March 11th in conference with British Chiefs of Staff I concurred in their views as to practicability of reduction in Iceland Garrison (sgd Andrews) it appears at this time that entire 5th Division can be removed as soon as shipping is available. Recommend it be sent to United Kingdom. Exact residual garrison to be determined after further study. Study on which this recommendation is based being forwarded to Combined Chiefs of Staff Washington by British Chiefs of Staff.

OSD Letter, 5-3-72
MAY 16 1974

Turbulent condition of weather encountered in Tunugdliarfik Fjord made reconnaissance hazardous at approximately 1715Z March 7 2 U S-B-25 planes on searching mission for lost plane ran into this condition. First plane shortly after departure from Onoto and while flying at 1500 feet was caught in down draft and dropped to 500 feet, thence to 2500 feet. Two 650 pound depth bombs ripped from shackles and jettisoned into fjord five miles north of Narssak approximate position 46 degrees west 60 degrees 55 minutes north. Second plane following first plane saw gyser from exploding bombs. This plane encountered practically same turbulence condition but came through without damage. Estimated will take 3 weeks to repair plane that jettisoned bombs, believed repairs can be made at Onoto. Pilots of planes referred to estimated wind velocity of 150 MPH encountered in up and down draft. At time of take off from Onoto ideal weather conditions prevailed (from Lloyd to WDGBI) cite Milid, request Wimsatt be notified OPD.

New subject further interference over Army frequency 7165 encountered by B-25 at 1800 GMT on March 7 pilots report concerning interference in brief as follows: first heard foreign language immediately followed by voice that sounded like Englishman who said "That there had been 18000 pounds of eel caught in some type of net and that all the milk bottles were broken and

P R I O R I T Y

From: Greenland
To: CG AAF

No. 187, February 12, 1943

Flight of four B-24 type aircraft for anti submarine operations is planned by your headquarters rerad AAFACFC 2899-E dated 5 February signed CO AAFAC.

Prior to attack by our B-25's see ourad 160 to G-2, mass of submarines were operating in a rectangle 55 to 60 north and 30 to 50 west. Since attack mass has moved to rectangle 50 to 55 north and 25 to 50 west. New area is beyond effective range of our B-25's but lies within range of B-24's operating from Onoto. Our belief is that if B-24's be sent here immediately to cover area outside of B-25 range and B-25's continue to operate within their range, safety for convoys operating in this area would be greatly increased. Therefore request that B-24's mentioned in above radio be expedited to this command.

Operating Radius 500 miles

INCOMING MESSAGE

January 27, 1943
0325 Z

PRIORITY

From: Greenland
To: War

Number: 80, January 26, 1943

Extensive area covered by Army planes reconnoitering from Onoto on 26th. Mission was follow up of objective reported in ourad 72. Flight took off 1030 GMT proceeding course of 110 degrees for 260 miles and found wreckage of 2 ships same as those sighted yesterday. No sign of life on board or life-boats observed in vicinity of sinking ships. Proceeded to position of 60 degrees 30 minutes north 38 degrees west. Searched and patrolled area from 60 degrees 05 minutes North 38 degrees 55 minutes West on TC 34 degrees to 60 degrees 55 minutes North 37 degrees 40 minutes West. Changed to TC of 120 degrees to 60 degrees 40 minutes North 36 degrees 30 minutes West. Changed again to TC of 214 degrees and returned to 59 degrees 53 minutes North 37 degrees 38 minutes West. This area forms a large rectangular pattern. Sighted in this pattern 1 barge at approximately 60 degrees North and 39 degrees West 1330 GMT. Convey was not sighted and no signs of enemy activity. An RAF B-24 aircraft was sighted in pattern and same was challenged and identified.

Adm. & Tech. Information re. Signal Corps

From: Greenland
To: WDGB 1

No. 802, November 29, 1942

Various signal stations under this command reported interferences to signal station here. All reports as compiled by station here quoted as follows: during November the following interferences noted and sent this station. WVHM reports that from zero five zero to zero five three zero GCT two two November interferences to six three four five KC, calls NS one and NS two continuous V and cipher. Station WVHM states on six three four five KC signal unreadable from twelve fifty five to thirteen twenty five GMT November nineteenth UFL calling UHU, November nineteenth UHU calling UVO at naught eight four five to naught nine three naught GMT DND at zero zero zero zero to zero three hundred November sixteenth GMT station UHU calling CQ and receipting for messages. This is a paraphrase of reports received from these stations. WVHB noted on November twenty first on six three four five KC interference from one seven two zero GMT to one seven two two GMT as follows "repetition of V seven three six S break QBU break" sig strength four readability four. Several times the above transmission was repeated. Also from WVHB on the twenty second of November interference recorded as follows; TN six three four five KC G one six called JAB at one seven zero zero. Readability and sig strength three. Transmission was concluded at one seven zero two, msgs transmitted none. At one six one five WRTU called MXJ. There were no messages transmitted and at one six two five transmission ended readability and strength of sig four. Readability signal strength four msg transmitted none G one six called L eight zero time one six one zero concluded one six one five, also at one five zero five zero YR called zero UY and msg transmitted readability sig
