Signed Wilson cite FRCIO

This is NAF number 736.

ONE. Soviet representatives have put forward concurrently to Allied authorities in Italy Algiers and Middle East a request that 2 or 3 small merchant ships be transferred to the Soviet flag for the carriage from the Persian Gulf to Bari of goods and equipment required by the Russian Air Squadron at Bari and of stores destined for Marshall Tito.

TWO. I repeat I am somewhat concerned by Director of Sea Transports Signal 011625 of July which in replying to a signal from the Middle East reporting the Soviet request states that allocation of tonnage is being dealt with in London in conjunction with Soviet Trade Delegation.

THREE. From the point of view of this theatre I can see no possible justification for the Soviet request. We have no small merchant ships to spare here. Stores in question destined for Marshall Tito are no doubt largely of U.S. origin. If that is so the only object in sending them under the Soviet flag and by way of the Persian Gulf would be to bolster Soviet prestige in Yugoslavia which would hardly compensate from our point of view for the waste of effort and resources involved. There is at present no shortage in Italy of supplies for the Yugoslav forces the limiting

factor is resources in aircraft, parachutes, containers and small craft to deliver the goods. The arrival of 2 Soviet shiploads at Bari would be nothing but an embarrassment in present circumstances. Goods and equipment required by the Russian Air Squadron at Bari could be carried in Allied shipping from the Persian Gulf and transhipped at Port Said.

FOUR. Soviet Ambassador here has been very insistent presumably on instructions from his government and has been unmoved by reasoned arguments. Soviet Government will no doubt make further representations in London and Washington.
