ADMIRALTY OCT 10, 1918A.

SS attacked by aircraft at 2020 Oct 4 in position 45 mi. W. of BERGEN. Spray from depth charges covered target. Possible dinghies sighted in hazy weather after the attack.

NOTE: Previously reported (summary 10/6) in position 60-21 N, 03-22 E.
SUPREME HEADQUARTERS issued warning today that all vessels, regardless of size, sailing in Norwegian waters would be subject to Allied attack.

The announcement said the action was deemed necessary in view of the fact that German U/Boats were operating out of Norwegian ports and that the Germans were withdrawing from Norway every man who could be spared from garrison duty.

Despite previous warnings by the British Admiralty that the North Sea was unsafe for shipping, fishing craft and small coastal vessels were sighted off Norway recently. Allied naval forces, in consideration for local needs, refrained from attacking but in the future all shipping will be attacked, the announcement said.

STEINHARDT, US AMB. TO TURKEY, SEPT 6,
STATE DEPT. BRIEF SEPT 21.

The President of the Council advised, on the morning of September 6th, that the Hungarian Minister had been to him with a request from the German Government that the Turkish Government should allow three German submarines to enter Turkish ports and be interned, and that the crews should then be allowed to proceed to the Islands. He said in return, the submarines would be given as a present to the Turkish Government. Saracoglu had decided that on no account could this offer be accepted, and the Turkish Government would have nothing to do with it. While Ambassador Steinhardt was with the President, the Secretary General telephoned to say a message in the foregoing sense had been given the Hungarian Minister.

The Hungarian Minister had intimated the Turks would probably receive a similar approach through the Japanese Embassy.
