No. NR 151 November 17, 1942

Information obtained by arrive TTS fighting French Agent Liberia from Vichy French air personnel landed Roberts Field November thirteenth follows (for C dash two) maximum air force Dakar total twenty four fighter planes no heavy or medium bombers a few Navy reconnaissance planes. Main air force at Thies estimated ten or twelve bombers. Insufficient food and equipment in West Africa for campaign. Plane supply very poor. Gasoline only sufficient for maintenance planes. All care using charcoal. Naval force totals about fifteen ships some destroyers four battleships, Richelieu, Montcalm, George Leygues, one unknown. Navy will obey Darlan orders Dakar is not and never been Axis submarine base. Coast defense highly improved with installation many nine inch guns. Main ground defense east west line approx six miles north of tip Dakar. Water supply is from interior easily cut off. Arrive TTS believes American Landing Force would cause entire area to join Allied side. West Africa will go with Dakar. Boismon will stick with Vichy. People very pro-American but anti-British and anti-Degaulle. Kirchhoff concurs arrive TTS and believes American Landing Force not less than reinforced Regiment entering at Gambia would cause capitulation Dakar also all French West Africa.

It is rumored that the Germans have recently brought up the question of passage of Axis troops through Tunisia should the present offensive of the British carry through to Tripoli. In connection with this report it is known that yesterday morning General Bergeret flew to Tunis.

In reply to our inquiry regarding this matter a reliable friendly official has stated that the Germans have not to his knowledge raised this question recently. This official pointed out that in his opinion the Darlan agreement of May 22, 1941 and a later agreement signed by General Juin provided for passage of Axis forces through Tunisia with their equipment in such an eventuality. This official stated that so far as he knew should the German defeat in Egypt be so complete that it will be necessary for them to quit Tripolitania they could always invoke the Darlan and Juin agreements.
The news from Egypt regarding the successful campaign has caused considerable encouragement here in circles which were depressed by the news of last June. This is the only effective propaganda.

There are rumors current in the city and Army to the effect that field officers who are not openly in favor of collaboration are about to be removed by General Faivy, who is an open collaborationist. In this connection see the last paragraph of my telegram of September 8, no. 537. In view of these rumors the news from Egypt is especially pertinent.

PARAPHRASE OF TELEGRAM

No. 530 Dated: Oct 28, 1942 9 p.m.
From: Tangier Rec'd: Oct 29, 1942 10:37 a.m.

In connection with the following report it is suggested that reference be made to my cables no. 511, 513, and 523. The information came from a French official source in Tangier in whom I have the greatest confidence but his interpretations and sources of information cannot be verified.

The informant firmly believes that Spanish troops will immediately move into the area north of the Sebou Line in the event that French Morocco is invaded by Allied troops. He believes that the Spanish are counting on this plan as much as they expect that the French troops along the Spanish Moroccan border will have to be withdrawn to meet the invasion from the sea.

I was told also that additional French troops have been sent to the border because of the very real concern which the French felt because of the extensive character of the Spanish manoeuvres, mentioned in my no. 513, which have been taking place this week. My informant has recently, however, been reassured on this score because of the fact that the center of the manoeuvres has moved farther north, away from the frontier. He agrees with Cyr that the Spanish believe they could move into French Morocco and occupy the territory mentioned without becoming involved with the Allied or French forces.

He believes that all French armed forces would make a real resistance, to an Allied invasion unless the invasion were timed to coincide with a political crisis in France which would involve a sharp difference of French opinion. This is the first time that any reliable French source has expressed such an opinion. Information has hitherto been to the effect that the air force and the army would offer only a token resistance and that only the navy would make a serious attempt to prevent the landing.
INCOMING MESSAGE

My informant told me that all of French North Africa would be ready to separate itself from France if all of France should be occupied by the Germans. Such a result would not, however, necessarily occur if a Doriot Government should come into power. In this connection he knows of nothing definite indicating that a political crisis in France is drawing near. Yesterday, Cyr told me that everybody in the French Embassy at Madrid is certain that an Allied landing would result in the occupation of part of French Morocco by the Spaniards. He gave me confirmation of the report that the Spanish Foreign Minister assured the French Ambassador only that Spain would consult with France if any action in Morocco were to be taken. The Foreign Minister also told the Ambassador, according to Cyr, so long as he was in office there would be a peaceful settlement of all disputes between Spain and France. Cyr says, however, that the French Ambassador was not reassured by either of these statements. The Ambassador told Cyr that the Foreign Minister had not said that he would oppose other elements in the Government who wished to move into French Morocco and the Ambassador also stated that France had been "consulted" before the Spanish had marched into Tangier.

The representative in Monrovia of the Fighting French tells me he has just received word from Dakar of great unrest including some street rioting there. This is in protest to the compulsory evacuation of French women and children, none of whom are to be allowed to proceed to other French colonies in Africa. Inasmuch as all French ships will be needed for the evacuation to France of these people no such ships will proceed farther South than Dakar for sometime to come. According to the Fighting French man the French at Dakar consider that their families are being transported to France to serve as hostages so that in the event of a move on Dakar by the United Nations the full collaboration of the Government and garrison at Dakar will be assured.

CM-IN-06659

From: Tunis

The following has also been sent to Algiers and Vichy and Casablanca for Tangier.

At the present time there is great tension in the Tunis area. On October 14th the Radio Monitor Service personnel of the Residency was placed on 4-hour (24-hour?) basis and employees were recalled from leave. It is understood that an imminent attack by the Italians on Tunisia is expected by the Residency.

One of our most valued informants, one Ladellas, who is in contact with army circles has stated with great pessimism that should the Italians attack Tunisia the French forces would most likely abandon the area and if possible retreat to Algeria. In the country there are less than 100 military planes and only some 15,000 troops which are poorly equipped. Attack is expected from Sicily in as much as on the southern borders there is no concentration of Axis forces.

It is estimated by the French that in the last ten days 5,000 fully equipped troops have been transported by air to Libya. In addition to this others have been brought over by destroyer. It is believed that the renewed blitz on Malta is a diversion operation intended to cover some combined action in Mediterranean.

On October 15th two large Savoia eight two transport planes landed at airport at Sfax. Each plane carried 50 armed Italian soldiers. Planes will need three days for repairs. Troops were sent on by train. Earlier two Junkers five two landed with German soldiers. Planes have already departed.

From the American Consul at Tunis, Mr. Doolittle.

French SS Porthos from Marseille sailed from Oran at 010200 with 1200 Colonial Infantry on board bound for Casablanca and Dakar. A report rated A4 wholly unconfirmed states that 10 German--Italian Divisions totalling 100,000 men are massed on Tunisian border. Except for reliability of source I would consider the report quite improbable.

NAVAL OFFICIALS BELIEVE IN IMPENDING ANGLO SAXON ATTACK ON DAKAR AND ARE MOST APPREHENSIVE OF RESULTING CONSEQUENCES. EXCELLENT SOURCE INFORMED ME SUBS AT DAKAR INCREASED FROM FOUR TO THIRTEEN AND ADMIRALS DARLAN AND AUPAN AND COMMANDERS CRUISER AND SUB SQUADRONS STATIONED WEST AFRICA HELD SECRET CONFERENCE IN VICHI LAST WEEK TO DISCUSS DEFENSE MEASURES. CHIEF NAVAL INTELLIGENCE MADE IT A POINT TO DISCUSS MATTER WITH ME. EMPHATICALLY STATED FRENCH WOULD RESIST TO UTMOST ANY ATTEMPT TO INVADE THEIR AFRICAN TERRITORY AND THAT PARTICIPATION OF AMERICANS WOULD MOST CERTAINLY LEAD TO A BREAK IN RELATIONS. CONSIDERED PRESENT TIME INOPPORTUNE FOR SUCH STEP AS AXIS NOT YET SUFFICIENTLY WEAKENED AND TOO OCCUPIED AT PRESENT TO CONSTITUTE A THREAT TO NORTH AFRICA. FURTHERMORE SUCH A STEP WOULD RESULT IN THE GERMANS OCCUPYING ALL FRANCE WHICH WOULD BE A DEFINITE LIABILIT TO THE UNITED NATIONS. HE FELT CERTAIN FRENCH WOULD REENTER WAR WHEN THEY WERE ASSURED SUFFICIENT HELP WAS AT HAND AND GERMANS WERE NO LONGER IN A POSITION TO COMPLETELY OCCUPY AND DEVASTATE FRANCE AND FURTHER STARVE AND ENSLAVE ITS PEOPLE.
ANY EVENT HE CONCLUDED IT WOULD BE A GRAVE ERROR TO INVADE FRENCH TERRITORY WITHOUT THE PRIOR KNOWLEDGE AND CONSENT OF ITS GOVERNMENT.

Very reliable source known to War Dept.

The Saint informed me that he had been told by a person who was in attendance at a secret meeting for the Youth Movement and the Chiefs of the Legion that George Oginskau, whom the Secretary of State for Information has charged with a permanent propaganda mission in North Africa, said that an American aggression against North Africa is very close and that this is known by the Vichy Government. He also said that Vichy had been notified by the Germans that they would intervene to protect French possessions in North Africa although they had not intervened to protect other outlying French possessions. Vichy and North African offices have been sent this wire.
