First part of message is as follows:

Detail account of encounter with enemy submarine reported in ourad 134 February 3. Army pilot flying B-25 sighted submarine at 1005 GMT approximate position 60 degrees north 47 degrees 20 minutes west. Enemy was holding course that would have resulted in interception of convoy. When sighted plane was cruising 1200 feet speed 190 MPH enemy was dead ahead 10 miles away. Pilot went into long power dive increasing speed to 300 MPH and leveled off within 25 feet of water. This speed and height was maintained until bombs were released. Enemy apparently discovered plane for first time when it was 3 miles away and started crash dive. 2 depth bombs 650 pounds each set for 50 feet were released and they landed simultaneously on both sides conning tower. After bombs released plane immediately chandelled to right and last saw conning tower on section of sub in center of 2 swirls followed by terrific blast. Circled spot for approximately 3 minutes for purpose of obtaining exact bearings and to ascertain extent of damage but hurriedly left this mission when another object believed to be submarine was sighted 25 miles away. Followed same procedure as first attack and headed for object, but discovered it was escort ship. Later

*Attempted to locate scene of attack but failed. On arrival Onto Captain of Coast Guard escort vessel was interviewed. He believes enemy was headed to intercept convoy. On examination of details of attack on enemy submarine coast guard skipper is of opinion it was destroyed. This Headquarters and pilot of B-25 of the same opinion. Second encounter of another B-25 with enemy submarine was at 1335 position 60 degrees 35 minutes north 47 degrees 53 minutes west. While flying at 1500 feet making AS sweep to rear and right of convoy submarine was sighted 8 miles ahead and to the right. Immediately dived at 260 MPH with bomb doors open and crew at battle stations. Flew over submarine going into crash dive at 200 feet bomb release light flashed but bombs failed to release. Immediately sent plane into right verticle bank and made 9 second approach collision course parallel to diving submarine. Released 2 six five zero pound depth bombs to starboard and port of wake. Charges hit water approximately 25 feet apart, 1 to the side and 1 ahead of wake. Made rapid circle and saw 2 wells of water where bombs exploded with probable oil slick blending together and bubbles coming to surface. Plane circled for some time but saw no wreckage. It is believed sub was severely damaged or destroyed. When sub 1st sighted it was cruising on surface with super structure and what looked to be 2 masts visible. Estimated to have been 300 feet long.

MY 1059/22 JULY. CONVOY HX 217 FOUGHT ITS WAY THROUGH LARGE U-BOAT CONCENTRATION WITHOUT LOSS SAVE FOR 2 SHIPS. ON DECEMBER 7TH A LIBERATOR FLEW 800 MILES TO CONVOY AND WAS IN COMPANY FOR 6 HOURS. THAT NIGHT 1 SHIP WAS SUNK. LOSSES WOULD PROBABLY HAVE BEEN MUCH HEAVIER IF AIRCRAFT HAD NOT SENT U-BOATS DOWN. NEXT DAY ANOTHER LIBERATOR REACHED THE CONVOY AT 1030 ZED AND REMAINED FOR ABOUT 8 HOURS CARRYING OUT 7 ATTACKS, 2 WITH DEPTH CHARGES, 5 WITH CANNON. AFTER 1ST OF THESE ATTACKS AIRCRAFT REPORTED THAT A CORVETTE HAD FOUND HUMAN REMAINS. 2 MORE LIBERATORS CARRIED OUT OFFENSIVE SWEEPS IN FRONT OF CONVOY AND WERE IN COMPANY FOR 2 HOURS. EARLY ON THE 9TH 1 SHIP WAS TORPEDOED. THERE WAS NO AIR ESCORT THAT DAY.
