Restoration of Theodore Roosevelt's Birthplace
For Centre of Americanism
Endorsed as Living Memorial

From many letters of endorsement of the plan to restore Theodore Roosevelt's birthplace at 28 East 20th Street, New York City, that have come to national headquarters of the Woman's Roosevelt Memorial Association, the following are selected to give the viewpoint of leading Americans.

Old Homestead Will Stand as Monument to American Patriotism.

Cardinal Gibbons, writing to Mrs. Henry A. Wise Wood, Vice-President and Chairman of the National Organization Committee, says:

“CARDINAL’S RESIDENCE,
408 No. Charles St., Baltimore, Md. NOVEMBER 27, 1919.

MY DEAR MRS. WOOD:

The plans of the Woman’s Roosevelt Memorial Association to purchase and restore the birthplace of Mr. Roosevelt are worthy of praise. Once the object of the Association is accomplished, the old homestead will stand as a monument which will remind future generations of that man who was the living embodiment of the principles and ideals of American patriotism. I trust that the hopes of the Association will be speedily realized. I am, faithfully yours.

(Signed) J. CARD. GIBBONS, Archbishop of Baltimore.”

Mrs. Atherton Calls On Members of Authors’ League to Contribute.

In an open letter to the women members of The Authors’ League in the August, 1919 number of The Authors League Bulletin, Gertrude Atherton writes:

“DEAR FELLOW MEMBERS:

“I want to call your attention to a simple and practical way to honor the memory of one who was Vice-President of our League from the date of incorporation until 1918, and was one of the Honorary Vice-Presidents from then until his death.

“The Woman’s Roosevelt Memorial Association (1 East 57th Street, New York, N.Y.), has undertaken to restore and perpetuate Theodore Roosevelt’s birthplace and home of his childhood. The property at 28 East 20th Street has been purchased with the adjoining house, in order to carry on educational and patriotic work there and thus establish a living monument to the memory of one of America’s greatest citizens.

“It is planned to have a circulating library not only of books written by Theodore Roosevelt and about him; but also biographies of American statesmen and of men and women whose lives have been an inspiration to the youth of our country. A dinner will be formed and lectures will be given to teach foreigners and the children of foreigners the English language, the history of our City and of the Nation, the principles and ideals of American democracy, of which Theodore Roosevelt was so brilliant an exponent.

“The women of America purchased and restored Mount Vernon, Washington’s home; they also helped to preserve the home of Lincoln. They are now offered the opportunity and privilege of helping to secure, free from mortgage, the home of the most widely known and admired leader of modern days. The plan has the unqualified endorsement of the Roosevelt family.

“All who contribute one dollar or more receive the emblem of the Association—a bronze pin which is the replica of the medallion modelled by Anna V. Hayft, and they also have their names inscribed in the great Book of Donors which is to be kept at Roosevelt House.

“It would be of service to theCause of our distinguished fellow-member of the Authors’ League, by which contribution you will be helping to perpetuate the memory of the man who lived and died striving to do the best possible work for his fellow men.”

(Signed) GERTRUDE ATHERTON.”

A Great Man’s Home in Fitting Memorial of His Life.

Dr. David Jayne Hill, diplomat, historian, and former Ambassador to Germany, writes:

“The Woman’s Roosevelt Memorial Association has undertaken a truly patriotic work in preserving the birthplace of Theodore Roosevelt as a permanent monument of American life and character.

“We often and properly speak of American ‘ideals’ as something distinctive but it is far more important to recall the realization of them in actual persons. The dignity and devotion of Washington, the faith and fidelity of Lincoln, and the earnestness and courage of Roosevelt appeal to us as unemotional things. The homes where these men were born and lived are among the most fitting memorials of these great lives, and their simplicity and diversity teach us that every home, whether on the open prairie or in the crowded city, may be the birthplace of human greatness.”

Make Roosevelt House A Shrine For Youthful Pilgrims Today.

Major General Leonard Wood, U. S. A., indorses the Roosevelt House memorial, as follows:

"The Woman's Roosevelt Memorial Association is raising a fund for the re-establishment and re-equipping of the birthplace of Theodore Roosevelt, the most inspiring living monument of the great men of our national life since Lincoln. We want to build up in that house where he was born a shrine to which the youth of America will go as on a pilgrimage; go as they have gone to Mount Vernon and to Springfileld; to go to the birthplace of this man who has meant so much to this country and who has given us so much of inspiration. We want to assemble there the things with which he was surrounded as a youth, and we want to enable our children to visualize something of the life which Colored Roosevelt led in his early years. It is a fine work.

This is an all-American tribute—not contribution too small, none too large.

Contributions in cash, money order or cheque should be forwarded to the treasurer, Mrs. A. Benton Hepburn, 1 East 57th Street, New York City.

The Woman's Roosevelt Memorial Association National Headquarters, 1 East 57th Street.
