His Excellency, the Governor of New Hampshire,
Concord, New Hampshire.

My Dear Governor Winant:

The situation affecting our fellow-Jews in Germany has prevented us from acknowledging sooner our profound appreciation of and gratitude for the generous statement addressed by Your Excellency to the protest meeting at Madison Square Garden held on Monday evening, March 27th. This meeting, as you know, was convened for the purpose of manifesting the indignation and horror of all justice-loving and fair-minded American men and women at the anti-Jewish persecutions in Germany.

Your message was very prominently featured in the metropolitan press as well as in the press throughout the country and abroad, and was very cordially received. It was of great help in manifesting the moral issues involved in the protest against the present German government in ruthlessly attacking the defenseless Jewish minority within its borders.

Our protest action is not directed against Germany or the German people, but against the irresponsible conduct of the political masters of Germany and against that policy which these masters officially declare to be the program of the German nation.

Thanking Your Excellency once more for your humane expression, we are

Very sincerely yours,

My dear Governor Winant:

Attached please find form letter being sent out today to all members of the Executive Committee of the New Hampshire Branch of the League of Nations Association. I sincerely trust you will honor us with your presence--for at least a little while--at this meeting. In touch as closely as you are with public opinion in this State, your advice would be sincerely appreciated.

Visiting one of our near neighbors a few weeks ago in Washington, I heard many good reports of you and your efforts there. You could probably use a pair of seven league boots to advantage!

Very truly yours,

Robb Sagendorph

would like
to go for
short time
anyway

The New Hampshire Branch of the League of Nations Association, Inc. respectfully submits for your attention the following statements of fact and opinion:

"Since the League of Nations was founded the world has spent about fifty billions dollars on national armaments, fifty millions dollars on the League, Court, and Labour Office combined, and not one dollar on providing an instrument for enforcing international policy."

C. K. Streit, Jan. 14, 1934.

"I agree wholeheartedly with President Roosevelt that the vast majority of peoples are in favor of Disarmament and a peaceful settlement of international controversies."

Norman H. Davis

"Unless we make State policy private morality writ large, there is no hope for the civilization in which we live."

Gen. Smuts

"Detail upon detail, incident upon incident, illustrate how well the armament makers apply the two axioms of their business; when there are wars, prolong them; when there is peace, disturb it."

Fortune, March, 1934

"An expression of cooperation with the League of Nations from the United States may turn the balance in the conflict between forces of peace and those making for war."

Newton D. Baker, April 4, 1934.

"There never has been a national referendum on the League, or an election in which the League was a straight issue."

H. J. Sowerby, March 21, 1934.

"International control of the traffic in narcotics went into effect on July 9, 1933, and on the following day President Roosevelt proclaimed the convention-ratified by thirty-eight countries -- under which the manufacture and distribution of narcotic drugs are regulated by the League of Nations."
Literary Digest, July, 1933.

"...and no one now living will ever understand so clearly as ourselves whose lives have been darkened by the breakdown in 1914 how completely the future of civilized humanity depends upon the success of our present halting endeavors to control our political and social passions and to substitute for our destructive impulses the vitalizing authority of constructive thought....To rescue humanity from that domination by the irrational which leads to war could surely be a more exultant fight than war itself..."

Vera Brittain in "Testament of Youth".

"War is proscribed throughout the world today as never before in human history. There are numerous cross currents, there are many paradoxes in our present situation, and yet it is possible to say that the world is better equipped for maintaining the world's peace than it has ever been before."

Manley O. Hudson, April 15, 1934.

"Idealists the world over have thought in terms of international cooperation. Statesmen during the last two decades have attempted international organization. Publicists have seen the world growing smaller day by day, and international cooperation a necessity."

Elbert D. Thomas, U. S. Senator from Utah.

"We have come to a state where, without realizing it, we are living in a society of which citizens are nations, and we have not yet begun to think in terms of that conception. Hence, our difficulties, our problems, and dangers. Those who conceived the League of Nations saw it in part; but now we can see it more clearly than they did. We can see more fundamentally that the purpose of the society of Nations is not merely to prevent war, important as that may be, but that the true purpose of that society of Nations is to enable us to live together in order and prosperity, every citizen and nation doing its part and contributing its bit and receiving its share of the benefit."

Nicholas Murray Butler

"We raise the issue of the relation of the United States to the League of Nations now with no idea of embarrassing the administration in Washington. The uniform testimony which we receive from Geneva is to the effect that this administration has been more cooperative in its relation to the League of Nations than any previous administration. We confidently believe the State Department would welcome an expression of opinion on this subject from the American people."

Raymond B. Fosdick, President League of Nations Ass'n, Inc.

Of late, the New Hampshire Branch of this Association has not been very active. We have not had the funds or the personnel. It was also felt that in view of the lack of definite opposition to the ideals with which our membership has been in sympathy, greater expenses or activity was neither necessary or pertinent.

At present, however, your Executive Committee feels there is an increasing danger that a selfish minority may succeed in definitely injuring our cause. They believe this Branch should become more active, at least to the extent of employing its Executive Secretary, Miss Jaastad, full time, and to that of publishing a small attractive yearbook or report which shall, by making known the names of the members and officers of the Branch to everyone, serve to bind us more solidly together.

For this reason, we ask your financial support at this time, either in the form of a check, stamps, or pledge.

My dear Governor Winant:

Your attendance is earnestly requested at a meeting of the Executive Committee of the New Hampshire Branch of this Association at the Hotel Carpenter, Manchester, New Hampshire, at 5 P. M., on Friday, May fourth, for the purpose of considering

1. Raising money (see enclosed pamphlet)
2. State Branch policy.

In regard to the first matter, enclosed please find a four page leaflet to which Dr. Drury and Mr. Stearns have already voiced their approval--as a fitting manner of approaching old and new members at the present time. As the wording on the last page of this leaflet attempts to represent your mind in this matter, would you be good enough to write in any objections you may have to it--in the event you are unable to attend the meeting?

The second matter is one which has to do with the relationship of this Branch to the National and Regional offices--something which ought to be, in the opinion of the writer, taken up at this time--at least to the extent of some informal expression of opinion in regard to same.

Yours very truly,

Robb Sagendorph

WHEREAS these groups by their aims and purposes actually make for intolerance, the fomenting of racial hatreds and disturbing of peace of a Nation; and

My dear Dr. Ashworth:

I have just learned of the proposed observance of Brotherhood Day by the National Conference of Jews and Christians and I am deeply interested in its possibilities.

This occasion presents an opportunity for concerted thinking on a vital problem of national welfare; it should help us all in our efforts to rise above ancient and harmful suspicions and prejudices and to work together as citizens of American democracy. Good neighborliness, good citizenship and plain common sense in every day relationships are potential fruits of such a nation-wide observance.

PETITION TO THE PRESIDENT OF THE UNITED STATES

In behalf of the stricken Jewry of Germany and in the interests of humanity this petition which is to be presented to the President and Congress of the United States is being circulated under the auspices of The Jewish Examiner published in the World's Largest Jewish Community.

To His Excellency, the President and the Honorable Congress of the United States of America:—

Having learned with profound sorrow that the entire Jewish population of Germany comprising 600,000 citizens and at least 2,000,000 more men, women and children, who are classed as Jews, have been outlawed, terrorized, despoiled of the most elementary rights of human life and liberty and reduced to the last extremity of degradation and impoverishment by reason of an official policy of barbaric persecution and economic annihilation initiated, sanctioned and executed by the government of Germany, a policy which has not refrained even from permitting American citizens of Jewish faith travelling in Germany to be molested, and realizing that this recrudescence of savagery is a menace to world peace as well as a challenge to civilization itself, we, men and women of the United States whose signatures are attached hereto, reposing complete and unquestioning faith in the sacred American principles of humanity, justice and fair play, and in the spirit of the great and imperishable traditions of our nation, do herewith most solemnly and earnestly implore and petition the government of the United States to make proper representations through the President and the Congress to the Government of Germany by means of a forthright and unequivocal declaration discountenancing this inhuman oppression officially instigated and conducted by the responsible rulers of Germany and interceding in behalf of the stricken and prostrate Jewry of that land, thus once again in accord with noble American precedent invoked by previous administrations when the government of the United States championed the cause of oppressed Jews in Turkey in 1840, in Switzerland in 1857, in Roumania in 1872 and 1902, in Russia, 1904 and 1911, to enlist the moral might of the United States as prompted by the best instincts of mankind in order to effect a cessation of this tragic persecution of German citizens of Jewish faith and restore them to full equality with all the other inhabitants of Germany.

DEAR GOVERNOR:-

"Forewarned is forearmed".

Take this along and check it up back home, if you haven't time to dope it all out on this trip. But it may here and now give you an inside clue to some inside deals you are hearing about at this Conference. Prove it for yourself by checking it up with actual situations as you know them and as you can watch them at Washington now with this key in hand.

File Jews

THE "CAHILLA"
OR
SECRET JEWISH WORLD GOVERNMENT: HOW DOES IT INFLUENCE AMERICA?

The "SECRET KEY", as uncovered chiefly by British secret service agents, after the Boer War, is based on the numeral seven.

It reveals that WORLD JEWRY IS ENTIRELY CONTROLLED BY ONE ORGANIZATION, so constructed that one man rules it from the top. Military agents estimate that world-Jewry numbers 23,000,000, though the Jews themselves say only about 14,000,000. Of these, some 4,000,000 are in this country.

The world is divided by world-Jewry into two Hemispheres, Eastern and Western. Over each there is put a "PRINCE" of Jewry -- known as a SPONSOR. Who is at the head of this Hemisphere? None other than BERNARD BARUCH. So say those who know. And, if you doubt any of these facts, ask secret service men of any country where military agents have traced political results of the great revolving funds collected by the world-wide CAHILLA and used by its leaders for propaganda purposes such as "Communism" which they know, and can prove by photostatic and other evidences, has been fostered to unmake world Governments in anticipation of "the day of Israel".

CAHILLA ORGANIZATION

Under each SPONSOR there are seven ARCH-CENSORS
Under each ARCH-CENSOR there are seven MINISTERS
Under each MINISTER there are seven HERALDS
Under each HERALD there are seven COURIERS
Under each COURIER there are seven SCRIVENORS
Under each SCRIVENOR there are seven AUDITORS
Under each AUDITOR there are seven MUTES

This figures out to about 857,000 influential Jews in each Hemisphere, organized into a tight, rigidly controlled body, every man knowing all men under him but only the one man above him, and all responsible to the Prince-Sponsor at the top.

Until this organization is broken up and stamped out of American life, the United States can know neither peace nor stability. Democracy is rapidly being made "safe for Baruchcracy", but is a secret CAHILLA, the national center of gravity into which we want to be drawn? Analyze much recent legislation, with the aid of this Key. Find out who wrote many of the "new" bills at Washington, who directs their administration, who influences strategic Gentile minds in the new set-up, then ask yourself whether America is trending in the direction of her own natural forces, or is being rapidly drawn into the maw of world-Jewry. Trace much of this so-called "New Deal" back to Wilson's administration when Bernard Baruch gained control of key industries which now, in turn, virtually dictate the policies of the National Industry Recovery Act, the Reconstruction Finance Corporation, and other phases of our "experimental" autocracy with its far-reaching espionage into all private business affairs save those of the minds secretly dictating now through unsuspecting public officials, or deliberately using public henchmen to speed up this "pogrom" of American individualism

In the time of George Washington there were only about 4000 Jews in this country. In 1793 the United States became the first country in the world to grant them civil liberty. Today, in Washington, there are more Jews in high places in the Government than ever

before in our history. Why? Is it by accident? Or by design -- their design?

The word CAHILLA is seldom heard by any Gentile. Let anybody who doubts its existence ask for a public show-down. Jewry will dodge and deny it. They fear publicity. But men like Bernard Baruch are able to become "President pro tem", to own controlling stock in all our key industries, to boast that he had "more power than any other man" when we entered the War, and to perpetuate that power to its present proportions because, through his CAHILLA connections he is the absolute over-lord of about ten million Jews in this Hemisphere.

Under "Prince" Baruch are the lesser princelings -- various secret officers of this world-wide secret CAHILLA:-- Judge Brandeis, Stephen A. Wise, Samuel Untermyer, Eugene Mayer, Jr., Felix M. Warburg, Otto Kahn, Felix Frankfurter, Edward A. Filene, Bayard Swope, and a host of lesser lights, each doing his secret work for world-Jewry in the place prescribed for him, and playing a double role according to a pre-arranged plan. All of these and scores of others are now acting as "economic experts", as "advisers", writing legislation, directing departments, industriously gathering statistics about every strategic business in the United States, slowly but surely closing over individual liberty a closely knit net-work of complete espionage such as this country has never before submitted to. That we are being duped by these underground tactics, and having our sympathies appealed to in behalf of Jews being driven out of one country (as in Germany BY Jews), in order that they may come here under false pretences -- seems as incredible as it is unsportsmanlike.

Americans are willing to cooperate with others in order that America may go forward into new and better things. But are we really aware of what world-plans we are being fitted into? Is much now heppening at Washington what it appears to be, or are we actually being deceived into a situation where the "last state of that man shall be worse than the first?" Are we not too confiding, too trusting -- while world-Jewry through well-placed "statisticians", and others (often the type of Gentile willing to work as a boasted Jewish affiliate"), speedily gathers all the needed inside facts about such private business as had not already come under their control by one or another of the cleverly-laid plans "made in Europe", to so gut us of resources and energy that we will become supinely submissive to their final schemes.

No wonder the Protocols refer to the "stupid Gentile". Further denial of the Protocols as the blue-print by which existing world Governments were to be scrapped, as most of them have since been by war, pillage by "legal" process (such as Federal Reserve Bank policies), Communism and civil disruption deliberately induced by propaganda perpetually financed out of the almost endless CAHILLA funds -- is useless in face of world facts today. All but a few points of this remarkably fore-sighted program for destruction, in order that a super-State to be known as the "Jewish Nation" could exist, have been carried out. You and your family, your neighbor, and the peoples of the world have paid the price of this "chosen" ambition. What guarantee has the world that a Jewish-Cahilla-controlled super-State, based on gold control, currency issue, surplus control, and through these devices, political, economic, social and arms control, would be superior?

Gentiles are ignorant of the fact that this world-Nation has been help up to World-Jewry for centuries as a race objective until belief in it is a part of their racial psychology -- no matter how varied they may be in type, class or status. But the Jews know, and many really believe that theirs is the "chosen" right to rule the world. They now believe "der Tag" is very close.

By the Fall of 1933 their secret machinations will be well-entrenched.

WHAT ARE YOU GOING TO DO TO SAVE AMERICA? Remain blind, ignorant, skeptical? Or WAKE UP AND ACT?

You can pass this "Key" on to business associates, to neighbors who have also been unaware. Let them investigate. Thus they will convince themselves that there IS a secret force at work to demolish America. We are almost "sold down the river", but not quite.

A short time only now -- then destructive forces of Communism are to be released by secret CAHILLA orders from Europe, financed from Jewish banking centers in New York and elsewhere, as the paymasters. Secret service men and police know this. It is time you did.

If you have not informed yourself fully as to the peculiar functions of Kuhn, Loeb and Company, for instance, in relation to the Russian Revolution, Russian "recognition", and the financing of Communism read Congressional speeches which have revealed it, by Louis T. McFadden and others who have shown up financial facts you need to know.

Had the nefarious "gold-bloc" put over its program at the London conference to the point of "success", we would by now have the iron ring of the "international banker" as world-debtor put around our necks for all time. That will yet happen unless we wake up. We have obligingly abrogated our own currency rights under the Constitution, and done away with "lawful money". The next step will be "international" money manipulated by this secret CAHILLA of world-Jewry unless we come to our senses.

The Protocols predict: "Money will be confiscated in order to regulate its value"; "When next you hear the Jewish Plan the 'Gentiles' will do business with their own bits of paper while Jews keep the gold reserve safely in their own hands." Where is our legal dollar today?

Since 1917 this Jewish oligarchy under Prince Baruch has been conducting CAHILLA affairs high, wide and handsome. America has been pulled down to near ruin and economic chaos. Why? Does it make sense until you have this Key? We have given the Jews the first square-deal they ever had in any country. Is their "New Deal" genuine, or a masquerade?

Through the CAHILLA all influential Jews of this country, the Continent, the Orient, are in constant, close touch, fitting together their various countries as pawns in the great game of creating a super-"Nation". They have pooled their political minorities, financed Communism to disrupt civil governments, "managed" the Depression, started wars or rumors of wars until the world is one seething mass of their manipulation. Every political policy is easily clinched by their control of finance. Add propaganda control through the press,

advertising, radio, the screen; consider their control of cables, telephone, telegraph, wireless, railroads; analyze the hidden significance of the R.F.C. and "NIRA" set-ups in relation to Baruch-owned key industries, study the tie-in with Russia now clamoring for a "recognition" already secretly arranged, and it will dawn upon you that you are no longer a free American citizen IF you permit this vast net-work of complete espionage to close over your business and this country AS THEY PLAN IT FOR CAHILLA PURPOSES. Coercion is being cleverly disguised as "cooperation". Watch your step. See where all this inside knowledge of every strategic American business is headed. The time has come either to accept a Jewish super-State, or do something more American and do it NOW in the few weeks which remain. Remember, they want to call another "Conference" this Fall. Why?

The DEPRESSION has been directly traced to the threshold of the CAHILLA. European secret service agents have proof that Herbert Hoover was elected through its money. Through him and the CAHILLA CENSOR, Eugene Mayer, Jr., the 1929 Stock-market crash was brought about. Read what the Protocols said would happen. It did. Read that they also predict doing away with Stock Exchanges. The United States Treasury has been looted, Germany granted a moratorium, war debts repudiated, the gold clause abrogated, vast equities ruined, mass human suffering produced on a world-wide scale by entirely "legal" processes, through this CAHILLA. The United States is being reduced to a vassal state subject to its officers who are entrenched in the "British" Cabinet. Let England also awake. Her danger, too, is great.

We need no Hitler tactics to correct this condition here. They would not be tolerated, even though the CAHILLA group now running Washington, while the President is seemingly hoodwinked, be exposed for what it is and what it has done. But we do need an INFORMED U.S.A.

CAHILLA officials had perfected their power over Germany long before the World War, which they started to further their own schemes. Their ascendancy dates back to Bismarck (who had a Jewish mother. In 1870 he turned Germany over to the Princes of Jewry; even as Hoover did to us, and Roosevelt seems now in process of doing unless somebody can waken him to realize that AMERICA MUST BE FOR AMERICANS, and that CHRISTIAN AMERICANS intend to be heard in the land.

Why join the Jews at their new "Wailing Wall" of insincere petition and protest against German conditions of their own making? Why should Americans be made the laughing stock of Jewry by falling for false pretence and propaganda? Read several speeches made in the House of Representatives June 15, 1933, notably one by Congressman McFadden which includes this statement that should galvanize us into watchful action AT ONCE:

"Hitler and the Warburgs, the Mendelsohns and the Rothschilds appear to be on the best of terms. There is no real persecution of the Jews in Germany, though there has been a pretended persecution because there are 200,000 unwanted Communist Jews, chiefly Galician Jews, whom Germany is very anxious to get rid of. So a great show is put on, largely by German Jews themselves, in the hope that Uncle Sam will AGAIN be foolish enough to let them come here." If our immigration bars are to be let down any day now, do we want other countries' exiled Communists? Note that Hitler is disfranchising Galician Jews, so if we once let them in we could never return them.

What are you going to do about YOUR AMERICA?

Dear Sir:-

On September 21, the Jews of the world
celebrate the beginning of the New Year, 5694.

The Jewish Telegraphic Agency, the only
world-wide Jewish news agency, reaching Jews through-
out the world, plans to release to the press of the
world, special messages on this occasion, and would
therefore welcome from you an expression which might
serve also as a message to Jews the world over, on
the approach of the New Year.

This message need not be very long, no
more than 150 words, and we should be deeply obliged
if we could have it by the fifteenth of August.

Respectfully yours,

Your Excellency:

May we take the liberty of inviting for your consideration the appropriateness of including reference to the persecution of the Jews of Germany in the message you will, no doubt, make public on the occasion of the celebration of the 157th year of American independence.

On this day, rededicated to the ideals of the equality of all mankind and the ideals of justice and fair play, we venture the hope that representatives of the American government will speak out their abhorrence of the transgressions of the fundamental principles of the American nation, now current in other parts of the world.

Thanking you for your consideration, I am

My dear Governor:

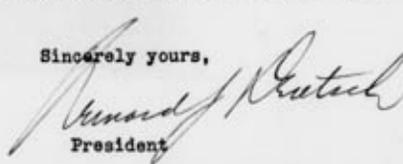

I have much pleasure in sending you a copy of

"Swastika: The Nazi Terror"

by James Waterman Wise, recently published by Harrison Smith and Robert Haas. This book contains a full and authoritative account of what has recently happened in Germany and I hope that you may find time in which carefully to read this authentic report of the repressions, discriminations and persecutions visited upon the Jews of Germany.

I shall be very glad indeed if I might have some word of comment from you about the book and also your view on the entire situation which finds the government of Germany under Chancellor Hitler at war upon the German Jews.

Sincerely yours,

President

P.S. I send you, in addition, copies of the April and May issues of "Opinion" a Journal of Jewish Life and Letters", which contain full reports on the Madison Square Garden meeting and other material of vital interest in relation to the tragic situation of the Jews in Germany.

PERSONAL
AND
CONFIDENTIAL

Dear Sir:-

The recent edict of Hitler doing away with a free press in Germany is so barbarous a throwback to medievalism that it is just foolish to say that because it is in Germany it is none of our business.

After discussion with numerous friends, I have decided to organize a Committee, the purpose of which will be to see what we can do to express American resentment to Hitler, not only in this matter but in opposition to his unjust and insane war on the Jews.

After all, as a matter of sportsmanship and gratitude to a great people, who gave to the world the three leading religions, the protest against Hitlerism should not be left to the Jews alone.

Will you not write me, in confidence, your views on this situation? There will be no financial obligation in joining this Committee.

Yours very truly,

George Henry Payne
