This is not a film. It is pages of an album that have been microfilmed. One just sits down, turns a knob, and clippings and material about the NYA is projected by a little machine to full size newspaper sheet. Mrs. Roosevelt could look at it as long as she wanted to - five minutes or any length of time as it goes on forever I guess. These things are to made into an album for the Hyde Park Library and Capt. Hyde would also like her to meet a Mrs. Franklin who is to have charge of the binding, so she can consult with her as to the type of binding, materials, etc.
