WESTERN HEMISPHERE

General DeWitt in summarizing Alaskan operations September 30, states that enemy shipping and shore facilities at Kiska were subjected to three bombing attacks on September 27 and 28. Incomplete reports list one submarine as sunk by a direct hit and one enemy transport believed to be totally destroyed. Six enemy planes were shot down in these operations. Our planes suffered damage from heavy anti-aircraft fire; one fighter went down at sea and one bomber, which crash-landed on Adak Island, was a total loss but the crew was saved. In the Near Islands our bombers burned Attu and Chicagof villages; the islands of Attu and Agattu have been abandoned by the enemy.

EUROPEAN THEATER

In Iceland, hostile aircraft reconnoitered the Skalanes and Borganes areas September 29. An enemy flying boat unsuccessfully attacked an oil tanker off the east coast of the island, using bombs and machine gun fire.

ASIATIC THEATER

1. The first transport airplane to be lost in the India-China ferry route is believed to have crashed in the mountains on September 23 as a result of icing conditions.
2. General Bissell reports that air attacks were made on September 27 on Tingka (China), Loiwing, Katha, and Myitkyina (Burma) by two American medium bombers operating from Dinjan. On the same day American fighters and medium bombers operating in southwestern China destroyed 23 combat vehicles in the Salween-Lungling area and destroyed the village of Luchiangpa, 20 miles southeast of Tengyueh.

PACIFIC AND SOUTHWEST PACIFIC AREAS

1. In his operations summary for the period 1100 September 28 to 1100 September 29, GCT, General MacArthur reports that strong Allied detachments have moved about 6 miles north from Ioribaiwa Ridge. Allied air attacks were made on the airfield at Salama, on the beach and airfield at Buna, and on an enemy camp in the Kokoda area. Two enemy aircraft attacked Betano, on Timor.

Air reconnaissance of the Bismarcks, Solomons, and eastern New Guinea were maintained.

2. General Harmon reports that operations in the South Pacific area for September 28 and 29 were confined to long range reconnaissances from Espiritu Santo and Guadalcanal.

In his operational summary for the period 2200 September 27 to
0700 September 28, 1942, General Marshall reports that the Japanese
captured Solomons Bridge and forced the enemy to retreat.artificial
large quantity of enemy soldiers and equipment were destroyed. A night
air strike was made on the airfields. Aircrews attacking at National

WESTERN HEMISPHERE

In view of the anticipated shortage of military personnel, a board of officers headed by Brig. Gen. Dale D. Hinman, USA, has been appointed to meet in Washington to determine the advisability of employing local civilian personnel to man anti-aircraft installations in the defense of certain plants and facilities in the continental United States. The agenda include consideration of the suitability of women on range instruments, in balloon barrage units, and as clerks in anti-aircraft artillery headquarters.

EUROPEAN THEATER

The War Department notified General Eisenhower of a change in Army Regulations which permits the payment of witnesses at U. S. courts-martial sitting in foreign countries at the rates paid in those countries for attendance at corresponding courts.

PACIFIC AND SOUTHWEST PACIFIC AREAS

1. In his operations summary for the period 1100 September 27 to 1100 September 28, GCT, General MacArthur reports that his troops captured Ioribaiwa Ridge and forced the enemy to retreat northwards; large quantities of enemy stores and equipment were captured. A night attack was made on the airdrome and shipping at Buna, and extensive aerial attacks were made on barges and ground targets in the Buna-Kokoda
area. Reports and aerial reconnaissances confirm the presence of a considerable naval force at Rabaul and in the northern Solomon Islands.

2. General MacArthur was informed that the British War Office proposes to send a small British Army and Air Force liaison mission to serve with the Australian military authorities, with a view to reinforcing the link between the British and Australian General Staffs.

3. General Harmon reports that operations in the South Pacific Area for September 27 were limited to long-range reconnaissances from Guadalcanal Island and Espiritu Santo during which one enemy plane was shot down off Gaungga Island. An enemy convoy was sighted moving northeast off Kieta (Bougainville Island), and other enemy ships were reported in the Shortland-Tonolai area.

The first truck to drive through from Dawson Creek to Whitehorse arrived on September 27. Seventy-one hours driving time were required for the 1030-mile trip.

EUROPEAN THEATER

In his operations summary for the week ending September 28, General Spaatz reports fifty defensive sorties by American fighter aircraft, and an offensive mission involving 62 flying fortresses and 13 U.S. and RAF fighter squadrons, which failed to reach its objective because of weather. In all, one enemy dive-bomber was damaged, ten American pilots are missing, and one was injured.

PACIFIC AND SOUTHWEST PACIFIC AREAS

1. In his operations summary for the period 1400 September 26 to 1400 September 27, CTF, General MacArthur reports a consolidation of the enemy position on Ioribaiwa Ridge (Owen Stanley area). Our artillery continues its harassing fire, and Allied patrols are operating on the enemy flanks. Allied air attacks were made on Buin, Rabaul harbor, the Ioribaiwa area, and the Buna area. One twelve to fifteen thousand ton vessel is believed destroyed at Rabaul; fires were started in buildings, and barges, and one airplane were damaged, in the Buna area. The 38th
enemy air raid on Darwin did no damage.

The usual aerial reconnaissances of the enemy naval concentration in the Buin-Faisi area, and of other areas were continued.

2. General Harmon reports that, in addition to the usual long-range reconnaissances, operations in the South Pacific area for September 26 included an attack on enemy shipping by eight flying fortresses which left one heavy cruiser afire and a seaplane tender burning and probably sinking. Six intercepting planes were shot down in this engagement and another was destroyed in a second combat between one of our flying fortresses and four Zero fighters. The location was not reported.

ASIATIC THEATER

1. Correcting previous information, the Chinese Air Force reported that Mr. Willkie was scheduled to leave Moscow on September 27. The proposed itinerary is shown on the map appended hereto. General Bradley confirms this schedule.

2. General Bissell reports on September 28 that a bombing attack on the airdrome at Hanoi by four medium bombers escorted by ten fighters was intercepted over the target area by fourteen Japanese planes. Three of the latter were shot down, two were probably destroyed, and several others were damaged. No losses in personnel or equipment of our forces were reported.

1. On September 24 three of our bombers attacked enemy shore installations at Kiska. On September 25 fifteen bombers and twenty-eight fighters attacked the island. One enemy float fighter was shot down and six of ten float planes on the water were destroyed. An enemy cargo ship was left burning.

2. General Buckner was notified that Mr. Willkie's airplane will arrive at Nome from Siberia at some time between October 5 and 15.

EUROPEAN THEATER

General Eisenhower was informed that the State Department is instructing our Ambassador in London that it is imperative that EFM (fixed text cable and radio message) service be inaugurated immediately for our troops at all stations in the British Empire. The rate should be based on that charged British troops, viz. 2/6 (60¢ from Canada). The difficulty appears to be that of partitioning of tolls. This service is already in effect with 21 countries where our troops are located.

ASIATIC THEATER

General Bissell reports that on September 22 our fighter planes from Kunming destroyed some twelve to twenty trucks between Lungling and Chefang. Enemy fighters made two attacks on the landing field at Kweilin, September 23, burning one airplane.
PACIFIC AND SOUTHWEST PACIFIC AREAS

1. In his operations summary for the period 1100 September 25 to 1100 September 26, GCT, General MacArthur reports no change in the ground situation in the Efogi area. Allied air attacks were made on shipping and the airdrome at Rabaul, on the airdrome at Buna, on enemy shipping in the Trobriand Islands. One small enemy merchant vessel in the Trobriands was destroyed; a vessel at Rabaul was probably hit, and possible hits were claimed on another. The 37th enemy air raid on Darwin did no damage.

   Air reconnaissances confirmed sightings of enemy naval vessels already reported.

2. Operations in the South Pacific area, as reported by General Harmon for September 25, included an attack by our "flying fortresses" on 15 enemy vessels concentrated in the Shortland-Tonolai area. One heavy cruiser, hit on the stern, was left smoking. Japanese aircraft over the area refused combat with our bombers.

General Marshall reports that aerial reconnaissance of the harbor at Nagasaki confirms the earlier assessment by our heavy bombers in the attack September 27. Enemy anti-aircraft batteries in the harbor and next to the shipyard were knocked out by our heavy bombers. Our fighters have also scored sizable hits on a large merchant ship, on a partially damaged vessel used as a neutral ship, and on the wharf.

AGATHA TOWNSEND

General Marshall reviewed at 1200 September 27, that the Chinese Air Force reported by Willkie to be at Nalija. The Chinese have released control of the flight; the next leg will probably be to Chengtu.
WESTERN HEMISPHERE

A directive was issued organizing at Camp Hood, Texas, the Tank Destroyer Replacement and School Command.

EUROPEAN THEATER

The War Department notified General Spaatz that a combination of icing conditions and other factors dictate that the load of medium bombers en route to the European Theater be reduced by 2000 lbs. per airplane. He was asked if he can loan a Troop Carrier Group to ferry the equipment and personnel thus grounded.

AFRICAN-MIDDLE EASTERN THEATER

General Maxwell reports that aerial reconnaissance of the harbor at Benghazi confirms the serious damage caused by our heavy bombers in the attack September 22. One 8,000-ton merchant ship was blown up; hits were also scored on a small merchant ship, on a partially sunken vessel used as a loading pier, and on the mole.

ASIATIC THEATER

General Stilwell radioed at 0405 OCT, September 26, that the Chinese Air Force reported Mr. Willkie to be at Kuldja. The Chinese have assumed control of the flight; the next leg will probably be to Chengtu.
PACIFIC AND SOUTHWEST PACIFIC AREAS

1. For the period 1400 September 23 to 1400 September 24, CDT, General MacArthur reported that his artillery continued its harassing fire on the enemy positions in the Efogi area. Heavy bombers twice attacked shipping at Rabaul, scoring hits on two large vessels. His light bombers and fighters were aggressive in the Mubo and Kokoda areas of New Guinea.

2. For the period 1400 September 24 to 1400 September 25, CDT, General MacArthur reports that the Japanese thirty-fifth and thirty-sixth air raids on Darwin caused no damage. Allied bombers attacking Dilli were intercepted by four Zero fighters, two of the latter being shot down and one Allied aircraft badly damaged. U. S. fighters attacked storage huts at Wairopi (Kokoda area) and also destroyed a quarter of the bridge at that place. Our heavy bombers attacked the Buna airdrome.

3. Air reconnaissances on both days disclosed four possible heavy cruisers, three light cruisers, eleven destroyers, five gunboats and numerous auxiliary ships in the Buka-Faisi (Solomons area).

4. General Harmon, in his operations summary for September 24, reports a bombing attack on enemy shipping concentrated in the Shortland-Tonolai area. One cargo ship was hit and another damaged by near misses. In air combats over Rekata Bay, our "flying fortresses" destroyed three and damaged one of twenty-four attacking planes. One of our bombers is missing.

1. The Commanding General, AFRICAN COMMAND, authorized, in coordination with the Commanding General, Eastern Command, to establish, under his authority, two new subordinate commands in the Eastern Security, French, and Belgian sector, in order to extend the combined defense activities and to keep as a minimum the personnel for material, as well as the need for personnel training facilities to those constituted.

2. General Arnold reports that the Japs have reported to him the subject of air and naval attacks to Africa, via British and Australian.
GENERAL

Commanding Generals of overseas commands and forces were notified that sick and wounded requiring immediate emergency treatment in the U. S. will be evacuated by the Air Transport Command. Requests, however, will be kept to a minimum. Admiral N. Patric should be interested in this item - C. H.

WESTERN HEMISPHERE

1. The Commanding General, Army Air Forces, was directed to organize from the First Bomber Command (which is to be inactivated) the First Anti-Submarine Army Air Command, with a minimum strength of 16 squadrons. This unit is to be charged with the destruction of hostile submarines and with the development of appropriate means to this end.

2. The War Department directed General Andrews to delegate to the Commanding General, Puerto Rican Department, authority to deal directly with appropriate military authorities in the Dominican Republic, Haiti, and Cuba, in order to effect more direct coordination of defense activities, and to keep to a minimum the demands for material, as well as the need for permanent training missions to these countries.

3. General Bradley reports that the Russians have approved the flight of Mr. Wendell Willkie to Alaska, via China and Siberia.
AFRICAN—MIDDLE EASTERN THEATER

1. General Maxwell was notified of approval of the U. S. Army project for development and operation of railway, motor transport and port facilities in the Persian Corridor. Brigadier General Donald H. Connolly has been selected to command the expanded Persian Gulf Service Command, which will include the new project.

2. To relieve the freight congestion existing at points of call, the War Department informed General Maxwell that arrangements are being made to utilize the entire cargo capacity of all combat airplanes flying from the U. S. to the Middle East.

PACIFIC AND SOUTHWEST PACIFIC AREAS

1. In his operations summary for September 22, General Harmon reports air reconnaissances by our "flying fortresses" from Espiritu Santo and Guadalcanal during which three enemy submarines were sighted in the area northeast of Malaita Island. One was attacked with negative results.

2. On September 23, a bombing attack was made on the Japanese seaplane base at Rakata. Continued air reconnaissances disclosed two cruisers, one destroyer, and two submarine tenders at Shortland Harbor. One enemy plane of five encountered over Manning Strait was destroyed, with no loss of American aircraft.

1. Authorization was granted for the construction for the Army Air Forces of an airfield, with necessary adjuncts, at Great Swan Island.

2. The Western Defense Command reports that one of our pilots attacked two tents on Segula Island on September 22. This is the first indication of the presence of the enemy on Segula Island and has not been confirmed.

EUROPEAN THEATER

A hostile plane observed over Hafnarnes, Iceland, on September 23 was damaged by machine-gun fire from the ground.

AFRICAN-MIDDLE EASTERN THEATER

1. General Fitzgerald was directed to make necessary preparations for the erection of P-40 fighter airplanes at Lagos with the aid of certain skilled personnel to be sent by General Maxwell, and others of the 8th Air Depot Group due to arrive shortly. General Maxwell was instructed to release for this project 70 competent erection men from Gura.

2. The Army Air Forces and the Services of Supply were directed to move the 79th Fighter Group to Cairo, Egypt, by the fastest practicable means.

3. The War Department informed the Commanding Officer at Ascension
Island of the departure from Dakar of the Vichy French motor ship "Cephee", carrying rubber, and of Navy intentions to assist the British in intercepting this ship, if it is unescorted. He was directed to cooperate with the Navy in its search insofar as is compatible with his mission of defending his own airfield, but not to attack the ship.

PACIFIC AND SOUTHWEST PACIFIC AREAS

1. In his operations summary for the period 1400 September 21 to 1400 September 22, CCT, General MacArthur reports that land operations in the Efogi area were limited to patrol activity. Bombing attacks were made on the airfield at Buka, shipping and the airfield at Rabaul, the Buna airfield and barges and boats nearby, and ground targets in the Kokoda area.

The usual reconnaissances were made, seven cruisers, seventeen destroyers and other ships being reported in the Buin-Faisi (Solomons) area.

2. For the period 1400 September 22 to 1400 September 23, CCT, General MacArthur reports that his artillery fire checked the southward movement of the Japanese in the Efogi area. Our "flying fortresses" bombed the airfield at Buna, Allied fighters attacked barges along the Buna coast, and the Buna airfield, greatly reducing the volume of anti-aircraft fire in that area. Our fighter planes also attacked the Buna-Kokoda trail. One Australian fighter airplane is missing.

Air reconnaissances of the Solomons, eastern New Guinea, and Timor areas were continued.
1. The Commanding General, Army Air Forces, was directed to

instruct the Commanding General in the Southern Defense

Command the 3rd Fighter Group, new junior officers, airplanes and
equipment to be made available to the 3rd Fighter Group, new junior officers, airplanes and
equipment. An order to withdraw the 3rd Fighter Group from the organization
of the Southern Defense Command was taken in order to bring the

army into line with that already
determined.

2. The Secretary of War, Mr. Stimson, was directed to ensure

equipment for the 3rd Fighter Group, new junior officers, airplanes and equipment will be made available to the 3rd Fighter Group, new junior officers, airplanes and equipment for the 3rd Fighter Group, new junior officers, airplanes and equipment.

3. Orders have been issued for the movement of the Commanding

General, South Atlantic Wing, Air Transport Command, to shuttle

planes to and from the 3rd Fighter Group, new junior officers, airplanes and equipment in Brazil. The movement will be accompanied by U.S. Army instructors, who will be armed and equipped by Brazilian troops.

4. The 3rd Infantry Division left the Southern Defense Area

by rail and motor for Camp Shely, Montana. The permanent change

in station. The former station was Camp Holmes, Texas.
WESTERN HEMISPHERE

1. The Commanding General, Army Air Forces, was directed to transfer from the Caribbean Defense Command to the Western Defense Command the 53rd Fighter Group, less junior officers, airplanes and equipment. He was also directed to withdraw the 9th Heavy Bombardment Group (less personnel, airplanes, and equipment) from the organization of the Caribbean Defense Command. These measures were taken in order to bring the actual organization into conformity with that already authorized.

2. The Assistant Chief of Staff, G-3, was directed to conduct amphibious training of units on such scale that at any moment there will be not to exceed five divisions in readiness for amphibious operations.

3. Orders have been issued for the shipment to the Commanding General, South Atlantic Wing, Air Transport Command, of fifty-five .50 caliber anti-aircraft machine guns and eighty .30 caliber machine guns for the protection of air bases at Belem, Natal, and Recife, in Brazil. These guns will be accompanied by U. S. Army instructors, but will be manned ultimately by Brazilian troops.

4. The 31st Infantry Division left the Louisiana Maneuver Area by rail and motor for Camp Shelby, Mississippi, for permanent change of station. Its former station was Camp Bowie, Texas.
AFRICAN-MIDDLE EASTERN THEATER

1. General Fitzgerald was informed that the War Department agrees in principle that the installations and improvements made by our forces at Pointe Noire are to remain the property of France after the war, without any compensation therefor.

2. General Maxwell reports an attack at dusk, September 22, on Benghazi harbor by heavy bombers of the U.S. Army Air Forces. An oil storage dump or a tanker was believed hit, as large fires and a heavy smoke cover lasting three hours resulted from the raid. The smoke was so dense that it interfered with a later RAF heavy bomber attack on the same objective.

PACIFIC AND SOUTHWEST PACIFIC AREAS

General Harmon reports for September 21 that the dock area at Gizo and the seaplane base at Rekata were attacked by heavy bombers, heavy antiaircraft fire being encountered at the latter objective. Routine reconnaissances were carried out from Espiritu Santo and Guadalcanal Island.

ASIATIC THEATER

General Bissell reports an attack on the airfield at Myitkyina on September 19 by U.S. medium bombers operating from Dinjan. The airstrip was protected by heavy anti-aircraft fire.

PACIFIC AND SOUTHWEST PACIFIC AREAS

In his operations summary for the period 1400 September 20 to 1400 September 21, GCT, General MacArthur reports the consolidation of Allied positions along Imita Ridge in the Efogi area, and considerable offensive patrol activity. Allied air attacks were made on Buka airstrip, and on bridges and huts along the Buna-Kokoda trail. In the enemy's 32nd raid on Port Moresby, twenty-seven bombers escorted by ten Zero fighters dropped their bombs in the scrub, causing no casualties or damage.

Two U. S. medium bombers, operating from Dinjan on September 18, damaged the airdrome at Tingka (20 miles southwest of Lunglei on the Burma Road) and destroyed two buildings. On their return trip these bombers attacked an enemy barracks at Namkham, and river shipping near Shwebo and Katha.

PACIFIC AND SOUTHWEST PACIFIC AREAS

1. In his operations summary for the period 1400 September 18 to 1400 September 19, GCT, General MacArthur reports no change in the ground situation in the Efogi area. Allied air attacks were made on the airdromes at Buka (Solomon Islands) and Lae, on shipping off eastern New Guinea, and on enemy installations in the Buna-Kokoda area.

   The usual air reconnaissances were continued.

2. For the period 1400 September 19 to 1400 September 20, GCT, General MacArthur describes an attack by six light bombers along the Buna-Kokoda trail, and an attack by twelve fighter planes which damaged
installations and set fire to a supply dump in the Kokoda area. Allied fighters also attacked five barges and a tug at Lae, probably destroying all.

There was no change in the ground situation in the Efogi area where patrol activity continued.

3. In his operations summary for September 20, General Harmon reports a low altitude attack on the harbor and docks at Gizo with explosives and incendiaries. Air reconnaissances of the Solomons area were continued from Espiritu Santo and from Guadalcanal Island by heavy bombers.

EUROPEAN THEATER

The War Department amplified previous general instructions to General Eisenhower relative to the maximum use of British items for the supply of U. S. forces, as follows:

Needed items of food may be procured locally if available and if replacement from the U. S. is not required. Where replacement from the U. S. is required, procurement from British sources is authorized (a) where the replacement is to be made in raw materials less bulky than the finished product, (b) when needed in an emergency for a task force, (c) where desirable to reduce spoilage or loss of British reserves, (d) where special agreement has been reached between the European Theater of Operations and the War Department. British wheat meal flour may be used, replacement to be made in the form of wheat from the U. S.

Needed items of clothing, equipment, or other supplies may be procured from British sources, where no replacement from the U. S. is required, or where prior agreement has been reached between the European Theater of Operations and the War Department on each specific case.

AFRICAN-MIDDLE EASTERN THEATER

1. General Brearley reports that seventeen airplanes of the U. S. Army Air Forces attacked shipping in the harbor at Benghazi, September 16. Hits were claimed on two vessels, which were seen burning, and on two wrecks used as unloading piers. All aircraft returned safely.

2. Colonel Baldwin reports that the American heavy bomber which sank a submarine on September 16 sank or badly damaged another about 330 miles northeast of Ascension Island on September 17.
ASIA TIC THEATER

General Bissell reports sorties by two U. S. medium bombers from Dinjan, September 16.

PACIFIC AND SOUTHWEST PACIFIC AREAS

1. In his operations summary for the period 1400 September 16 to 1400 September 17, OCT, General MacArthur gives an estimate of the Japanese naval strength in the Buin–Faisi area (Solomons) as five cruisers, eleven destroyers, one possible aircraft carrier, two seaplane tenders, and four medium cargo vessels, this information being based on reconnaissance and on reports from that area. Other reconnaissances included New Britain and eastern New Guinea.

No change was reported in the ground situation in the Efogi area. Allied air attacks were made on Rabaul, where fires visible for thirty miles were started, on the Sanananda–Buna area, where fifteen barges were destroyed or damaged, and on Salamaus, where a wrecked merchant vessel was set afire by a direct hit.

A raid on Port Moresby by one unidentified hostile airplane did no damage.

2. General MacArthur was informed that 70,000 sets of jungle warfare clothing and equipment are to be furnished for the use of U. S. troops in his area.
THE DEPARTMENT

The way should be kept open for the departure of the 36th Infantry Divisions from Spain, Morocco, Tunis, for the North African Port of Maleme, for shipment overseas.

The designation of the 36th Infantry Division (divisions) was changed to the 36th Infantry Division (regimental).

Operations were continued by the 16th Airborne Division, from 9th to 19th, at Port Said, Suez, and at the port of Alexandria.

Directives were issued for the movement of the 82d and 101st Airborne Divisions from Camp Claiborne, Louisiana, and Fort Benning, Georgia, to Fort Bragg, North Carolina for permanent change of station.

AFRICA-MIDDLE EASTERN THEATER

General Brereton reports attacks by U. S. aircraft on shipping and dock facilities in Suda Bay, Crete, on September 14. Direct hits were claimed on one surface vessel, which was later observed burning. Bombs were observed exploding on the docks, but the results could not be determined. All of our airplanes returned safely.

PACIFIC AND SOUTHWEST PACIFIC AREAS

1. In his operations summary for the period 1400 September 15 to 1400 September 16, GCT, General MacArthur reports heavy enemy pressure along the whole front in the Efoji area. Allied positions were established along Imita Ridge, north of Uberi. Allied air attacks were made on air-dromes at Buka, Gasmata, and Rabaul, on enemy barges near Buna, and on the Efoji area.
Air reconnaissances were continued over the Solomons, New Britain, and eastern New Guinea.

2. General Harmon reports for September 16 extensive air reconnaissances from Espiritu Santo. Gizo, in the Solomon Islands, was bombed twice, a total of 13 three-hundred-pound bombs being dropped on the docks and housing area. Thirty Japanese bombers and fighters were sighted five miles north of Gizo. Rekata Bay, Santa Isabel Island, was successfully strafed, hits being reported on oil drums, installations, and one enemy airplane on the beach.

Three Army fighter airplanes, and six pilots, are now on Guadalcanal Island supporting the Marines.

A general staff report for September 16 cited seven "Flying Fortresses" armed with bombs on an enemy convoy of the TM79X0's and two transport ships. The convoy was located west of the Solomons Islands. Possible hits by land-based aircraft resulted in damage. Two enemy fighters were shot down by a "Flying Fortress" on reconnaissance.
AFRICAN-MIDDLE EASTERN THEATER

A heavy bomber on a combined rescue-combat mission sank a large enemy submarine September 16, 280 miles northeast of Ascension Island.

PACIFIC AND SOUTHWEST PACIFIC AREAS

1. In his operations summary for the period 1100 September 14 to 1100 September 15, CCF, General MacArthur reports the arrival of three fresh Australian battalions in the Owen Stanley Mountains battle area. Three RAAF Haidsons scored one direct hit on the stern of a ship at Saumlakki, Tanimbar Islands, one bomber being shot down. Eleven B-25's attacked enemy barges and supply installations in the Buna area. The majority of the bombs hit in the target area although the results were not observed. Ten to fifteen Zeros intercepted an attempted attack by four "flying fortresses" on shipping at Rabaul; one Zero was shot down. Air reconnaissances were made of the Solomons, Ambon, Bismarck Archipelago, and eastern New Guinea areas.

2. General Harmon reports for September 14 that seven "flying fortresses" dropped 28 five-hundred pound bombs on an enemy convoy of two battleships, seven cruisers, six destroyers and two transports or cargo vessels encountered east of the Solomon Islands. Possible hits on two battleships resulted. One "flying fortress" is missing. Two enemy fighters were shot down by a "flying fortress" on reconnaissance.
On September 15 a "flying fortress" bombed Rekata Bay, Santa Isabel Island, with 10 hundred-pound bombs, silencing two gun positions and hitting a hostile seaplane on the water.

Reconnaissances were made from Espiritu Santo and from Guadalcanal Island during the period of these reports.
General Doolittle reports a successful low-altitude attack on Tokyo by planes from the 22d Air Force, September 16. Twelve heavy bombers and 20 fighters bombed and strafed a number of shore installations.

Nine large anti-aircraft guns were destroyed, along with many of the largest and heaviest naval craft based in the port. The second attack, of which 6 of which were in the harbor, were successful. On shore, the submarines base and shore installations were bombed and strafed reportedly, and large supplies were destroyed. Heavy casualties were reported.

General Doolittle reports extensive operations during the night of September 15-16 by heavy and medium bombers of the 22d Air Force. Shippping and dock facilities were attacked at Nagoya, and enemy anti-aircraft fire at Yokosuka. Medium bombers attacked several landing grounds. 2,000 people of houses were stripped, and many fires and explosions resulted. Four medium bombers are missing as a result of heavy anti-aircraft fire and strafing activity.
WESTERN HEMISPHERE

General Butler reports a successful low-altitude attack on Kiska by planes from the 11th Air Force, September 14. Twelve heavy bombers and 28 fighters bombed and strafed shipping and shore installations. Three large cargo vessels were hit, 2 mine sweepers sunk at the harbor entrance, 2 enemy planes shot down, and one 4-engine patrol craft burned on the water. Three enemy submarines on the surface, 2 of which were in Kiska harbor, were shelled by our fighter craft. On shore, the submarine base and camp installations were bombed and strafed repeatedly, one large supply tent exploding after being shelled. Enemy casualties are estimated at 500. Our losses consisted of 2 fighter planes which collided in mid-air while attacking a Jap Zero fighter.

AFRICAN-MIDDLE EASTERN THEATER

General Brereton reports extensive operations during the night of September 13-14 by heavy and medium bombers of the U. S. Army Air Forces. Shipping and dock facilities were attacked at Bengazi, and enemy installations at Tobruk. Medium bombers attacked enemy landing grounds. 158,000 pounds of bombs were dropped, and many fires and explosions resulted. Four medium bombers are missing as a result of heavy antiaircraft fire and searchlight activity.
PACIFIC AND SOUTHWEST PACIFIC AREAS

1. In his operations summary for the period 1100, September 13 to 1100, September 14, GCT, General MacArthur reports an attack by one Allied light bomber on Efogi, and attacks by twelve RAAF Hudsons on small cargo vessels at Saumlaki, Tanimbar Islands. Reconnaissances were made of the Solomons and eastern New Guinea areas.

2. General Harmon reports for September 12 that air reconnaissances were made from Espiritu Santo and from Guadalcanal Island, enemy naval movements being reported. Attempts made to attack a convoy of enemy warships and transports and an enemy aircraft carrier were unsuccessful because of weather.

3. For September 13 General Harmon reports continuation of the reconnaissances from Espiritu Santo, and the probable destruction of five Japanese airplanes by our heavy bombers.

4. Generals Harmon and Emmons were notified of the assignment to the South Pacific Area of a heavy bombardment squadron from Hawaii.

General Bradley reports from Moscow that the maximum initial capacity of the northern ferry route is eighty fighters, fifty light bombers, and twelve medium bombers per month, during September and October.

PACIFIC AND SOUTHWEST PACIFIC AREAS

1. General Harmon reports agreement between Admiral Ghormley and himself on the location at Bora Bora of the fighter aircraft assembly depot for the South Pacific Area.

2. General Harmon reports for the period September 3 to September 11, inclusive, that reconnaissance was maintained to a distance of 850 miles from Espiritu Santo and Efate, enemy dispositions being reported. Unsuccessful attacks were made on enemy warships, but effective support was given the operations of a Marine raider battalion at Tasunboko, Guadalcanal Island. Five Japanese fighters were destroyed and three enemy landing barges sunk, with no reported loss of U. S. aircraft.

3. In his operations summary for the period 1400 September 12 to 1400 September 13, GCT, General MacArthur reports no change in the situation in the Efogi area, although patrol activity by both sides has been heavy. RAAF bombers attacked two small enemy cargo ships in the Tanimbar Islands area, scoring a direct hit on one. Two enemy bombers
at Lae were destroyed on the ground in a raid by fourteen medium bombers, hits also being obtained on the runways and dispersal areas. Our bombers attacked enemy shipping off New Britain.

ASIA-TIC THEATER

General Bissell reports that an enemy twin-engine observation airplane was shot down by an American fighter over Kunming, September 8. Two fighters on reconnaissance attacked a 200-foot steamer south of Myitkyina, September 10, leaving the steamer out of control. Several buildings at Mogaung were destroyed on September 10 when a medium bomber attacked the railroad yard there. Another medium bomber attacked the railway junction northwest of Katha, September 11, destroying the railway track for 100 feet, also destroying a considerable number of freight cars and starting two fires.

PACIFIC AND SOUTHWEST PACIFIC AREAS

1. In his operations report for the period 1100 September 10 to 1100 September 11, OCT, General MacArthur states that no change has been
reported in the situation near Efoği. Successful Allied air attacks
were made on villages in the Efoği area, on Buna, and on two destroyers
northeast of Normanby Island. One destroyer was left down by the stern
and burning.

The usual air reconnaissances were continued.

2. For the 24 hours ending 1400 September 12, 1942, General
MacArthur reports enemy dispositions learned from aerial reconnaissances
of the eastern New Guinea, Solomons, Trobriand, Goodenough, and Deboyne
Islands areas.

Allied forward positions, 12 miles south-southwest of Efoği,
were subjected to continued enemy pressure, September 11. The enemy
airstrip at Buna was heavily bombed and strafed, September 12, by four
flights of Allied airplanes, which secured hits along the runways and
dispersal areas, and started fires visible for 30 miles. Seventeen
enemy aircraft on the ground were considered destroyed. One "flying
fortress" was shot down by antiaircraft fire.

The Sotteville marshalling yards at Rouen were successfully attacked from high altitude on September 5 by thirty "flying fortresses", escorted by four RAF fighter squadrons. Twelve light bombers escorted by U. S. and RAF fighters made a diversion raid on the docks at Le Havre. All aircraft returned safely.

AFRICAN-MIDDLE EASTERN THEATER

General Maxwell reports that an attack by the 4th New Zealand Division on the withdrawing Axis forces on the night of September 3-4 held its ground against three counterattacks on September 4 and permitted other Allied units to close in. American tank crews were in action during this period. Damage to Axis motor transport is now believed critical.

American heavy bombers have taken over the mission of intercepting a convoy known to be forming at Taranto and Brindisi, the Axis having found the sending of single escorted vessels too costly. Malta is assisting with fighter sweeps over Sicily and has torpedo planes ready for attacks on shipping along the Greek coast.

PACIFIC AND SOUTHWEST PACIFIC AREAS

1. General Harmon reports for the period August 28 to September 2 that reconnaissances were carried on to a depth of 800 miles from Espiritu Santo, positions of enemy vessels being reported. A Japanese light cruiser and a tanker were crippled by bombing attacks.
2. General Harmon reports that Auckland, New Zealand, has been designated as the destination of the 43d Division.

3. General Harmon was notified of War Department approval of the issue of common supplies, other than major items of equipment, to such forces as New Zealand air units operating with American units in the South Pacific area, on a basis of reimbursement, provided that mutually agreeable arrangements can be made.

4. General MacArthur reports for the period 1100 September 3 to 1100 September 4, GCT, that air reconnaissances were made of the Solomon Islands, eastern New Guinea, and D'Entrecasteaux Islands areas. Six RAAF fighters attacked the Milne Bay area with unobserved results.

MATTER
WESTERN HEMISPHERE

1. The Northwest Service Command was created, effective September 2, with headquarters at White Horse, Yukon. In this Command are combined all activities of our Army in British Columbia, Alberta, Yukon and MacKenzie, together with the operation, supply and construction activities connected with the White Pass and Yukon Railway, pipelines, and the new highway. The Commanding Officer, initially Colonel James A. O'Connor, C.E., will have the same authority as that of Commanding Generals of Service Commands in the U. S. so far as applies to the Army of the United States in the territory specified.

2. Agreement has been reached with the USSR whereby the U. S. is to furnish, between September 10 and 15, 10 transport airplanes to be operated by Russia, for bringing Russian ferry pilots to Fairbanks. A maximum of 95 officers and 55 men at any one time is estimated as the size of the Soviet transient crew contingent. The exact number of fighters, light bombers, and medium bombers to be ferried monthly over the northern route is still under discussion. The Russians have requested that a maximum of the fighters furnished be P-39's, about which they are very enthusiastic.

EUROPEAN THEATER

General Spaats was directed to utilize the authority vested in the Theater Commander and make use to the maximum, in appropriate grades, of
qualified American civilian pilots and of all qualified Eagle pilots and other Americans with the RAF, in order to augment his force.

AFRICAN-MIDDLE EASTERN THEATER

On September 2, our Air Force units, in cooperation with the RAF, continued their operations, fighters and medium bombers attacking concentrated motor transportation and heavy bombers attacking Tobruk. Messages of appreciation were sent by the British Air Officer Commanding the Western Desert to the 12th Bombardment Group and to the 57th Fighter Group.

American air support continued on September 3.

On September 4, our Air Force units dropped 104,000 pounds of bombs, medium bombers and fighters attacking enemy motor transportation and landing fields, while heavy bombers sank two of a convoy of three Axis merchantmen in the Mediterranean, leaving the third afire. General Maxwell comments upon the effectiveness of the bombing of enemy vehicles which display acute sensitiveness upon the approach of our aircraft.

PACIFIC AND SOUTHWEST PACIFIC AREAS

In his operations report for the period 1400 September 2 to 1400 September 3, GCT, General MacArthur gives enemy air and naval dispositions, as revealed by air reconnaissances of the Solomons, Coral Sea, and Timor areas.

Attacks were made by Allied aircraft on Buka, Kieta, the Mubo (Salama) area, the Salama airdrome, and the Kokoda area.
