ALL FIRE ON PLANES FROM GROUND BATTERIES LOCATED IN SPANISH MOROCCO AND INTERNATIONAL MOROCCO SOIL IS

ALMOST DAILY OCCURRENCE WHEN PLANES DEFINITELY OUTSIDE THE TERRITORIAL LIMITS. PILOTS' REPORTS INDICATE

ACCURACY OF FIRE IMPROVING AT THE LONGER RANGES. CONSIDER THAT EFFECTIVE ANTI-SUBMARINE PATROL BY

AIRCRAFT STRAIT AREA REQUIRES CLOSE APPROACH TANGIER 3 MILE LIMIT SINCE SUBMARINES REPEATEDLY REPORTED

INSIDE TERRITORIAL WATERS. OUR PLANES' NAVIGATION DEFINITE THEREFORE ASSERTION THAT PLACES WITHIN 3 MILE

LIMIT NOT VALIDATED SHOULD NOT BE ACCEPTED. IN VIEW OF THE FACT THAT US HAS NEVER RECOGNIZED SPANISH

RIGHT TO FORTIFY INTERNATIONAL ZONE AND IN VIEW OF INTERNATIONAL ACCEPTED 3 MILE TERRITORIAL WATER

LIMITATION REQUEST SPANISH GOVERNMENT BE ASKED FOR OFFICIAL STATEMENT ABOUT AIRCRAFT POLICY INTERNATIONAL

ZONE AND SPANISH MOROCCO AREA AND THAT RECENT ACTIONS BE STRONGLY PROTECTED MAKING CLEAR AMERICAN INTENTIONS

FROM DEPT OF STATE FOR ORNAV

FOLLOWING RECEIVED FROM LISBON BY TEL FEB 26, 1944 11:27 PM
PRIORITY

621, FEB 26, 4PM.

1. PORTUGUESE ORIGINALLY ESTIMATED CARGO OF 5,000 TONS KEROSENE AND 7,000 TONS GAS OIL FOR KALMIA LOADING AT ARUDA MARCH 21. AFTER A COMPARISON OF ESTIMATED CONSUMPTION AND STOCKS ON HAND AT TIME OF KALMIA ARRIVAL APRIL 22 THEY WERE INFORMED THAT MAXIMUM CARGO WHICH LEGATION COULD RECOMMEND WAS 3,000 TONS GASOLINE 4,000 TONS KEROSENE 2,000 TONS GAS OIL AND BALANCE IN FUEL OIL. THEY HAVE AGREED RELUCTANTLY TO THIS BUT STATED THAT THEY DO NOT WISH ANY FUEL OIL.
2. CARGOES GIVEN ABOVE WILL PLACE STOCKS AT TIME OF KALMIA ARRIVAL AT HAND AS PERMITTED BY PETROLEUM ANNEX. LEGATION, HOWEVER, URGES THAT EVERY EFFORT BE MADE TO SECURE FULL QUANTITY KEROSENE SINCE STOCKS OF THIS PRODUCT WILL BE EXHAUSTED BY FIRST WEEK OF APRIL.
3. DURING DISCUSSIONS PORTUGUESE POINTED OUT THAT THEY ARE EAR MARKING 1,500 TONS DIESEL OIL FOR BUNKERING SWEDISH VESSELS THROUGH JUNE 30 AND THAT THERE WOULD BE AN INCREASED CONSUMPTION OF GAS OIL IN MAY DUE TO BUNKERING OF SWEDISH FLEET. LEGATION HAS REPEATEDLY INFORMED THEM THAT STOCK LIMITS MUST BE OBSERVED AND THAT THEY ARE SUFFICIENTLY HIGH TO TAKE CARE OF REASONABLE ABNORMAL DEMANDS.

Op-16-J-s
~~_____~~

15 February 1944

MEMORANDUM FOR THE DIRECTOR OF NAVAL INTELLIGENCE:

The following paraphrase of a State Department telegram is sent for your information. Op-16-J-s is making distribution only as indicated:

Lisbon, Portugal
January 25 (228)

The following information is secret for Mathews and the Secretary:

SECRET
(Ambassador)

When Salazar was handed the notes concerning the arrival of the material and personnel for the Terceira construction work, he stated that he believed the number of men was out of proportion with the nature of the authorized work.

Salazar expressed appreciation for the nomination of Pan-American for a study of an airfield on Santa Maria and near Horta but said the company had not been contacted, since Portugal was not ready with the technicians it wanted included in the survey party.

The U. S. Ambassador believes this attitude illustrates that Salazar is not to be hurried by the U. S. any more than the British.

Salazar apparently remains unconvinced over the reasons behind the U. S. personnel requirements at Terceira, although they have been explained to him.

Lisbon, Portugal
January 24 (228)

Secret for Mathews and the Secretary:

SECRET
(Ambassador)

The following is a summary of Salazar's memorandum of January 20th, which is replying to the British memorandum of January 4th, as contained in #100, Lisbon, January 7th.

Using the British memorandum's paragraph numbers, Salazar states:

(1) Approval of the added usefulness of Santa Ana for the British but it still must be restricted to an "emergency airfield".

(2) Authorization for the use of Ponta Delgada still is withheld for technical and legal reasons.

(3) The number of anti-SS squadrons is satisfactory, if the British limit their forces to agreed numbers and provided these forces are used only for defense of the merchant shipping in the Atlantic through anti-SS work. The U. S. Navy Squadron, however, does not come under the Anglo-Portuguese Agreement nor is it in a position to operate at Lages because this point is clearly covered in this way in the Agreement. Also, the loan of the squadron to the British, under British direction, does not eliminate its distinctive character as a non-British unit.

Although there is insufficient data available concerning the requests for expanding movements of aircraft, this question has been raised not by His Majesty's Government but by the U. S. Government in connection with its desires to receive facilities in the Azores, in addition to the provisions of the Portuguese-British Agreement, which could not be given "for obvious reasons". Investigation should continue. The Portuguese Government suggests that a mission be sent to the Azores to study the points raised in paragraphs 3 and 6 after which a decision can be reached.

(4) The mission will study the photograph and the detailed plan.

(5) Clarification on the following are necessary in order to avoid any more misunderstandings such as occurred over the first U. S. personnel being designated by the British Commander as "forces":

(a) The U. S. personnel which had landed already would be indicated as "work groups" instead of "military forces" in spite of the fact that they would be subject to military command and discipline. Their arms would be limited.

(b) The number, which will be reported to the Portuguese Government, of this type of personnel will not be in excess of those needed for the work to be undertaken.

(c) It is requested by the Portuguese Government as to whether or not these workers will depart when the construction is finished. If not, what type of work will they be placed on?

(d) In contravention of the agreement of August 17th, non-British personnel which compose a part of or constitute an element of airplane crews in no case can be allowed to land.

(e) The Portuguese Government must agree to the arrival of ships bringing personnel or material in order to avoid any possible conflict with the arrival of any ship belonging to Portugal.

(f) Regarding the civilian personnel used in connection with the Anglo-Portuguese Lease-Lend Agreement, study is necessary.

(6) In order to construct houses in replacement of those destroyed in the construction of Lagens' Field, British assistance is necessary. In spite of the fact that the British Ambassador stated during the conversations that the improvements, including the buildings, built by the British for their own use, would revert to the Portuguese Government after the war, this guarantee was not included in the agreement nor were the number of buildings to be built included. There is no interest on the part of the Portuguese Government to leave this question open.

(7) This matter has been handled.

(8) Inasmuch as the radio-direction finding station will be needed only if there is constructed an additional runway, the mission being sent to the Azores will study this need. British assistance in securing technical experts to advise the mission in this regard would be appreciated.

(9) This matter is being carefully considered.

The British Ambassador on January 17th sent a note to Salazar asking for a reply to the January 4th memorandum. This reply has now been received and it is in a truculent mood, obviously resulting from Salazar's irritation at being forced to make a reply and having to meet a situation which he considers to be a series of facts accomplished in regard to the Azores Agreement. Salazar said he had advised the British in a message to Mr. Eden through his Ambassador in London that the Portuguese Government does not wish to work under the pressure of accomplished facts which would necessarily include conclusions of a semi-voluntary and all-considered nature

and also that the Portuguese Government, to a greater extent, does not resign itself to the acceptance of accomplished conditions.

In some respects, Salazar's memorandum is disingenuous since he already knows the answer to some of the questions which he is asking. The British Ambassador, therefore, will rebut Premier Salazar's statements pointing out that the Anglo-Portuguese agreement did not specify the numbers mentioned in paragraph 3 nor was there any oral agreement on this point. The British Ambassador also will remind Salazar that he as well as Hopkinson and Campbell on several occasions raised the question of transit aircraft which was the basis for the reason of asking for further extensions to the field at Lagens as well as a justification for an additional airfield some place else on the island.

Salazar in regard to the two points mentioned above claims that the Portuguese position should not preclude the investigation which is necessary in regard to it and that Salazar was planning to send a mission to study these questions so that he may make a decision.

It is assumed that with the exception of the points covering the Naval Patrol Squadron, there will be no great difficulty in meeting the requests from Salazar for a clarification of point 5-(a) through (f). In regard to the Naval Patrol Squadron, the British and U. S. NA will join the Embassy in suggesting a formula.

(FROM HUFF AND ALUSNA. ACTION CNO.)

THE AMERICAN MINISTER HERE HAS REQUESTED THAT HE BE ADVISED AS SOON AS PRACTICABLE IF THE DEPARTMENT INTENDS TO ACT ALONG THE LINES RECOMMENDED OUR DIS 242210 THAT IS TO HAVE A PBY5A SQUADRON AT LAGENSFIELD FOR ACTUAL OR APPARENT BRITISH USE. THE MINISTER HAS FURTHER SUGGESTED THAT IF FACILITIES FOR SURFACE VESSELS AT NORTA WERE TO BE USED TO SUCH AN EXTENT THAT THEY COULD BE CONSIDERED CROWDED THAT THIS WOULD LEND SUPPORT TO REQUEST FOR ADDITIONAL FACILITIES AT PONTA DELGADA.

From: Algiers
To: AGWAR

No: W-6192/5869, 26th November 1943

To AGWAR for Combined Chiefs of Staff, to USFOR for British Chiefs of Staff, for action, repeated to USAFIME for information signed Eisenhower. This is NAF number 528.

Resumption of Iberia air line service between Spain and the Canaries under the conditions as set forth by General Smith in his letter of 18 January 1943 to Ambassador Hayes is considered most unsatisfactory from the military viewpoint for the following reasons. There is no assurance that windows will be kept blacked out, that crew personnel will not be agents, or that the prescribed route will be flown. Landing at Safi is viewed unfavorably since it will require airdrome construction, installation of navigational aids and refueling facilities and surveillance of all passengers. Attention is also directed to the unneutral conduct of Spanish Naval aircraft in the vicinity of the Canaries. The report that the radio range near Seville has the same characteristics as the US radio range at Marrakech is being investigated. Fan 277 is reference. *attached*

AFTER HEARING PLANS FOR AZORES FROM COMMANDER HUFF HE AND ALUSNA BELIEVE FOLLOWING POINT MAY BE OF IMMEDIATE INTEREST. IN CONVERSATION WITH COMMANDER IN CHIEF PORTUGUESE FLEET COVERING NOTIFICATIONS FOR NEW OF WAR ENTERING AZORES PORTS HE MADE STATEMENT TO ALUSNA THAT NO NOTIFICATIONS FOR HORTA WERE NECESSARY AS CONTROL OF THAT PORT WAS ENTIRELY IN HANDS OF BRITISH. WHILE SPECIFIC POINT WAS NOT DISCUSSED IT IS BELIEVED THAT TERCEIRA ISLAND IS CONSIDERED IN THE SAME CATEGORY. THESE STATEMENTS APPARENTLY REPRESENT THE NAVY POINT OF VIEW AND ARE SUBJECT TO VERIFICATION WITH OTHER BRANCHES OF PORTUGUESE GOVERNMENT. ALUSNAS IMPRESSION IS THAT USE OF HORTA AN LAGENS IS QUESTION WHICH CAN BE WORKED OUT NOW DIRECTLY BETWEEN OURSELVES AND BRITISH. CHARGE DE AFFAIRES ADVISED AND IS AWAITING APPOINTMENT WITH SALAZAR

COMMANDING GENERAL

Number 2938

BRITISH CHIEFS OF STAFF
USFOR LONDON ENGLAND

Number R-5905

For Eisenhower, Freedom, Algiers, FAN 277, from the Combined Chiefs of Staff.

The United States Ambassador to Spain has again been approached on the subject of reestablishment of Iberia Air Line from Spain to the Canaries. In making exploratory study of all aspects of this question, Combined Chiefs of Staff desire your comments as to military implications involved from your point of view. Would reestablishment of this air route under generally same conditions as set forth by General Smith last January be satisfactory to you so far as your responsibilities and command are concerned.

 ATTACKED HIM. I FIRED A FEW BURSTS AND HE MADE A 90 DEGREE
 TURN TO THE LEFT ENDDIL WERE ON HIS TAIL. AFTER I STARTED
 SHOOTING NAVY 44 ALSO OPENED FIRE FROM BELOW AND BEHIND US.
 AS WE CLOSED THE RANGE THE OPPOSING PLANE HEADED FOR LAS

 THE CITY OF LAS PALMAS. WHEN WE TURNED HE CAME OUT AGAIN.
 WE MADE ANOTHER ATTACK AND THE PLANE AGAIN RETURNED OVER THE

 NOT FOLLOW ANY CLOSER AS ANTI AIRCRAFT FIRE WAS BURSTING IN
 THE VICINITY AND WE WANTED TO STAY OUT OF RANGE. WE CIRCLED
 FOR 10 MINUTES TO SEE IF HE WOULD RETURN OR ANY OTHER PLANES
 WERE COMING OUT AGAINST US. NONE DID SO WE CONTINUED OUR

No: 880 29 July 1943

Italian events have produced deep impression on Port people. For Strong. Bankruptcy of party and system foisted on people rather than promise of leader are gleefully commented upon especially at this juncture when maldistribution and general scarcity of food products in Portugal are wreaking bitter hardship on wage earners. This condition generally attributed to corporate system of national economy modeled after WOP Fascist concept which in Portugal not unlike Italy has made room for political and commercial abuse. Working people here give vent to their feelings by organizing sitdown strikes already spreading within last 48 hours. This action while generally mediated before was precipitated by WOP Italian events. Port military circles estimate WOP situation as being preparation for decorous surrender but add Bodoglio will continue military resistance to save face until overwhelmed.

No. 191 April 30, 1943

In conference with Ambassador have gained following info: Embassy received telegram 958 Apr 27 indicating State Dept and BEW have plan modifying program petroleum supplies to Spain for first 6 months 1943. This program was submitted to State in Embassy's despatch 450 Nov 20 last and approved by State BEW and London. State reports plan modifying program will be submitted to Joint Chiefs of Staff for approval.. Amer and British Embassies Madrid and British Embassy Wash strongly oppose plan. I concur. Public sentiment Spain which our petroleum program has strongly affected continues to develop in our favor and I continue regard Spain as potential Ally rather than potential enemy. State telegraphed Embassy Nov 18 that War Dept greatly interested maintenance best possible relations with Spain. Believe this excellent directive should stand and proposed reduction petroleum supplies to Spain besides being unjustifiable and bringing US no benefit in itself would be needless irritant especially in face improving attitude toward US on part Spanish Govt. I strongly urge that Joint Chiefs of Staff decline to give approval to this plan on ground it would entail unnecessary risk to war effort.

INFORMATION FROM VARIOUS RESPONSIBLE SOURCES INDICATES CONSIDERABLE UNDERCOVER OPPOSITION TO GOVERNMENT IS BREWING. CERTAIN ACTIVE AND RETIRED ARMY OFFICERS AND SOME CIVILIANS APPEAR MAINLY INVOLVED. BELIEVE OUTBREAK NOW UNLIKELY BUT EVENTS IN NORTH AFRICA MIGHT PRECIPITATE ACTION. NATURE OF OPPOSITION IS CONSERVATIVE AND REPUBLICAN RATHER THAN MONARCHIST. WORKERS AND POORER CLASSES DO NOT SEEM INVOLVED, ALTHOUGH THEY WOULD PROBABLY SUPPORT ANY MOVE AGAINST GOVERNMENT. STRONGEST REASON AGAINST OUTBREAK NOW IS FACT THAT GOVERNMENT MUST KNOW OF DEVELOPMENTS. PEOPLE HERE AFRAID SPAIN MIGHT SEIZE OPPORTUNITY TO INTER-

Spaniard mentioned our cable 643 informed me that plans for Kings secret travel to Portugal are maturing. It is planned for him to proceed from Lausanne to Genoa where boat would bring him to Portugal his incognito residence in country is said to have been tacitly approved by Salazar source inquires if we would transmit messages by cable through our Bern office during planning period as their present communications by courier are inadequate. These messages would be handed us here in their code or clear as we desire. Your earliest instructions requested it is becoming increasingly evident that prompt restoration only can avoid serious fratricidal outbreak in Spain and secure her position in Allies favor.

PARAPHRASE

April 3, 1943

From: Ceuta

Dated: March 31, 5 p.m.

Telegram no. 19

Rec'd: April 1, 6:40 p.m.

There have been arriving from Spain, since March 26, a daily average of 3,000 to 4,000 recruits of 1943 class. The total of 25,000 to 27,000 recruits destined for North Africa will have arrived by April 3 according to the officials of the steamship company which is transporting the recruits, and according to these same officials, the recruits will be distributed in the following amounts at the places named: Ceuta 11,000; Melilla 8,000 to 10,000; Tangier 6,000. It is reported by another source that of the 11,000 recruits designated for Ceuta, 9,000 will be stationed in the Zone and 2,000 will be stationed here. Extra trips are necessitated by these troop movements and it is thought that the shortage of fuel for Algeciras Tangier service (reported to Madrid) seems to have been due to setting aside reserve fuel for these extra trips.

Departure for Spain of troops being replaced by new arrivals will be interesting to observe. The reports do not agree as to whether this might begin after two or three months preliminary training or in a few days.

Owing to lack of aviation spirit Iberia airline has suspended all services. Only services now operating in Spain are German and Italian. (Cite ETGBI to McClure this is foreign office summary number 55 signed Andrews) on March 16th members of Spanish Cortes took oath. On instructions from Don Juan, Monarchists attended and oath was amended in harmless form to suit them. (This message sent to Algiers for action as number 2193 and AGWAR for action as number 8124) formal opening took place following day. Franco spoke briefly in what appeared to HM Ambassador to be more cautious and less controversial tones than usual. General background was Spanish neutrality. Swiss MFA asked our advice about request from Italian government that the Swiss government should take charge of Italian interest in Cyrenaica and Tripolitania. We are replying that we have the right under international law to refuse to allow unprotecting power to take charge of enemy interests in territory which we have taken from the enemy so long as that territory is the scene of active military operations. In our view Cyrenaica and Tripolitania must still be regarded as such and are likely to remain so for some time.

No evidence Spanish defensive preparations in Pyrenees. Reyour 234. No change in Malaga-Cadiz Area. No evidence any abnormal building up Germ supplies Perpignan-Hendave but considerable cement steel barbed wire for Todt organization has arrived Hendave. 41st and 52nd are still Morocco. Not replaced officially in 4th and 5th regions but in fact replaced by creation new units bearing designation 100 plus old regimental numbers. However Spanish consider new units part of old Divs and no new administrative or Gen Staffs have been created. Reyour 225, 1943 class estimated 120,000.

Appearing designed to help Germans to maintain pressure on Spanish government recent reports of German military activity in South West France are not confirmed by our other information. Spanish government has shown itself still susceptible to such pressure for example 1 release of German U boat crew at Cartagena. Two cancellation of arrangements supported by assurances given to US Embassy whereby some 1500 French internees in Spain were allowed to leave for North Africa. Three delay in fulfilling promises to release certain Allied personnel from Miranda Camp (cite ETGBI signed Andrews this is foreign office summary number 54 sent to AGWAR as 7836 sent to Algiers as 2058) nevertheless increasing Spanish fear of Bolshevik menace which Minister for Foreign Affairs has evinced in conversations with HM Ambassador indicates that Spanish belief in German invincibility has decreased if not vanished. Fanaticism of Falangists who are deeply committed to Axis constitutes exception. General Munoz Grande has been appointed to relatively innocuous position as Head of Francos military household. In the meantime occupation of French Sheriffian post office suggest that Spanish Government are determined to consolidate their position in the Tangier Zone. French National Committee informs us that appointed their representative at Stockholm was French Minister at Stockholm (Saint Cyr) who rallied to De Gaulle.

In event of Axis attack through Spain operation of Allied Forces from bases in Balearic Islands would be of great importance (To AGWAR for Combined Chiefs of Staff rptd Troopers for British Chiefs of Staff, Signed Eisenhower, Cite FHGCT. This is my NAF number 170 from G-3 Section AFHQ NAF 170 5067 March 7 nil) Occupation of Islands by assault would not be possible, but possibility of moving in Air Forces with Spanish assent in these circumstance might be explored. Initially fighter Squadrons and Warning system would be established, followed by bomber aircraft. Suggest Spanish Government should be approached on these lines.

FOR ACTION OPNAV

241826 NCR 8051

I am informed that on 20 February 12 German aviators came into Spain through Irun some accompanied by wives and proceeded Madrid where they were lost track of. Evaluation A1. They may have been on way to South Spain where some new fields have been reported or to Spanish Morocco. My informant feared it might indicate a preliminary to German entry into Spain but I have no supporting information.

No. 7449, February 22, 1943.

Special Anti Bolshevik propaganda campaign appears to have been called off and press has returned to normal reports Ambassador Madrid. Cite ETGBI to McClure signed Andrews reference summary 50. This is foreign office summary 52. HM Consul General Tangier reports Spanish Consul General about to leave for Madrid. He believes object of visit is to discuss Vichy representation at Tangier and French Sherifian Post Office and new proposal which Spanish Consul General wishes to implement which is restriction of staffs of all foreign missions in Tangier to present strength. Spanish authorities at Algeciras insist that British subjects going to Tangier from Metropolitan Spain require a special Tetuan visa for Tangier zone. British subjects have the right to enter Tangier zone without a visa and this principle was reaffirmed under Anglo Spanish agreement of 1941. SM Consul General has been authorized to renew representations on above lines.

No. 7261 February 14, 1943

Portuguese Ambassador, Madrid, has informed HM Ambassador that on February 10th German Ambassador disturbed Minister for Foreign Affairs at 5:30 AM to present personal message from Ribbentrop denying a news chronicle report that German troops were massing on the frontier for invasion of Spain. Ribbentrop also requested that Minister for Foreign Affairs should publish this demarche and Minister for Foreign Affairs agreed. HM Ambassador suggested some weeks ago that in view of improvement in political situation we might sell some aircraft to Spanish government. We are replying that in present circumstances we would not feel justified in offering aircraft to Spain particularly as we have no assurance yet that war materials supplied by us would in fact be used to oppose axis aggression.

Original of above message filed MR 300 Near East

Info received thought reliable 43 class will be called in April. Reu number 176. Parts of, possibly all 38 39 and 40 classes will soon be released. No info received yet as to disposition 41 class. Further info reveals manufacture of uniforms and shoes for troops being accelerated in Cataluna. Great shortage now exists. Germany has made deal with Spain for exchange French munitions for Spanish oranges and rice. Above borne out by large shipments taking place to Germany. Confirmed that new Regiments believed that new Div is now being organized in 4th Mil Region, rumored another new Div will be organized 5th Mil Region. Other mobilized troops will increase existing regts. Some Regts will have additional Bns created. Many 38 39 and 40 mobilized men are ununiformed and unequipped as yet reporting to their organizations periodically for instructions and orders. All above info subject to later confirmation now being followed.

Continued Russian successes have given rise to state of rumours, HM Ambassador Madrid reports, including (A) General Francos secret departure upon a foreign mission; (B) a million Spanish workmen for Germany; (C) freeing of German troops by Spanish Army taking over garrisons in France. HM Ambassador can discover no substantial ground for any of these stories, though (B) may be attributed to Arreses insistentes upon shortage of German manpower and fact that he was constantly reminded in Berlin of Francos promise last July to send a million Spaniards to stop a Russian march upon Berlin. (Foreign Office summary number 46 to Eisenhower signed Bartle cite ETGBI).

Minor crisis appears to have occurred over a dispute between Orgaz and Yague, former having threatened to resign unless latter is dismissed. Though dispute has not been finally settled, Orgaz has returned to Tetuan after telling his friends that he does not know how long he will stay there. HM Ambassador considers that in spite of his clumsiness it is better for us that he should stay, since he is Anti-Falange and anxious to keep Spain and Morocco out of the war.

Meanwhile Minister of State and CINC, Middle East, have welcomed suggestion of US Secretary of State that US representative should be attached to British Military Administration in North Africa. They consider that he should be stationed in Tripolitania since US representation in Cairo is already adequate, and suggest appointment of Officer with rank of Colonel and also a member of Civil Affairs Staff.

For Gen Strong: Munoz Grande reported by 2 excellent sources (my reports 146 and 171) to have accepted presidency of special commission created by Franco to examine and recommend disposition of some 15,000 officers and noncommissioned officers who were loyal to Spanish Govt during Civil War. If true such appointment will probably preclude his assignment to high military command for some months. It is also indication of his cooperation with Regime. Political sign SEICENCE* this appointment not clear as yet although possibilities cannot be denied signed Hohenthal.

brief survey of Spain's policy towards Axis follows.**BEGIN:**

1. General Franco's Government is totalitarian. It came into power with German and Italian assistance by overthrowing the 'Red' Government; its chief fear is that the Reds may rise again and once more plunge Spain into civil war. It was therefore inevitable that Spain's policy should be closely associated with that of the Axis. This was exemplified by Spain's adherence to the anti-comintern pact, by her attitude of 'non belligerence' rather than neutrality and more recently by the despatch of Spanish troops to fight on the Russian front. The sympathies of Franco's Government were on the side of the Axis, though Germany's pact with Russia caused some qualms, and this sympathy naturally increased when Germany went to war against Russia. Nevertheless Franco realised that Spain had not recovered either spiritually or materially from the strain of the civil war and that it would therefore be disastrous for her to become engaged in the present war. From the outset he was determined not to be dragged into the war if he could avoid it and his support of the Axis was therefore limited to favours such as help for Axis submarines and aircraft facilities for Axis intelligence organisations in Spain etc., which though unneutral were not likely to involve Spain in war.

2. Germany's early victories confirmed Franco in his opinion that the Axis was going to win and consequently in the wisdom of his policy. This phase continued until last year when the failure of German's campaign in Russia and the growing strength of the United Nations and particularly the Allied occupation of North Africa, brought home to the Spanish Government that the best that Germany could hope for was a compromise peace and that her defeat was possible. Since Spain is now more than ever economically dependent on the goodwill of Great Britain and America for such vital imports as food and oil, this change in Germany's prospects imposed a corresponding change in Spain's policy. It was no longer safe to associate Spain too closely with the Axis. This policy of disengagement has been followed very cautiously. The most evident signs of it have been the dismissal of the violently pro-Axis Foreign Minister, Seryano Suner, and the recent visit of General Jordana to Lisbon.

300 Spain.

3. The most important consequence of this change in Spanish policy has been the greatly increased probability of Spanish resistance to any German attempt to pass troops through Spain for an attack on Gibraltar. While, as stated above, Spain has from the beginning been determined to keep out of the war if possible it was in the past doubtful whether Spain would in fact resist strong German pressure. Today, however, Spain would resist, appreciating that Germany is not in a position to back her threats by overwhelming force. It follows that unless the strategic position changes radically to the disadvantage of the Allies Germany would be unable to secure the unopposed passage of her troops through Spain.

4. Meanwhile there are signs that Spain is beginning to relise that it may be dangerous to try too high the patience of Great Britain and America, on whom she is so largely dependent. There is evidence that Spain may reduce the unneutral facilities at present afforded to the Axis on Spanish territory.

5. Spain is unlikely to come over to the Allies even to the extent of allowing them the same unneutral facilities as have been permitted to the Axis in the past. The only case in which Spain would actively cooperate with the Allies would be if Germany invaded Spain in the face of Spanish opposition. It is however in the highest degree unlikely that Spain would agree to staff talks to meet such a possibility. ENDS.

OZ 115

Following from British Chiefs of Staff.

Following appreciation of Spanish situation by our Joint Intelligence Staff may be of interest to you. BEGINS

1. All recent intelligence and events have tended to strengthen the view expressed from time to time in our reports to the effect that the Spanish Government are determined to preserve their neutrality.
2. There is evidence that the Spanish Government are satisfied that Allied operations in the Mediterranean do not constitute a threat to Spanish territory and that they recognise that popular feeling in Spain is overwhelmingly against being drawn into the war.
3. Spain aims at creating a neutral bloc in the Iberian Peninsula and has suggested to the Axis that this bloc might ultimately be of value to mediate between the Axis and the Allies.
4. It is the expressed intention of the Spanish Government to resist aggression from any quarter. Unless the war turned decisively against the Allies, resistance would be offered to German aggression since Spain's apprehension of meeting overwhelming German force has been reduced by the course of the war, and her unwillingness to become a partner of the Axis has been increased. Spanish authorities today show anxiety to avoid provocation to the Allies. There is evidence suggesting that this anxiety may lead to a curtailment of Axis activities in Spain.
5. Spain's determination to resist German aggression would include resistance to any attempt by the Germans to occupy the Balearic Islands or bases there.
6. In assessing future developments of Spanish Foreign policy it is important not to give undue weight to irresponsible expressions by pro-Axis or interventionist opinion on the part of individuals whose views run counter to the expressed policy of the Spanish Government. Experience has shown that Franco has throughout effectively controlled the situation and that he invariably curbs any activities likely to endanger Spain's policy of neutrality. There is no reason to think that Franco's power has lessened recently.

7. Although Spanish organized resistance would be weak occupation of the Iberian Peninsula against even guerilla resistance would be a major military operation requiring it is estimated, some 12 - 20 divisions according to the extent of Allied assistance. In view of their commitments actual and potential the Germans could not make available the necessary forces for this operation unless Russian resistance collapsed. The course of the campaign in Russia makes this possibility daily more remote.

No. 4118, January 3rd, 1943.

After discussions with our Ambassador in Madrid, Hohenthal, and British Intelligence experts on Spain, I feel that the situation in Spain has decidedly improved. Vis A Vis the United States versus the Spanish Government. (To Agwar from Freedom Algiers) for Strong from Heard signed Eisenhower. This is primarily due to the respect for our initial success and expectation of the Spanish Government for our further military success in North Africa. The present Embassy A there is however strong criticism as to the capacity and reliability of many of these OSS reports on part of the Embassy Officials State and Military and Naval. Hohenthals work is largely dependent on these sources and it is believed that he should have further field assistants and if permissible they should work directly under him with suitable covers. At the present time the whole Iberian Peninsula represents a golden opportunity for gathering M item of high quality. The influx of foreigners mostly French coming from occupied regions is now large and only a fraction of this material can be handled by present personnel. The principal intelligence means needed in Madrid include initially one additional assistant M A in the rank of Captain or Major with radio communication experience and if possible proficient in Spanish and French. Also a replacement for Captain Babcock whom Ausenberry and Hohenthal feel is definitely unsuitable and the assignment of a Noncom or Junior Officer radio technician to operate the Clandestine radio set now in the American Embassy which at present has only one radio operator. The sooner additional personnel is available the quicker will be the benefit to our M I operations and the next two and a half months will be the critical for us to succeed. I was informed by our counsellor in Madrid that he sees no reason why we

should not be able to increase our official representation in Spain particularly at this favorable time.

Two. The Spaniard is frankly looking for the Victor. There are vigorous partisans on either side for various reasons. The Spanish extremists are now apparently decreasing and the present trend is definitely to keep out of the war if possible and to gain all possible economic strength from both sides; particularly valuable would be a trade revival from North Africa which we should encourage as a stabilizing influence. If a change occurs it will be the result of outside pressures they are unable to resist. Another important factor to be considered in this highly complex problem is an obvious increasing divergence between British political thought and our own on the subject of the present and future Iberian situation. This difference may become more apparent and should be looked for in future, particularly in evaluations. Our staff feels and I concur that during the past month the increase in stature of the American position has been most noticeable and this is largely at the expense of the British.

Three. Lateral communications from Madrid are only satisfactory with Lisbon and London. It is essential for proper evaluations there to have regular reports from Berne and North Africa. Reports from Berne now by cable and only upon request. Communication with North Africa unreliable. It is recommended that both Berne and North Africa keep Madrid regularly informed and thus greatly improve completeness and quality of Madrid reports. Direct reports on Spanish, Portuguese and French situation should also be sent to North Africa direct, clearing through Hohenthal rather than only via London as at present.

Four. At Gibraltar the situation would be greatly improved if our Observer could be authorized to enter southern Spain and cover M I in that area particularly Algeciras thus increasing Hohenthals coverage.

The observer is at present practically isolated at Gibraltar. Permission to enter Spain frequently is enjoyed by British Intelligence Officers at Gibraltar. The observers intelligence functions there now are greatly overshadowed by his administrative duties in assisting the large number of Americans now currently enroute to and from North Africa. The observer should be provided with an automobile as taxis are now practically unobtainable; also a clerk with finance training should be assigned. This post is one to which a senior older officer should now be assigned and Holcomb relieved. The amount of information he gets is only British handouts and is usually old and relayed from elsewhere. The Navy has two commissioned observers on duty and we should keep an officer there for at least the next six months for possible events that vicinity. Axis agents are now numerous in Southern Spain.

Five. In my very frank conversation with the Governor of Gibraltar General MacFarlane he expressed the following estimate: A that the French in North Africa were suspicious of the British and friendly to the United States whereas the Spaniard was friendly towards the British and suspicious of the American. B that the Spaniard is waiting to see how the Allied venture in North Africa turns out. C that the Germans must be eliminated from North Africa shortly and that from his experience in Russia to the spring thaws that make large operations impossible the most favorable time for the Germans to release sufficient troops for an Iberian operation would be from the middle of March to the middle of May. D that if the Germans invaded Spain and closed the strait the collapse of the Allied Forces in North Africa could not but result because of inability to supply them. E that in the event Axis Forces are not eliminated from North Africa by the first of March the Spanish Government will be under terrific pressure from Germans to permit passage through Spain.
