planned in San Diego, California.

I intended to speak to you about it the night of the Friendship Dinner in New York, but the right opportunity did not present itself.

There's more at stake than the rose plant, even though I think that's important in itself. No need, I am sure, of going into the political flavor that the incident has taken on.

Please, therefore, write Miss Cherry something even though you cannot, at this time, give her a definite answer on the plant.

With my sincere best wishes,

Cordially yours,

Celia McCann.

Dear Miss Cook:

You were very kind and helpful in the matter of getting a fine collection of Holland's tulip bulbs into the possession of Mrs. Franklin Delano Roosevelt sent by me in behalf of my friend Henrik Willem van Loon en now I should like to ask you another favor, hoping that I may not be considered presuming.

For several years I have been in the habit to send to our President, Mr. Roosevelt, a delicacy for his personal use. I have sent it to him in Albany, I have sent it to Washington and I have caused it to be sent to HydePark.

Every year I import from Holland some delicious cheeses of a very special make, manufactured after a special recipe from October CREAM; I send these to some of my friends and should like to again send one to Mr. Roosevelt.

During the last three years I have not heard if this tasty morsel has been received by the President, or if in all likelihood it has become lost amongst the many packages that come for him at this time.

Would you care to suggest a way of sending that would insure delivery to and use by him? I know that he has expressed his appreciation of this very fine cheese. I need no acknowledgment of the receipt of this small gift, but I should like to make certain that he will receive and like it.

Thank you very much indeed. With best wishes believe me,

Very sincerely yours

Dear Eleanor:

I have written Mrs. Wolfe that I would guarantee one thousand subscriptions for the coming year, beginning with the February issue and I have a plan to take up with the Congressmen whereby I think we can get more subscriptions, but to do this I have to plan a short message for their district each month. Anyway we can try this for February and see how it goes because we haven't got much time as our copy has to be in by January 20th.

This is how I have worked it out for February. We can make any changes we want after that.

Mrs. Poletti’s article 1000 words

**Editorial by E.R.**

Walter Brown—Message from Gov. Lehman 500 “

Senator Wagner 500 “

Mrs. O’Day & Women’s Division 375 “

Senator Dunnigan-Albany-Legislative work 350 “

Congressman Peyser—Manhattan 250 “

Curley—Bronx 250 “

Cellar—Brooklyn 250 “

If we have a little vacant space we could put in an advertisement for subscriptions.

I will call you up Tuesday afternoon and see if it is alright for me to write this material for the February issue. We can talk over plans later for the other issues.

I am not planning in this for County Notes, and know this will be a disappointment to you all, but I think there is such important things that should be put into the paper from now until election, that we should not take up space
with tea parties and lists of names, and also
I have to have the space for Congressmen in
order to help get the money.

I think if we work it out this way
that I may be able to get some money to start
the thing. You can tell me tomorrow when I
telephone how you feel about this.

We had a grand vacation. I got
oceans of things caught up and I feel like a

Dearest Man:

I realize all the difficulties of taking special orders and I would be inclined to get enough wool with your first order, of the right color to make more than one suit. Isn't it possible to buy sample hanks, quite a number of them, so that Kellie can try the color out and then get a quantity afterwards?

You sound as though you had done a great many things during the holidays and I am quite keen to see the changes in your room and everything else.

I am sure Elliott and Ruth have their things by now.

I am glad that you agree with me that you would not sell the trademark. I feel Otto may continue to make a certain amount of furniture by hand and should have the trademark.

It was nice to hear your voice on the telephone yesterday and I am looking forward to seeing you Friday for a minute. I will stop in at the office on my way to the meeting a little before eleven. Tommy and I will take an early morning train on Sunday.

Love to Marion and much love to yourself.

Affectionately,

S. This is the money for the cottage for January, February and March, with $20 extra for food.
Dear Mr. Roosevelt:

Thank you for the samples. I did order the worst one, but when it came, both of them were much redder than the sample. This always happens—on a second order one can never get the same thing twice. It is always a little different. However, I have tried again at a different place and may have better luck this time.

I agree with you that we must do special orders—but that seems no way one can guarantee to get the same color again. You can see what an expensive thing it is to try and do one thing a special color and they wish to order. Then one has to act quickly.

I will write the W.S. about the Democratic Move. My dear Mrs. Roosevelt:

I acknowledge receipt of your letter of April 4 and thank you for the suggestions made in it.

I tried to get in touch with Miss Stanton in New York several days ago but was not successful. I have since written to her and have requested her advice and suggestions relating to the establishment of a nursery school program in the Virgin Islands.

It is my plan to have a person who would do designing and who would train people in handicraft work rather than to have only a worker. I do not know what salaries are ordinarily paid to persons of this type. I cannot, therefore, indicate what the salary should be.

The person mentioned in your letter seems to be of the type that I have in mind. If there is a way of discovering what her present salary is, it might be possible to give her that salary for a short time while she is in the Virgin Islands.

Dear Miss Amend:

It is a distinct pleasure to give you in writing a statement as to how this Administration feels about the services you have been rendering us over a period of several years.

If I recall correctly, your first real services to us were in the capacity of county administrator for Barbour County. I am frank to say that in the fifteen months or more that you served in that capacity your administration was held by us, which includes all department heads and members of the field staffs, as one of the most efficient and progressive in the State. Your initiative and imagination in utilizing the services of the unemployed in constructive projects was a delight to us, a source of satisfaction to the people of Barbour County, and in a good many respects they were forerunners of constructive fields of activity later initiated by Mr. Harry L. Hopkins in the FERA program.

For the past year you have served as a field representative or district supervisor for the State office. This consisted of the supervision of some twelve counties, including other members of the field staffs as well as the actual administration of relief in those counties. Your district was the only one in which numerous changes were not made in the field staff during the course of the past year, and the only district in which dissatisfaction of the services of the field representative did not pour into this office. And this in spite of the fact that more constructive results were achieved in that district than in
any other. In addition to imagination and initiative you have displayed a capacity of dealing with public relations which is indispensable in such positions.

It is with real pleasure and a genuine sense of rendering a favor to whomever seeks your services that we recommend you for a position of responsibility in any field of relief work.

With every good wish, kindest regards and best wishes, I am

Cordially yours,

Wm. N. Beehler
Administrator

Dear Man:

Will you let Mrs. Roosevelt know the prices for different sizes of loving cups. She wants to give a pewter cup to a group of colored women and they would like a rather large one.

Affectionately,

Miss Nancy Cook

Dear Mrs. Scheider:

Please convey my deepest appreciation to Mrs. Roosevelt for a reply and for the gift of a cup for the Arts and Crafts department of the N.A.U.W. I am simply thrilled to know that she will have one made in her own shop which will be much more interesting and will cause the women to appreciate it even more than one made elsewhere.

I think I should like the kind mentioned by you far better. The people whom I represent in this organization especially will cherish this gift no little. The size is left entirely to Mrs. Roosevelt, however since I am to decide, I will suggest a very good size one, since all of our cups in this department are larger than the cups used by the States. They stand out some what because they are the National cup's. However what ever size she wishes to give will be highly appreciated.

This one will be the a lasting memory in the hearts and minds of the women and girl's of my race. It will encourage them to work harder for it.

Will you please let me know what inscription it will carry so I can have it for my bulletin? This cup will always remain a circulating cup in this department. Again I thank her for this lovely gift.

Sincerely yours,

Susie V. Bouldin
