Nr: RR 14609 18 December 1944

RR 14609 to AGWAR for Joint Intelligence Committee, Washington, DC. From Supreme Headquarters Allied Expeditionary Forces Rear from Strong from Magnus signed SCAEP cite SHIBI.

Message from CIOS Secretariat repeat.

1. US Secretariat CIOS has completed its first three weeks and submits the following progress report.

A. T/O allotments of 5 officers and 7 enlisted personnel have thus far been filled by three officers and two men. Officer personnel are Major Edgar F Dean, Captain Henry J Hawkinson and Captain Richard C Lennox.

B. All US members of CIOS were contacted the first few days. We are cognizant of their problems and shall give a full assistance within the limitations that CIOS is a combined committee. US members feel that their day to day interests and problems are now being provided for.

C. Greatest preoccupation of US Secretariat has been to create workable machinery for decisions of CIOS. In the past there was no full-time US executive and only a small British executive. With the full cooperation of the British Secretariat, the method of organizing field teams for target investigation has been revised.

CM-IN-18067 (19 Dec 44)

Nr: RR 14609, 16 December 1944

D. Secretariat has asked for and received from CIOS authority to centralize all reports of field team investigations, to have the reports duplicated and to submit recommendations for wider distribution. First reports representing standard format sent to His Majesty's Stationery Office for reproduction 18 December.

E. Our several weeks tour of duty at SHAPE Main prior to arrival here has been of inestimable value; the Secretariat as a result now has the background for day to day problems between SHAPE and CIOS.

2. For information, several items of importance have transpired.

A. The United States Strategic Bombing Survey and the British Bomber Research Mission, acting at the suggestion of SHAPE, submitted their projects to CIOS for approval and coordination. Formal approval was granted. Coordination was worked out as follows: Targets of either or both bomber groups that coincide with CIOS black list targets will be coordinated with CIOS; bomber personnel will be on all such CIOS field teams. Each or both bomber groups will proceed independently of CIOS on those targets of no CIOS interest.

B. Mister Powell temporarily representing TIIC arrived and US Secretariat has had several talks with him.

Mister Powell and Colonel Spedding are the US and British chairmen of grey list panel; latter body will begin its work before Christmas.

3. Your reaction to the following proposal is requested. Would JIC desire on a regular basis a week end information cable from US Secretariat. If so, would JIC prefer such a cable every week end or fortnightly.

End.

To Limit from Joint Chiefs of Staff.

Photography for mapping and intelligence of China coast is subject. In order to consolidate requests for photo coverage, establish priority lists, and develop schedules request following information your minimum requirements:

A. For what areas China coast do you wish photos coverage?

B. What type coverage for each specific area?

C. What is order of priority for areas and what are limiting dates by which coverage must be received?

Recent information from Commanding General, United States Army Forces China Theater indicates logistic and weather considerations will severely limit amount China coast photo coverage available within reasonable limit.

HERE ARE SPECIFICATIONS FOR FUTURE AIR SUPPORT CHARTS.
FOLDED BOMBARDMENT CHARTS USED IN K 2 ARE NOT SUITABLE FOR USE
IN NAVAL AIRCRAFT. HEREAFTER FOR ALL CARRIER SUPPORTED OPERA-
TIONS AIR SUPPORT CHARTS SHOULD BE NOT MORE THAN 8 INCHES
SQUARE, OVERALL SIZE. APPROVED METHOD HERE IS TO COVER 5
MINUTES SQUARE AT 1 TO 50,000 GIVING MAP SIZE 7 1/4 INCHES
SQUARE. GRIDS, CULTURE, VEGETATION, WATER MASSES AND TOPO-
GRAPHY ARE MAPPED INSIDE 7 1/4 INCH SQUARE WHICH IS CENTERED
ON AN 8 INCH SHEET. CULTURE, STREAMS AND SHORELINES EXTEND
tO EDGES OF SHEET TO GIVE OVERLAP. AMS 1 TO 50,000 SHEETS OR
1 to 25,000 sheets can be used as base. Colors black, green, blue, brown, and red grid. On black sheet intensify main roads to twice width of secondary roads, secondary roads shown by double line to be filled in solid, third class roads to be broken solid line, other roads and trails unchanged. Air fields solid black, railroads and other culture visible from air to be accentuated. Streams should be solid blue, large water masses tinted blue, reefs in black, underwater depths and contours to be eliminated. Eliminated topographic contours and show relief over 200 feet by brown hachures, with maximum elevations in feet of mountains and hills in easily readable black numerals. Accentuate vegetation distinctions as seen.
FROM AIR, SHOWING ESPECIALLY DENSE FOREST, SECONDARY OR SCRUB GROWTH, AND ORCHARD OR PLANTATION WITH CONTRASTING SYMBOLS IN BRIGHT GREEN AS USED IN SWPA INTERLUDE AIR SUPPORT CHARTS.

STANDARD 1,000 YARD MILITARY GRID IN MEDIUM HEAVY RED LINES WITH TICKS MARKING 200 YARD INTERVALS. PLACE 4 DIGIT GRID NUMBERS REPRESENTING (X) AND (Y) COORDINATES IN CENTER OF EACH 1,000 YARD SQUARE IN SOLID BLUE. 1 BLANK SQUARE ON EACH SHEET TO BE MARKED WITH 200 YARD SUBDIVISIONS, THESE TO BE LETTERED COMMENCING WITH "A" IN NORTHWEST CORNER, PROCEEDING TO RIGHT AND DOWNWARD TO "Y" AT SOUTH EAST CORNER. For Sultan information Stratemeyer Hearn Chennault from WDGSI signed Marshall.

Priorities within the JCS mapping plan can be adjusted to permit completing the coverage required by Navy. Cover requested indicated your CRAX 17148 dated 13 October apparently covers coast lines of selected areas but only spot cover of airfields inland. Most of this is already flown. Request information on specific areas and dates of cover required which are shown by the overlays sent Chennault, also expected delays in completion of JCS mapping program. For your information duplicate negatives have already been sent to CINCPAC by air courier through Navy channels of all 24 inch photography received from Second Photo Procurement Detachment (627) on transmittal letters D-1 through D-49. 24 inch duplicate negatives for letters D-50 through D-62 are now being reproduced for such shipment. TOPSEC to Deane Moscow from the Joint Chiefs of Staff

The following extracts of a memorandum for the
Director, OSS from the Joint Chiefs of Staff are quoted for
your information:

"1. The Joint Chiefs of Staff have considered
the measures which should be taken to insure co-
ordination of the secret intelligence activities of
the Office of Strategic Services with those of the
Russians.

"2. While the current problem relates particularly
to the Balkans, the Joint Chiefs of Staff anticipate
that similar situations may arise elsewhere in theaters
of operation, and therefore desire that OSS establish
an over-all policy to govern OSS secret intelligence
activities in areas under Russian control.

"3. The channels already successfully established
between the Director of Strategic Services and the
Director of Russian Secret Intelligence, General
Pitin, are authorized in order to reach an under-
standing with the Soviet authorities concerning this
matter.

"4. It is essential, however, that all such negotia-
tions be fully coordinated with the head of the U.S.
Military Mission in Moscow and those United States
theater commanders as may be concerned, as well as with
the War and Navy Departments. Any agreements with the
Russians will be subject to confirmation by the Joint
Chiefs of Staff. Operational matters, as opposed to
broad policy arrangements, will be handled directly be-
tween theater commanders concerned and General Deane."

to Deane from Joint Intelligence Committee

This is reply to your M 21041. Lists of secret and confidential items forwarded to you on July 4 per WAR 59997 of that date consisted of information releasable to Soviets under policy of Joint Chiefs of Staff transmitted for your information in WAR 47831 of June 8. As stated in WAR 59997 the lists included items previously released to Soviets as well as items newly authorized for release. Intention of Joint Intelligence Committee was to give you opportunity at your discretion to benefit by gesture of turning over these lists in Moscow. The above and what follows is also true of supplemental United States lists sent you on August 25 and of such further supplemental lists as may be prepared.

Release of technical information without regard to handing over of complete lists was necessitated by United States commitment in 4th protocol, previous Lend-Lease transactions, operation of United States Forces from Soviet bases, and combat losses believed recovered by Soviets. Accordingly when initial United States lists were sent you Joint Chiefs of Staff also authorized promulgation of the lists to United States Services for their guidance. A review by Joint Intelligence Committee indicates that very substantial disclosure of items on the lists has already been made by the Services as result of these commitments. Information as to other items and technical principles is believed in Soviet hands as result of disclosure of parallel items by the British. The bulk of items on United States lists may be considered known to Soviets therefore and transmittal of lists by you to Soviets would not amount to large wholesale dis-
closures at late stage of war as implied in your message.

As you know, the British are committed by their bilateral agreement with Soviets of 1942 to continue disclosure of technical information. Representatives of British Chiefs have informed United States Chiefs of October 4th that in view of your query to Washington regarding disclosure that have instructed General Burrows to refrain from disclosures for a fortnight so his actions will be in step with yours. However British state that in light of their agreement with Soviets they feel bound eventually to continue disclosures.

In view of above we believe you may desire to turn over to Soviets at least a list of those items believed still undisclosed. Such a list is coming by courier. Whatever course you select however you should assume that disclosure of listed items by services will continue when and as Soviets in Washington request them and so long as such disclosure is consistent with Joint Chiefs of Staff policy. With regard to provision in this policy, cited by you, that technical information should be disclosed only when it can be put to use within time limits believed existing, this provision is being emphasized in assembly of all supplementary lists. Appreciate word of such action as you may take.

ALUSHA MOSCOW SENDS THIS TO CNO

EXPERIENCE HAS PROVED THAT SOVIETS WILL NOT DIVULGE INFORMATION ON MOST OF THE ITEMS OF LOGISTIC SUPPORT INDICATED YOUR 262199*. GEN DEANE REPORTED A DIRECT STATEMENT OF POLICY BY RED ARMY IN USHLINS.

589 OF 23 MAY TO 02 TO EFFECT THAT SUCH INFO IS CONSIDERED SECRET AND IS NOT AVAILABLE TO US.

ARMY AIR HAS HAD ONLY 1 VISIT IN RUSSIA WHICH WAS GEN GANNONS VISIT TO THE FRONT. RED NAVY POLICY HAS NOT SHUT THE DOOR SO COMPLETELY. SUFFICIENT INFO HAS BEEN FORWARD TO RED AIRCRAFT TO SHOW THAT THEY HAVE IMPROVISED WITH GOOD AND ARE DEVELOPING THEIR METAL TECHNIQUES AS THEY GAIN.

KNOWLEDGE AND SUPPLY OF MATERIALS, THE ONLY THING WE HAVE COTTEN ON TRAINING AND OPERATIONS CASE BE FOUND IN MOSCOW SERIAL 6302 AND 31-44 THE LATTER A RESULT OF A VISIT TO A NAVAL AVIATION SCHOOL. RESULTS OF OBSERVATIONS MADE BY CAPT FELT CONVINCE THIS OFFICE OF US AID TRADING POSITION AS

SECRET
INDICATED LATER IN THIS DESPATCH, SOVIETS DISLIKE TO ARRANGE VISITS FOR US OR GIVE INFO. THEY HAVE NOTHING COMPARABLE TO OUR STANDARDS AND ARE SENSITIVE ABOUT UNFAVORABLE COMPARISON. THEY ARE VERY SECURITY CONSCIOUS AND ANXIOUS TO COVER UP SHORTCOMINGS WHILE CATCHING UP. THE GOVERNMENT ATTITUDE IS AGAINST ASSOCIATION WITH AND TRAVEL OF FOREIGNERS.

INTERCOMMISSARIAT JEALOUSY MAKES GREAT DIFFICULTY IN ARRANGING VISITS OUTSIDE OUR FIELD. EVERY VISIT IS AN EXPENSIVE TEDIOUS PROCESS OF PLANNING PREPARATION AND INDOCTRINATION OF ALL PERSONNEL BEFORE CONTACT WITH US IN ORDER TO CONTROL INFO AND PUT UP GOOD FRONT. IN EFFORT TO OBTAIN MANUFACTURING PROCESSES I HAVE BEEN INFORMED THAT THIS FIELD IS OUTSIDE JURISDICTION OF NAVY DEPARTMENT AND ALTHOUGH MAVAVCH OF STAFF OFFERED ASSISTANCE TO PROCESS REQUESTS THROUGH OTHER COMMISSARIAT IT APPEARS TO BE ONLY LIP SERVICE. AT INSTIGATION OF THIS OFFICE THE STATE DEPARTMENT HAS INITIATED A STUDY OF AIRCRAFT INDUSTRY AS PART OF ITS ECONOMIC RESEARCH PROGRAM. A LETTER IS UNDER PREPARATION ON THIS SUBJECT. IN ADDITION TO THE ABOVE THE EXPERIENCE OF THE MIKE MISSION IS INDICATIVE OF THE SMALL BENEFIT TO BE DRIVEN. PERSONALLY THE RUSSIAN IS AFFABLE FRIENDLY AND LIKEABLE OFFICIALLY HE IS COMPLETELY SELFISH AND REALISTIC. HE WILL TAKE ALL GRATIS FAVORS BUT IN BARGAINING THE PAST IS PAST AND HE ONLY GIVES AS HE GETS SUITABLE IMMEDIATE RETURN. HE FULLY REALIZES THE EXCHANGE IS ALL IN HIS FAVOR NO. AND IS TAKING FULL ADVANTAGE OF IT.

AND ATTITUDE WITH CONDITIONS AS THEY ARE HERE I DO NOT BELIEVE IN FREQUENT NEEDLING TO GET VISITS AND INFO OF DOUBTFUL VALUE. IT DOES NOT HELP OUR RELATIONS. I RECOMMEND AGAINST SENDING A TECHNICAL AVIATION ORDINANCE OFFICER HERE BECAUSE I THINK THAT HIS TIME AND QUALIFICATIONS WILL BE WASTED. IF THIS RECOMMENDATION IS OVERRULED THE OFFICER COMING SHOULD BE A COMDR OR JUNIOR CAPT. AND SHOULD COME AS A RELIEF FOR CAPT FELT AS WE DO NOT NEED 2 AVIATORS. ALSO HE SHOULD COME
FULLY BRIEFED ON SPECIFIC ITEMS THE BUREAUS DESIRE AND SHOULD BE AUTHORIZED TO COMMIT RECIPROCAL VISITS MATERIALS AND INFO IN THE SAME FIELD.

Subject is concurrence of Russian High Command for continuance of current activities of OSS is teams now operating in Balkans and Central European area and concurrence for entry of additional teams for similar activities. OSS has SI teams operating in Czechoslovakia, Yugoslavia, Rumania, Bulgaria, Albania, and Greece. Plans approved by this headquarters call for additional teams in these areas and new teams now organized for Austria and Hungary.

In Bucharest, satisfactory coordination was secured locally with Russian Command. In Sofia OSS SI team was ordered to withdraw by local Russian Command, although efforts were made to secure local coordination OSS team by cable reported it was withdrawing voluntarily to avoid arrest and consequent likelihood of incident. APHQ order to withdraw was forwarded to OSS team by OSS this headquarters.

Today by cable from Cairo OSS, it was reported OSS and British teams reached Plovdiv traveling as PWs and would start for Turkish frontier 1700 September 27th. OSS this headquarters now attempting verify actual status. whole area, it is recommended:

1. That these facts be made known to Russian High Command.
2. That overall authority be secured from Russian High Command, directing local Russian commanders to accord OSS SI teams adequate local authority, including independence in operating communications and air and motor transportation when requested.
3. That this authority include concurrence on entry of additional teams under same circumstances as authorized by this headquarters.

Since problem is urgent, request immediate action. For your information MAAF headquarters here proposes to continue air rescue units, bomb damage evaluation units, and other Air Force inquiries, all of which may be affected unless Russian concurrence on OSS SI activities can be secured on broad scope.

With your approval OSS is prepared to send senior Strategic Services officer with 2 Intelligence assistants to Moscow to consult and advise with General Deane and secure his aid in presenting problem directly to Russian High Command, since we consider Deane is official channel for such presentation.

This refers to list of technical information approved
by JCS for release to Soviets by WAR 59997 of 4th July 1944.

In view of present stage of war with Germany and
present general attitude of Soviets towards her allies Radd
Gleen and I recommend that no more of the referenced infor-
mation that has previously been given be made available to
the Soviets.

We do not believe that the equipment described
could be obtained, installed, and put into practical use by
the Soviets before the collapse of Germany. Furthermore
since the recent successes on both fronts there has been
a general stiffening of Soviet attitude toward US and
the British. We are unable to get expeditious action or
even approval on our proposals and requests.

Information on Soviet subjects similar to the
referenced information is generally refused or request is
unanswered.

Possibly some of the material could be used by
the Soviets in the Far East but much of it could not be
used. In any event we still have no positive assurance

Based on your W 24345 of 17 April, Headquarters OSS London submitted requests to SHAEF for increasing OSS allotment by 912 officers and 2411 enlisted men. Upon receipt of your W 54014 of 21 June a restudy of OSS requirements was initiated and present indications are that an additional 438 officers 5 warrant officers and 1202 enlisted men are desirable. This increase is, however, desired at the expense of ETO units or allotments as mentioned in your W 54014.

Breakdown of increase for 438 officers, 5 warrant officers and 1202 enlisted men is 217 and 334 for Special Intelligence (SI): 25 and 45 for Counter Espionage (X-2): 140, 2 and 213 for Special Operations (SO): 21 and 20 for Morale Operations (MO): 8 and 321 for Communications, 17, 3, and 251 for Services, and 10 and 18 for Chief of Mission.

There are 198 officers and 552 enlisted men available in theater who are of type desired by OSS.

Above increase does not take into consideration proposed suballotment of 556 officers and enlisted men referred to in your W 66384 of 17 July and our FWD 12692 of 8 August. We understand that this increase will be provided by JCS to Headquarters OSS Washington for suballotment to OSS in ETO and not at expense of ETO troop basis or allotment.

With regard your W-25951 dated 6th September, subject OSS your W-54014 dated 21st June stated, if we consider increase in suballotment TO necessary, such increase may have to be at the expense of other ETO units or allotments.

In view of your W-54014 there was some question here as to whether or not the additional 556 personnel offered in your W-66384 dated 17th July were to be provided at expense of ETO troop bases. In recommending this increase of 556 for OSS in ETO in our FWD-12692 dated 8th August we desired to indicate conditions under which we approved the increase.

Believe that you did not receive our FWD-13862 dated 5th September at the time you dispatched your W-25951 dated 6th September.

Summary of our position on OSS increase is as follows:

A. No increase desired at expense of ETO units or allotments.
From: Supreme Headquarters, Allied Expeditionary Forces, Forward on Continent

Nr: FWD 14416 10 September 1944

B. Increase of 556 mentioned in your W-66384 dated 17th July desired provided it is not at expense of ETO units or allotments to partially meet increases indicated as desirable in our FWD-13862 dated 5th September.

In view of rapidly changing situation OSS requirement in this theater are subject to constant revision.

To General Deane and General Brocas Burrows for action, to SHAPE for Eisenhower and ETOUSA pass to British Chiefs of Staff for information, from the Combined Chiefs of Staff.

1. Exchange of information concerning German developments in weapons and methods of war available in Anglo-American and Soviet spheres of operation in Germany prior to tri-partite control of Germany is vitally necessary for development of defense and countermeasures and improvement of weapons for use in the further prosecution of the war.

2. Prompt action by Soviets to forestall destruction by Germans of such intelligence objectives as experimental stations and research centers in Germany is essential. Also essential that United States and British officers be allowed to inspect personally such installations if all available information is to be obtained.

CM-OUT-86963 (26 Aug 44)
3. You should therefore make immediate representation to Soviet General Staff on following lines:

a. Explain value of exchange of information on German developments and the necessity for exchange of officers to inspect personally objectives containing such information.

b. Say that lists of the objectives in Soviet sphere of operations in Germany in which we are interested can be furnished.

c. Ask that U.S. and British officers may be permitted to visit these objectives and examine them thoroughly.

d. Say that every facility will be given for Soviet officers to inspect similar objectives in U.S. or British operational spheres in Germany in which Soviet General Staff are interested.

e. Also make it clear that this arrangement applies only to the period prior to tri-partite control of Germany.

4. In view of the great importance of this matter to the United States and Great Britain on military grounds you should take this matter up urgently on highest level.

5. For your information only, we are suggesting that the European Advisory Commission negotiate extension of this agreement into the period of tri-partite control of Germany.

1. An offer has recently been made to Hq Balkan Air Force which is the Hq responsible for special operations in Hungary by a Mr A. Lany member of the Jewish Agency at present on a visit to Italy.

2. Mr Lany has stated he is prepared to place at disposal of SOE operating under Hq BAF more than 300 Palestinian Jews for purpose of infiltration to Hungary. Some of these men were trained by SOE as saboteurs prior to the battle of Alamein in case Palestine was invaded by the Germans. He further states that Jewish agency has contacts in various parts of Hungary.

3. There is no doubt that if successful contacts can be made inside Hungary it will be of great value to us. At the moment intelligence about Hungary is almost entirely lacking and no activities are being carried out against the enemy.

4. It is fully realized that there may be strong political and religious objections to our using the Jewish agency for our own purposes. It is however felt that there should be no objection if we recruited up to 10 volunteers from among those Jews already in the British Armed Forces who have in the past been trained by SOE and use them for infiltration to Hungary. These Jews should preferably be Hungarian speakers or of Hungarian extract.

by multiplicity of demands for Intelligence in SHAPE area coming

this intelligence being of a character which SHAPE normally
would not seek. As indicated in paragraph 1 SCAFS 50 this
intelligence lies between normal technical intelligence

targets which committee will classify as to priority and
sift for duplicate demands, thereafter working out
necessary target objective folders. Targets will then be

conjunction with US representation, probably from ALSOS. Information evolved will be transmitted to SHAEF, which so far as its means permit, and in accordance with the priorities already set, will seize targets designated, relying on experts nominated by committee for analysis and reports. Committees targets and representation thus will be integrated into the missions of Intelligence Assault Forces. The committee should then disseminate intelligence obtained, pertaining to its own targets.

3. Recommendation that committee be established by Combined Chiefs of Staff made after careful study. There are factors favoring placing it under SHAEF, notably fact that SHAEF on last analysis must decide any conflicts between execution of intelligence missions and of other operational missions, and in the field of Intelligence, between normal missions and those evolved by Intelligence Priorities Committee. In consequence phrase "under the general direction of SHAEF" was inserted in 1st sentence, paragraph 5 SHAEF. On the other hand, the facts that the Committee would require considerable manpower and office space, would deal on a departmental level, would be located permanently in London and would be involved in many problems concerning the distribution of the information it received were considered to be of determining importance.

From SHAFF, S 53720, to AGWAR for Combined Chiefs of Staff signed Eisenhower cite SHGBI this is SCAF 50.

Need has arisen for an Anglo American inter-service organization to deal with Anglo American requirements for technical intelligence which will become available on re-entry into Europe. These requirements for technical intelligence will include such material, personnel and information of military importance, either of great value to the Allies for operational purposes, or constituting a dangerous potential threat in the future as justify urgent action on the part of the Allies in seizing them, both before and immediately after an armistice, and therefore requiring action by SHAFF.

The functions of the organization would be:

(1) To receive and coordinate all requests for such intelligence from the various British and United States departments and agencies concerned.

(2) To submit the requests to SHAFF in the form of target dossiers, assign priorities and provide any specialist personnel required for investigation on the spot.

(3) To notify all British and United States departments and agencies concerned of the disposal of the material, obtained and also disseminating information gained. (Handling and disposal of the captured material, personnel and papers would, however, follow normal procedure).

It is recommended, therefore, that the Combined Chiefs of Staff establish "Combined Intelligence Priorities Committee" under a British or American chairman and composed of 1 or more representatives, of each nationality, of Navy, Army Air Force and economic warfare, (including American side representative of OSRD). Representatives of the Foreign Office and the State Department would be occasional members to attend when required.

A combined working body, subordinate to the committee, would also be required for detailed work in preparation of target dossiers and notification of disposal of material as obtained.

The proposed Combined Intelligence Priorities Committee would be an ad hoc committee under the auspices on the British side of the British JIC, for coordination of the requirements of British government departments and on the American side of JIC Washington, under the general direction of SHAPE. SHAPE would provide a chairman for the committee until other arrangements could be made.

London, England  

Nr: S 53720  12 June 1944

It is not proposed that the requirements of the British Secret and Security Services or OSS (SI) should be the responsibilities of this committee. These services would deal direct with SHAPE.

Request approval of Combined Chiefs of Staff to establishment of proposed Combined Intelligence Priorities Committee. In the meantime, owing to urgent need for the information required, we are setting up a provisional committee on lines proposed.

(C) Info obtained here discloses little of military nature. Same also true of general political situation.

(D) Info on resistance groups follows general lines already known. With emphasis on dissatisfaction with Allied aid in nature food clothing weapons. These groups show some signs of weariness but still appear of value if invasion comes soon.

(E) States little interest or discussion relative Vichy or Algiers political activity.

(F) Attitude towards US indicates possible loss of prestige due civilian bombing and slowness Italian campaign but still not unpopular.

(G) French believe Germans intend making strong invasion stand in France.

(H) Opinion divided on compromise peace and unconditional surrender. Majority incline to expect former.

As result recent conversation with representative Red Army General Staff designed expedite say conferences General Deane believes that until Ambassador Harriman returns here about June 1 and puts pressure through foreign office, Soviet General Staff will not be given instructions to proceed. Inasmuch as Molotov is on record as having agreed in principle to interchange this may well produce results. I have prepared detailed disposition lists all pertinent areas to facilitate comparison and should be able to make answer to our major doubts within week or two from time talks commence. Consequently feel I should remain here until June 10th to 15th but if by that time no prospects should leave either for Washington or Chungking though in connection latter place should bear in mind that the Soviet Attaché may be likewise unable to get anything out of Moscow without the same clearance. Also that if Stables still China he is thoroughly competent to handle for us. However, must admit possibility continuation impasse and in view time element think we should be making preparations exploit Chungking proposition if developments next 3 weeks indicate necessary. Suggest you inform Chungking that while they are to make no overtures unless notified they should prepare possibly with Stables collaboration disposition map major units according our present knowledge

(G) 3rd Independent Garrison Tsitsihar. Suggest you further inform Chungking that I am mailing them copy my expurgated detailed disposition lists covering all smaller units. Chungking should also be advised as to our major questions concerning Manchuria.

A. Organisation, location and chain command puppet troops.

B. Does 20th Army still exist since not listed late 42 rpt 1st June 42 list and necessity appears doubtful?

C. Where are tank regiments 3, 6, 10, 11, 15, and 24; which belong to tank groups?

D. At which Wuchia is 9th Border Garrison; where are border garrisons 11 and 13; locations given previously for 6th and 10th even doubt.

E. Third independent garrison formerly Tsitsihar identified lst Amphibious Brigade Enjalein; and evidence any other Manchurian units similarly converted since others amphibious brigades known exist.

Yesterday May 2nd Gen Sharapov, Col Borisenko and Col Roudoi were accompanied by Griffith to Hq 8th Air Force Fighter Command where they were personally briefed by Gen Keiper and his staff officers on all phases fighter escort. Russians were given complete info. Nothing was held back from them. After complete briefing on all operational activities at Hq the party went to Fighter Command Wing Hq then on to group Hq at an operational station so they would get complete picture right down to most minute detail. Tomorrow Gen Sharapov and his staff will attend conference at this Hq to confer on phases of air to ground communications. On 13th April and 14th April we took Gen Sharapov and members of his technical staff on complete tour of 2 of our largest repair and maintenance depots subsequently turned over to him complete files of technical publications on aircraft we intend to use. His staff will study and translate. Above info is relayed to you so you may advise Soviet authorities we are making every effort to cooperate in every way possible with their military mission in London with sole aim of achieving success of this mission.

To Joint Chiefs of Staff Washington DC for Gridley from Hyde.

OSS organization for Italian operations not well set up. OSS activities in and into Italy are under 3 separate commands namely:

OSS with AAI under Col Reuterahan at Caserta,
Italian SI activities at Brindisi under Mr Scamperino under SI Algiers, and
Italian OSS in Corsica under Lt Col Livermore.

Services of aircraft, surface craft, and submarines for all 3 OSS Commands necessarily must be coordinated with all other special operations in Italy by special operations (G-3) AAI at Headquarters Caserta.

Reuterahan here has control of only the KAI group and in special OPS conferences at Hq cannot make definite commitments for either group such as OSS Corsica. This places Reuterahan representing OSS at Caserta in bad position.

Brigadier Mainwaring FG3 in charge of special operations AAI, informed me it is urgent that he be able to deal with 1 officer representing and controlling all OSS activities in and into Italian Theatre.

Lack of OSS unity is hindering and complicating all special operations. Reuter'shan here at Caserta is logical man to exercise operational control of all OSS activities in and into Italy. OSS relations with headquarters AAI are very close. I consider that it is urgently necessary that OSS operational command in Italy at earliest practicable moment.

For Deane from Marshall

Combined Chiefs of Staff are considering British proposal for tripartite agreement between US, UK and Soviet for release of technical information to the Soviet. British have raised this question on both political and military levels. In reply to a state department query the Secretary of State has been advised by letter from Joint Chiefs of Staff that from Military viewpoint a tripartite or a bilateral agreement with Soviet is undesirable and unnecessary. The Combined Chiefs of Staff now have under consideration a procedure presented by US Joint Chiefs of Staff for the coordinated release of such information. This procedure would not relieve UK from their existing bilateral agreement with Soviet but should encourage Soviet to reciprocate by furnishing similar technical information.

This is for your information only.

No. 82 Sept 21 1942

After his speech Harriman answered questions of those present concerning his trip to Moscow. Answering one of the questions Harriman explained that the Soviet Union displays no desire to permit foreign observers to visit the fronts, because this is likely to lead to the filtering out of such information which could be of help to the enemy. "The Russians," he said, "do not release any information if there is no definite purpose of its release." The American order of state safety, he indicated, is less efficient than the Russian. The Americans display less caution in regard to information. "I deeply sympathize with the Russians," he said, "When they refuse to allow our observers to visit the fronts and obtain information which could be of great service to the enemy. It seems to me we ought to understand this and not ask them for information which could help Hitler."

FROM:

GIVE OUT ANY INFORMATION IF THERE IS NOT A PURPOSE FOR GIVING IT AWAY. AMERICA IS NOT AS WELL ORGANIZED FOR GUARDING STATE SECRETS AS IS RUSSIA. THE AMERICANS ARE LESS CAREFUL WITH IMPORTANT INFORMATION. I FULLY SYMPATHIZE WITH THE RUSSIANS WHEN THEY REFUSE TO ALLOW OUR OBSERVERS TO VISIT THE FRONT AND GET INFORMATION WHICH COULD BE USEFUL TO THE ENEMY. I THINK WE SHOULD UNDERSTAND IT AND NOT ASK FOR INFORMATION WHICH WOULD HELP HITLER." Harriman is considered here as a personal spokesman for President. Obviously such statements seriously hamper military representatives here and tend to dry up info flow which now is only a trickle.

LIMITED DISTRIBUTION.

The Director of Turkish military intelligence which includes naval intelligence and secret service has agreed to furnish me with all available information of Axis forces and to assist where possible. Due to a mutual feeling of distrust existing between Turks and British their cooperation appears not to be as complete as it might or should be. In spite of British attitude I believe Turks are sincere in their efforts to help us win war. Above has been explained to Ambassador Steinhardt who concurs. For local reasons it is desirable British not repeat not be informed of offer of Director of Turkish intelligence. That source of information will be referred to hereafter as quote local agent unquote.
