MEMORANDUM FOR MISS TULLY: POPULATION AND PEACE IN THE PACIFIC ("M" PROJECT)

Dear Miss Tully:

Herewith attached, in ten parts, is Report No. R-119 from the Bowman-Field Committee on Migration and Settlement ("M" Project), being the text of an authoritative study of "Population and Peace in the Pacific", written by Professor Warren S. Thompson of Miami University, Ohio. This text has been made available to "M" Project in advance of the regular publication of the work and the author himself will be available, if needed, for ~~advisory~~ advisory services in connection with the United Nations Conference at San Francisco. It was our belief that, with the subject of "trusteeship" for colonial possessions on the agenda of the Conference, this authoritative study and its author might be of substantial value to the work of the American delegation.

MEMORANDUM FOR MISS TULLY: REPORTS FROM BOWMAN-FIELD COMMITTEE ("M" PROJECT)

Dear Miss Tully:

Here are five reports from the Bowman-Field Committee on Migration and Settlement ("M" Project) for the President's files.

They include a study on "Settlement Possibilities in Argentina", which may be of particular interest now that Argentina is geconsidering its policy towards the Axis, and a study of "Quaker Relief Work in the Balkans after 1918" which may also be of value to current plans for relief in the Balkan region. This report is, I understand, based on material supplied by Drew Pearson, who was active in Quaker relief operations in Europe after the last war.

MEMORANDUM FOR MISS TULLY: SPECIAL REPORT ON EASTERN POLAND ("M" PROJECT)

Dear Miss Tully:

Here is a special report from the Bowman-Field Committee on Migration and Settlement ("M" Project), with accompanying maps, on the population and land-settlement problems of the Pripet Marshes in Eastern Poland.

Henry Field thought that this report might be especially useful at this time when there may be "Big Three" discussions of Polish frontiers in the East.

The sum total of the report is, briefly, that the Poles are definitely in the minority in this region, being outnumbered by Jews and Ukrainians in the cities and by Ukrainians and White Russians in the villages. The figures are of 1939 and, if anything, the Polish proportion has decreased in the intervening five years.
