NAVY DEPARTMENT
OFFICE OF THE CHIEF OF NAVAL OPERATIONS
WASHINGTON

February 23, 1942.

MEMORANDUM FOR THE NAVAL AIDE

SUBJECT: German Fleet Locations.

Reference: (a) Op-16-F-4 Memorandum of February 21, 1942.

1. A German Naval Force, whose position was first reported in Reference (a), is proceeding to Trondheim. Two heavy units, whose identity had not at this time been established, accompanied by destroyers, were reported to be in position 55:55 N - 06:10 E at 1115 A time, February 21, 1942.

2. Two cruisers, three destroyers and a number of torpedo boats were reported in position 59:04 N - 05:30 E, course 060 at 0715 February 22, 1942.

3. One "pocket battleship" (CA), with two merchant ships alongside, was reported in position 60:19:18 N - 05:15:15 E, and one HIPPER class cruiser was reported in position 60:19:51 N - 05:14:20 E at 1500 February 22, 1942.

4. The "pocket battleship" referred to in Paragraph 3 is undoubtedly the ADMIRAL SCHEER. SCHEER was reported to be at Trondheim February 10, 1942 and in the Baltic, probably at Kiel, February 12, 1942. The other "pocket battleship", LUETZOW, was reported to be at Swinemuende, where she would remain for the winter, on January 24, 1942. The HIPPER class cruiser mentioned in Paragraph 3 above, is probably the ADMIRAL HIPPER. The only other HIPPER class cruiser, which is known to be completed, PRINZ EUGEN, is probably still at Brunsbuettel.

5. TIRPITZ was in her usual position in the Aasfjord at 1500 February 22, 1942.

6. GNEISENAU was reported at Kiel on February 22, 1942. As reported in Reference (a), GNEISENAU was at Brunsbuettel on February 13, 1942.

7. Photo reconnaissance showed one battle cruiser in Hipperhaven, Wilhelmshaven February 22, 1942. This is undoubtedly SCHARNHORST whose presence in Wilhelmshaven on February 13 was reported in Reference (a).

(Nation reported on) (Main title as per index guide) (Subtitles) (Make separate report for each title)

BASIS.—(Here enter careful summary of report, containing substance succinctly stated; include important facts, names, places, dates, etc.)

Since October 1, 1941, there has been a gradual diminution in the number of submarines basing at Toulon, as shown by the following figures:

October 1, 1941	25
November 1, 1941	20
December 1, 1941	19
January 2, 1942	16
February 3, 1942	13
February 10, 1942	11
February 16, 1942	7 plus 2 reported enroute to Toulon for repairs.

The distribution of French submarines, as reported February 14, 1942, is as follows:- (From Casablanca)

Toulon	7 plus 2 enroute
Oran	4
Biserte	12
Casablanca	10
Dakar	10
Madagascar	3
Unknown	13
	61

This appears to indicate a policy of removing the submarines from Toulon to various colonial ports, as well as an increased use of submarines for escort duties.

1. Chichijima is in the Bonin Islands.

2. The new Yokosuka-Bonins-Marcus DF net should materially improve DF intelligence in the Tokyo Bay area.

3. The consolidation of the Japanese position at Wake evidently is progressing satisfactorily.

4. The increase of traffic in the Yokosuka area suggests the possibility that some fleet units are returning for refit.

5. Distribution of Carrier Groups appears to be as follows:

(a) Cardiv 1
AKAGI
KAGA — At Truk.

Cardiv 2
SORYU
HIRYU — Davao — 1/25

Cardiv 3
*RYUJO
HOSHO — Philippine Area
Nitta Maru

* reported in Yokosuka area yesterday.

Cardiv 5
ZUIKAKU
SHOKAKU

Cardiv 4
KORYU
KASUGA — S. of Truk — 1/25
Unreported. These two Cardivs last noted in Bonin Islands Area.

6. The concentration of forces at Truk presages a move inthe direction of the Solomon Islands or a further reenforcement of forces operating against the Dutch Islands through the Celebes Sea.

7. Attention is invited to the persistent requests for reenforcements emanating from the forces operating in S.E. Asia. This is the third successive day that such requests have been noted. This indicates severe Japanese losses together with a growing inability to increase the scope or power of their operations without added force, thus tending to preclude the probability of action in other less important areas.

Secret

January 30, 1942

MEMORANDUM FOR NAVAL AIDE

SUBJECT: German Fleet Locations.

Reference: (a) Op-16-P-4 Memorandum of January 27, 1942, SECRET.

1. It has been reported that in addition to the TIRPITZ, whose arrival at Trondheim and presence in Norwegian waters was reported in Reference (a), two cruisers(1), seven destroyers(2), and several motor torpedo boats have also arrived at Trondheim. TIRPITZ was observed by aerial reconnaissance in the Aasfjord, Trondheim, on January 29, 1942.

2. In Reference (a), it was reported that one Destroyer Flotilla was expected to reach Brest on January 26, 1942. Aerial reconnaissance on January 29, 1942, observed two large destroyers in dock at Brest.

Notes: (1) Light Cruisers EMDEN, KOELN, LEIPZIG were reported to have been operating in the Baltic on December 11, 1941. None has been located since this date. NUERNBERG was last reported at Flensburg on December 11, 1941. The Heavy Cruisers ADMIRAL HIPPER and ADMIRAL SCHEER were last reported in the Baltic - the former on December 11, 1941; the latter on January 11, 1942, when she was off Swinemuende. The Heavy Cruiser LUETZOW was last reported at Kiel on December 11, 1941.

(2) Several Destroyers have been operating in Norwegian waters for some time; others have been located in the Baltic and in North Sea German ports. If there are now seven destroyers at Trondheim, at least two - and possibly as many as four - have arrived there recently from the Baltic or from North Sea ports.
