Repeated B.A.D. 82
C. in C. Far Eastern Fleet
S.O. China Force.

FROM: Admiralty

Following from Chiefs of Staff to ABDACOM
repeated British Joint Staff Mission, Washington (for
Combined Chiefs of Staff) C. in C. Far Eastern Fleet,
S.O. China Force.

Your 00737, Cypher 030983 of 4th February.

A. Eastern Fleet Destroyers, H.M.S. Jupiter,
Encounter, Express and Electra, also R.A.N.
destroyer H.M.A.S. Vampire were stationed in
ABDA area temporarily until required by
Eastern Fleet.

B. The 4 fleet destroyers will not repeat
not be withdrawn until it becomes essential
that they should be available for screening
heavy units of Eastern Fleet. This is not
repeat not likely to be before the end of April.

C. H.M.A.S. Vampire has had to be withdrawn
to join H.M.S. Hermes and proceed with her to
ANZAC area as part of 2 allocated to that area.
The 2 R.A.N. Destroyers allocated to ABDA area
are still refitting. One is in Australia and
the other is H.M.A.S. Vendetta.

D. It is intended that H.M.S. Newcastle,
wear the Flag of Rear Admiral W. G. Tennant,
shall join China Force by the end of March.
Admiral Tennant will relieve Commodore Collins
in command of China Force.
E. Pending the arrival of H.M.S. Newcastle, H.M.S. Exeter is being detailed to join China Force.

TO: INDIA
Repeated: Joint Staff Mission
FROM: ABDACOM No.00771 5/2.

We propose in future to send you our INFORMATION summary containing daily news up to 1200Z. This is issued daily unless there is nothing to report.

INFORMATION CIRCULATION

NOV 7 1973
IMMEDIATE

O0737 4/2

Following from GENERAL WAVELL to Chiefs of Staff.

1. I presume that in accordance with Para. Four of my directions, the U.S., Australian and Dutch Governments have been forewarned of the intention to reduce materially the British Armed Forces in the ABDA area by withdrawal of five Destroyers.

2. It is difficult to forecast effect of this withdrawal without more knowledge of intended replacements. I have been informed of formation of ANZAC area and intention to send two Australian Cruisers, two Destroyers and three sloops to ABDA Area. ISAAK STEERS will eventually arrive from Mediterranean. It would be very helpful to receive comprehensive statement of future allocation of forces to this area.

3. Present naval position is as follows. The bulk of British and U.S. reinforcements will in future be directed to E.I. ports. If a convoy has to be sent to SINGAPORE it will have to be treated as a special operation. If withdrawal of Destroyers had not been ordered this would have resulted in releasing from escort duties a small British Force. Force would have consisted of EXETER if spared from Eastern Fleet or PERTH and HOBART after arrival in area plus two modern Destroyers. This force would have been employed as independent British striking force or added as contingent to combined U.S. and DUTCH striking force now formed. There are now fleeting opportunities for using a striking force but if they are missed we shall eventually be forced to a general naval defensive.

4. I appreciate urgent need for Destroyers to screen Eastern Fleet. Yet this area presents obvious opportunity for using destroyers for offensive repeat offensive purposes. If they have to be withdrawn, it will be impossible to supply a British Destroyer contribution to the offensive. It will also result in more U.S. and DUTCH Destroyers being required for defensive escort duties in addition to the British ships already so employed.

BY , DATE

NOV 7 1973
From: ABDACCH  
To: Washington for Combined Chiefs of Staff.  
Repeated: London for Chiefs of Staff.  
No: 00649 of February 1.

IMMEDIATE.

From General Wavell.  
Reference your DDA 5.

1. I can well understand that threat via Rabaul  
   must greatly concern Australia. I have not sufficient  
   information here to estimate fully insinuate of threat  
   its dangers or means to meet it. In area already  
   included in ABDA I have at the moment to meet four  
   separate attacks with most inadequate resources. I  
   was compelled to refuse Australian request for Squadron  
   for Port Moresby as it was most urgently required  
   else where and I did not consider it would suffice to  
   defend our communications through Torres Strait or  
   that threat was so imminent as others further west.

2. I agree that threat to Australia would cause  
   demand for diversion of U.S. material intended for ABDA.  
   I do not however consider that it would therefore be  
   sound to make me responsible for covering North East  
   approaches to Australia which would involve virtual  
   assumption of responsibility for defence of N.E.  
   Australia since impossible to divorce defence of  
   approaches by air from defence by other means.  
   Understand ABDA have an area already set up. I should  
   like to be informed of its scope.

3. ABDA area already stretches for over 5000  
   miles from North of Eura to Gulf of Carpentaria and  
   for nearly 2500 miles from North to South. I do not  
   think it advisable to extend this area any further.  
   I have difficulty enough already in distributing my  
   resources to cover it. See my telegram 4 of 29/1  
   also 00976 31/1 to Struddee.

4. I consider that distribution of resources  
   between Australia and ABDA area must be responsibility  
   of higher authority in the same way as they now decide  
   between Mid-east and ABDA.

5. Your signal received corrupt but trust above  
   covers main points.

17-73.
To: War Office for Chiefs of Staff, British Army Staff Washington for Combined Chiefs of Staff Washington.

From: ABDACOM.

No: 00603. 31/1.

My proposals for the Command and direction of the Allied Air Forces under my command are as follows.
1. Chief of the Air Staff and C.-in-C. Allied Air Forces Air Marshal Peirse.
2. Deputy Chief of Air Staff and Deputy C.-in-C. General Brereton. The nature of the latter appointment will eventually preclude General Brereton from Command of American Air Forces. I request therefore that another officer be appointed in his place as soon as possible.

To: Army Melbourne,
Repeate War Office for C.O.S.
British Army Staff Washington for Combined Chiefs of Staff.

No. 00576, 31/1.

Personal for Sturdee* from Havel.

Your No 4617 28/1.

1. Japanese attack on Ambo involves threat both to Keopang and to Darwin. Both these places are essential to defence of ADBA Area. Unless Keopang is held movement of short range aircraft reinforcements between Australia and Java and vice-versa becomes impossible and movement of shipping between Australia and N.E.I. must take wide detour. Allocation of very limited resources for defence of these two points is urgent and difficult problem. After full discussion here with Brett, Feirce and Bereton consider following best distribution.

2. Ground Forces. Most strongly urge that Pioneer Battalion AIF from Darwin be sent early as possible to Keopang with U.S. 148th Artillery Regiment less one Battalion. Consider that this reinforcement together with air dispositions outlined below should give considerable degree of security for Keopang and that defence of Port Darwin will not be seriously compromised in view of proposed arrangements for air defence. Propose sending as early as possible some Beaufort Light Anti-Aircraft guns for protection Keopang. Protection Darwin against low flying attack can be provided to some extent by 50 calibre machine guns of 147 U.S.A. field artillery Regiment which will remain Darwin and anti-aircraft guns will be provided as soon as possible.

3. In addition to squadrons now in Darwin air forces available in near future against threats to Keopang and Darwin are three P.40 fighter squadrons, three Dive Bomber squadrons on way through Australia. Also Heavy Bombers now in N.E.I. Proposed temporary allocation of above to meet present situation is as follows. One fighter squadron and one dive bomber squadron Keopang, one fighter squadron and one dive bomber squadron Darwin. According to direction in which main Japanese threat develops heavy bombers may operate from Port Darwin against Southward movement from Ambo, or against movement through Macassar Straits.

*General Sturdee is Chief of the General Staff, Australia.
4. In view of threat to Koepang, priority of movement will be that fighter and dive bomber squadrons for N.E.I. will have first priority and those for Koepang second priority and Darwin third priority. As all these squadrons will pass through Darwin however I can always stop them at Darwin if threat to that place appears imminent. Heavy bombers will be operated according to direction from which Japanese threat appears to be developing.

5. Fully realise the difficulties and dangers of above proposal which however seems best distribution of our very limited resources and hope you will be able to agree.

6. Decision most urgent since U.S. Light Naval Forces who can act as escort to troops for Koepang are due to leave Darwin on 2nd February.

No. 00522 of 30/1.

MOST SECRET

Reinforcing aircraft from America are at present arriving by air via Darwin, Koepang, Waingpoa and Malang.

2. There is possibility that this route will become impracticable for use by Fighter aircraft in near future. It is anticipated that 50 P-40 Fighters will be available at Brisbane for transfer to Java by 15/2. It would be of greatest assistance if a carrier could be made available to ferry these aircraft if present route is closed. Aircraft might be erected on board while on passage to flying off position.

No. 00184 of 20th January, 1942.

For Prime Minister from General Wavell.

1. While my Headquarters were not yet established my only reason for not wishing to take over Philippines at once was that I was entirely without information of situation or means of communication with MacArthur or Sharpe. I have now received staff officer from Mindanao and messages from MacArthur and am doing all in my power to help both.
