SECRET
I. Northwestern Pacific

An enemy force of approximately 300 officers and men armed with rifles and bayonets counter-attacked our positions at the head of Chichagof Valley at dawn May 29. This force penetrated one battalion of infantry and attacked a second battalion and rear regimental command post. Elements of the enemy continue to work their way through and cut our communication wires at the head of Sarana Valley. A reserve force subsequently mopped-up enemy units which had penetrated this area and total enemy casualties are reported as 270 known dead. Only scattered snipers remain from this thrust.

At 0530 W May 30, another counter-attack was attempted by enemy troops against our right flank S. of Lake Cories. An additional 50 Japs were reported killed and hand to hand fighting continues.

The afternoon of May 30, our troops were reorganizing for the advance down Chichagof Valley.

U. S. air operations have been suspended because of adverse weather.

Our forces continue attacks against isolated enemy positions on the N. and E. slopes on the S5 tip of the fishhook-shaped ridge on Attu. Enemy pockets in the area W. of Sarana Pass are being liquidated.

II. Southwestern Pacific

Eight TBF's bombed Munda May 28. Adverse weather forced the abandonment of a large mission to contact enemy shipping in the Kolumbangara area.

A B-24 on reconnaissance sighted three enemy AK's and two DD's in the Kahili area, May 28.

(B) New Ireland

Photographic reconnaissance May 28, reported two 1,500-ton Japanese merchant vessels, one submarine chaser and one coaster 20 miles off East Cape, heading toward the Solomons. Photographs show a new 50x1,400 yard landing strip under construction at samo (5S New Ireland).

(C) New Britain

Four B-24's and six B-17's bombed enemy airfields at Newak, Boram and Dagus, May 28. Sanger Village (56 miles SE of Newak) was also strafed.

Six A-20's were scheduled to attack Salamaua May 28, but only one plane reached the target area and bombed a supply dump at Kela Point.

An enemy convoy of 4 medium merchant vessels, one DD and a gunboat was sighted May 28 about 90 miles NW of Hansa Bay on a 150 degree course.
(2) Australia

I. Northwestern Pacific  
During the late afternoon of May 27, and the morning of May 28, our forces in the Chichagof area, Attu, pushed to the highest point of a steep slope on the fishhook-shaped ridge and reduced a strong enemy position. An assault was carried out on enemy positions on the ridges at the E. end of the fishhook extending to Chichagof Valley. This attack was only partially successful and enemy resistance continues on these slopes.  

Our northern troops are covering the ridges E. of the E. arm of Holts Bay to prevent enemy troops from infiltrating toward Holts Bay. Our planes assisted these operations on May 27 but no attacks were made during the morning of May 28, because of bad weather conditions.

II. Southwestern Pacific  
(A) Solomon Islands  
A force of 8 F-40's and 8 F-39's bombed Munda May 28, starting one fire. Weather conditions were unfavorable and no other details were reported.

(B) New Britain  
Photographs of Rabaul Harbor, May 27, reveal a total of 36 vessels, including 1 CL, 5 DD's, 5 SS's, and 26 AP/AR's of approximately 118,000 tons.

Direct hits were scored on 2 grounded aircraft and other large explosions and fires were observed in the area. A/A fire was encountered and 1 Beaufighter was lost.

An B-24 on reconnaissance bombed Finshafen and Seidler with unobserved results.

Photographs taken May 27, of Newak, Bora and Dagua airfields reveal a total of 75 enemy planes.

The morning of May 28, an enemy convoy of 5 5,000-ton AK's, 2 DD's, and 1 smaller vessel was sighted at a point approximately 75 miles SE of Newak. The ships were heading SE.

I. Northwestern Pacific

Combined units of our Northern and Southern forces at Attu advanced slowly along the ridge W. of Chichagof Valley during the night of May 26-27, and the following morning. Several important gains were made on the fishhook shaped ridge after artillery and mortar fire were concentrated on the enemy strong points. Much hand to hand fighting with bayonets, grenades, and rifle butts was necessary to gain these positions. The right flank of our Southern forces in Chichagof Valley are moving slowly forward on a line about 400-yards S. of Lake Cories, while strong patrols are operating to the S. shore of the lake and along the high ground E. of the lake to a point which commands the position between the two lakes.

In the area between Chichagof and Cape Khlebnikof, our scouts reported only scattered evidence of the enemy except for one strong point on the crest of the high ridge E. of the center of Lake Cories.

On May 26, a total of 9 B-24's, 11 B-25's, and 12 P-38's in 5 attacks dropped over 30-tons of bombs on enemy positions in the Chichagof area. 3 attack missions consisting of 9 B-25's and 16 P-40's scored hits on the main camp area, Gertrude Cove, North Head, and the runway at Kiska. 2 unidentified floatplanes were reported over Amokita the same afternoon, but this report has not been confirmed and our fighters were not able to intercept the planes. On May 27, the area between the 2 lakes in Chichagof Valley, was bombed and strafed by our attack planes, and 4 P-40's bombed the main camp at Kiska.

II. Southwestern Pacific

(A) New Britain-New Ireland

A B-17 on reconnaissance strafed the coastal area NW of Arawe May 25.

At 1020 K May 27, 1 of our reconnaissance planes sighted an enemy convoy of 6 5,000-ton AK's and 2 PC's at a point approximately 90 miles SW of Kavieng and heading toward Rabaul.

(B) New Guinea

The Morobe area was attacked by enemy planes during the early morning of May 26, and 16 bombs were dropped but all were reported to have fallen in the sea, and no damage resulted.
During the morning of May 26, 4 B-24's bombed the airdrome at Madang with unobserved results. At the same time, 8 Beaufighters strafed an island S. of Madang.

Enemy positions in the Mubo area were bombed and strafed by 5 A-20's the same day.

(C) N.B.I.

Langgoer airfield (Kai Islands) was bombed by 1 B-25 causing explosions and fires. 3 other B-25's set out on the same mission but returned because of bad weather.

On May 26, a coordinated attack of our Northern and Southern forces along the ridge W. of Chichagof Valley, gained a foothold on the fishhook-shaped ridge approximately 2 miles S. of Attu Village. The main force of the enemy is believed to be firmly entrenched in this area.

The right flank of our Southern forces is opposed by the enemy dug in W. and S. of Lake Cories, and between Lake Cories and Lake Canira. A total of 12 B-24's, 12 B-25's, and 14 P-38's bombed and strafed enemy positions and 1 of our surface vessels bombarded shore installations throughout the day with the result that all buildings in the Chichagof area have been destroyed.

The same day, 16 P-40's attacked the Kiska main camp and Little Kiska scoring hits on enemy installations.

II. Southwestern Pacific

(A) New Britain

Single Allied bombers attacked barges off Talasea and Cape Gloucester airstrip during the late afternoon and evening of May 24, and the following morning a Catalina strafed buildings and enemy positions in the Guadalcanal area.

(B) New Guinea

Kainantu (80 miles NW of Lae), was bombed by 8 Japanese planes May 24, and the following day, the emergency landing field at Chimbu (approximately 75 miles SW of Madang) was strafed by 6 twin-engined planes. There were emergency landing fields at both these places prior to the outbreak of the war.

During the night of May 23-24, 1 of our PT's sighted an enemy SS in Buon Gulf (approximately 30 miles E. of Salamaua), but the SS escaped.

Buildings at Finschhafen were strafed by a Catalina during the night of May 24, and the following noon, 1 B-24 bombed Madang. Results were not reported.

On May 24, a strong enemy pocket on the ridge to the W. of Chichagof Valley was reduced. The left flank of our Southern Forces joined by elements of our Northern Forces, moved to the high ground on the ridge while other forces cleared the area within 400-yards of Lake Carol. Strong patrols operated throughout the day in an effort to seek out enemy weak points.

A total of 8 B-24's, 11 B-25's, and 4 P-38's in five flights attacked enemy positions and dropped demolition bombs on designated locations and thoroughly strafed enemy installations and trenches. Fires were started in the Chichagof area where little activity was noted. No A/A fire was encountered, but 8 Allied planes crashed when returning to base.

U. S. reinforcements are moving in and heavy air support is planned for May 26.

II. Southwestern Pacific

(A) Solomon Islands

12 SBd's, 1 TBF, and 6 F4F's escorted by an additional 24 P47's attacked the Rekata area at 0645 L May 25. 12 1,000 and 1,000-1lb bombs were dropped and the area was thoroughly strafed causing large fires and explosions in the ammunition dump area. All Allied planes returned safely to their base.

Ten minutes later a force of 19 SBd's and 20 F4F's bombed and strafed wharves and barge anchorages at Ringi Cove (just W. of Vila).

(B) New Britain

Vunaksau, Lakunai, and Rapopo airfields and the seaplane base at Rabaul were bombed during the early morning of May 26 by 6 B-17's and 5 B-24's. Over 16-tuns of bombs were dropped at these targets causing large explosions and fires. 1 B-24 and 1 B-17 crashed on the return trip, but the crew of the latter is safe.

The afternoon of the same day, 7 B-25's dropped 35 500-1lb bombs on the runway and dispersal areas at Gasmat, but details were not reported.

(C) New Guinea

Buildings at Painschafen and villages in the vicinity were bombed 3 times by single Allied reconnaissance planes May 23-24. Results were not reported.

Before dawn May 24, direct hits were scored on the wrecked ship off Lae by A-20's causing explosions and fires.
Port Moresby was attacked at approximately the same time by 2 enemy bombers but no damage resulted.

Japanese Naval Activities
Summary as of 0800, May 26, 1943.

I. Northwestern Pacific

On May 23, and during the night of May 23-24, enemy troops were cleared from the Sarana Valley and the nose of the ridge at the right of the Chichagof-Sarana Pass, while our patrols advanced to the S. shore of Lake Corice in the Chichagof Valley. Other slight advances were made along the ridges on both sides of Chichagof Valley but our Northern Force has not yet captured the Holts Bay-Chichagof Pass.

The main force of the enemy has occupied the high ground S. of Chichagof Harbor and apparently intends to make a last stand in that area. Another stronghold of enemy resistance remains on the ridge to the NW of Chichagof Harbor about 1,200-yards NW of the head of the bay.

Additional details of the enemy air attacks on the afternoon of May 23 have been received. 6 P-38's intercepted the enemy formation of 16 bombers at about 10,000-feet. 4 bombers were definitely shot down in flames and a 5th was completely out of control. 7 other enemy bombers were probably destroyed as they were smoking and apparently out of control when last observed, and only 4 planes departed in formation. Neither our shipping or ground troops were attacked as the enemy jettisoned their bombs when our planes opened fire.

A Japanese communique claims that these air attacks sank 1 U.S. DD and seriously damaged another DD and a CL. They also claim that a Japanese SS in the same area seriously damaged a BB and a cruiser and slightly damaged 2 other warships.

II. Southwestern Pacific

(A) Solomon Islands

During the night of May 23-24, Kahili airdrome and the coastline from Buin to Toolei Harbor were heavily bombed for an hour by 14 B-17's and other B-24's. At the same time, 6 other B-24's hit the runways at Kahili and Bellale with 500-lb. bombs. An AK off Bellale was attacked with unobserved results.

The same night, a force of 10 B-17's carrying 1,000-lb. bombs was broken up by bad weather and the planes sought out various targets. Kahili and Bellale airdromes, Shortland Harbor area, Munda and Rekata were reported hit.

3 enemy planes raided our base at Guadalcanal the same night. 1 man was injured, but no other damage resulted.
(B) New Hebrides

1 enemy plane was over Espiritu Santa during the night of May 23-24, but no damage resulted, as bombs fell in the water.

(C) New Britain-New Ireland

The Rabaul-Lae shuttle S.S.'s were sighted on schedule off Cape Orford. The southbound S.S. passed at 0720 K May 23, and the northbound at 1500 K. This service has been in operation almost daily since the Bismarck Sea Battle, and the enemy vessels are reported sighted off Cape Orford at approximately the same time each day.

Before dawn May 23, 4 B-17's and 1 B-24 bombed the airdrome at Kavieng and scored 1 near miss on a medium AK in the harbor. Results were not observed.

The same day, single heavy bombers bombed or strafed Ubili, Arawe, Gasmata, and Cape Gloucester.

Shortly after noon, Gasmata was again hit by 4 B-24's. Interception was attempted by 10 enemy fighters, 2 of which were shot down.

(D) New Guinea

4 Beaufighters and 5 A-20's attacked enemy installations and small coastal craft in the Salamaua area May 23. Finschhafen was bombed that night by a Catalina. Results were not reported.

(E) N.E.I.

The evening of May 23, Dilli and Pleinfoi airdromes were each bombed by 2 B-25's, and the next night B-25's again hit Pleinfoi. Results were not observed.

During the late afternoon and evening of May 22, patrols of the Southern Force were mopping up the few remaining enemy pockets in the Sarana Valley, thus confining all enemy resistance with the exception of snipers to the Chicagof area.

During the night the left flank of our Southern Force met both W/G and probably AA fire in a drive along the N. ridge of Chicagof Valley and at the same time some progress was reported by our troops along the high ridge E. of Chicagof Valley.

A second enemy air raid was made at 1555 W. May 23 by 16 twin engined bombers which attacked our ground forces. 6 P-38's intercepted this force and shot down at least 5 enemy bombers. 1 P-38 was destroyed but the pilot is safe. Another P-38 is missing.

The main camp and SS base at Kiska were bombed May 21 by 6 B-24's and 6 B-25's but results were not observed.

On the return trip the same planes strafed 3 motor launchers in the Kai Islands and 2 of the launchers were set afire.

Japanese Naval Activities 
Summary as of 0800, May 20, 1943

I. Northwestern Pacific

The enemy stronghold on the top of the ridge of Massacre - Sarana Pass, which held out for 48 hours, was finally overcome during the afternoon of May 21. At the same time, it was reported that only snipers and small groups of enemy troops remained in the ridges on the north side of Sarana Valley.

During the night our forces continued strong patrol activity and heavy artillery fire on the nose at the right of the entrance to Sarana-ChicagoF Pass, and at 0730 W, May 22, our troops crossed the valley and 3 companies gained a foothold on the nose and were mopping up this strong enemy position. The enemy withdrew from this position to a new defense line approximately 3,000 yards south of ChicagoF Harbor.

Our troops along the ridge S.W. of ChicagoF Harbor are making a slow advance in the face of heavy enemy resistance. Other patrols are moving into the valley toward Attu Village and others are attempting to flank enemy positions on the right.

At 1600 W, May 22, a force of 12-15 twin engined enemy torpedo planes, which resembled Mitsubishi 97's, attacked 2 of our surface vessels but none of their torpedoes hit the target. Following the torpedo attack the same planes strafed the vessels but no casualties resulted. One Jap plane was shot down. Two (2) planes dropped by parachute 2 large packages to their troops in the ChicagoF area. Our air attacks were cancelled because of poor visibility and bad weather.

II. Southwestern Pacific

(A) New Britain

Before dawn, May 21, 6 B-17's bombed the airdromes at Vunakanau and Rabope starting large fires and causing explosions. 6 B-17's set out on this raid and 2 of them are missing.

During the night of May 20-21, 8 Beaufighters bombed and strafed Gasmata runway and camp area and fires were started. The following day 6 B-24's bombed the fuel dump area starting other fires. 15 enemy fighters attempted interception of which 3 were shot down and another probably destroyed. 1 Beaufighter is missing from the night attack.
A Catalina raided the airfield at Cape Gloucester during the night of May 20-21 and an explosion and fire resulted in a fuel dump.

(D) New Guinea

During the evening of May 20, our patrols, at a point approximately 6 miles W. of Salamaua, were forced to withdraw because of heavy enemy pressure, but 50-60 casualties were inflicted upon enemy troops while our losses were very light.

Five (5) enemy barges off the shore near Alexishafen were sunk and others forced ashore by 3 B-25's during the evening of May 20. 3 other barges off Cape Cetin (S. of Pinschhafen) were destroyed by the same planes.

Over Salamaua, approximately 20 enemy planes attacked 12 P-38's which were escorting an air transport to Nau. In air combat 6 of the enemy planes were destroyed, 5 others were probably destroyed and 2 were damaged while all our planes returned safely, although some were damaged.

Four (4) Bessafighters, on May 21, strafed enemy villages W. of Salamaua in support of our ground forces.

(C) N. E. I.

Habire airfield was bombed by 3 B-24's May 21, and 3 Dutch B-25's attacked Saumlaki. Explosions resulted in the stores area at Habire. Heavy A/A fire at Saumlaki shot down 1 B-25.

(D) Australia

During the night of May 20-21, 3 enemy planes were over Exmouth Gulf (N.W. Australia). Only 1 bomb was dropped which fell in the sea causing no damage.
I. Northwestern Pacific

On May 20, our Southern forces were continuing attacks toward Chichagof Harbor. The right flank of these forces had moved forward to clear the high ground at the entrance of the Chichagof-Sarana Pass, while the left flank was working slowly down the ridge toward the pass. The enemy was still in possession of the elevated ground at the south of the pass.

The enemy apparently was establishing defenses on the floor of Chichagof Valley, along the S. wall of the valley high up around the nose of the same ridge to the E. side of Sarana Valley, and across Sarana Valley at the head of Lake Nicholas.

Units of the South Force on the 21st, were moving through the Chichagof-Massacre-Sarana Pass from the S. with the main effort being made on the left flank, where an advance of about 2,000 yards was made along the high ridge over a series of shoulders, each fortified. On the right, our troops moved into positions on the nose at the junction of Sarana and Chichagof Valleys with troops and heavy equipment. The enemy key position for the Sarana-Chichagof Pass appears to be the upper slope of the spur between the two valleys. It is well fortified and dominates the head of both Sarana and Chichagof Valleys.

In the Northern area, our troops continued to advance over the sharp ridge SE of the Chichagof Harbor area. Considerable hand to hand fighting with bayonets and grenades was in progress.

On May 21, 18 P-36's in 3 flights dropped parachute fragmentation bombs on enemy positions in the Chichagof area and carried out strafing missions from an altitude of about 100 feet. It is reported that the whole of Chichagof Village, with the exception of the church and 1 other building, have been destroyed and a fuel dump has been set afire. AA fire is being encountered from the church steeple and nearby vicinity. Enemy troops were seen to be in fox-holes and deep slit trenches around Chichagof.

II. Southwestern Pacific

(A) Solomon Islands

During the night of May 20-21, 3 B-24's were sent on a harassing mission in the Kahili-Bellale area. Bomb hits were reported to have been made on the Kahili runway and on a searchlight position.

At Munda, work apparently was going forward on resurfacing the airstrip on May 20.

I. Northwestern Pacific

Our Holts Bay landing forces occupied the beach at the E. arm of Holts Bay the afternoon of May 17, and the enemy was reported to have withdrawn toward Chichagof Harbor. The following day, these forces had possession of the high ridge at the E. side of the E. arm of Holts Bay.

Our Southern forces attacking from Massacre Bay had advanced 2,200-yards up the pass toward the E. arm of Holts Bay by the morning of May 18, and during the afternoon our forces cleared this pass thus making contact with our Northern forces.

The enemy continued to hold the pass to Sarana Bay and orders were issued to drive the enemy from positions on both sides of this pass before a coordinated attack is launched against Chichagof Harbor by the Holts Bay-Massacre Bay forces May 19. Control of this pass will give us the best positions for artillery observation against Chichagof.

As of noon May 16, an incomplete report of casualties totaled 68 killed, 321 wounded and 62 missing.

I. Northwestern Pacific

On May 16, our landing forces in the Holts Bay area had occupied the whole beach of the W. arm and were attacking enemy positions in the high ground between the W. arm and the E. arm of the bay. The following day, enemy forces strongly counter-attacked in this ridge but our troops held and during the evening were in possession of this area.

The Massacre Bay landing forces were clearing out enemy positions in the pass which leads from Massacre Bay to the E. arm of Holts Bay, but our advance was very slow. Patrols were dispatched to flank an enemy nest on the W. of the pass. An unsuccessful attack was launched against enemy positions on the slope N. of the pass between Massacre Bay and Barana Bay where patrols report additional enemy entrenchments. Our surface vessels continued to bombard enemy positions and to cover our advance.

Air operations May 16 included a bombing attack by 12 P-38's on enemy positions in the E. arm of Holts Bay and on installations around Chichagof Harbor. The same planes effectively strafed barges and other targets in the Chichagof area. Heavy and medium bombers were over Attu but returned to their base without attacking because of poor visibility. 2 of these planes dropped bombs on Kiska on the return trip. Results were not observed.

Allied light surface vessels were patrolling the area between Kiska and Attu to prevent enemy reinforcements by submarine from Kiska.

I. Northwestern Pacific

On May 15, our troops in the Holts Bay area had established a line from a point 800 miles inland from the mouth of the North stream to a point 1,700 yards W. of the beach. At 1830 W., they were reported along the N. side of the South stream. Enemy troops were concentrated on a ridge between the two streams and were putting up stubborn resistance. On May 16, our troops were reported fighting on the peninsula in the center of Holts Bay.

Our forces which moved in at Massacre Bay by May 16 had cleared the mouth of the main pass and the lower part of the valleys to the left and right of the main pass where only a few enemy N/G positions remained. 6 dug-outs at the mouth of the main pass had been cleared and a strong foothold should be achieved here soon.

Patrols were already moving around the left flank in the Holts Bay-Massacre Bay pass (operating from the Massacre Bay side).

Air activities May 16, were curtailed because of fog and poor visibility. However, 6 P-38's bombed and strafed the area around the E. arm of Holts Bay and Navy scout bombers attacked the N. beach of the Sarana Bay area. On May 16, 3 attack forces of P47's attacked enemy positions in support of our ground troops, and P-38's strafed the ridge in the center of Holts Bay with good results. No heavy or medium bomber attacks were carried out because of bad weather.

I. Northwestern Pacific

By 0900 W May 15, little change had taken place in the positions of our ground forces, the only advance being a minor one to the NW of the West arm of Hiks Bay, where 2 BCT's and reinforcements had advanced to the stream at the W. head of the West arm of Holtz Bay with artillery support of our surface units. There was no report of the exact nature of resistance encountered but apparently our forces were not in close contact with the enemy. The commander in the Masacre Bay area reported that enemy action consisted of sniping and M/O fire from locations which were difficult to find and very hard to reach by artillery.

Our casualties were reported at 175 in the N. area by 0940 W May 14. Later figures are not available. Enemy strength has been estimated at about 1,500 men.

Unloading was continuing and by 1900 W May 15, 4 ships had been completely unloaded and others were well along.

Air activity continued light because of the weather. At 1433 W May 14, bombs were dropped between Holtz Bay and Chicagof Harbor by a B-24, but with unobserved results. A/A fire was encountered from the Chicagof area.

5 U. S. planes were missing from operations of May 14. A B-24 on a supply mission has not been heard from and 4 F4F's are missing.

On the afternoon of the 15th, the weather was reported slightly improved.

I. Northwestern Pacific

On May 13, enemy forces were able to make a small landing with approximately 150 men behind our Holts Bay line. A slight break in the weather allowed for some air support of our ground forces but the extent of the support has not been ascertained. Enemy barges loaded with troops and other enemy positions ashore were strafed by 9 P4Y’s permitting our ground forces to improve their positions. Our artillery on the W. arm of Holts Bay is in operation and is firing in cooperation with our surface vessels. The situation ashore is not available other than the report that positions for the most part remained unchanged. 1. Northwestern Pacific

On May 12, 6 air attacks were made on enemy positions at Attu by a total of 12 B-24's, 10 B-25's, and 24 P-38's. Hits were observed on both the S. and W. arms of Holts Bay. I. Southwestern Pacific

(A) Solomon Islands

Between 2109 L and 2230 L, April 21, 8 B-17's, 3 B-24's, and 7 TBF's heavily bombed Poporang Island (SE Shortland Islands). Several fires were started, 2 of which could be seen for 40 miles. 2 of the TBF's dropped bombs on an enemy AK E. of Mahili airdrome, and possible hits were scored. 2 enemy night fighters attempted interception which made accurate observation of results difficult. All our planes returned.

Cape Alexander (NE tip of Choiseul Island), was attacked twice by Allied planes April 21. A reconnaissance plane scored near misses on a radio station, and a force of fighters later strafed the area hitting radio installations and a supply depot.

(B) New Britain

A B-17 on reconnaissance April 21 bombed and destroyed a building at Ubili and later hit Gasmata runway, destroying a plane on the ground.

Another reconnaissance plane was intercepted by 4 enemy fighters NW of Rabaul. 1 enemy plane was shot down.

(C) New Guinea

A single enemy plane raided Morobe during the early morning of April 21. There was no damage to installations but a few casualties resulted.

The Saidor area was attacked by 2 B-17's the same day, but results were not reported.

Further reconnaissance reveals that there is no foundation for the existence of an enemy airfield at Teliat Point (45 miles NW of Finschhafen), as reported in yesterday's summary.

(D) N.E.I.

On April 21, Kaimana, Timika, Dobo (Arce Islands), and enemy positions in the Taninbar Islands were attacked by Allied planes. Results for the most part were unobserved.

Laga (N. coast of Timor), was attacked the same day by 3 B-25's causing fires.
(E) **Pacific Islands**

Nauru Island, W. Gilbert Islands, was heavily bombed April 21 by Allied bombers. Heavy damage resulted to enemy installations in spite of heavy A/A fire and intercepting enemy planes. 6 enemy fighters were shot down and 2 others probably destroyed, while all our planes returned.

5 enemy bombers attacked Funafuti, Ellice Islands, during the night of April 22-23. 2 casualties resulted and small fires were started, but damage was negligible.

II. **U.S. Submarine Reports**

A U.S. SS returning from patrol in the Southwest Pacific has reported sinking an 8,500-ton AK and possibly sinking a 6,600-ton AK.

Japanese Naval Activities
Summary as of 0800, April 16, 1943

I. Northwestern Pacific

It has now been estimated that the landing strip at Kiska, with a width of 150-200 feet, could be used to a very limited extent by April 19, with approximately normal operations about April 24, provided the present construction effort is maintained.

The strip on Attu can be completed June 15-30 if the present construction rate is kept up.

Attu was attacked by 8 heavy bombers, accompanied by 2 photo planes, on April 6. Because of heavy overcast, only 2 planes dropped bombs which landed between the new runway and the shoreline.

Kiska was attacked 10 times on April 16, 9 times from Amchitka and once from Adak. From Amchitka, 5 of the 9 attacks were made by 29 P-38's, and 4 by a total of 32 P-40's. From Adak the attack was made by 5 heavy bombers and 12 B-25's, accompanied by a photo plane. Bombs were dropped in all target areas and, in addition, some fighters strafed various targets.

II. Southwestern Pacific

(A) Solomon Islands

On April 16, both Kahili and Balola were attacked by 9 B-24's, 5 B-17's and 11 TBF's. 1 large and 5 small fires were started at Kahili and 2 fires were seen at Balola. In addition, 2 TBF's attacked shipping, scoring near misses on an AO and an AK.

All planes returned.

On April 16, the Kahili area was raided by P-39 planes. 3 enemy bombers and 3 enemy fighters were shot down. 1 P-39 has not returned.

The night of April 16, 2 enemy planes on individual runs bombed Guadalcanal. 3 men were wounded and a small fuel dump was set afire. One plane was claimed shot down by AA fire.

(B) New Ireland - New Britain

On April 16, photo reconnaissance at Kavieng showed 1 small AK there. In addition, a damaged CA was shown off Bougainville Island with tugs alongside. 1 wrecked and 1 sunken AK were observed as well.
On April 17, 2 enemy convoys were observed NE of Kavieng. One, 180 miles away, was composed of 2 DD’s and 3 AK’s, and the second, 270 miles away, consisted of 1 possible cruiser, 2 DD’s and 1 AK. The second was on a westerly course, but the direction of the first was not certain because the vessels were on different headings when observed.

Photographic reconnaissance at Rabaul on April 16, showed 46 ships including 7 DD’s, 2 AD’s, 6 small SS’s, 1 AS, 1 converted AVP, 4 PC, 2 AO and 24 AP/AX. At Vunakanau airdrome, 69 fighters and 9 bombers were seen (with incomplete coverage). At Lakunai 120 fighters, 4 transports and 13 bombers were observed and at momop, there were 36 bombers.

A possible new airstrip near Uibili was bombed by a B-17 and Gasmata was bombed by a Catalina on April 16. Both planes were on reconnaissance.

(C) New Guinea

Reconnaissance now indicates that 1 8000 ton AK was sunk and 1 gunboat was probably sunk on the Newak raid the night of April 15-16.

The morning of April 16, 9 B-24’s attacked Newak waterfront, and airfield, Madang and Lee airfields when they could find no shipping at Newak.

During the morning of April 16, and enemy convoy of 1 CL, 1 DD, and 2 AK’s was sighted 60 miles N. of Newak on a NW course.

2 enemy fighters were over Port Moresby during the day on April 16. They probably were on reconnaissance.

(D) N. E. I.

On April 16, Beucan (Timor) was bombed by 3 B-25’s. At about the same time 2 B-24’s bombed the dump area at Kaimana. 3 huge fires were started when a possible ammunition store was hit.

The afternoon of the same day, 3 barges on the west coast of the Arse Islands were strafed by a Beaufighter.

III. U. S. Submarine Reports

A U.S. SS returned from patrol in the Southwestern Pacific has reported a torpedo hit on a 2500 ton enemy AK and an unknown number of hits out of 3 torpedoes fired at a 5000 ton AK.
