1. ENEMY SITUATION AND OPERATIONS.

A. NORTH AMERICAN THEATER. Alaska: Nothing to report.

Atlantic: Approximately 50 submarines are operating in the Atlantic. Continued activity exists in the sea lanes around Nova Scotia and Newfoundland; heavy activity off the southern tip of Florida, moderation of activity around Cape Hatteras, New York and off Long Island, while enemy effort continues in the Gulf of Mexico, the Caribbean and the Middle Atlantic. Subversive activity: Nothing new to report.

B. LATIN AMERICAN THEATER. El Tiempo, the leading paper of the capital of Colombia, has come out in favor of declaration of war on the Axis. As this paper is owned by President Santos, its opinion will carry weight.

C. EUROPEAN THEATER.

1 (Eastern Europe). The Germans claim further gains against strong Russian defense at Sevastopol. Situation in the Kharkov and Kurak areas is confused. In the Leningrad-Kronstadt sector German shelling of the besieged area is reported: the bombing of Murmansk continues. It is possible that the long-awaited German offensive, apparently held up by a late rainy season in the north, is being launched over a limited area in the Ukraine, where the ground is sufficiently dry for large scale operation and where the morale of the German troops was suffering by the enforced waiting.

2 (Western Europe). Second RAF raid on Bremen June 27-28 by about 150 aircraft resulted in large fires observed despite heavy clouds. Unidentified planes sighted over Jan Mayen Island at 1335 June 28. Considerable movement of German air force personnel from Trieste area to Greece has been reported.

It is reported that the Nazi Gauleiter of Lorraine has ordered the deportation to Poland of 8,000 parents whose sons fled to avoid obligatory German army or labor service.

3 (Southern Europe). Italian parachute and ground troop movements to Crete and the Dodecanese reported.

4. AFRICAN AND MIDDLE EASTERN THEATER. In Egypt enemy has penetrated the vicinity of Fuka where heavy British rearguard action continues. Present indications are enemy progress is slowing and main British defense effort is expected along line extending from between El Daba and El Alamein on the coast north to the edge of Qatara.
Depression. Political unrest continues in Egypt but reassurance of Egypt's safety has been issued by both British military authorities and Egyptian Premier. Tobruk attacked on the night of the 28th by U.S. bombers. Ineffective AA, no interception; results not observed. Withdrawal from Matruh got excellent protection from RAF. Light bombers and fighter bombers kept well forward within ten or fifteen minutes flying time of targets. South Africa. No significant political unrest yet in evidence, despite severe South African losses at Tobruk.

a. **ASIATIC THEATER.** Nothing to report.

f. **SOUTHWEST PACIFIC THEATER.** Japanese are reported to be using native labor in construction work on airfield at Buka (Solomons). Of the 200 Japanese reported at Faidi 100 are said to have left for Tulagi on the 27th. In recent raid on Salamaua heavy AA fire from Bofors guns was encountered.

g. **PACIFIC THEATER.** Nothing to report.

h. **SUBMARINE ACTIVITY.** Submarines reported: 1 in Cape Canaveral area; 1 between Lurcher Shoals and Cape Cod; 1 between Portland and Cape Cod; 1 between Cape May and New York; 1 between Wilmington and Cape Lookout; 1 in Miami area; 1 in SW Gulf of Mexico; 1 in Trinidad-Barbados area; 1 at 52-30 N, 33-00 W; 1 at 51-30 N, 34-30 W; 1 at 50-00 N, 43-00 W; 1 at 47-00 N, 42-00 W; 1 at 46-00 N, 35-00 W; 1 at 56-00 N, 45-00 W; 1 at 45-00 N, 56-00 W; 1 at 45-00 N, 52-00 W; 1 at 44-00 N, 48-00 W; 1 at 47-00 N, 36-00 W; 1 at 40-00 N, 28-00 W; 1 at 39-00 N, 25-00 W; 1 at 37-00 N, 23-00 W; 1 at 40-00 N, 87-00 W; 1 at 39-00 N, 67-00 W; 1 at 37-00 N, 56-00 W; 1 at 38-00 N, 55-00 W; 1 at 35-00 N, 66-00 W; 1 at 33-00 N, 70-00 W; 1 at 40-00 N, 70-00 W; 1 at 36-00 N, 57-00 W; 1 at 37-00 N, 58-00 W; 1 at 35-00 N, 70-00 W; 1 at 35-00 N, 66-00 W; 1 at 36-00 N, 57-00 W; 1 at 37-00 N, 56-00 W; 1 at 35-00 N, 66-00 W; 1 at 34-00 N, 47-00 W; 1 at 33-00 N, 43-00 W; 1 at 28-00 N, 36-00 W; 1 at 23-00 N, 36-00 W; 1 at 20-00 N, 57-00 W; 1 at 19-00 N, 75-00 W; 1 at 18-15 N, 55-20 W; 1 at 17-00 N, 73-00 W; 1 at 10-15 N, 53-14 W. Activities reported: June 20th Schooner E. P. THERIAULT attacked by submarine at 19-14 N, 74-00 W and towed to Cardenas, Cuba; June 28th, SS STEEL ENGINEERS attacked at 11-38 N, 54-28 W; June 29th, SS WAI WHEA torpedeed at 45-56 N, 34-25 W; Schooner RENEE NARIE STEWART torpedeed and sunk at 07-16 N, 2320 W; unidentified vessel attacked at 25-23 N, 85-22 W; SS EMPIRE NIGERI torpedeed and sunk at 29-27 N, 85-22 W.

G-2 REPORT
No. 108

1. ENEMY SITUATION AND OPERATIONS.

a. NORTH AMERICAN THEATER. Alaska: A new type Japanese plane was encountered over Kiska on June 25. It is similar in appearance to the NAKAJIMA 95 but has better fire power, speed and maneuverability. It is a single place seaplane mounting at least four MG's and uses tracer and armor piercing ammunition. Speed is estimated at a minimum of 220 M.P.H. This plane does not withdraw in face of .50 cal fire as did the old type NAKAJIMA 95. It's armor piercing ammunition is very effective. The Japanese continue their expansion of shore installations and their capabilities are on the increase. Atlantic: Concentration of submarine activity still continues in the shipping lanes of Nova Scotia and Newfoundland, and scattered along the Atlantic Coast, Cape Hatteras and the Lesser Antilles. Continuation of effort is indicated in the Gulf of Mexico and the Caribbean. Subversive activity: 8 saboteurs recently landed from German submarines were seized by F.B.I. agents. The saboteurs had in their possession nearly $150,000.00 in American currency and brought enough explosives to carry on a two years sabotage campaign against U.S. war industries.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Eastern Europe. Situation continues substantially unchanged at Sevastopol and Kharkov. The Russians report an Axis offensive of unknown proportions under way in Kursk area. It would appear that the Red Army's thrust in the Volkhov area to relieve Leningrad is over. The Germans claim to have captured 32,000 prisoners in extended fighting on this front. This operation appears to have been on a much larger scale than was admitted by either side at the time.

(2) Western Europe. German air reconnaissance continues northeast and southeast of Iceland. Nearly 1200 tons of HE and incendiaries were dropped on Bremen during the raid 25/26 June. Photos taken 26 June revealed that several large industrial buildings including large warehouses in docks area and large erecting shops at Focke-Wulf airdrope were either destroyed or severely damaged. About 30 enemy aircraft operated over East Anglia, June 26/27: 3 destroyed and 1 damaged.

It is reported that the Germans are endeavoring to increase French bauxite production by 50% of the expected total, 600,000 tons is destined for French industry and 400,000 tons for Germany.
(3) Southern Europe. Air activity against Malta since June 21 is on an increasing scale: an average of 35 sorties a day.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Egypt the enemy continues his drive on Alexandria and Delta area. Enemy claims of capture Kersa Matruh not officially confirmed. Enemy interdiction of coast road Alexandria-west by enemy planes continues. Enemy reconnaissance over Alexandria area is at extremely high altitudes. General Achenlech has taken personal command of the 8th Army in the field. General Lumsdon is now in command of the Armored Forces and General Freyburg in command of all Ground Forces.

e. ASIATIC THEATER. Burma: In Akyab area, hostile Thakin bands at Buthidaung (see G-2 Report, June 26) have been driven back by Moslem Arakanese who are actively resisting attempts at penetration in Arakan region.

f. SOUTHWEST PACIFIC THEATER. Photo reconnaissance made at Loe, June 26 showed 13 fighters, 1 bomber and improvements to runways. There is evidence of a new radio station near Loe aerodrome. On June 27th, our medium bombers made two night attacks on Loe and Salamaua. Poor flying weather hampered night attack against Tulagi (Solomons) on same date. The enemy has steadily increased air and ground installations in the New Guinea, Solomon area. Although this activity probably represents a consolidation of a defensive area, it will undoubtedly facilitate further offensive operations. The value to the enemy of his present positions northeast of Australia is sharply reduced as long as Port Moresby remains in our hands - hence he probably considers the seizure of Port Moresby a strategic necessity.

g. PACIFIC THEATER. During the raid on Wake Island, June 26/27 by U.S. bombers, hits were made on air-drome and nearby installations as well as among poorly dispersed enemy aircraft. Heavy but inaccurate AA fire; no surface craft observed. Three enemy planes attacked our formation about 30 miles from Wake on return trip.

h. SUBMARINE ACTIVITY. Submarines reported: 1 vicinity Lurcher Shoals; 1 between Cape Breton and Cape Ray; 1 between Halifax and Sable Island; 1 in Gulf of Maine, between Portsmouth and Boston; 1 vicinity of Five Fathom Bank (entrance to Delaware Bay); 1 vicinity Diamond Shoal (off Hatteras); 1 between Miami and Cay Sal; 1 between Vera Cruz and Tuxpan; 1 between Trinidad and Barbados; 3 n of Brazil; 1 at 51-00 N, 39-00 W; 1 at 51-00 N, 31-00 W; 1 at 47-00 N, 39-00 W; 1 at 46-00 N, 44-00 W; 1 at 46-00 N, 55-00 W; 1 at 46-00 N, 52-30 W; 1 at 46-00 N, 33-00 W; 1 at 45-00 N, 42-00 W; 1 at 44-00 N, 53-00 W; 1 at 43-00 N, 51-00 W; 1 at 43-00 N, 49-00 W; 1 at 42-00 N, 63-00 W; 1 at 42-00 N, 68-00 W; 1 at 41-00 N, 53-00 W; 1 at 40-20 N, 72-50 W; 1 at 39-00 N, 57-00 W; 1 at 39-00 N, 64-00 W; 1 at 38-00 N, 66-00 W; 1 at 38-00 N, 33-00 W; 1 at 38-00 N, 55-00 W; 1 at 36-00 N, 71-00 W; 1 at 36-00 N, 28-00 W; 1 at 36-00 N, 44-00 W; 1 at 34-00 N, 70-00 W; 1 at 32-00 N, 71-00 W; 1 at 32-00 N, 45-00 W; 1 at 31-00 N, 63-00 W; 1 at 29-39 N, 87-01 N; 1 at 26-00 N, 48-00 W; 1 at 26-00 N, 62-30 W; 1 at 25-00 N, 58-00 W; 1 at 23-00 N, 59-00 W; 1 at 17-00 N, 59-10 W; 1 at 16-00 N, 78-00 W; 1 at 16-56 N, 71-35 W; 1 at 12-00 N, 80-00 W. Activities reported: June 27, SS LIEF ERICKSON torpedoed and sunk at 13-18 N,
59-57 W; SS WILL ROCKEFELLER torpedoed and sunk at 34-50 N, 76-00 W;
SS FREEDOM torpedoed at 34-23 N, 75-28 W.

a. NORTH AMERICAN THEATER. Alaska. Reconnaissance of Kiska June 25-26 showed one heavy cruiser, three destroyers and a 6,800 ton cargo vessel (believed to be the KAMIKAWA MARU) in harbor there. Kiska ground installations have almost doubled since June 18. In raids over Kiska by army heavy bombers on June 26 enemy AA fire encountered was light and ineffective; nothing larger than 37 mm was used. Atlantic. Submarine activity continues in the Atlantic shipping lanes, especially in the Nova Scotia area. Activity along Atlantic seaboard, the Caribbean and the Gulf of Mexico continues, with a probable concentration of effort between Tampico and Vera Cruz. Subversive activities: Nothing to report.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Eastern Europe. Situation in Kharkov sector and at Sevastopol remains substantially unchanged.

(2) Western Europe. German air reconnaissance continues north-east of Iceland. TIRPITZ (battleship) and HIPPER (heavy cruiser) reported in usual berths at Trondheim on June 26th. Air reconnaissance over Kiel June 23 showed the PRINZ EUGEN with new stern in position.

(3) Southern Europe. Nothing now to report.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Egypt enemy forces have by-passed British forces west of Matruh and are striking east and north to the coast. A second Anglo-American heavy bomber attack was made on wharves and harbor installations at Tobruk night of June 26-27. No shipping observed. Large fires were started in target areas. En-route bombers observed heavy enemy air attacks on targets between Matruh and Sidi Barrani. Unconfirmed reports indicate small Vichy French reinforcements are moving from Tabu, Ivory Coast to Casablanca.

e. ASIATIC THEATER. China. In Chokiang fighting reported continuing vicinity Lishui. In Kiangsi activity continues south of Kwangfong. No report of closing of gap between enemy forces on

1. ENEMY SITUATION AND OPERATIONS.

a. NORTH AMERICAN THEATER. Alaska:- Nothing to report.
Atlantic:- Concentrations of submarines off Nova Scotia and on
Atlantic sea lanes still on the increase. The Atlantic Coast, Gulf
of Mexico and the Caribbean are the other active areas. 
Subversive
activities:- Nothing to report.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Eastern Europe. In hard fighting at Sevastopol Germans
claim gains. The situation east and south of Kharkov is obscure.
It is possible that the German objective in this area has been
achieved. Two months of unusual rainy weather have prevented military
operations in the Moscow area.

(2) Western Europe. June 24-25th, fifty German aircraft
dropped bombs over widely scattered areas in England; five German
planes destroyed and two damaged.

(3) Southern Europe. Nothing new to report.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Egypt the enemy’s
main force has progressed to within 15 miles west of Mersa Matruh.
Leading elements are in contact with the British defense forces but
no heavy fighting yet reported. An unidentified plane thought to
have been from an enemy surface craft created alarm in Durban, South
Africa where blackout regulations were enforced. A British-American
force of heavy bombers attacked wharves at Tobruk night of 25-26th.
No vessels seen at wharves and very little AA encountered. R.A.F
fighter patrols over frontier area have met little enemy opposition.
Reports indicate that any enemy parachute troops or air infantry
that may be in Crete arrived within last few days. There are no
definite indications of any increase in strength over the former
command of one German and one Italian Division.

e. ATLANTIC THEATER. Burma:- Homalin reported practically
destroyed by fire. Reconnaissance reports no movement of Japanese
forces at Homalin or Thanagad. Several barges and steamers
observed at Kalowa. On June 23rd AA fire from what is estimated to
be 3" caliber guns was encountered at Kalowa. On June 20, no.

Airdrome installations at Dili (Timor), building areas at Lae and Salamaua and a 4000-ton cargo ship were hit by our medium bombers in night attacks June 25. In two flights, 28 to 30 Zeros attacked Port Moresby same date; 1 Zero badly damaged, 4 Zeros possible damaged. During engagement with intercepting planes enemy used decoys to gain advantage of attacking from higher altitudes.

g. PACIFIC THEATER. Nothing to report.

1. ENEMY SITUATION AND OPERATIONS.

a. NORTH AMERICAN THEATER. Alaska:—No change. Atlantic:—Continued concentration of enemy submarines near Nova Scotia points to a concerted effort in that area. Submarines scattered along the Atlantic Coast with concentrations in the vicinity of Cape Hatteras and Jupiter Inlet indicate continued activity in that area. Continued activity is also indicated in the Gulf of Mexico and the Caribbean. Iceland:—There are indications that German air and submarine reconnaissance in the Iceland-Greenland area is being increased. Subversive activities:—June 25th, Camp Kilmore, New Brunswick, N. J. Sabotage is suspected in the destruction of a large pile of salvage lumber near the Pennsylvania Railroad tracks; Parker, Ariz., 2 persons killed and many injured when a Santa Fe passenger train crashed through a burned out bridge near here. Sabotage indicated.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Eastern Europe. The Russians admit that the important railroad junction of Kupyansk (60 miles SE of Kharkov) has been occupied by the Germans for the first time. The width of this German drive has not yet been determined. Severe German pressure continues against Sevastopol. Local action continues on the rest of the front.

(2) Western Europe. Night of June 25th it is reported that over 1,000 planes of the RAF bombed Bremen; damage not yet determined. A second force of bombers and fighters attacked airfields in the low countries in the path of the main force. RAF bombers with fighter escort attacked docks at Dunkirk in daylight on the 23d hitting a 4,000-ton ship. On the same date an air base at Morlaix was bombed.

(3) Southern Europe. Enemy air activity over Malta continues. Enemy Mediterranean shipping was attacked by British heavy bombers. Italians are reported without confirmation to have sent 6 battalions of parachute troops to the Dodecanese Islands.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Egypt the enemy's main force is now moving east along the coastal plain. Leading elements are 30 miles west of Mersa Matruh, and other units are reported southwest
Regraded Unclassified

of Mersa Matruh. Unconfirmed rumors persist of an impending air and sea attack on Alexandria and Egyptian coast; this to be based on Crete and Greece. On the night of June 25, U.S. and R.A.F. heavy bombers firing Bengazi docks and warehouses. Searchlight and heavy AA activity have not perceptibly increased since the raid of the 22d. On the 22d R.A.F. medium bombers attacked landing grounds and traffic along the Tobruk Road near Bardia. From these captured landing fields Axis is bombing El Daba and Matruh.

o. ASIATIC THEATER. Burma—In Akyab area, local fighting between hostile Thakins and Arakanese Moslems (natives of Arakan Hills) at Maungdaw and Buthidaung (near Bengal border, NW of Akyab). In upper Chindwin area, unverified report of enemy evacuation of Homalin, via Uyu River and rail toward Mandalay June 4 and down Chindwin June 9. However, at least 500 Japanese known to be at Homalin June 16 and small parties still operating in vicinity. Report of evacuation may be enemy inspired since it is known that the Japanese are improving communications in that area.

f. SOUTHWEST PACIFIC THEATER. Air reconnaissance of June 24th revealed 6 medium transports in bay at Kendari (Celebes) and 40 to 50 single-engined and 20 to 30 twin-engined aircraft at airstrip. At Lahai, Ambon, a number of small vessels were seen in the harbor, and the airstrip apparently has been enlarged. In New Britain enemy detachments were reported to be at Talasea (75 miles SW of Rabaul) Pond (42 miles WSW Rabaul) and Vunakanau (12 miles SSE Rabaul). At Kavieng one large and one small cargo ship. Photographs of Rabaul on the 23d reveal l cruiser, l destroyer, l converted seaplane tender, l medium cargo ship, l9 float planes and 4 four-engined flying boats. Vunakanau airstrip Rabaul was attacked by 7 of our heavy bombers. Intense fires and explosions were visible sixty miles. AA fire was light and inaccurate. Japanese activity in Lomag-Tulagi (Solomons) area continues.

1. ENEMY SITUATION AND OPERATIONS.

a. NORTH AMERICAN THEATER. Japanese forces consolidated their position in the Aleutian Islands of Attu and Kiska, where there were indications of airfield construction. Although air operations in this area were hampered by bad weather, at least one enemy transport was sunk and several other vessels, including warships, were damaged by our action. Hostile submarines were active along the Pacific Coast, making several attacks on shipping to Alaska and shelling ineffectively points in Oregon and on Vancouver Island. In the Atlantic enemy submarine activity showed an increase over the preceding period, with preliminary reports indicating a total of 58 attacks on shipping. Extensive enemy mining operations on the Atlantic Coast were indicated as far south as Jamaica.

b. LATIN AMERICAN THEATER. Argentine public indignation over the recent sinking of the "Rio Tercero" may cause a material change in Argentina's policy of strict neutrality.

c. EUROPEAN THEATER.

(1) Eastern Europe. German assault on Sevastopol made considerable progress against bitter opposition, and at end of period the Russian position there was becoming increasingly serious. The Russian resistance here apparently has delayed concentrations of the German Air Force at other points on the Russian Front. In the Kharkov sector German advances were reported. Operations on the remainder of front were limited to local actions. Murmansk was subjected to several heavy air raids. The oil fields at Ploesti, Rumania, were attacked by U.S. heavy bombers.

(2) Western Europe. Air operations were on a reduced scale, and both R.A.F. and Luftwaffe activity was limited primarily to attacks on shipping. For the week ending June 13, 1942, the operations of the German Air Force on the Western Front consisted of a daily average of 36 sorties by bombers and 130 by fighters. Minelaying and unusual reconnaissance of the Portsmouth area were reported. The German warships TIRPITZ and ADMIRAL HIPPER reported preparing for long cruise at Trondheim; no change in other German Naval dispositions.

(3) Southern Europe. In the course of heavy attacks by Axis air and naval units on two United Nations convoys in Medi-
terrain, an Italian heavy cruiser was sunk and U.S. heavy bombers scored repeated hits on the Italian battleships LITTORIO and CAVALO. Enemy air attacks on Malta increased sharply toward the end of the period.

d. AFRICAN AND MIDDLE EASTERN THEATER. Axis forces in Libya scored a decisive victory over the British Eighth Army, taking a large number of prisoners and a quantity of supplies. Tobruk and Bardia were occupied, and British forces driven back of the Egyptian frontier. At the end of the period the enemy was continuing his eastward drive with the evident intention of capturing Alexandria and seizing the Suez Canal. Enemy successes were aided materially by the effectiveness of the 88-mm dual-purpose gun and by the effective technique of the German combat team of artillery, tanks and infantry units.

e. ASIATIC THEATER. Further advances were made by Japanese forces in southeastern China, particularly in Kiangsi province east and south of Nanchang. The Chekiang-Kiangsi railroad was occupied by the enemy with the exception of a 50-mile stretch between Shangjiao and Kweiki. Toward the end of the period the enemy activity was shifted to the south of the railroad into southern Chekiang and northwestern Fukien province. The situation in Burma and Yunnan remained unchanged. Reports were received of the reinforcement of Japanese Forces in Manchuria.

f. SOUTHWEST PACIFIC THEATER. Enemy air activity showed an increase, several heavy raids being made on Darwin and Port Moresby, but declined again during the latter part of the period. A moderate concentration of enemy shipping, including several warships, was noted at Rabaul. Considerable damage was inflicted by United Nations air attacks on docks, shipping and airfields in the Rabaul area, and on airfields at Lae and Salamaua.

g. PACIFIC THEATER. The enemy engaged in no further offensive operations in this theater during this period following their defeat off Midway Island early in June.

1. ENEMY SITUATION AND OPERATIONS.

a. NORTH AMERICAN THEATER. Alaskan situation: Nothing to report. Atlantic: Approximately 17 submarines operating in the Atlantic. Heavy concentration of effort indicated off Nova Scotia. Continued activity off Cape Hatteras, in the Gulf of Mexico, and in the Caribbean. Continued activity along shipping lanes is indicated. Mining operations indicated to be extended as far south as Jamaica. Subversive activities: Van Nuys, Calif., June 24th, 4 injured in an explosion at the Timm Aircraft Corporation.

b. LATIN AMERICAN THEATER. The political situation in Argentina has become more confused as a result of President Ortiz's tendering his resignation from the Presidency of the Republic. His former resignation was rejected by Congress, but the attitude of that body today is a matter of conjecture. The recent torpedoing of an Argentine ship, the "Rio Tercero", has brought about riots and demonstrations against the Axis. Congressional leaders have called on the Foreign Minister, Dr. Ruiz Guinazu, to explain what action is being taken in regard to the sinking.

c. EUROPEAN THEATER.

(1) Eastern Europe. Intense pressure on Sevastopol continues. Germans are reported to be making 700 to 1000 heavy bomber sorties daily against defenses of Sevastopol. The Germans appear to be advancing east of Kharkov.

(2) Western Europe. On June 23rd an unidentified plane circled Jan Mayen Island (NNE of Iceland). Bodø was bombed June 22d, 23rd and many fires observed.

(3) Southern Europe. Italy reported strengthening southern coastal defenses. About 60 enemy aircraft employed in attacks on Malta from the 20th to the 22d. Four destroyed and one damaged.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Egypt enemy troops have penetrated the frontier defenses and are now pushing east on Sidi Barrani. Enemy communications claim capture of this town, but official confirmation is lacking. Sollum and Fort Capuzzo are reported abandoned to the enemy. In Egypt enemy Libyan successes have resulted in increased political intrigue and pro-Axis activity.
2. ASIATIC THEATER. China: On Chokiang-Kiangsi r.r., small enemy advances reported east of Kweichu and west of Shanghia. In Chokiang, Japanese force advancing on Lishui reported south of Tsainyun (20 miles NE of Lishui), with another column approaching Lishui from northwest. Press reports of Japanese occupation of Lishui not confirmed.

f. SOUTHWEST PACIFIC THEATER. Air reconnaissance of June 23 revealed one small ship and one large transport in the vicinity of Koopang, with 3 bombers and 8 or 10 fighters at Pemoor airfield (near Koopang); 1 destroyer or light cruiser, 3 medium transports and 3 smaller vessels at Rabaul. A 10,000 ton merchant with escorting light cruiser or destroyer was seen 150 miles NW of Rabaul, course NNW. It is reported that the Japanese have constructed a wharf at Lunga (northern coast of Guadalcanal). Four flying boats were observed in that area.

1. ENEMY SITUATION AND OPERATIONS.

a. NORTH AMERICAN THEATER. Alaska: Nothing to report.
Atlantic: Submarine situation remains very similar to yesterday, with increased concentration between New York City and Charleston and off the mouth of the Mississippi. Subversive activities reported: A fire starting sometime prior to 7:30 p.m., 23 June at the Walla Walla Air Base Hospital, Washington, destroyed 18 to 20 buildings.

Oil soaked excelsior found in one building suggests possible subversive origin which is now under investigation.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Eastern Europe. The Russian situation in the Kharkov sector is now grave. It is believed that the German offensive is more extensive than appears from German or Russian communications. The final objective of this offensive is Stalingrad. The immediate objective is to cut rail line Moscow-Rostov in order to divide Russian forces and cut Russian lines of communication to the south. Sevastopol cannot hold out. When Sevastopol falls, the Germans will control the Black Sea and possess sea communications which will permit establishment of a bridgehead in the Batum region. This action will be synchronized with the German thrust against Egypt. Murmansk situation unchanged. Increased German pressure to cut Russian supply lines with the United Nations to be expected.

(2) Western Europe. German air reconnaissance northeast of Iceland continues. Dunkirk bombed successfully on the 21st by R.A.F. bombers. On the 21st-22nd, about 50 enemy aircraft operated over Great Britain, about 40 of them over Southampton area. Four enemy aircraft destroyed, including one Heinkel 177, a new type of heavy bomber with four engines driving two propellers; one ME shot-down off Cornwall. Four other enemy aircraft damaged over Great Britain. During raid on Emden June 20-21, 325 tons of bombs were dropped, more than half of them incendiaries. Fires were observed in spite of cloudiness and haze. It is reported that the Paris Renault plant is again operating at almost full capacity. This plant and others in the Paris area have been provided with a moderate amount of A.A. artillery.
Southern Europe. Automobile road from Istanbul to Ankara to be closed from June 25th to August 15th.

AFRICAN AND MIDDLE EASTERN THEATER. In Libya the ground situation along the Libya-Egypt border shows no important change. Enemy apparently regrouping units for move against British positions. U. S. and R.A.F. heavy bombers attacked wharves, shipping and warehouses at Benghazi on night of June 22; large fires started which were visible from the planes 15 minutes after leaving. On the 20th, R.A.F. bombers attacked enemy columns at Tobruk, and on the 21st, fighter bombers attacked motor transport in Sidi Azeiz area; landing ground at Tamim also bombed. Two 8,000-ton enemy vessels and one escort ship torpedoed off Cape Bon (Tunisia) on the 21st by R.A.F.

1. ENEMY SITUATION AND OPERATIONS.

a. NORTH AMERICAN THEATER. Alaska:- Enemy naval forces last observed at Kiska include 3 destroyers, 2 transports and 1 destroyer or mine-layer. No carrier-based planes seen. Construction and fortification continues. USAT GENERAL GORGAS reported shelled by submarine. Enemy reported jamming our air force radio net. A pear-shaped mid-air explosion bomb, use of which has twice been reported from the Southwest Pacific Area, is being used by Japanese Zero fighters in the Alaska area. Released at about one thousand feet above and in front of our planes, the bomb is timed to explode as it reaches the altitude of our planes. Explosion produces vivid purplish color with white smoke streamers. Poor weather still hampering our operations in Aleutians area. British Columbia:- British radio station VAE at Vancouver Island was reported shelled by enemy submarine which probably torpedoes lumber schooner earlier in the day. Fifty-one (51) enemy submarines reported in the Atlantic covering shipping lanes and Atlantic coast ports, with particular effort being concentrated in the Caribbean. No subversive activities were reported.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Eastern Europe. Attack on Sevastopol continues. Local fighting on remainder of front. Heavy German air attacks on Murmansk area June 13-14 resulted in little damage to port facilities or to shipping, but inflicted considerable damage on the town itself.

(2) Western Europe. In an attack by 12 JU-88's on a convoy 100 miles west of Bantry Bay (S.W. tip of Ireland) June 16-17, four enemy planes were shot down and two crashed after a collision. Five small enemy boats sunk by air action off Dieppe, June 18.

(3) Southern Europe. A German Air Headquarters is reported to have moved from Greece to Crete.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Libya enemy successes continue. Enemy forces stormed the outer defenses of Tobruk and now
occupy a considerable proportion of defended area. Enemy forces are in possession of border sea port of Bardia, where British troops destroyed port facilities before evacuating. Enemy efforts continue to feel out British defensive positions along Sollum—Fort Capuzzo-Maddalena lines. In French North Africa unconfirmed rumors persist indicating enemy efforts to secure control of native troops by introduction of nucleus of German officers and non-commissioned officers. In Madagascar action has slowed.

g. ASIATIC THEATER. Burma: On June 13th, no Japanese ground activity at Myitkyina or Bhamaa and no enemy troops on Chindwin River or at Homalin. Japanese construction party reported to be 40 miles north of Myitkyina. Unconfirmed report may indicate enemy withdrawing south to Paungyn. Effective Allied sabotage of main part of Burma river shipping discounts some of reports of Japanese river activity on Chindwin and Irrawaddy Rivers. China: In Kiangsi Province, Japanese reported continuing advance south from Kwangtung.

f. SOUTHWEST PACIFIC THEATER. June 19: Reconnaissance flights showed northeast-southwest runway of airdrome at Laha (Ambon) completed for 900 yards, indicating early use. Other sightings: at Ambon, 5 small motor vessels; at Rabaul, 7-8 large planes at Lakunai airfield, 25 bombers at Vunakanau airfield, 7 Zero fighters and 2 float planes in the air, with 12 ships (3 large) in the harbor. United Nations' bombers attacked airfields and harbor at Rabaul, scoring 3 direct hits on 10,000-ton merchant vessel. The arrival of 1,000 Japanese troops at Dilli, Timor, brings total enemy force there to 5,000-6,000.

1. ENEMY SITUATION AND OPERATIONS.

a. NORTH AMERICAN THEATER. Alaska. Our air raid on Kiska Harbor June 15th resulted in one enemy heavy cruiser sunk, 1 transport damaged. Japanese submarine reported at entrance to Cold Bay indicates increasing submarine activity. Reinforcements for Japanese Aleutian force continue. Believed aircraft being sent from Paramushiro, Kurile Islands, reconnaissance of Andrealo Islands and St. Lawrence Island negative. Poor weather continues to hamper our operations in western Aleutians. Concentrations of enemy submarines are chiefly along Atlantic shipping lanes, U. S. Atlantic Coast and in Caribbean. No subversive activities reported.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Eastern Europe. Germans apparently have penetrated northern Russian defense line around Sevastopol reaching the shores of bay north of city. Germans claim artillery bombardment of Murmansk. Local action continues on rest of front.

(2) Western Europe. German air reconnaissance north of Iceland and along convoy route to Russia continues. Approximately 37 German aircraft operated, majority in anti-shipping activities, west of Brest. Some bombs were dropped on Brixham, damage slight.

(3) Southern Europe. June 16-17, enemy activity in vicinity of Malta on a small scale. One enemy bomber destroyed and another damaged by AA fire.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Libya enemy's main force now concentrated south and east of Tobruk. Approximately half way between isolated British force at Tobruk and remainder of British 8th Army now occupying prepared position Bardia-Capuzzo-Sidi Omar-Maddalena Line. Sporadic engagements between enemy columns moving east towards Capuzzo and Bir Sherferzen and British mobile controls continue. Enemy troops remain in control of coastal strip while British troop disposition indicates defensive tactics at Tobruk and along Egyptian border. It is reported that armored reinforcements may have reached...
the enemy during the period Malta under heavy air bombardment; enemy use of para-troops considered possible. On June 16th enemy concentration in Sidi Razegh and El Adem areas was heavily attacked from air; at least ten tanks hit and heavy damage to supply columns.

e. ASIATIC THEATER. Japanese 5th Division reported shifting from N.E.I. to Indo-China or Canton. China: In Kiangsi, capture of Yushan, June 12, by enemy force moving west from Chekiang confirmed. Kwangfong (25 miles south of Yushan) taken by Japanese on June 14 and Shangjao (20 miles NW of Kwangfong) on June 15. Enemy main strength now shifting southward toward Pucheng-Chionou (Kionning) area of northwestern Fukien, apparently in pincer movement south from Kwangfong and east from Nanfeng (110 miles SSE of Nanchang). In Canton area, 5 transports carrying estimated 5,000 troops reported in Pearl River, possibly for drive up Canton-Hankow R.R.

f. SOUTHWEST PACIFIC THEATER. Eighteen Japanese heavy bombers (T-39) attacked Port Moresby from 21,000 feet on June 19th. A second flight of 18 Japanese bombers (type 37) was intercepted at 21,000 feet near Korona (Port Moresby area). Two hostile bombers probably shot down. A short time later 1 F-39 engaged two Zeros at 4,000 feet; 1 Zero shot down and one possibly shot down. A third flight of 9 heavy Japanese bombers (type 37) escorted by 4 or 5 Zeros, was intercepted at 21,000 feet; results not observed.

g. PACIFIC THEATER. Nothing to report.

MID 319.1 Situation (3-14-42)
Distribution A
SECRET
1. ENEMY SITUATION AND OPERATIONS.

a. NORTH AMERICAN THEATER. Alaska: Increased activity by submarines in the Bering Sea and the Gulf of Alaska indicates establishment of Jap submarine bases in the Aleutians aimed at cutting lines of supply to our Alaskan and Aleutian bases. Approximately 46 submarines are operating in the Atlantic, with particular concentration of effort on shipping lanes and in coverage of shipping ports in the Gulf of Mexico and the Caribbean. Continued coverage of Panama Canal north of Colon is indicated. The activity of enemy submarine mine-layers has been definitely established by the presence of enemy mines in the channel entrance to Delaware Bay and probably mine-laying operations off Cape Hatteras. (See 1h, below) No subversive activities were reported.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Eastern Europe. Hard fighting continues at Sevastopol.

(2) Western Europe. TIRPITZ (Battleship) not in usual berth in Trondheim Fiord, June 16-17, about 100 R.A.F. planes attacked Essen and Bonn. German planes attacked convoy in Bristol Channel losing one JU 88 from A.A. fire of a destroyer.

(3) Southern Europe. About fifty enemy aircraft over Malta June 15-16, three of them shot down and four damaged.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Libya enemy forces continue envelopment of Tobruk where a large force of British infantry is now concentrated. The major portion of remainder British 8th Army has withdrawn to prepared positions on Libya-Egyptian frontier. Sporadic fighting between mobile columns continues in area south and east of Tobruk. Enemy activity continued to coastal strip. Reports indicate that Axis forces in Libya are being reinforced by air. Italian battleships LITTORIO and CAVOUR, escorted by 7 destroyers, were attacked by U.S. and British planes June 15. Sixteen hits and about 10 near misses made on the LITTORIO and about 8 hits and 5 near misses on the CAVOUR. Flames, dense smoke and orange flashes emerged from both ships. Enemy A.A. fire erratic. One ME 110 and one ME 109 intercepted our bombers on return from mission; one ME shot down.
g. ATLANTIC THEATER. China: In eastern Kiangsi province a junction is momentarily expected of enemy forces moving east and west along the Chikiang-Kiangsi R.R., which, prior to these operations, was running under Chinese control between Kihwa (Chikiang) and a point about 50 miles east of Nanchang (Kiangsi). The apparent immediate enemy objective of denying to the United Nations the use of the railroad and bases in this area is nearing accomplishment. In northwest China, lack of information concerning operations in the PacTon area of Suliyaun province (see G-2 Report, June 15) probably indicates that this action was confined to local operations.

f. SOUTHWEST PACIFIC THEATER. Eighteen heavy Japanese bombers (Type 96), escorted by 9 Zeros, attacked Port Moresby from 21,000 feet on June 17; one Zero and one bomber probably damaged. In attack on Loe June 16, 9 Zeros destroyed and one damaged, instead of one Zero destroyed and one damaged, as previously reported. Reconnaissance June 17 showed 4 small merchant vessels and number of smaller craft at Ambon; construction work at Laha airdrome (Ambon); two vessels at Hansisi (Timor); no aircraft at Salamaua; a 1200-ton vessel (machine-gunned by reconnaissance plane) at Simbori Island (N. of New Ireland); and one unidentified reconnaissance plane at Horn Island (in Torres Strait). Photos made at Loe June 16 revealed 38 Zero fighters.

g. PACIFIC THEATER. Nothing to report.

h. SUBMARINE ACTIVITY. Submarines reported (Atlantic, Gulf and Caribbean): 1 between Cape Cod and Cape Ann; 1 in Cape Hatteras area; 1 off mouth of Mississippi; 1 in Yucatan Channel; 1 between Grand Cayman and Rosalina Bank; 1 between Aruba and Haiti; 1 between Trinidad and St. Lucia; 1 in Montserrat area; 1 300 miles NW of St. Paul Rocks; 4 in area 51-00 to 54-00 N, 34-00 to 38-00 W; 4 in area 48-00 to 51-00 N, 61-00 to 45-00 W; 1 at 48-00 N, 48-30 W; 1 at 47-00 N, 29-00 W; 1 at 45-00 N, 31-00 W; 1 at 45-00 N, 46-00 W; 1 at 45-00 N, 50-00 W; 1 at 44-00 N, 62-00 W; 1 at 43-00 N, 49-00 W; 1 at 43-00 N, 63-00 W; 1 at 42-00 N, 57-00 W; 1 at 42-00 N, 59-00 W; 1 at 42-00 N, 69-00 W; 1 at 41-00 N, 50-00 W; 1 at 40-00 N, 72-00 W; 1 at 39-00 N, 41-00 W; 1 at 38-15 N, 64-00 W; 1 at 34-00 N, 70-58 W; 1 at 30-00 N, 51-00 W; 1 at 30-00 N, 63-00 W; 1 at 28-00 N, 64-00 W; 1 at 25-19 N, 79-44 W; 1 at 21-00 N, 58-00 W; 1 at 18-00 N, 81-00 W; 1 at 14-00 N, 48-00 W; 1 at 13-00 N, 33-00 W; 1 at 12-00 N, 37-00 W; 1 at 12-00 N, 42-00 W; 1 at 12-00 N, 68-00 W; 1 at 10-20 N, 79-05 W; 1 at 08-00 N, 31-15 W. (Pacific): 1 60 miles W of Cape Ommaney on Bismarck Island; 3 off Cape Spencer. Activities reported: June 3rd, SS HOEGH GIANT torpedoed at 16-52 N, 42-02 W; June 14th, SS SCOTTSDALE torpedoed at 11-51 N, 62-56 W; June 15th, SS WEST Hardaway torpedoed at 12-11 N, 63-48 W; SS BISTVIST reported sunk at 11-00 N, 82-00 W; June 16th, SS ARKANSAS torpedoed at 12-07 N, 62-51 W; June 17th, SS MILLINOCKET torpedoed 15 miles from mouth of the Sagua (Cuba); June 18th, unidentified ship torpedoed at 10-00 N, 81-00 W.
2. ENEMY CAPABILITIES. In addition to enemy capability of moving eastward from Kiska discussed yesterday, there are two additional capabilities of a move northward against Nome or westward against Russia in the event of a Japanese-Russian conflict.

In connection with current Japanese operations in the Aleutian Islands and Alaskan waters, attention is called to the fact that the Military Intelligence Service has pointed in its official communications to the probability of such an enemy move for the past month and has noted it as a definite Japanese capability for six months.

1. ENEMY SITUATION AND OPERATIONS.

a. NORTH AMERICAN THEATER. Alaska: Poor weather hinders friendly air operations in Kiska area. Enemy forces believed to consist of 2 cruisers, 3 carriers and 2 destroyers now unlocated. As of June 15th there was no evidence of Japanese building activity at either Atka or Adak (between Kiska and Dutch Harbor). On the same day a Navy Catalina bombed one Japanese light cruiser and three destroyers which were on a northward course from Kiska and which returned there after being attacked. Approximately 44 submarines are operating in the Atlantic with concentration of effort on shipping lanes and in the Gulf of Mexico and Caribbean, particularly N of Colon. (See l. b below) No subversive activities were reported.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Eastern Europe. German attacks on Sevastopol continue. Local action on rest of front.

(2) Western Europe. TIRPITZ (Battleship) and ADMIRAL HIPPER (Heavy Cruiser) at Trondheim. ADMIRAL SCHERER and LINTZOW (Pocket Battleships) at Harvik. On June 15th R.A.F. fighters sank an armed mine sweeper and a motor launch off the Franco-Belgium coast. On June 15-16 about 50 enemy aircraft operated off the South and Southwest Coasts of England. One probably destroyed.

(3) Southern Europe. United Nations convoy from Gibraltar was attacked on the 15th throughout the day by Axis forces.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Libya the enemy is increasing pressure on British forces now engaged in strengthening Tobruk defenses. The enemy was unsuccessful in his attempt to destroy pocketed British troops in Ain el Gazala area. The major portion of these troops were withdrawn into Tobruk defenses or escaped by bypassing the enemy to the south and east. It is reported that the enemy now has superiority in armored forces in forward area. In Libya on the 14th and 15th, R.A.F. successfully attacked enemy ground forces near
Acroma and El Adam. Fighters destroyed five enemy aircraft, probably two, and damaged five.

5. **ASIATIC THEATER, China.** In Kiangsi, the enemy occupied Shangjao (Kwangsin) and continued to move east along the Chekiang-Kiangsi railroad.

6. **SOUTHWEST PACIFIC THEATER.** On June 16th, United Nations made two separate attacks on Lae; hits scored on buildings, hangar and runway areas starting several fires. A.A. fire inaccurate. Six Zeros pursued one B-26 flight attacking at a distance. One Zero shot down and one damaged. Seven F-39's attacked 9 Zeros and shot down 2. On same date bombers attacked enemy air-drome at Salamaua scoring hits from 13,000 feet in target area and starting several fires. Reconnaissance shows several fires on waterfront at Hoopang, resulting from previous attacks. On June 16th Darwin raided for the fourth successive day by 27 heavy bombers at 25,000 feet escorted by 25 Zeros at 30,000 feet. Interception by our F-40's extremely difficult and hazardous because of altitude. One Zero shot down and one bomber probably shot down. It is believed that in this attack a new type of Japanese heavy bomber was used. Twenty-eight Zeros (estimated) attacked Port Moresby on June 16th. Interception took place from 12,000 feet and four Zeros damaged. Reconnaissance at Lae showed at least 27 planes and at Ambon 1 flying boat and small vessels.

7. **PACIFIC THEATER.** About June 16th reconnaissance over Banks and Torres Islands (New Hebrides group) revealed no enemy activity.

2. ENEMY CAPABILITIES. Seizure of bases to E of Kiska or on Alaskan mainland. Time and weather are playing an important part in favor of the Japanese. Land-based aviation established at Kiska will furnish protection to Japanese for offensive operations to the east. Success at Kiska might cause Japanese to shift heavy force to this area. Japanese are capable of moving rapidly forward using islands as stepping stones. Mileage from Dutch harbor to Seattle, 1,694 air miles (nautical).

b. LATIN AMERICAN THEATER. Nothing to report.
c. EUROPEAN THEATER.

(1) Eastern Europe. Nothing new to report.

(2) Western Europe. Spanish reinforcements to Canary Islands continue, most recent group numbers 1,500 from Valencia.

(3) Southern Europe. On the 11th, two United Nations convoys, one moving eastward from Gibraltar and one moving westward from Alexandria, suffered attacks by Axis planes and submarines, the first near Sardinia, and the other SE of Malta.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Libya enemy attacks at Sidi Rezegh and Acroma were repulsed by British forces. Failure of enemy attack at Sidi Rezegh temporarily halted his effort to isolate Tobruk and invest it from both east and west. It is reported that British convoys carrying supplies have arrived at both Malta and Tobruk after suffering some losses. (See Para 1, c, (3)).

e. ASIATIC THEATER. Burma. In western Burma, Kalaw and Shwegyin (south of Kalaw) reported hold by small Japanese forces estimated to be platoons only. No Japanese are west of Chindwin in the Kalaw area. At Homalin, Japanese reported diverting refugees apparently to avoid divulging positions. At Gangaw (50 miles west of Mogyin) 500 enemy Burmese reported June 5; conditions chaotic in that area. Thailand: Broadcast from Bangkok states 200 Indian representatives of Japanese occupied territories will participate conference of "Free Indian" movement, China. In Kiangsi one enemy column advancing from Hwang towards Nanfong (30 miles S.E. of Hwang). Along Chokiang-Kiangsi R.R., press reports fighting in progress N.E. of Shangjao (30 miles S.W. of Yushan). A junction of this force with Japanese force moving west from Chokiang is expected within the next several days. In northern China, Japanese 11th Division reported to have left Shanxi, destination unknown.

f. SOUTHWEST PACIFIC THEATER. On June 15, Darwin attacked by 27 bombers and 15 fighters; residential and harbor districts damaged by about 100 bombs, mostly 200 lb. and 120 lb. type; 6 Zeros shot down. This attack is the third in so many days. Unconfirmed report that 1,000 Japanese troops and 50 aircraft arrived in Dili (Timor) between the 13th and 15th. There is noticeable increase in Japanese patrol activity. Our medium bombers attacked Koopang airstrip on night of 13th; hits made on target area. Lao attacked by seaplane bombers. A P-40 shot down at Darwin caught fire, which may indicate a new type of Japanese ammunition. An enemy submarine was seen 8 miles NNE of Cape Howe, Victoria.

Japanese fighter tactics observed in SW Pacific: Zeros often go into a turn resembling a steep Immelman after head-on attack and then attack again from the rear. This maneuver is designed to leave behind the P-40 which can stay on the tail of a Zero in a turn.
1. PACIFIC THEATER. Nothing to report.

Submarine summary: several sightings in the Straits of Florida indicate renewal of concerted effort in the Gulf of Mexico. Indications point to considerable activity throughout the Caribbean, with concentration on shipping through the Panama Canal. It is possible that mine-laying subs may be operating off Cape Hatteras and in the Straits of Florida. Subversive activities reported: None.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Eastern Europe. Apparently the Germans have penetrated
into the Sevastopol defenses. Soviets have injected their Black Sea fleet into defense of Sevastopol. Local action continues on entire front to improve position.

Buildings at Sohara Island (Solomons) attacked by one Catalina at night, June 11; hits scored on target area. On June 11, Darwin attacked by 18 to 25 Zeros. First flight of 3 Zeros intercepted, one Zero shot down. Second flight intercepted at 18,000 feet; three shot down.

g. PACIFIC THEATER. Tokyo Radio, in a broadcast directed to Germany, is reported to have described Japanese naval losses in operations off Midway and the Aleutian Islands as "not inconsiderable" and as the most grievous of the Pacific War.

SS ILLINOIS (cargo) torpedoed and sunk at 24-00 N, 60-00 W; SS DARTFORD (cargo) torpedoed at 49-43 N, 42-48 W. Correction: SS EMPIRE CLOUGH reported on June 12th as torpedoed, was not sunk. Submarine summary: Submarine sightings and attacks along Atlantic Coast, Gulf of Mexico and Caribbean indicate continued activity. Subversive activities reported: None.

b. LATIN AMERICAN THEATER. Argentine Government, reversing its former attitude, denounced to Berlin the Axis torpedoing of the VICTORIA sunk on April 17.

c. EUROPEAN THEATER. 

(1) Eastern Europe. Nothing new to report.
(2) Western Europe. German air reconnaissance reported north of Iceland. On June 10th RAF medium bombers attacked Lamiaon Airdrome in Brittany. Fighter escorts shot down 2 German FW 190's, 2 probably and damaged 3, June 10 - 11, 27 German planes engaged in anti-shipping and mine-laying. Night fighters destroyed 2 and probably destroyed 1.

(3) Southern Europe. June 9 - 10, RAF bombers dropped 14 tons of bombs on harbor at Taranto. June 9 - 10, 70 enemy planes attacked Malta; 1 destroyed, 1 probably and 2 damaged.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Libya the enemy, after reducing Bir Hacheim, has swung his main effort north towards the coastal area. Engagements between armored units in the vicinity of Bir El Hamat, then further to the east of El Adem indicate his objective as Tobruk and the isolation of British units to the west of Tobruk. Fighting is now reported between armored units west of Tobruk in the vicinity of Accroma, where British units are now in danger of being pocketed. Good air support of ground troops appears to have been furnished by both enemy and British, June 8 - 9, in Libya, Axis plane losses were 7 fighters destroyed, 2 probably and 17 damaged. It is reported as of June 12th, that the Axis is using an undetermined number of obsolete Italian CR-42's in Libya, which indicates a shortage of planes and a determination to give ground forces all possible air support.

Indications of raids on enemy industrial centers in the Balkans by the Allied Nations air forces was disclosed by the landing of 3 planes at Ankara, Turkey.

g. ASIATIC THEATER. China: Fighting continues in Chekiang and Kiangsi provinces. No confirmation of press reports that enemy has captured Yushan in Kiangsi (40 miles S of Huhsien). There is further evidence that Japanese air strength has been moving northward from Malaya, Burma and Thailand.

f. SOUTHEAST PACIFIC THEATER. June 11. Three submarines were sighted off east coast of Australia, 1 45 miles east of Bay Bryons (NSW), another off Port Kembla (NSW) and the third 48 miles south of Lakes Entrance, Victoria. Allied heavy bombers scored hits on buildings and runways at Rabaul. Our medium reconnaissance bombers met opposition over Lao and Bougainville, the enemy losing a fighter and a flying boat. Photographs of Rabaul area showed one medium transport, possibly a large tanker, 6 other vessels and miscellaneous small ships. It is likely that the reports of a considerable concentration of enemy shipping at Rabaul, have been exaggerated. However, the possibility that a number of large vessels were at Rabaul for 2 days cannot be eliminated. Our heavy bombers attacked Rabaul on June 11th making hits on buildings and runways and starting fires. A heavy reconnaissance bomber, intercepted over Lao, shot down 1 Jap fighter and carried on undamaged. A medium reconnaissance bomber shot down 1 enemy flying boat to the west of Bougainville Island; side blisters and possible tail gun on flying boat but no turret.

Two sinkings in the Gulf of Mexico, one S of New Orleans and one in the Straits of Florida point to continued activity in that area. Subversive activities reported: - None.

b. LATIN AMERICAN THEATER. Nothing to report.

Regraded Unclassified
c. EUROPEAN THEATER

(1) Western Europe. June 8–9, Essen and surrounding area bombed again by RAF; many fires seen throughout the Ruhr. June 9th, offensive operations over northern France carried out by RAF. German Focke-Wulf 200 Condor seen over Jan-Mayen Island (N.N.E. of Iceland) at 1025 June 10th.

(2) Eastern Europe. Heavy German attacks on Sevastopol continue. German attack appears to be developing east of Kharkov. Recent air reconnaissance at Gdynia (Gulf of Danzig) showed Germany's new aircraft carrier, Graf Zeppelin, nearing completion.

(3) Southern Europe. Nothing new to report.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Libya the enemy has assumed the initiative. The Free French Garrison at Bir Hacheim, after repulsing repeated enemy assaults, was forced to withdraw under heavy pressure. Fighting between armored units now in progress at Bir el Harmac (8 miles south of Knightsbridge). Immediate effect of enemy success at south end of British line is alleviation of enemy supply difficulties and release of units for use against British force in the coastal region. Enemy air losses greater than British; enemy armored vehicle losses less than British. June 8–9, RAF bombers attacked Barce (Libya) airfield and airdromes in Crete. Five enemy aircraft shot down and two probably. Axis aircraft losses Libyan front from May 27 to include June 8, 48 planes lost, 12 probably lost, 61 damaged. French naval force of one aircraft carrier, two cruisers, and four destroyers now at Bizerta, reportedly for repairs.

e. ASIATIC THEATER. China: In Chekiang enemy occupation of Chuhsien (Chuchow) confirmed. Fighting reported in progress vicinity Changshan (25 miles west of Chuhsien). In Kiangsi, one enemy column reported at Tung-jen - 30 miles s.w. of Linchuan (Fuchow) - and second column vicinity Kinki (35 miles east of Linchuan); no confirmation of reports claiming Japanese have captured Nancheng (Kienchang - 30 miles s.e. of Linchuan).

f. SOUTHWEST PACIFIC THEATER. June 10 -- at Rabaul 6 large ships, including 1 which appears to be an ocean liner, 12 medium large ships and 6 to 8 small vessels were seen in the harbor. No war ships were observed. Thirty to 35 planes were seen on the ground, and 8 fighters were in the air. At Ambon 1 - 4,000 cargo ship and 2 - 1,000 ton sleek, gray ships. Runaway at Laha, observed 35 miles away, appeared to be inactive. One enemy submarine was attacked in vicinity of Newcastle, another was seen in vicinity of Coff's Harbor, N.S.W. on the 9th. A 50-ton schooner at Salamaua was sunk by an Allied attack on the 9th. Nothing was seen of the Japanese reported to be on Choiseul (Solomon Islands) but there was
considerable shipping activity at Faisi. The Japanese are also re-
ported to be salvaging material from a grounded warship 14 miles
northwest of Tulagi. United Nations heavy bombers again attacked
Rabaul scoring hits in the building area, on grounded enemy air-
craft and the runway. Five Zeros intercepting, one was possibly
damaged. AA fire was light. One of our light bombers on re-
connaissance attacked and damaged submarine north of Williamstown,
N.S.W. The presence of the unusually large number of vessels at
Rabaul suggest renewed offensive action to the south upon the
arrival of a sufficient naval and air striking force. The absence
of a striking force raises the bare possibility that the enemy is
reinforcing defenses in this area, effecting an exchange of troops
or preparing the evacuation of New Guinea.

5. PACIFIC THEATER. Nothing to report.

ENEMY SITUATION AND OPERATIONS.

a. NORTH AMERICAN THEATER. A Japanese naval task force consisting of at least 2 carriers, 2 cruisers, and 8 destroyers operated in the Aleutian Islands area. Enemy planes of this force attacked Dutch Harbor on the 3rd and 5th, and strafed Fort Glenn, Umnak, on the 5th, suffering losses of four bombers, three fighters, and two seaplanes. One enemy cruiser was probably sunk and an aircraft carrier and another cruiser damaged by our air action. At the close of the period the remainder of this task force was unlocated, but there were indications that the Japanese had landed on western Aleutian Islands. In the Atlantic and Caribbean, enemy submarine attacks on shipping showed a decrease for the first time since the report of April 30th, preliminary reports indicating 46 attacks during the period, a decrease of approximately 25% compared with the preceding period. Enemy submarine activity was concentrated during the period in the Gulf and Caribbean area.

b. LATIN AMERICAN THEATER. On June 1st Mexico declared the existence of a state of war as of May 22nd with Germany, Italy, and Japan.

c. EUROPEAN THEATER.

(1) Eastern Europe. Activity on the Russian front was limited to local operations. The battle of Kharkov ended without producing any important change in the relative position of the opposing forces. The Germans concentrated on straightening the line and on reduction of Russian salients. Toward the end of the period the Axis launched a heavy attack against Sevastopol. Heavy fighting was reported along the Volkhov River north of Lake Ilmen. German air and submarine attacks on Murmansk-bound convoys continued.

(2) Western Europe. German cities and industrial centers were subjected to several bombings of unprecedented magnitude. In the heaviest air raid of the war, Cologne was attacked on the night of May 30-31 by over 1000 bombers; 3000 tons of bombs were dropped, halting transportation and seriously interrupting industrial activity. Military objectives in Essen, Bremen and Emden were also heavily damaged in large-scale attacks.

(3) Southern Europe. Enemy air attacks on Malta were on a small scale, but increased at the end of the period. Naples and points in Sicily and Sardinia were bombed by RAF.
d. AFRICAN AND MIDDLE EASTERN THEATER. In Libya there was heavy fighting throughout the entire period, but neither side was able to achieve a decisive advantage. After initial successes, Axis forces were repulsed short of Tobruk and withdrew to a gap in the British minelayers, where they reorganized their forces and launched new attacks. Free French, holding Bir Hacheim, resisted a series of strong assaults but were under increasingly heavy pressure on the 10th. At the close of the period the issue of the entire engagement was still in doubt.

e. ASIATIC THEATER. In Southeastern China Japanese forces consisting of one or two divisions made progress in their drive to capture possible United Nations air bases in Chekiang province. Kinhwa was occupied by the enemy, and at the end of the period fighting was in progress in vicinity of Chushien, with the airfield there apparently in Japanese hands. In Burma, the enemy consolidated his position and improved his communications. Considerable activity of enemy river craft was observed on the Chindwin in the vicinity of Hamaun, but weather conditions tended to restrict offensive operations in this area.

f. SOUTHWEST PACIFIC THEATER. Aggressive operations of the enemy in this theater were limited to submarine activity off the southeastern coast of Australia, where at least 3 United Nations vessels were sunk. The waterfront area of Sydney and the docks and industrial sections of Newcastle were shelled by enemy submarines. Several midget Japanese submarines, apparently released from larger submarines, were sunk in Sydney Harbor. The scale of enemy air attacks in this theater was considerably reduced, and only a few light raids were made on Port Moresby. Enemy targets effectively attacked by United Nations bombers included the airdromes at Keapang and Lae, barracks at Atamboea, Timor, and the docks at Rabaul, Dilli, and Tulagi.

g. PACIFIC THEATER. A major naval and air engagement west of Midway Island June 4-7 resulted in the decisive repulse of a large Japanese task force whose apparent objective was the occupation of Midway. Enemy losses are believed to include 4 carriers, 2 cruisers, 1 destroyer, 4 transports sunk; 3 battleships, 3 cruisers, 3 transports, and several destroyers damaged. The remaining Japanese forces withdrew to the west, and at the close of the period contact had been definitely broken.

2. ENEMY CAPABILITIES. Failure of the enemy attack on Midway may result in enemy operations to cut supply and communication lines with Australia. The enemy may raid or seize Ferry Command bases in the islands of the South Pacific.

Three sightings and 2 sinkings in the Caribbean area indicate continued activity, with concentration of effort in the Straits of Florida, Yucatan Channel, off the Panama Canal and in the vicinity of Puerto Rico. One sighting and 1 sinking along sea lanes indicates continued activity along these routes. Subversive activity reported:-- None.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Eastern Europe. Heavy German attacks continue on Sevastopol.
(2) Western Europe. On June 8, twelve medium bombers attacked docks at Bruges. The fighter escort destroyed four P.51s, 190's, probably two and damaged nine.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Libya enemy positions have been prepared east and south of both Knightsbridge and Bir Hacheim. Increased pressure by air and armored forces exerted against the Free French at Bir Hacheim; official information indicated enemy attacks repulsed up to June 11. On June 7th, in Libya, fighter bombers destroyed or damaged over one hundred vehicles in the Knightsbridge area. Fighters destroyed three LE 109's, probably one and damaged six.

e. ASIATIC THEATER. Burma: On road 3 miles east of Homalin 12 enemy trucks sighted; believed employed locally to stock supply dumps as rains have made roads unsuitable for trucks for distance of more than 4 miles from Homalin. India: No contact with Japanese on Burma-India border. Estimated that monsoon rainfall on Indian Peninsula and in northwest will be 1 to 2 per cent above normal. Indo-China: Japanese reported shifting 1 division from Saigon to northern Indo-China. China: In Chekiang, enemy believed to have occupied Chuhsia. In Kwangtung, Japanese forces operating north of Canton appear to be limited to about 2 regiments. In Kiangsi, Chinese press reports enemy has taken Tunghsiang (40 miles southeast of Nanchang) and are now in vicinity Linchuan (20 miles southwest of Tunghsiang).

f. SOUTHWEST PACIFIC THEATER. June 10 - air reconnaissance revealed the following: at Rabaul, 26 vessels in harbor including 5 medium and 3 very large ships; at Loe, 28 Zeros dispersed; at Vunakanau airdrome, a large number of aircraft. United Nations' medium bombers attacked installations at Dili, Timor, destroying buildings and starting fires. In a coordinated attack on Loe and Salamaua by heavy and medium bombers, hits were seen in the building, airdrome and wharf areas at Loe and large fires were started at Salamaua. Enemy planes losses were 8 Zeros shot down, 2 probably shot down and 2 damaged. A.A. fire at Loe was light and inaccurate, but that at Salamaua was heavy and accurate. Some Zeros have been reported to have tail guns.

Subversive activity reported; None.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Eastern Europe. German attacks on Sevastopol continue.
(2) Western Europe. Photo reconnaissance of London showed that as result of June 7th bombing of that city (see G-2 Report, June 9) 5 shops in U-boat shipyard were destroyed, also the customs house and passenger and freight stations.

(3) Southern Europe. Approximately 90 enemy planes were over Malta June 6 - 7; five were destroyed, one probably and one damaged. Messina, Sicily, was attacked by R.A.F. heavy bombers.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Libya sporadic fighting continues with enemy forces digging in near Knightsbridge and in vicinity of Bir Hacheim. Enemy position near Knightsbridge has strong antitank and artillery support. Axis armored force apparently concentrating in Bir Hacheim area. Rations and water reached Bir Hacheim just prior to enemy attack on June 8, outcome of which is still unreported. Close coordination between British air and ground troops continues. Enemy lines of communication suffering from raids from British mobile units. Situation satisfactory to Middle East Command, and it is believed that attrition will result in eventual defeat of enemy forces. Reports indicate that two Japanese armed merchantmen, probably equipped with fleet planes, 6-inch guns and possibly torpedo tubes, are operating off East Africa in vicinity of Mozambique. A number of Japanese submarines are reported to be in the same area.

e. ASIATIC THEATER. Burma: Air reconnaissance Chindwin river June 7 and 8 observed one steamer at Tamantli (above Homalin), another at Sittaurung and three at Kalwa. On June 3, one party of 3 infantry companies seen vicinity Sittaurung moving up Chindwin by river craft. Japanese troop concentrations in Homalin area were bombed June 7.

Japanese armed merchant vessel (about 900 tons) sighted at Akyab same date. China: Fighting continues in Chekiang; status of Chusan uncertain. Skirmishing continues in Kwangtung Province, north of Canton. No reports from other areas.

f. SOUTHWEST PACIFIC THEATER. June 8 -- Air reconnaissance revealed the presence of 1 warship, possibly a destroyer, and 1 small schooner in the vicinity of Trobriand Islands (north of eastern tip of New Guinea). 80 Japanese are reported to have landed at Salamaua. One United Nations' reconnaissance bomber in Lae area was intercepted by 2 Zeros; one Zero badly damaged. Zeros appeared larger than those formerly encountered. Recent reports have referred to new Zero fighter with higher speed and longer ceiling. It is said that the new type does not climb away like old type Zero, but dives away to break off. June 6th reconnaissance showed Finschhafen, New Guinea, runway unoccupied.

Approximate total Japanese strength in Timor to be about 6000 -- at Keppang 1 battalion, 200 cavalry and 20 AA guns; in the Kapan-Kofannau area, 1 battalion of pioneers; at Atamboa-Alapoopo-Halolouli area 1 infantry battalion and a detachment of light artillery; at Dilli 500; and at Bromora (26 miles south of Dilli) 1000.

g. PACIFIC THEATER. Enemy submarines were reported in the general area ESE of Midway Island.

Submarine summary: 7 sightings at sea along shipping lanes point to continued activity out of land-based bomber range. 4 sightings inshore along Atlantic Seaboard from Nova Scotia to Charleston indicate continued coverage of ports. 1 sighting of New Orleans, 1 sighting and 1 sinking in the Straits of Florida, and 1 sighting and 1 sinking in the Yucatan Channel indicate continued coverage of these passes. 3 sightings in the Caribbean and 3 sinkings, 1 approximately 80 miles NW of the Panama Canal, point to continued activity with a concentration of effort on vessels entering the Canal. A submarine was also reported sighted SE of Westphal Island. Subversive activities reported: None.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Eastern Europe. Nothing new to report.

(2) Western Europe. In recent bombing of Essen (see O-2 Report, June 8) 240 tons of H.E. and incendiaries were dropped; one large fire was started in center of town and another in Krupp works. On June 6 an airrome near Paris and a military camp near Focamp were attacked by RAF light bombers. On June 7 Emden was bombed and fires were started. About 40 German planes operated over England June 7, mostly over Thames estuary.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Libya the situation remains unchanged. Supply lines in enemy's rear harassed by mobile British columns, Bir Hacheim still held by Free French Forces. Enemy armored units have withdrawn to concentration area near gap in British mine field. Substantial enemy losses attributed to coordinated air-ground action. On June 6 enemy concentrations in Bir Hacheim area were attacked by RAF; Marsuba and Dorna were subjected to night bombing attacks, and mines were laid off Benghazi. Axis planes on same date attacked Gambut area, the railroad at Capuzzo, and the airfield at Sidi Barrani.

e. ASIATIC THEATER. Burma: Enemy forces in Homalin area are still estimated at not over 5000. Allied air activity is restricting Chindwin River supply traffic to night movements. As of May 31, no enemy troops were operating north of Myitkyina. Hostile Burmese Dacoits and Thakinis active in western Burma. Heavy rains have damaged bridges and roads on the Assam border. China: In Chokiangle enemy reported operating more slowly and cautiously. In the Nan-chang area of Kiangsi province, the Japanese have moved to the southeast along the Fu River, probably for the immediate purpose of blocking Chinese reinforcements from the west.

f. SOUTH-WEST PACIFIC THEATER. One enemy submarine was seen off Sandy Cape, east of Queensland, June 7. Midget submarines that attacked Sydney on May 31st appear to have been released from larger submarines. Inspection shows important fittings and access hatch on underneath side with watertight seating and 4 holding-down bolts, indicating it had been attached to larger sub. Midget subs were 80 feet long and 10 feet in diameter, otherwise same general type that attacked Pearl Harbor. United Nations midget submarines attacked road near Dili, Timor, June 7; hits were scored on the road and a bridge was partially destroyed. Barracks at Atamboa, Timor, were successfully attacked same date by a bomber reconnaissance plane; light machine-gun fire was encountered. Japanese burned 2 native villages 13 miles northwest of Lao.

g. PACIFIC THEATER. Reports indicate that in battle west of Midway Japanese Zero pilots consistently failed to close with B-17's, all attacks being made at a distance of at least 500 yards.

Activities reported: May 28th, SS ALCACA PILGRIM torpedoed at 16-28 N, 67-33 W; SS TEAK reported June 6th actually was SS PETER MINERF which is making port. Submarine summary: 11 sightings along shipping lanes in the Atlantic indicate continued activity, with special concentration near New York, out of land-based bomber range. 3 sightings along the Atlantic Seaboard, inshore, indicate continued inshore activity. 1 sighting in Gulf of Mexico indicates coverage of entrance to the Straits of Florida. 1 sighting in the Greater Antilles and 1 N of Curacao point to continued activity in that area. Subversive activities reported: None.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

1. Eastern Europe. It is believed that the Germans have initiated artillery and air action against the besieged cities of Leningrad and Sovetskopol which may be the beginning of an all-out offensive to reduce these cities. Hard fighting continues in Volkhov area. Local action on rest of front to improve positions, and Germans are mopping up guerrillas behind lines.

2. Western Europe. On June 5th, RAF medium bombers escorted by fighters attacked electric power stations at Le Havre and Ostend, and airfields at Marleix and Lannion, Brittany. Other fighters carried out sweeps over the continent. Six enemy aircraft destroyed, seven probably, and 15 damaged. June 6th, about 200 aircraft over Essen; visi-
bility bad; AA fire heavy on route and normal over Fasan.

(3) **Southern Europe.** On June 4-5 RAF bombed Syracuse, Sicily.

d. **AFRICAN AND MIDDLE EASTERN THEATER.** In Libya a strong enemy attack in vicinity of Elasst at Tamar was repulsed, and a counterattack launched by the defending British armored units forced the withdrawal of enemy armored units to their main concentration area. Increasing difficulty of supply and limited amount of armored reserves contribute materially to enemy's difficulties. It is reported that three battalions of Italian parachute troops have been moved from Castelvetrano to unknown destination - possibly Libya. On June 6th nine submarines were sighted from air along Ivory Coast.

e. **ASIAN THEATER, Burma.** On the eastern front, reports of Japanese forces at Lushai (55 mi. E of Sumprabum) not confirmed. Japs reported to have captured large quantities of steel, copper, zinc, oil and chemicals in the Lashio-Chufang-Lungling areas. On the western front, the Teppal-Teuma road is impassable for motor transport because of heavy rains. Bridge at Palol (33 mi. S of Teppal) has collapsed. China: Press reports that Japanese have seized the airfield at Chushian and have forced their way into the city where fighting continues. No appreciable advance has been made by the Japanese in the Nanchang area. In Kwangtung province, Japanese activity apparently confined to small raiding parties. Chinese press reports that the Japanese have crossed the Yellow River and moved south near Fucow in Suiyuan province with probable purpose of interdicting the supply lines to China, not confirmed.

f. **SOUTHWEST PACIFIC THEATER.** June 6 - two enemy submarines were observed off the southeast coast of Australia; one, three miles from Sydney Harbor, was attacked and possibly destroyed. Enemy warships believed to be one or more large Japanese submarines fired several shells into the waterfront area of Sydney, and on the docks and industrial sections of the city of Newcastle. United Nations heavy bomber in flight over Rabaul again encountered enemy four-shaped aerial bomb. Then the bomb exploded behind our plane, gunner observed color to be bluish-purple followed by heavy streams of white smoke of "Morning Glory" shape.

g. **PACIFIC THEATER.** Army air naval action in mid-Pacific area continues. Mesager reports do not substantiably alter situation outlined in last two summaries. Clean up of enemy remnants still in progress with result of engagement decisively in our favor.

2. **ENEMY CAPABILITIES.** No change.

Activities reported: May 30th, SS BAGDAD torpedoed at 14-15 N, 54-30 W; June 1st, SS WESTNOTUS shelled at 36-16 N, 69-38 W; June 2nd, SS CITY OF ALMA torpedoed at 23-00 N, 62-30 W; June 3rd, SS ANNA shelled at 34-08 N, 68-34 W; June 6th, SS TEAK in distress at 33-43 N, 77-39 W; unidentified vessel attacked by sub at 15-00 S, 18-00 W. Submarine summary: 4 sightings along the Atlantic seaboard relatively close to shore indicate renewal of inshore activity. 4 sightings at sea well beyond bomber range indicate continued activity along shipping lanes. 2 sightings in the Greater Antilles area point to continued activity in that area, 1 sighting off Curacao points to possible renewal of activity against oil facilities. Subversive activity reported: June 4th, King's Mills, Ohio. A fire causing $2,000 damage occurred in the King Powder Co., Inc., plant, Sacramento, Calif., a fire in the Sacramento Air Depot, pre-
sumably caused by spontaneous combustion, damaged considerable material in the Army Maintenance & Repair Building.

b. LATIN AMERICAN THEATER. Reports indicate the discovery of a ring supplying fuel oil from Mexico to enemy submarines operating in the Caribbean.

c. EUROPEAN THEATER.

(1) Eastern Europe. Hard fighting continues on the Volkhov River. On June 2nd, 72 enemy aircraft attacked Murmansk; Russians claim 9 bombers and 3 fighters destroyed.

(2) Western Europe. The recent bombing of Bremen (see G-2 Report, June 5) produced large fires in town and dock areas, including a very large oil fire; a heavy explosion took place, probably in a gas works. On June 4th, R.A.F. attacked docks at Boulogne and Dunkirk and air-drome at Maupertus. On the 4th and 5th light bombing attacks were made on Dieppe and Amsterdam air-drome. Forty-five enemy aircraft operated on 4th and 5th over Britain, 16 of them over Teeside area.

(3) Southern Europe. Nothing new to report.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Libya the enemy is moving up reserves and supplies from the west. Bir Hacheim remains in hands of Free French. Local enemy reverses are reported in the area northeast of his main concentration. Fighting remains confused in area southwest of gap in mine field. Apparently both the enemy and British are attempting to forestall the other by local offensive action on limited scale. On June 3rd and 4th R.A.F. fighters in Bir Hacheim area shot down 14 enemy aircraft, probably 2, and damaged 3; 60 motor vehicles were also destroyed. A 6,000 ton enemy vessel was bombed and seriously damaged off Chersa (Libya).

e. ASIATIC THEATER. Burma: Air reconnaissance June 2 showed Shingwan and Myitkyina deserted, including airports. On June 4th six ships were sighted at Rangoon and two at Bassein (100 miles ⅔ of Rangoon). In an attack on Rangoon docks by two United Nations bombers June 2, two of ten intercepting fighters were shot down. It is reported that a flying boat on patrol sighted on June 3 in the Indian Ocean, south of the Bay of Bengal, what is described as a "Junkers 88". China: Fighting continues in Chiang-ku; press reports of Chushien capture not confirmed. In Nanchang area (Kiangsi province) enemy reported to have made no marked advance. On Yunnan front, enemy force at Luling reported reinforced by 1 regiment.

f. SOUTHWEST PACIFIC THEATER. Of 5 enemy submarines sighted off the S.E. coast of Australia June 5, 2 were attacked by United Nations bombers and probably destroyed. One was attacked 120 miles S.E. of Wollongong, N.S.W. (75 miles south of Sydney), and the other
125 miles N.E. of Newcastle, N.S.W. (90 miles north of Sydney). An enemy submarine sank the IRON CROWN off the east coast of Australia; this is the 2nd vessel sunk off this coast by submarines. In a night attack on enemy docks at Rabaul, hits were scored in the target area and many fires were observed; A.A. fire was light and inaccurate. 12 unidentified aircraft were reported 60 miles S.W. of Darwin. Scale of enemy air attack continues to diminish, but submarine activity, especially off the S.E. coast of Australia, is increasing.

G. PACIFIC THEATER. Our bombers continue to operate from Midway against the retreating Japanese fleet. Bomb and torpedo hits were scored on both remaining carriers, bomb hits on one cruiser, and bomb hits on either a battleship or cruiser. When last reported the remainder of the Japanese striking force was retiring north-northwest of Midway, and the support and occupational force, convoyed by three battleships, was withdrawing to the west. Both groups will continue to be within bombing range of Midway for some hours. On June 6th, enemy pursuit planes were still able to put up strong interception.

Activities reported: - June 3rd, SS ABOLUS reported sunk at 42-35 N, 67-00 W; SS BEN JOSEPHINE torpedoed and shelled at 42-10 N, 67-10 W (those boats were 64' and 92' fishing vessels); June 5th, unidentified ship reported burning 4 miles off Atlantic beach, Jacksonville, Florida; SS DELFINA torpedoed at 20-22 N, 67-07 W; unidentified vessel reported June 4th was tanker SS ELLIOT. Indications continue to point to submarine activity against convoys along the Murmansk route, particularly off North Cape where clear weather prevails. Subversive activities reported: - None.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Eastern Europe. On 29th of May, Russian destroyer escorting convoy to North Russia claimed 4 enemy aircraft by barrage fire at 1200 to 1800 yards, using new type AA shell, part HE and part shrapnel.
(2) Western Europe. On raid over German area on June 2-3 many large and small fires observed. On June 3-4 RAf bombed Bremen. About 70 enemy aircraft over Dorsetshire, June 3, 4, 5 enemy aircraft destroyed and 3 damaged, mostly over Northern France. Raid on Mannheim May 19-20 reported to have heavily damaged 60 blocks of factories and buildings: one large factory completely destroyed; railway facilities, warehouses, and wharves severely damaged; about 600 dead. About 12,000 casualties reported resulting from Cologne raid: railway yards and tracks heavily damaged and traffic completely stopped, a Heinkel III was seen June 4 in Falfjord area just north of Reykjavik, Iceland.

(3) Southern Europe. On June 2-3, RAf bombers attacked Cagliari, Sardinia.

A. AFRICAN AND MIDDLE EASTERN THEATER. Late Libya dispatches indicate unexpected resistance forced deviation from original enemy plans of attack on Tobruk. Original plan called for a combined land and naval action against Tobruk on the third day of attack. Failure to dislodge the Free French at Bir Hauchim and loss due to British action of the three submarines intended to furnish the naval support of the attack on Tobruk disrupted the original plan. After withdrawal from Elqat el Tumar the enemy renewed his effort to strike northeast from the gap in the British minefield. His line of communication now harassed by British mobile units. Possession of the field of battle has permitted high percentage recovery of disabled tanks by British.

B. ASIATIC THEATER. Burma. On the western front entire Japanese 56th Division reported in the Luingling - Waung - Tonguayu area. Allied forces are in contact with Thai troops along the Mokong River near Cheli in southwestern Yunnan. On eastern front unfriendly natives reported signalling Allied movements to Japanese forces. No shipping recently observed on Chindwin between Thaungdut and Homaikan.

China. In Chokiang Province Japanese reported 3 miles north and 12 miles northwest of Chuhson. Decisive action imminent. Press reports of Japanese using poison gas near Tachow (10 mi. SE of Chuhson) not confirmed. Fighting reported on a 35 mile front 50 miles SE of Nanchang with Japanese using plainclothed troops extensively. Japan. Since middle of May Japs are reported not to have allowed any Russian vessels to pass through the area 123° - 147° E. Longitude and 32° - 40° N. Latitude without naval approval. It is believed that the Japanese, stung by the bombing of Tokio, are concentrating on the elimination of future possible bases for further attacks. Their operations in Chokiang, the Aouitians, against Midway and possibly against Hawaii all point to this conclusion.

f. SOUTHWEST PACIFIC THEATER. June 4th- Unidentified ship sunk by enemy submarine off coast of Malacosta, Victoria (half way between Melbourne and Sydney). Large enemy sub in this same vicinity was attacked and believed damaged by United Nations bomber. Our heavy bombers attacked Rabaul and scored hits on wharf and warehouse area, starting many fires. Searchlights were used, and light was heavy. United Nations medium bombers scored hits on the target area in an attack on Poncun Airdrome, Timor; two large fires were started. During raid on Port Moresby June 1, 90 seconds before arrival enemy bombers, 5 enemy fighters made a cross with white smoke. Then bombers flew thru center of pattern and bombs were heard to fall about 12 seconds later.
5. PACIFIC THEATER. An apparent attempt has been made by the Japanese to seize and occupy Midway Island. Enemy forces included aircraft carriers, battleships, heavy cruisers, and transports. An initial air attack was made on the island by an estimated 150 planes. Owing to an engagement by our forces some 170 miles WNW of the island, the Japanese were unable to follow up the initial attack. The enemy force has turned west and is now in retreat after suffering the following losses and damages: 2 carriers sunk, 2 carriers reported burning, 2 battleships damaged, 1 heavy cruiser damaged, and 2 transports hit.

SS SANTA LARIA and SS TILLIAT THOMPSON previously reported as torpedoed
reached port safely; vessel reported as being sunk 200 miles off San
Francisco June 4th in error). Submarine summary: During the past
24 hours 6 sightings were noted off New York lying in on the shipping
lanes, but out of land bombing range. One off Miami, 1 off Puerto
Rico, and 1 sighting off Lesser Antilles indicate decline in sub-
marine activity in that area. This decline not necessarily associated
with absence of submarines but may be because of decline in amount
of shipping. Subversive activities reported: Stockton, California,
June 6th, explosion and fire killed 10 persons at Army station near

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Eastern Europe. Hard local fighting in Volkovo area,
north of Lake Ilmen, with outcome in doubt. Believed that heavy German guns are being sent to Karelian Isthmus.

(2) **Western Europe.** Reinforcements to Morocco and Canaries continue in spite of decrease in strength of Spanish Army as a whole. Flushing, Bruges and Calais were attacked by R.A.F. bombers escorted by fighters on June 1, and sweeps were made over the continent by other squadrons of R.A.F. fighters.

British reconnaissance shows enemy territory in the vicinity of Rotunda Segnali deserted. Battle situation not entirely clear but satisfactory to British Middle East Headquarters. In Madagascar British aircraft attacked Tananarive airdrome, setting fire to hangars and one aircraft.

7. **ASIATIC THEATER. China:** Fighting continues in Chekiang in vicinity of Chuhaien (Chuchow). Reports of Japanese reinforcements reaching Hangchow not verified. Enemy activity in Kwantung Province, north of Canton, appears to be confined to minor local operations.

Japanese forces Burma estimated at 5 or 6 divisions. India: Off Bengal coast 2 unidentified steamers reported moving north of Dacca (60 miles south of Chittagong). An obvious appeal for fifth column assistance was made by the German radio in Hindustani when it stated in part that if Indians do not force British to leave, India will be reduced to ruins. It appears that Chandi will launch a new anti-British effort in India. China: In Chekiang enemy reported to have reached Lingshan on 25 miles southeast of Chiuhsien (Chuchow) June 1. This coverage of shipping lanes is further confirmed by 2 sinkings on one lane 700 miles from the coast and 2 sinkings on another lane 250 miles from the coast. Favorable weather for airplanes and submarines in kur manifestation area tends to confirm forecast that submarine activity has been transferred to that area. Subversive activities reported: None.

b. LATIN AMERICAN THEATER. President of Mexico signed decree declaring existence of a state of war with the Axis powers at 6:20 p.m., June 1.

c. EUROPEAN THEATER.

(1) Eastern Europe. It is reported that from the vicinity of Wyazma a German drive to the southeast is in progress. If successful this drive will cut off the Soviet salient southeast of Wyazma, including the town of Yudinov, thus straightening the front line from Gdansk to Orel. Germans attacking in the vicinity of Deo with the probable objective of straightening out the salient south of Staraya Russa.
(2) **Western Europe.** Unofficially it is reported that last night over 1000 bombers attacked industrial centers in Germany, particularly Essen, causing numerous and widespread fires. Enemy airfields in Germany, France, and Holland were bombed as a protective measure. It is estimated that this attack equaled in severity the operation against Cologne. On the night of May 29-30 the RAF bombed Gennevilliers dropping 140 tons of high explosives. Fires started, factories and power station believed hit, RAF fighters made three sweeps over Northern France. Bombing of Cologne reported very successful. Over 1000 bombing planes employed, escorted by 86 fighters. Next day, a pall of smoke 15,000 feet high reported over the city. Airdromes in Germany, France, and Holland were also bombed. Six Wellingtons successfully bombed Catania airfield in Sicily.

(3) **Southern Europe.** Nothing new to report.

1. **AFRICA AND MIDDLE EASTERN THEATER.** Enemy position in Libya becoming precarious. Enemy has opened gaps in British mine fields and a portion of his forces has withdrawn through these gaps while suffering heavy casualties from covering British air, artillery, and armored forces. In vicinity Bir-Hacheim, a number of Axis tanks is reported immobilized through lack of fuel. These being hopped up by Free French and Battalion of Indian troops previously isolated in initial Axis push. Establishment of Axis bridgeheads at gaps in British mine fields leaves some doubt as to ultimate enemy intentions. Holding of these bridgeheads would permit final assault at these points. During operations May 29-30 the RAF continuously attacked enemy motor transport columns, destroying an estimated 550 vehicles. German airfields at Kartuba and Tmimi also bombed. Twenty-two enemy aircraft were shot down, two probably shot down, and 22 damaged; others destroyed and damaged on the ground. On the afternoon of May 30th, British air action was heavy on the gaps in mine fields. Repercussions of Libyan battle are seen in regrouping of Vichy forces in North Africa, with large mobile force now concentrated Sidi-Bel-Abbes area. Attack by unidentified enemy submarine on 2 British ships in Diego Suarez Bay (Madagascar) on May 30 is reported.

2. **ASIATIC THEATER.** In Burma Japanese gunboats were reported operating on the Chindwin River in the vicinity of Panaybyin on May 22nd. One enemy tanker was left listing in the Rangoon Harbor area night of June 1 as result of Allied air attacks. Damage to other vessels was reported. Despite 10 intercepting night fighters and intense AA and searchlight activity, all bombers returned undamaged.

3. **SOUTHWEST PACIFIC THEATER.** Air reconnaissance of May 31 revealed at Ambon possibly 1 destroyer and 4 small merchant vessels; no activity at airfield. At Rabaul on the 27th, 12 transports were seen in the harbor and 18 fighters at Lakunai airfield. No activity was observed at Tulagi on the 29th. On the 27th, a large number of Japanese departed from Salamaua by launch, leaving only about 75 troops there. It is reported that tropical diseases had caused many deaths. United Nations medium bombers attacked Dilli on May 31 and scored possible hits on pier. Observation was limited. A night attack was made on Lee same date. Hits were made in the building...
area and on the runway; fires were observed. One and possibly
3 midget Jap submarines entered Sydney harbor and sank the depot
ship, KITTABUL. Two of these submarines were reported sunk by
patrol boats.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Eastern Europe. German mopping-up action continues south of Kharkov. Local action on both sides to improve position on Moscow—Kalinin front.

(2) Western Europe. In bombing attack of unprecedented scale on Cologne, Lay 30-31, an estimated 3,000 tons of HE and incendiary bombs were dropped. It is reasonable to assume, given reported excellent flying conditions and visibility, that most objectives must have been reached. Cologne is one of the key railheads and rail dispersion centers of German transportation system, and

contains highly important yards and repair shops. Principal industrial facilities include precision instrument factories, finished steel works, important railway bridges, synthetic oil and fabricated rubber plants. In suburbs is one of world's largest chemical factories. Cologne also contains extremely large oil storage facilities. In view of reported heavy weight of bombs used, damage to military objectives probably exceeds anything so far attained in the war. Reconnaissance showed TIRPITZ and HIPPER in usual berths in Trondheim Fjord on May 30th. In the air attack on a Nazi convoy off the Frisian Islands on May 28-29, it is now reported direct hits were scored on 8 ships of 1,000-3,500 tons each, and that fires broke out in 6 of them. Ten locomotives were disabled in Northern France by RAF fighters, May 28-29. Forty-nine Nazi aircraft operated off the east coast of England, May 29-30. Eighteen of them swung inland and made scattered bombings over eastern coastal sections: seven enemy aircraft destroyed, 2 probably destroyed.

(3) **Southern Europe.** Nothing new to report.

d. **AFRICAN AND LIDDLE EASTERN THEATER.** In Libya, the situation is increasingly unfavorable to the enemy who is endeavoring to withdraw westward through gaps he has made in the British mine field, many of his tanks and motor vehicles being still, however, east of the mine field. These advanced mechanized and motorized elements appear to be in serious difficulties as regards supply, which was greatly hampered by excellent work of the Free French units in Bir Hacheim area. If supply of these trapped elements can be effected by the enemy, it is believed that a portion of them can withdraw, although RAF is endeavoring to cover gaps in the mine field. Daylight air support of enemy forward elements has been conspicuously absent, though some air support has been given them at night, suggesting that enemy appears to be holding his aircraft in reserve for some other operation. Report indicates that Nazi General Officer Cruswell, commanding "Afrika Korps" has been captured. Germans captured General Wavell, commanding British 7th Armored Division, but he escaped and resumed command of his division. Enemy losses in the current operation (now evaluated as definitely unsuccessful) are high, and Axis morale—especially Italian—is expected to be hit hard. During the period May 22-28, Vichy light naval units based on Casablanca have been particularly active on exercises and convey work.

g. **ASIATIC THEATER.** Burma: On the western front, some of the boats carrying Japanese forces north on the Chindwin River in the vicinity of Hamlin, (see 6-2 Report May 31) are believed to have unloaded and are returning downstream. On the 24th May, 27 tanks and considerable number of Japanese troops reported Sittang. Air reconnaissance at Akyab on May 28th showed few small surface craft, no planes. China: No official confirmation of press reports of Japanese landing on Yuhwan Island, northeast of Weihai in Chekiang Province. Kinhwa, the capital of Chokiang, is believed to have fallen to the Japanese. A Japanese division is reported to have left Tiensin for Lanchuria. If correct, this will leave 6 divisions in North China and increase the Lanchurian and Korean units to 24 divisions.
f. SOUTHWEST PACIFIC THEATER. As a result of United Nations air attack on Tulagi, May 30th, antiaircraft positions at Tanambogo and Gavutu silenced, and wharf, buildings and fuel dumps set afire, causing explosions and fires visible 80 miles. Two heavy A.A. guns were observed at Gavutu and Tulagi.

g. PACIFIC THEATER. Nothing to report.

Submarine summary: 15 sightings reported along Atlantic seaboard, 9 of which are off Cape Hatteras; 8 sightings reported in Gulf of Mexico. Subs still covering oil shipping ports; 11 sightings in Caribbean area indicate continued activity in Greater and Lesser Antilles; 1 submarine sighted in the Aleutians indicates continued reconnaissance. Subversive activities reported - none.

b. LATIN AMERICAN THEATER. Mexican Congress approved a war decree, which must now be signed by the President.

c. EUROPEAN THEATER.

(1) Eastern Europe. German mopping up operations continue south of Kharkov. German forces believed to be reducing salient west of Moscow and mopping up guerilla bands in rear of front line. Germans claim bombing of Gorki (a vital war production center 260 miles east of Moscow on the Volga).

(2) Western Europe. Twenty-four Axis aircraft operated against shipping and laid mines off east coast of England May 26-29; two damaged by R.A.F. Trondheim-based planes reported on air reconnaissance flights as far north as Bear Island and Spitzbergen May 26. One or two K-40 aircraft based at Bordeaux reported active May 28 near Cape Vincent and Cape Roca (Portugal). At least 3 enemy ships off Frisian Islands (Denmark) were set afire May 28-29 by United Nations aircraft.
d. AFRICAN AND MIDDLE EASTERN THEATER. In Libya, by daybreak on May 31, the battle appears to have reached its climax and the situation appears to be turning to the enemy's disadvantage. Enemy elements have been cleared from Gazala-Tobruk road (along the coast); all enemy tanks, including reserves, appear to have been committed; heavy damage to enemy motor vehicles (supply and motorized Infantry) has been inflicted by RAF; enemy forward elements appear to have had little air support. Report indicates use of "human torpedoes" from parent submarine in unsuccessful attack on Alexandria, night of May 14-15; a new development in this area. Intensive construction ordered to be completed by June 10, is reported at Tymbakion airdrome (Crete), which place was visited very briefly by Goering recently. Reports indicate few if any paratroops on Crete.

j. ASIATIC THEATER. Burma: On Chindwin front enemy moving upstream by barge from Homalin. No interception or AA fire was encountered when United Nations bombers attacked Myitkyina airdrome May 29th. Nothing to report on other Burma areas. China: In Yunnan Japanese reported reinforcing Tengyueh and Burma road troops with apparent objectives of forcing Chinese east of Salween while removing supplies from Lungling. Wanting and Lashio; elements of enemy 55th division reported identified at Lungling. In Chekiang province, fighting continues; status of Kinhwa uncertain; enemy column reported vicinity Huyi (25 miles SE of Kinhwa) with objective probably Lishui. No reports from other areas.

g. SOUTHWEST PACIFIC THEATER. In New Guinea, 600 to 800 Japanese were reported at Lao and another 150 to 200 at Salamaua. Light and inaccurate AA fire was encountered by United Nations bombers attacking Rabaul on May 29; one of 5 Japanese interceptors was damaged. On same date, from 15 to 18 Zeros were intercepted over Hood Bay, New Guinea, by United Nations Pursuit planes. Three Zeros destroyed, 2 probably shot down and 3 damaged.

PACIFIC THEATER. Nothing to report.

Activity reported: May 23d, SS MARGOT (cargo vessel) torpedoed, shelled and sunk in the vicinity of 39°-00 N, 68°-00 W. Submarine summary: 10 sightings reported along Atlantic Seaboard. Submarine activity greatly decreased. Small concentration believed between Cape Hatteras and New York. 6 sightings reported in Gulf of Mexico, submarines covering oil shipping ports. In area of Antilles, decrease in activity noted. In Pacific, submarine reconnaissance of Aleutian Islands continues. Subversive activities reported: None.

b. LATIN AMERICAN THEATER. FRENCH GUIANA: All reserves in Cayenne and St. Laurent, French Guiana have been demobilized. Situation quiet. MEXICO: Mexican war declaration expected momentarily. President has asked Congress to suspend certain constitutional guarantees and grant him war powers. ARGENTINA: Presidential decree forbids press publication or comment on congressional speeches regarding political situation. Attempt made yesterday to assassinate vice-president.

c. EUROPEAN THEATER.

(1) Eastern Europe. Apparently the battle south of Kharkov is terminated. Kotka, (Gulf of Finland) object of bombings by Russian planes May 27th and 28th, is reported as being heavily fortified by the Germans.

(2) Western Europe. German activity against convoys to Murmansk continues. Shift of German planes to Tromso (north of Narvik) reported. On May 27th two Nazi fighters were destroyed, 1 probably, and six damaged in fighter combat over France. Three enemy minelayers
were also damaged during the sweeps. Three Nazi aircraft attacked a
Navy trawler near Spithead May 27th. One of the planes was shot
down by Spitfires. About 48 enemy planes operated over or near the
English coasts, especially sea-mining between Toss and Humber on the
Yorkshire coast. One Heinkel shot down.

(3) Southern Europe. About 30 Nazi bombers and 105 fighters
attacked Malta on May 25-26-27, with no serious damage. Enemy lost 3
fighters certainly, 1 probably and suffered damage to 7, from RAF
fighters and AA fire. Four bomber wings are reported to have departed
from Sicily for the Eastern Front.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Libya, events of
past few days appear as follows: Night of May 25-26, German bombers
attacked British landing fields without inflicting excessive damage; May 26,
attack was launched by Panzer Divisions closely supported by
Stukas with heavy fighter escort; large force of German tanks from
15th and 21st Divisions, passing widely S of Bir Hacheim, moved
around southern flank of British mine field and then turned N and NE.
However, the
German tanks appear to have gotten away from their Infantry, the bulk
of which is reported still W of the British mine field, and supply
of German forward units has become critical; RAF is concentrating
with success on Axis supply columns and Nazi effort to supply from
sea by E boats was unsuccessful; Italian Ariete Division (Armored)
attacked Free French in Bir Hacheim area while Panzers were making
their wide move to the south, and Ariete Division lost 48 tanks
destroyed by Free French who also captured an Italian Regimental
Commander; Ariete Division was ordered to move NE to join Panzers E
of British mine field but is reported to have failed to carry out
carry the order; in addition to 48 Italian tanks destroyed by Free French,
Axis has lost 90 German tanks destroyed by British; at noon of
May 28, General Ritchie expressed himself as satisfied with the
situation. In Tunisia, Italian effort to occupy is expected and
Admiral Esteva (Governor of Tunisia), who is now at Vichy, is reported
to be under pressure to make concessions. Reports indicate that
Spain is being tempted with prospect of her taking over French
Morocco if and when Italy takes over Tunisia. From Dakar, cruiser
CLOIRE (based on Casablanca) took 108 kilogram of gold to Casablanca
recently.

e. ASIATIC THEATER. Burma: On the eastern front, reports
indicate sporadic fighting in the vicinity of Tengyueh and Lungling
(35 mi. S of Tengyueh). On the western front, no indication of
Japanese reinforcements in this area. The movement of Japanese
troops north on east bank of Chindwin, opposite Thaungdat, may
indicate intention to establish base at Homa (75 mi. N of Sittaung)
and an attempt to prevent further allied withdrawal to Assam. Indaw
(65 mi. W of Ewae) reported occupied by the Japanese. On 26th, 28
camouflaged river craft reported 5 miles north of Homa. Enemy
interception by 10 night fighters failed to close in during an attack
by United Nations bombers on Mingaladon airstrome May 25th. Heavy AA
fire and 7 searchlights were encountered. China: Japanese forces
reported to have swept by Chinese-held town of Kinhwa, in Chekiang
Province and occupied Lungyu (30 mi. SW of Kinhwa).
f. SOUTHWEST PACIFIC THEATER. Allied reconnaissance of May 27th revealed the presence of the following enemy surface and aircraft: At Kavieng 2 transports and 4 small ships; at Rabaul 1 large transport, 3 small transports, 4 small boats and 9 flying boats. On the 28th 1 small merchant ship and 1 small auxiliary was seen at Dilli. There were no planes at the airstrip, but a runway was under construction. At Lae 2 damaged bombers were seen. Airdrome buildings here appeared burnt. Allied bombers executed a night attack on Rabaul; bombs were dropped near the wharf, large fires started and the military camp was machine-gunned from a low altitude. AA fire was light and inaccurate. Bombers also attacked Lae; hits were scored in the target area but results were not observed. AA fire was effective, but of 6 Zeros that intercepted 2 were shot down and 2 damaged. One United Nations plane attacked a transport at Dilli; AA fire was light. Twenty Zeros attacking Port Moresby were intercepted; one Zero was shot down and two damaged. Resistance of enemy air force in this theatre does not appear to be diminishing.

g. PACIFIC THEATER. Enemy submarine bombad at a position 150 miles north of New Caledonia on the 28th.

Activities reported:—May 29th, SS TISHAREN shelled and torpedoed at 03-30 N, 32-01 W; May 29th, SS HANTORP torpedoed off S passage of Mississippi; May 28th, SS NEVADA torpedoed 50 miles S of Grand Cayman Island. Submarine summary:—7 sightings reported along Atlantic coast during past 24 hours. Submarines covering principal ports. Concentration believed to be between Cape Hatteras and New York. Picture in general shows a decided decrease in activity. Four sightings, with 1 attack, in Yucatan indicates continued activity in Gulf of Mexico. One ship attacked off Grand Cayman Island in Caribbean and 8 sightings indicates continued activity against shipping from the Antilles. Situation in the Pacific indicates, steady increase in enemy reconnaissance. Subversive activities reported:—None.

B. LATIN AMERICAN THEATER. Two attacks reported on enemy submarines 200 miles NE of Natal, N coast of Brazil, by a Brazilian bomber. One attack reported as unquestionably successful, the other probably successful.

C. EUROPEAN THEATER.

(2) Western Europe. Six enemy aircraft dropped bombs in neighborhood of Southampton, south coast of England; only minor damage resulted.
Southern Europe. Nothing new to report.

AFRICAN AND LIDDLE EASTERN THEATER. In Libya, on the basis of communique, the heads of Axis mechanized columns appear to have reached El Duda and Sidi Rezegh, 17 and 20 miles respectively SE of Tobruk. (0-2 comment: Warfare in the area of present operations is more like sea warfare than like normal ground operations and fixed positions are generally not possible to establish or maintain. Units must move about as ships do in a sea battle and the location of enemy units inside an imaginary "line" is not necessarily an indication that the "line" has been pierced. Movement is possible only so long as fuel supply to the moving units is maintained, and advance of enemy units is sometimes encouraged in order that the moving units may advance too far for their fuel supply to be renewed.) Garrison of Fernando Po (Spanish Island opposite Free French Cameroon) has been strengthened by arrival of 262 Spanish Moroccan troops.

ASIATIC THEATER. Burma: On the eastern front, fighting still continues in vicinity of Tengyuen. Situation not clear. On 24th, Japanese reported to have occupied Sumprabum (75 miles north of Kyitkyina). Kengtung, in southeastern Burma believed to remain in Chinese hands. On the western front, Japanese reported moving north on east bank of Chindwin opposite Thamgudat (30 miles northeast of Tamu). Fighting between Burmese and Kuki tribes from Naga Hills is reported.

China: Occupation of the city of Kirsha, in Chekiang Province, by the Japanese believed imminent. Elements of the 13th Brigade and the 3rd and 40th Divisions reported identified in Chekiang. Additional Japanese troop-movements reported toward Nanchang, in Kiangsi Province. This in conjunction with unusual activity reported in the Canton area, may indicate plans to secure control of the railway communications in this area. Enemy aircraft estimated at 200 moved northward from Java and Malaya to Southeast China coastal area during past week.

SOUTHEAST PACIFIC THEATER. One Zero destroyed and 6 believed damaged when 15 enemy fighters attacked Port Harroby on Lay 27 and were intercepted. Attacking Zeros believed faster than those previously encountered. Unknown number of enemy planes made night raid on seven mile airdrome, Port Harroby; no damage.

PACIFIC THEATER. Two enemy mines found on beaches of New Caledonia.

ENEMY CAPABILITIES. No change.

1. ENEMY SITUATION AND OPERATIONS.

a. NORTH AMERICAN THEATER. Enemy submarine activity during this period continued to increase, with more than 62 attacks on shipping indicated by preliminary reports. Preliminary figure for previous period was 47, which was swelled by later reports to 59. While activity along Atlantic seaboard declined toward the end of the period, several attacks were reported in the Caribbean area, and submarines were particularly active in the Gulf of Mexico. An Axis submarine made its first appearance off the Mexican Gulf Coast at Chiltepec in Tabasco. A submarine was sighted in the Gulf of Panama. In the Pacific increased submarine activity was indicated from Los Angeles to Alaska, although no ships were attacked. Enemy reconnaissance of the Aleutian area was indicated by reports of an enemy plane over Kiska Island on May 24th.

b. LATIN AMERICAN THEATER. As a result of the torpedoing of two Mexican ships in the Gulf of Mexico, a war declaration by the Mexican Congress against the Axis is expected within a few days.

c. EUROPEAN THEATER.

(1) Eastern Europe. In the Crimea German forces, after overcoming stubborn resistance, occupied entire Kerch Peninsula. Russians made some progress in an offensive in the Kharkov area, but German counter-attacks to the south around Slaviansk and Izum endangered the Russian position. On the central front, Germans made local attacks. Expected major German offensive against Russia has not yet materialized.

(2) Western Europe. Pocket-battleship LUFTZOW moved from Swinemundo in Baltic to Trondheim, joining TIRPITZ and ADMIRAL HIPPET, and then proceeded with destroyer escort to Narvik area, joining ADMIRAL SCHEER at that point. PRINZ EUGEN reached Kiel from Trondheim despite British air attacks off southern Norway.

(3) Southern Europe. Axis air attacks on Malta further declined in intensity, as reports persisted that German planes were moving from Sicily to Crete and Libya. Italian airforce was more in evidence in Malta attacks. Enemy plane losses continued heavy.

d. AFRICA AND MIDDLE EASTERN THEATER. The expected Axis offensive in Libya got under way on May 26th, main effort being apparently in direction of Bir Hacheim (72 miles SW of Tobruk). Attack is
expected to have limited objective, probably Tobruk. Heavy enemy air traffic between Europe and Libya continued during this period. German bombers were intermittently active against Alexandria and shipping in eastern Mediterranean. Madagascar occupation progressed satisfactorily. Early Italian attempt to occupy Tunis was rumored, with resistance by Vichy forces expected.

c. **ASIATIC THEATER.** Japanese launched a strong drive in Chokiang Province, southeastern China, advancing south and southwest from Hangchow in several columns. Wuyi (98 miles south of Hangchow) was reached by the enemy, and Kimwa, the provincial capital, was threatened at the close of the period. Further west 20,000 enemy troops were reported concentrated in Manchang area. In Burma Japanese occupied Kalewa and further consolidated their gains. In Kengtung area, southern Shan states, enemy advances were reported. Heavy rains in northern Burma restricted operations. Yunnan situation became stabilized, with Japanese remaining west of Salween. In India hostile planes attacked Imphal and airstrike at Chittagong. Breakdown of civil administration in Manipur State, Assam, was reported.

d. **SOUTHWEST PACIFIC THEATER.** Japanese activity in this theater declined considerably following the Battle of Coral Sea. The enemy maintained its air strength in the New Guinea area and made several air attacks on Port Moresby, but there were no indications of an early renewal of Japanese offensive operations in this theater. Enemy shipping and aircraft at Rabaul, Lae, Ambon, and Koe pang suffered heavily from attacks by United Nations' bombers.

e. **PACIFIC THEATER.** While there were no significant enemy operations during this period, impending Japanese naval movements of major importance were indicated.

2. **ENEMY CAPABILITIES.** No change.

Submarine summary: 9 sightings were reported along Atlantic Seaboard in past 24 hours. No attacks reported. Indication of decrease of activities in general. Concentration appearing between Cape Hatteras and New York, which may indicate renewal in this area. 4 sightings, with 2 attacks, reported in Gulf of Mexico indicates continued activity. 2 sightings, with 1 sinking, in Caribbean indicates continued action in that area. Concentration appears along Antilles and Lesser Antilles. 1 sighting reported in Gulf of Panama off Canal in the Pacific. 1 submarine reported between Guadalupe Island and Baja, Calif. Activity continues from Los Angeles to Alaska, including the Aleutian Islands. Additional sightings reported 10 miles off Bogoslof Island. This apparently indicates reconnaissance in the Aleutian area. Subversive activities reported: None.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Eastern Europe. United Nations convoy withstood a 3-hour Axis attack on the evening of May 25, by about 32 torpedo planes and dive bombers. One enemy plane destroyed, 4 probably destroyed.

Regraded Unclassified
SECRET

(2) Western Europe. LUSITAN and ADMIRAL SCHEER (pocket battleships) reported in Narvik area. On May 25, a 12,000-ton Nazi vessel was attacked by a Beaufighter off Bergen. One German bomber was damaged near Leicester.

(3) Southern Europe. Five thousand Italian parachute troops (plus 4 or 5 divisions) are reported concentrated in the Genoa-Spezia area, probably a part of a pressure campaign against Vichy, France.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Libya, May 27, main enemy effort appeared to be on Axis Moghata (72 miles SW of Tobruk); British positions along entire line apparently still intact. Daily arrival at Derna of about 100 German transport planes, presumably on ferry service, is reported. Derna Air Field was heavily bombed by R.A.F. on May 23. At Dakar, battleship RICHELIEU has 3 out of 4 main drive shafts in working order, which should permit speed of 25 to 30 knots were it not for foul condition of bottom. Of the 8 – 15" turret guns, 3 are out of commission, and the other 5 will not be able to fire more than a few rounds, due to tube swelling which results from excessive initial velocity and slow-burning powder charge.

e. ASIATIC THEATER. Burma: On the eastern front allied forces are engaged with the Japanese troops east of Tungyi. Longin (65 miles NW of Myitkyina) reported occupied by Japanese. No enemy activity reported in Myitkyina area. Myitkyina airfield unserviceable. In Southern Shan States, 2 Thailand Divisions with part of 17th Japanese Division reported operating vicinity of Kengtung, Siamese, who claim same ancestry as people of southwest Yunnan probably have territorial ambitions in this area. On the eastern front, Japanese scouting parties said to be moving from Akyab toward Chittagong, China; In Chikiang Province, Chinese forces hold Khiwa May 25th. Unusual Japanese military activity is reported on the north bank of the Fen River in southwestern Shansi. Japanese landing reported on May 20th on Chwan Shih Island in the Min River estuary. This may presage further activity in this area.

f. SOUTHWEST PACIFIC THEATER. Air reconnaissance May 26 indicated no enemy seacraft in the Gulf of Carpentaria. No activity was noted in the Tulagi area of the Solomons, particularly Gavatu and Port Purvis. Two Zeros were shot down, 1 probably shot down, when 16 Zeros intercepted a patrol of United Nations pursuit planes near Mount Lawson, New Guinea, on May 26th.

Submarine summary: 7 sightings reported in the Gulf of Mexico, with 4 attacks during past 24 hours, indicate future increase in attacks in this area. 5 sightings and 3 attacks in Caribbean indicate continued activity. Decrease in submarine activity indicated along Atlantic Seaboard. In the Pacific, 1 submarine was sighted in the Gulf of Panama, and there are indications of an increase in submarine activity along the Pacific Coast from Los Angeles to Alaska, including the Aleutian Islands. Indications point to submarine activity in the Bering Sea at 50 N, 140 W, about 500 miles off Kiska Island. Enemy plane reported flying over Kiska Island in the Aleutians on morning 25 May indicates reconnaissance of this area. Subversive activities reported: May 25th, a fire of undetermined origin occurred in the Sierra Ordnance Depot at Doyle, California and destroyed a cement plant. May 26th, Alaska, fire are under control at Clear Creek Buttes, but spreading at Chickaloon and spotted throughout Swans Lake region.

b. LATIN AMERICAN THEATER. Mexican Congress to meet Thursday, war declaration possible Friday or Saturday.

c. EUROPEAN THEATER.

(1) Eastern Europe. Nothing new to report.

SECRET

Regraded Unclassified
SECRET

(2) Western Europe. Two German fighters were destroyed and 9 damaged during a sweep over northern France by Spitfire squadrons. Two other enemy planes were damaged near the English coast. On May 24-25 about 55 enemy aircraft operated between Portland and Isle of Wright; one Heinkel bomber destroyed. Bombs were dropped in Bournemouth and Isle of Wright.

(3) Southern Europe. Nothing new to report.

d. AFRICAN AND MIDDLE EASTERN THEATER. Preliminary reports indicate that enemy columns, relatively strong in tanks, advanced eastward May 26, but had not reached British main positions by nightfall. This appears to be the start of the expected Axis offensive in this area. The persistent propaganda alarm for Vichy cessions of French territory (including Tunisia) to Italy, indicates an impending move by Hitler in his game of power politics, Italy and Vichy being, of course, but pawns in Hitler's hands. Casablanca defenses have considerable reinforcements in prospect; the guns from Vichy warships at Martinique and Guadeloupe apparently are to be sent there under the agreement being negotiated at Martinique. Naval seaplanes based on Arzew (Algeria, near Oran) have been increased to 12 in number, and Vichy naval forces in that neighborhood are reported to be unusually active. A German Admiral recently inspected coastal defenses in Oran area. New German Consul arrived Monrovia (Liberia) May 24 and 5 Germans left same day by Vichy plane which brought the Consul. Remaining Germans (excluding the new Consul) expect to leave Liberia June 6.

e. ASIATIC THEATER. Burma: Japanese forces are advancing in the vicinity of Hankung, on the western front. Heavy rains in northern Burma have slowed down military operations. On western front it is reported that 3 river steamers, 33 paddle boats and 9 camouflage barges are on Chindwin River between Kalaw and Thaungdwin (85 mi. N of Kalaw). (Estimated capacity of a paddle boat, 150 men or 90 tons). No ground contact reported. At Rangoon, oil tanks with capacity of 350,000 tons were shown by aerial reconnaissance on May 16, to have been destroyed. Nine tanks holding 18,000 tons appeared undamaged. French Indochina: Reports of mechanized reinforcements arriving in Indo-China not confirmed. India: Emphasis by Japanese radio that Japanese air force would attack accurately military objectives probably designed to drive natives from war work and remove key operating personnel. Enemy air reconnaissance continued at Chittagong and Silchar. Six flying boats reported in water 15 miles south of Cosamada. It is believed this reconnaissance and presence of the flying boats indicate further air raids. China: In Chekiang Province, Japanese forces are reported to have reached Wuyi (98 mi. S of Hangchow). Kunwha reported to remain in Chinese possession. In Anhwei Province, Japanese Forces of unknown strength reported moving south from Wuhu (60 mi. S of Hankow) and Wanchih (53 mi. S Hankow) on the 24th. Press reports that a strong Japanese expeditionary force is massing in Formosa may indicate an impending invasion of Fukien Province.
f. SOUTHWEST PACIFIC THEATER. Photos taken during air reconnaissance at Rabaul on May 24, reveal in addition to sightings previously listed, 1 destroyer, several float planes, 2 seaplanes, 7 bombers and 17 fighters. Air reconnaissance May 25, showed one medium transport and 3 cargo vessels at Kavieng and one flying boat at Gavutu Island (Solomons). Heavy AA fire and interception by 15 Zeros were encountered when United Nations bombers attacked Lae air-drome with HE and incendiaries on May 25. Two Zeros were destroyed. Intensive AA fire from ground and ships, and interception by 5 Zeros at 27,000 feet were met in an attack on Rabaul air-drome May 25. Hits were scored on grounded aircraft and buildings, and large fires resulted. Two Zeros probably shot down. An enemy raid on Port Moresby on the night of May 25 by 3 Serial 43 bombers resulted in possible destruction 1 bomber by AA fire.

Activities reported: May 17th, SS FREISANDER torpedoed at 37-24 N, 63-38 W; May 22d, SS FRANK BAIRD torpedoed at 20-00 N, 73-53 W; May 25th, SS FREI MAONY torpedoed off Barnegat Buoy. Indications point to a continuation of submarine activity along the Atlantic Seaboard, the Caribbean and an increase in activity in the Gulf of Mexico, particularly against oil shipping ports. An Axis submarine made its first appearance off the Mexican coast at Chiltepec in Tabasco. Subversive activities reported: May 25th, Fort Crook, Neb., an army bomber crashed at the Martin-Nebraska Aircraft Testing Field.

b. LATIN AMERICAN THEATER. Despite apparently successful conclusion of negotiations relative to immobilization of French warships in Antilles, there is increased activity in French Martinique military ground forces.

c. EUROPEAN THEATER.

(1) Eastern Europe. Local German attacks have begun on central front. Situation Kharkov area still remains obscure. Apparently German attacks northeast of Slavyansk continue.

(2) Western Europe. Political situation, Army and Royalists versus Falange continues strained. One German fighter destroyed, 5 damaged May 23, when squadrons of Spitfires swept northern France. One Heinkel destroyed over England May 23d. Three enemy aircraft from Trondheim reported on reconnaissance north of Iceland on May 23d.

Regraded Unclassified
(3) Southern Europe. Seven Axis bombers and 48 fighters flew over Malta May 23; four planes destroyed and six damaged.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Libya, May 23, Axis made unusually active efforts to prevent British reconnaissance over area Tmimi to Rotunda Segnali. However, British observation noted considerable enemy movement in both directions on Bomba-Tmimi road, on Tmimi-Rotunda Afrag road, and in area Rotunda Afrag to Rotunda Segnali. These enemy movements are interpreted as another step in preparations for impending Axis limited-objective offensive, probably to be directed against Tobruk. Axis camp at Tmimi and landing ground at Martuba were successfully bombed by RAF on May 21-22. Italian "Littorio" Division, units of which arrived at Tripoli some time ago, has not moved from there and it is now estimated that only 1 Battalion of that Division has actually arrived. Report indicates Vichy intention to develop Naval and Air base at Port Lyautey (Morocco). This location, while requiring very extensive work to become a naval base, can be developed into flying boat harbor with little labor and would thus become excellent base from which planes could make the Africa-South America flight via Sal Island in the Cape Verde group.

e. ASIATIC THEATER. Burma: On the eastern front, Japanese forces north of the Burma Road are reported still west of the Salween River. Fighting continues in the east, south and west of Kengtung, China: In Chekiang Province the Japanese 22d Division, 11th and 20th Independent Brigades are reported identified as part of the forces estimated to total 2-1/2 divisions moving south and southwest from the Hangchow-Ningpo area. The 11th Brigade is reported moving through Penshui on Suian (100 miles SW of Hangchow); the 20th Brigade through Tungyang (70 miles south of Hangchow) on Tungkang (96 miles south of Hangchow), while the main force consisting of 22d Division moved through Tnu on Kinhwa. Situation in the Kinhwa area obscure.

f. SOUTHWEST PACIFIC THEATER. Sightings of enemy surface vessels and aircraft: at Salamaaua, 2 small ships; at Lae, 2 fighters in the air; at Rabaul 5 large ships, 7 small ships, 8 seaplanes, 4 bombers in the air and several on the ground; at Kavieng 3 fighters in the air. In an attack on Rabaul United Nations bombers scored 2 hits and dropped 19 bombs among 18 enemy bombers. Fires were started in the group of bombers and in buildings, AA fire was heavy. Fighting in Dutch Timor has ceased but sporadic resistance is reported in the interior of Portuguese Timor. The Japanese have abandoned the airdrome at Dili. Enemy activity in this theater continues to decrease.

g. PACIFIC THEATER. Nothing to report.

Subversive activities reported: May 21, Niagara Falls, N.Y., 1 person killed and 5 injured in explosion from over-heated furnace in the Titanium Alloy Company plant. The plant had Navy contracts.

b. LATIN AMERICAN THEATER. Mexican Congress meets today to consider declaration of war against Axis powers.

c. EUROPEAN THEATER.

(1) Eastern Europe. Nothing new to report.

(2) Western Europe. Nothing new to report.

(3) Southern Europe. Nothing new to report.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Libya, indications of Axis limited-objective attack are increasing and German prisoners confirm. Enemy attacks by ME-109, ME-110, and JU-88 against Railway supply trains near Capuzzo Railroad have been very successful. Planes fly at about 500 feet, dropping their bombs, and strafing locomotives with MG and cannon. Intensive efforts to increase capacity of Benghasi harbor facilities are being made. During May, daily average of 2,000 tons of

Regraded Unclassified
supplies being unloaded there as against daily average of 1,500 tons for March. Rumors of impending Italian effort to occupy Tunisia are increasingly current and effort, if made, will probably be resisted with limited means available. Italians complain that shipments of wheat from Vichy North Africa into Libya are far below what is required. Vichy naval units in Tunisian bases include 7 submarines and 5 destroyers. When British occupied Diogo Suarez (Madagascar), they sunk 2 Italian merchant ships in port and damaged a German ship in drydock.

e. ASIATIC THEATER. Burma: No official reports received from this theater. Situation along the Salween River has not clarified. Japanese apparently attempting to consolidate their gains in Burma.

China: In Chekiang province, Japanese columns are reported to have reached the provincial capital, Kinwha (90 miles S of Hangchow) along the Chekiang-Kiangsi railway. Japanese are believed to have as their immediate objective control of potential bases and the communication systems in this area.

f. SOUTHWEST PACIFIC THEATER. Air reconnaissance of May 23 revealed the following: At Ambon, 1 destroyer, 2 merchant ships and 5 fighters; at Lae, 1 tanker, 6 to 10 fighters, 1 large bomber; off Cape St. George, New Ireland, 1 warship. In the R.A.A.A.F. attack on Ambon May 22, one near miss was scored on a 1,000 ton transport, and 1 Zero was shot down. On May 23 Allied air attack on Lae received large caliber AA fire. During bombers' return flight one Zero dropped a pear-shaped object from high over leading bomber. Object exploded in shrapnel cone with smoke stream, after which Zero attacked head-on. Leader avoided explosion by banking; no effect observed. There is no appreciable change in enemy capabilities in this theater.

g. PACIFIC THEATER. One enemy submarine reported off west coast of New Caledonia.

2. ENEMY CAPABILITIES. No change.

Activities reported: May 15th, SS KUPA (or LIPKUPA) torpedoed and thought sunk near Barbados; May 20th, SS GEORGE CALVERT torpedoed at 23-04 N, 84-17 W; SS CLARIUS torpedoed at 21-33 N, 84-39 W; May 22nd, SS WILLIAM THOMPSON torpedoed at 16-26 N, 77-55 W; SS QUILKER CITY torpedoed at 15-01 N, 57-38 W; May 23rd, SS SAMUEL BROWN torpedoed at 20-15 N, 84-37 W; Subversive activities reported: None.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Eastern Europe. The German forces apparently have established bridgeheads across the Donetz River northeast of SLOVANSK and TIZUN, seriously threatening the Russian line of communications. This may result in the encirclement of Russian forces south of KHARKOV.

(2) Western Europe. Last week about 60 German planes were reported at La Bassée and Loon airfields in north-central Spain. It is also reported that Mallorca (Majorca Island, southeast of Spain in Mediterranean) is being reinforced by Axis torpedo bombers. About 30 enemy aircraft operated May 21-22 between Flamborough Head (east Yorkshire coast) and The Wash (100 miles north of London).

(3) Southern Europe. One Me-109 was shot down at Malta May 21-22.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Libya, May 21st,
onmy activity increased N and N of Bir Tomra; onmy motor vehicles
were engaged by British Artillery 3 miles S of Sidi Brughise. Six
merchant ships, formerly Danish and now flying French flag, are
running regularly between French Mediterranean ports and French
North Africa. North African cargoes are shipped from France to
Germany and Italy, and heavy trucks are carried to Africa by these ships. At Casablanca, Admiral d'Harcourt states that
German pressure on Vichy for defense of North Africa against
United Nations has diminished, due to German conviction that United
Nations shipping losses preclude possibility of effort against
Morocco prior to 1943.

c. ASIA-TIC THEATER. Burma: Situation along the Salween River
in western Yunnan appears unchanged; fighting continues along the
Mekong River east of Kengtung. There has been no official confirmation
of Japanese occupation of Fort Harts. Considerable activity reported
in streams near Nyab, India; Administration in Manipur State apparently has broken down and some looting, burning
and sabotage occurring. China: In Chekiang Province, 5 Japanese
columns reported moving south and southwest from Hangchow have
reached the general line Fenshui (60 mi. S.W. Hangchow) - Tengli -
Tao - Tientsin.

f. SOUTHWEST PACIFIC THEATER. There are indications that a
Japanese air base is being proprared in the Tulagi area of the
Solomon Islands. Although enemy air strength is being maintained
in the New Guinea area despite losses, there is little indication
of a renewed Japanese offensive there. Air reconnaissance May 22d
showed: at Lae, 8 fighters, 7 bombers on ground, 8 fighters in air,
1 tanker in harbor; at Rabaul, 30 to 40 bombers, several fighters,
7 medium transports, 10 smaller vessels, 1 possible large warship.
On May 22d an air raid and shipping at Lae were attacked by United
Nations medium bombers, resulting in near misses on tanker and hits
on grounded heavy bombers. Of 9 enemy interceptors 3 were shot
down, 2 probably shot down. A/A fire was light and ineffective;
Japanese fighter homeworkship poor. An attack on enemy shipping and
airfields at Rabaul resulted in near miss on large transport and
near miss on parked bombers. Air reconnaissance on May 21 showed
1 destroyer and 5 merchant ships anchored off Labon. The enemy seaplane base at Doboyo Island (New Guinea) appeared on May 21st to
have been abandoned.

  as yet.

b. LATIN AMERICAN THEATER. Political situation in Mexico
  grows increasingly tense. Declaration of war against the Axis powers
  expected to follow immediately after convening of Congress.

c. EUROPEAN THEATER.

1) Western Europe. Between May 1 and May 14, enemy single-
engine fighters made only limited effort on the Western Front. This
reduction in effort followed an April wastage of about 120 single-engine
fighters.

2) Eastern Europe. German counterattacks in vicinity of
Isyam (southeast of Kharkov) continue.
(3) Southern Europe. Attacks on Malta considerably decreased during past week with Italian Air Force more in evidence. In week ending May 19th the enemy lost 40 planes, probably lost 20, and 12 planes were damaged.

4. AFRICAN AND MIDDLE EASTERN THEATER. In Libya, during past week, Axis aircraft moved to forward bases in increasing numbers and much movement of ground units immediately in rear of forward positions has been observed. Increased activity of small Axis parties including some tanks, in no-man's land, indicates effort to screen forward concentrations and prevent penetration by British patrols. All indications point to early limited objective attack by Axis; Axis supply situation not believed such as to warrant continuation of effort beyond Egyptian frontier. During the week, Germans bombed Alexandria, Capuzzo Railhead and Tobruk harbor; also laid mines from aircraft off Nile Delta. Some German air units are known to have moved from Sicily to Crete and to Libya. Heavy air traffic between Europe and Libya continues.

5. ASIATIC THEATER. Burma: On the western front, the situation along the Burma Road west of the Salween River appears to be stabilizing. On the western front, no contact reported. Situation still not clear. Indo-China: Japanese column of unknown strength reported moving northwest from Chengrai (Thailand) into Indo-China possibly indicating threat to Chelii in southwestern Yunnan. India: The Sind Railway in Manipur State has been placed under military control in the vicinity of Karachi. Japanese 4-engine flying boat attacked merchant ship off Gopalpur (400 miles southwest of Calcutta) on May 20th. Three Japanese Zeros machine-gunned Chittagong airstrip on May 19th. China: In Chekiang Province, Japanese columns estimated to be a force of 30,000 are reported to have advanced to the line Tunglu (45 miles southwest of Hangchow) - Iwu (65 miles south Hangchow) - Tiantai. Japanese reserves in this area slated to approach 40,000 troops. In Central China, Japanese reported to have 20,000 troops concentrated in the Nanchang area.

6. SOUTHWEST PACIFIC THEATER. Air reconnaissance on May 20th revealed the presence of the following Japanese surface vessels and aircraft: At Ambon (immediately south of Ceram Island), 1 destroyer and 5 merchant ships were at anchor; at Salamaun, 1 tanker; at Koeang, 1 small transport, 6 bombers and 14 fighters on the ground, 8 fighters in blast shelters; at Lao, 15 fighters and 5 bombers on the ground, 8 fighters in the air. Two Japanese heavy bombers and 1 Zero received hits and extensive damage was done to 2 other bombers when our bombers attacked the airstrip at Lao. Of the 8 Zeros intercepting, 3 were possibly shot.
down. There was considerable A.A. fire. Photos taken after the heavy bomber attack of May 20th on Koepang revealed hits on 1 bomber, 2 fighters and the runway. Near misses were scored on 1 fighter and 2 bombers. Fires were started involving 1 aircraft and probably fuel dumps. Immediate enemy activity in this theatre appears to be limited to consolidation of previous gains and small scale air raids.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Western Europe. Nothing new to report.

(2) Eastern Europe. Great confusion exists with reference
to Eastern Front. LIECTZON reported in Trondheim Fiord.

(3) Southern Europe. On May 18 and 19, 67 fighters and
3 bombers attacked Malta. Two enemy planes were destroyed and 3
damaged. Seen over Malta on May 18th, new Italian fighter REPARTERNE RHE
2001: reported to be powered by D.B. 601; 1100 horsepower engine;
speed estimated at 350 miles per hour, and service ceiling of 35,000
feet; estimated range 550 miles. Armament consisted of two 12.7 mm
machine guns firing through propeller and one 7.9 mm, machine gun in
each wing. Correction: Report of May 17, fifth line of c. (1)
should read "fallen to 20% of" rather than "fallen 20% below."

d. AFRICAN AND MIDDLE EASTERN THEATER. At Casablanca, recently arrived Japanese Consul-General has had several meetings with his German and Italian colleagues and it appears that strong pressure is being applied to Vichy to demand the recall of the US Control Officers in Northwest Africa. In NW Africa cities, a powerful propaganda film based upon recent RAF bombings of Paris munitions factories is being shown and violent anti-British reactions have been stirred up by this film, which includes no shots of the factories themselves but exaggerates the damage to workers' dwellings and makes it appear that all casualties were women and children. German residents in Liberia have been warned that "if conditions change" they will be required to leave Liberia.

e. ASIATIC THEATER. Burma: No official reports received of any fighting in this area. Up to 21st no ground contact reported with Japanese forces in western Burma. India: Difficulties with civil administration in Manipur State, through which Imphal Road passes, is manifesting itself. The objective of the recent rail train attack on May 15 by Huns appears to have been the Prime Minister of Sind who had already detained. China: Japanese columns estimated at 2 divisions reported to have advanced southward and reached the general line, Chukl (45 mi. south of Hangchow) - Cheng (65 mi. southeast of Hangchow) - Tiantai (95 mi. southeast of Hangchow). Reported Japanese 34th and 40th Div., may have arrived in northern Chekiang as reinforcements for present operations south of Hangchow. Press reports of 25,000 Japanese troops landing at Foochow not confirmed. Air reconnaissance showed 8 flying boats, 8 float planes, 1 small merchant ship at Port Blair, Andamans, on May 18. Work on landing ground in progress. At least 7 Navy Zero fighters were attacked on ground at Akyab on May 18-19. Two or more were damaged. Sixteen ships observed at Rangoon on May 16th.

f. SOUTHWEST PACIFIC THEATER. Following enemy losses were inflicted by Allied submarines: April 17, a 9000-ton loaded transport was sunk in Cuyo Passage (west of Panay), April 25, a 6000-ton partially loaded transport was sunk off San Fernando, Luzon (150 miles north of Manila); May 11, 3 torpedo hits were scored against a heavy cruiser, probably of NAGO class, west of Buka. Four Jap planes were damaged in a raid on Port Moresby on the 20th. The scale of enemy activity in this theater has dropped considerably. Enemy airfields at Koepang (Timor) attacked and two direct hits scored on grounded aircraft, 10 on runway intersections, 4 on area occupied by buildings. Three fires observed.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Western Europe. PRINZ EUGEN is reported at Kiel; LUBITZON reported at entrance to Trondheim Fiord.

(2) Eastern Europe. The situation in the Kharkov area remains obscure.

(3) Southern Europe. On the 17th and 18th of May, about 70 German and unascertained number of Italian fighters attacked Malta. British fighters destroyed nine, probably five more, and damaged two.

d. AFRICAN AND MIDDLE EASTERN THEATER. In Libya, Axis position has been considerably strengthened during past two weeks, with much digging, blasting, mine-laying observed. Order of battle as of May 20 from Mediterranean southwest is: German 90th Light Division and Italian Trento Division from coast to Sidi Breghid; German 21st Armored Division with German 15th Armored Division directly in rear, in Sidi Breghid area, this being first time both German Armored Divisions have been in same area; From Sidi Breghid area, Italian Arieto Armored Division, then

Italian Motorized Division at Rotunda Segnali; Southern flank held by mobile force of tanks, artillery and AT guns, with southern approaches mined and protected by mobile patrols equipped with radio. The 2 German Armored Divisions have total of 360 tanks and the Italian Ariete Division has 150 tanks; both have certain reserves. Within striking distance of Libya Germans have 665 planes, all types, and Italians have 400 serviceable about 50%. Italian planes rarely seen at front. Current estimate Axis forces in Libya is: German about 80,000; Italian about 65,000. Axis has 350 field guns; 330 AT guns; 54 self-propelled tank guns; 320 AA guns, of which 90 are heavy. Germans have shown superior qualities of direction and cohesion, proper use of weapons, timing of operations however small, appropriate air support of ground forces, and follow up advantages. In case of battle, the battleship JEN BART returned to its normal berth, evening of May 19, after intermittent firing of its 380-mm guns, always singly, during morning and afternoon. In Madagascar, the occupation is progressing satisfactorily, especially as regards civil relations. British commander has arranged to remove all civil and military personnel who would not cooperate and it has been necessary to remove only small number of Army and Navy officers and only 10 civilians. At Dakar, 3 submarines accompanied by submarine tender JULES VERNE, left port, apparently for exercises, on May 19. At Oran (Algeria), May 13, were following naval units: 2 destroyers; 6 submarines, of which one on patrol duty; 4 patrol vessels.

SOUTHWEST PACIFIC THEATER. Air reconnaissance May 19 revealed small merchant vessel at Lebon; 6 aircraft at Loe airstrip, one tanker 7 miles west of Rabaul. One Japanese regiment is believed to be at Tulagi in the Solomon Islands. This is in addition to the order of battle given in the May 17 G-2 Report. No immediate enemy offensive in this theater is indicated.

Subs active in area.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Western Europe. German pocket-battleship LUETZOW with escort reported off southern Norway. Shipping at Boulogne attacked by British planes. In engaging three British fighter sweeps over northern France on May 17, Germans lost nine planes, with seven probably destroyed and thirteen damaged.

(2) Eastern Europe. Situation east and south of Kharkov confused. Germans report that attack on Kerch Peninsula has been completed and that they control west shore of Kerch Strait.

(3) Southern Europe. On May 16 and 17 sporadic Axis raids on Malta. Enemy lost eight planes, destroyed probably two more, and seven damaged.
d. AFRICAN AND MIDDLE EASTERN THEATER. Engagement reported between British and Vichy air and naval units off Algiers, and original responsibility, not yet clearly established, appears to rest with Vichy. Press and radio comments on the incident indicate that Vichy will probably endeavor to make political capital out of the encounter. Oran (Algeria) Naval Command expects early arrival of 6 motor torpedo boats for patrol duty. These are new and fast (about 60 miles per hour) and are armed with: 1-37-mm gun; 2-13.2 cal MG; 2-450-mm torpedo tubes. At Casablanca, night of May 18-19, battleship JEAN BART moved to new position about 200 feet from jetty, and at 7:30 a.m., May 19, she began firing her 380-mm turret guns at half-hour intervals. There are now 13 submarines based on Dakar, of which 3 to 5 are normally out on escort or patrol duty.

g. ASIATIC THEATER. Burma. On eastern front, Japanese are reported withdrawing toward Tengyueh. Artillery duels across Salween River continue. Japanese forces reported to have occupied Fort Hertz (126 miles north of Myitkyina). Situation between Mekong and Salween Rivers in eastern Burma confused. On the western front, Japanese forces on May 15 reported moving up the Chindwin River, 4 miles south of Sittang (19 miles east of Tamu). No contact reported. In southeastern China, Japanese forces reported moving south from vicinity of Hanchow in 3 main columns (see O-2 report May 19). French Indo-China: The 17 vessels seized by the Japanese were at Saigon reported to total approximately 80,000 tons.

f. SOUTHWEST PACIFIC THEATER. On May 18, 4 merchant ships, 1 submarine and 1 possible destroyer were seen in Keoang harbor. At Pavuvu Island, 60 miles west of Tulagi (Solomon Islands) 2 cruisers were observed. At Gavutu Island (a part of Tulagi harbor) there were 1 destroyer and 1 large transport. Four seaplanes were at Tulagi and vicinity; A Japanese mass air attack on Port Moresby May 18 was intercepted. Two enemy bombers were shot down and 3 Zero's possibly shot down. A raid on Japanese shipping at Keoang resulted in 2 hits being made on a 3,000 ton transport and possible hits on a 5,000 ton transport. AA fire was heavy but ineffective. A large scale enemy offensive in this theater does not seem imminent.

(2) Axis Brigade has been posted 75 miles S of coast, apparently to invite
over extension of British front; (3) Both sides apparently preparing for
limited objective attack; (4) Axis supplies are being moved forward
and size of dumps indicates offensive intention (estimated 15 days fuel
and 30 days other supplies available to Axis, though shortage of some
types of ammunition still exists); (5) Axis has 2 Panzer Divisions and 1
Mechanized Division in Cyrenaica, all full strength and with average
reserves of personnel and tanks, this being considered sufficient
strength to permit offensive action; (6) Axis bombing of locomotives has
been very effective. In Aegean area, no preparations are apparent for
offensive in any direction. No change in North African situation.
CORRECTION:— date given as May 4, in yesterday’s Summary, referring to
loss of 3 out of 4 United Nations Destroyers by enemy action, Eastern
Mediterranean, should read May 11.

battalion occupied Tengyuen on May 15. An enemy force located near the
Burma Road and the Salween River crossing is reported shelling positions
east of the Salween. On the central front, Japanese have occupied Singu
(42 miles north of Mandalay). No contact with enemy reported on the
western front. Imphal, Assam, was bombed by 34 Japanese planes on May 16
but few military casualties. The Japanese conducted air reconnaissance
on the Tamu area, (50 miles southeast of Imphal). Kalowa (near Imphal),
bombed by British planes May 18, was apparently deserted. In south-
eastern China (Chokiang Province), Japanese force, estimated to be a
division, is reported to have advanced from Hangchow area to the line
Yuhang (15 miles west of Hangchow) — Puyang (21 miles southeast of
Hangchow) — Linpu (14 miles south of Hangchow) — Shaoching (30 miles

d. AFRICAN AND MIDDLE EASTERN THEATER. German bombers based on Creto and Grocco have been active against Alexandria and communications centers in Western Desert, also against United Nations shipping in Eastern Mediterranean. On May 4, an attempt by 4 British Destroyers to intercept Axis convoy in this area resulted in loss of 3 of the 4 Destroyers by Nazi bombers. Photographic reconnaissance over Sicily shows number of German bombers based there has been decreased — probably diverted to another Front. At Dakar, May 12, Cruisers GEORGES LEYGUES and MONTCLAIR and Destroyers M.LIN and PLANTASQUE were outside for practice. Battleship RICHELIEU expected to be towed outside for 15" gun firing practice on May 17. In Madagascar, British appear to have halted southward advance to consolidate positions.

e. ATLANTIC THEATER. Burma: On eastern front, elements of 3 Japanese divisions reported advancing on front KUNLONG FERRY (110 miles south of Tengyueh in NE Burma) --- Tengyueh. Fighting continues near junction at Salwou and Nampang Rivers. On the western front, Japanese occupied Kalewa on May 14. The bulk of the Japanese forces appear to be in eastern Burma. Indo-China: The 17 French ships seized by Japanese at Saigon (see G-2 report May 8) are reported used as transports. On May 16-17 enemy airrome at Myitkyina was attacked with direct hits scored on field. No enemy pursuit or M. fire encountered. In daylight raid on same airrome 28 pursuit and 2 bombers observed on field but no effort made at interception.

f. SOUTHWEST PACIFIC THEATER. Enemy reinforcements required to renew the drive south from New Guinea have not appeared in that area. Reconnaissance flights revealed the following: 1 transport west coast of New Ireland, 1 destroyer, 1 transport 240 miles northeast of Kavieng, 2 cruisers and 1 destroyer 90 miles northeast Tabar Island, 8 seaplanes at Lasanga Island near Salemaun. In 3 attacks by our bombers on airrome at Lao hits were scored on buildings, fuel dumps, and aircraft on the ground, 5 of which were believed to be destroyed.

Early May 10, Alexandria was attacked by enemy bombers for one-half hour, with considerable civilian casualties but slight military damage. Kurd uprising in NW Persia has quieted down and situation appears likely to remain quiet, as indications are that the Kurds have been granted everything they demanded. Reports from Madagascar indicate that the entire island is coming under United Nations control without further difficulty, and plan for establishment of civil government which will satisfy all interested parties appears to be developing satisfactorily.

1. ENEMY SITUATION AND OPERATIONS.

a. NORTH AMERICAN THEATER. Enemy submarine activity in the Atlantic showed a marked increase during this period. Preliminary reports indicate more than 47 ships attacked as compared with 35 in the preceding period and 45 each in the two periods before that. Significant submarine attacks took place in the Gulf of Mexico and in the mouth of the St. Lawrence River.

b. LATIN AMERICAN THEATER. In Paraguay increased activity of Axis sympathizers reported, but situation apparently under control.

c. EUROPEAN THEATER.

(1) Western Europe. Points in Germany (particularly Stuttgart area) and occupied France continued to suffer damage from RAF attacks which were on a diminished scale compared with the previous period. German planes suffered heavy losses making scattered attacks on English towns. Over Iceland and northern Ireland enemy reconnaissance flights were reported. In German attacks on Murmansk convoys one British Cruiser and one German destroyer were lost. Twenty thousand tons of Axis shipping off Norway and Holland were sunk or damaged by RAF during week ending May 7th.

(2) Eastern Europe. On May 11th a German offensive in the Crimea was launched which after several days fighting broke through on the northern flank of the Kerch Peninsula. No significant fighting reported on other Russian fronts.

(3) Southern Europe. Axis air attacks continued against Malta, but with diminished force. The Axis suffered unusually heavy air casualties. Several reports were received that Axis air forces used for attacks on Malta were being moved to other theaters.

d. AFRICAN AND MIDDLE EASTERN THEATER. On the Libyan front only minor engagements reported, but large movements of Axis supplies to Libya indicate a limited offensive within two weeks. Greek and Cretan based German planes were increasingly active with raids on Egyptian ports. In Morocco Vichy forces reported preparing to resist attack, and increasing defensive preparations were reported at Casablanca. At Dakar United
Nations reconnaissance planes were fired upon. The Vichy naval base at Diego Suarez, Madagascar, was occupied by United Nations forces after short-lived resistance. On May 5th, 25 submarines, believed not Vichy, were reported off the Ivory coast. Spanish Guinea and Portuguese Atlantic island possessions continue to be reinforced.

c. ASIATIC THEATER. The Japanese virtually completed the occupation of the key points in Burma, including Lashio, Mandalay, Akyab, Bhamo and Myitkyina. The Chinese border was crossed on the Burma Road, and the Japanese penetrated 75 miles into Yunnan Province. The enemy continues to meet resistance from United Nations units in central and northern Burma, and the recapture of Maymyo from the Japanese was reported. Rangoon, where considerable enemy shipping was reported, suffered severe damage to docks and airfields from several United Nations bombings.

d. SOUTHWEST PACIFIC THEATER. Japanese forces overcame the resistance of the Fortified Islands in Manila Bay, Philippines, which capitulated on May 6th after an enemy landing had been made upon Corregidor. A naval engagement took place between Japanese naval units and United Nations forces in the Coral Sea near the Solomon Islands. The Japanese forces withdrew after engagements in which they suffered heavy losses. The occupation of Lorengau in the Admiralty Islands by the enemy was confirmed.

e. PACIFIC THEATER. Enemy air forces in the Marshall Islands conducted regular patrol flights from Makelap and Kwajalein.

AFRICAN AND MIDDLE EASTERN THEATER. Crew of US bomber forced to land at Conakry (Vichy West Africa) reported interned. In Libya, May 10, small enemy force including tanks and armored cars was successfully engaged by British 3 miles SE of Sidi Breghis. Principal concentration of enemy motor transport is in area centered at 4 miles NE of Rotunda Segnali. Axis in Cyrenaica estimated to have supplies for one month of major operations. In Mediterranean, enemy shipping losses by United Nations submarine action were 23,700 tons during April and damage by torpedo planes was 18,000 tons for same period. Although Axis shipping to North Africa was greatly increased during April, losses were 10,000 tons less than in March. Current decrease in Axis air strength in Mediterranean area indicates probable diversion to other areas. Indications point to possible German limited objective attack in Libya during next two weeks. Cruiser PRIMAUGUET returned to Casablanca night of May 9-10. Naval units in port at Dakar as of May 7, included: Battleship RICHELIEU; Cruisers MONTCALM and GEORGES LEYGUES; 6 Submarines; 3 Destroyers; 3 Patrol Vessels; 2 Navy Tankers; Submarine Tender JULES VERNE; 1 Naval Auxiliary.

c. EUROPEAN THEATER.

(1) Western Europe. On the 7th, RAF attacked coke ovens at Zeebrugge and the power station at Ostend. On the night of 7 - 8 RAF laid mines off the coasts of Denmark and Heligoland, bombed Saint Nazaire and dropped leaflets over Vichy. At Casablanca, cruiser PRIAMOUR, convoyed by 3 submarines, put to sea morning of May 9, headed SW and incomplete battleship JEAN BART, after taking 800 tons of fuel aboard, raised 3 of
her 4 anchors, night of May 9, apparently in readiness for move. This battleship can make 17 to 20 knots maximum, with sustained cruising speed of about 11 knots. Reasons for probable move of JEAN BART are estimated to be, in order of priority, as follows:- move to deeper water to permit her being sunk to block harbor entrance in event of United Nations attack; move to Dakar; move to another Vichy port. Departure of PRINCE NORT probably for sea drill in accordance with normal practice at both Casablanca and Dakar.

Activity reported: May 1, SS JAMES EAST NEWSOM attacked by gunfire at 35°50’ N, 59°40’ W; May 2, SS BOTAVO sunk at 73°00’ N, 19°40’ E; SS JUTLAND sunk at 73°00’ N, 19°40’ E; SS CAPE CORSO sunk at 73°00’ N, 19°40’ E; May 5, SS LADY DRAKE sunk at 34°28’ N, 64°25’ W; May 7, SS FRANK SEAHANS torpedoed at 06°20’ N, 55°38’ W.

May 8, West Hanover, Mass. war production resumed at the Hanover, Mass. plant of the National Fireworks Co., Inc. Bethlehem Steel Corporation’s Williamsport, Pa. steel rope plant closed down May 8th by unauthorized walkout of 850 workers. U.S. Circuit Court of Appeals May 8th upheld the conviction in Puerto Rico District Court of 26 officers and men of the Italian Tanker S.S. Colorado on conspiracy and wilful damage charges in connection with the sabotaging of the vessel in San Juan Harbor in March, 1941.

Three persons have been killed and at least 10 gravely wounded in a gun fight between communists and members of the powerful Autentico Political Party in the Santa Clara Province town of Sancti Spiritus, Cuba.

b. LATIN AMERICAN THEATER. Nothing to report.

c. EUROPEAN THEATER.

(1) Western Europe. Nothing to report.

(2) Eastern Europe. Nothing to report.

(3) Southern Europe. Nothing to report.
d. AFRICAN AND MIDDLE EASTERN THEATER. Entire German 10th "Flieger Corps", formerly divided between Greek mainland and Crete, is now concentrated on Crete. On May 2, a total of 150 aircraft, mainly Junkers-88 (very effective dive-bomber) was observed on airstrip at Heraklion (Crete). Jetty for unloading schooners, recently reported as under construction at Ras El Hilal (Cyrenaica) is now completed. Further investigation confirms earlier report of 25 submarines off Ivory Coast, and gives detail as 2 large, 5 medium, 18 small. Vichy submarines normally on station at Dakar and Casablanca are reported at proper stations, so reported fleet of 25 is probably not Vichy. Although traffic over Vichy Africa military communications has shown marked increase of late, that over Vichy Africa naval channels has been normal.

e. ASIATIC THEATER. Burma: On northern front, reports indicate enemy nearing Myitkyina with occupation by advance forces imminent; in southern Shan States sporadic fighting continues in Taunggyi and Salween areas; on west coast, enemy forces at Akyab estimated about 2 infantry companies. April 23, eleven enemy transports convoyed by 10 warships departed Singapore with destination believed Rangoon. The estimate of 6 Japanese Divisions in Burma appears too large for operations confined to Burma alone. Japanese have bombed Chuchow, Yushan and Lishui heavily and accurately almost daily since early April. Myitkyina twice bombed May 6.

Movement of gasoline from Algeria and Tunisia into Libya is again reliably reported. Axis submarine activity off Syrian coast has ceased for the time being.
