Dear Mr. President:

That was a grand day you gave me at Hyde Park and I am greatly indebted to you for your kindness.

Six lumber companies have expressed an interest in cutting your timber and I hope to get some good bids from them. I expect to mark the timber on Saturday, November 5th, and then we will know about how many thousand feet there are available for sale. Although the trees are not large, they are of good quality, and I hope we can get a good stumpage price.

I have also ordered 30,000 trees divided equally between Norway spruce, balsam fir, Canadian white spruce and Douglas fir for next spring’s planting.

May I suggest that you have letters sent to a number of the chain stores, particularly the American, A. & P., Community, Grand Union, Sanitary, and other stores in New York and the Hudson Valley, to sell as many of the Christmas trees as possible. I hope that the few remaining trees and the tops of the larger ones on the plot west of Mose Smith’s place can be cut off this Christmas so that we can plant the entire area next spring.

With renewed thanks for a wonderful day with you, and with all good wishes for continued success in this terrific war situation.

Sincerely,

Nelson C. Brown

Gentlemen:

The President will have for sale between two and three thousand Christmas trees at his place at Hyde Park, Dutchess County, New York. In selling Christmas trees in past years, he has delivered them tied at his place and has sold them to stores in New York City which have sent their trucks to Hyde Park for them. These trees have run from table size to ceiling size, averaging between four and five feet.

If you would care to purchase the total of his 1945 crop, please let me know what price you are willing to pay for them delivered and tied at Hyde Park. The delivery date is usually between December fifth and December fifteenth.

Most of the trees in this year's crop are Norway spruce, Canadian white spruce and balsam fir.

If you would care to send a representative to see the trees, please ask him to communicate with Mr. William A. Plog, whose telephone number is Poughkeepsie 545.

In fairness, I should tell you that I am sending letters similar to this one to other stores in New York and vicinity.

Dear Mr. Laing:

This year the President expects to have a good many more Christmas trees for sale — between two and three thousand — and Professor Brown of the Syracuse State College of Forestry has suggested that the President get bids from a number of stores this year. You know the type and size of the trees and the President would be very glad if the Grand Union Stores would care to bid again — especially because of past relations.

As you know, in selling Christmas trees in past years the President has delivered them tied at his place and they have been picked up by truck at Hyde Park. These trees run from table size to ceiling size, averaging between four and five feet.

If you would care to purchase the total of the President's 1943 crop please let me know what price you are willing to pay for them delivered and tied at Hyde Park. The delivery date is usually between December fifth and December fifteenth.

Dear Miss Tully:

Last Friday, October 29th, I made a trip to Hyde Park and contacted Mr. William Plog for the purpose of looking over the Christmas trees President Roosevelt is offering for sale.

We will be pleased to handle these trees again this year, as we have for the past several years and are herewith submitting our bid of 65¢ per tree for all sizes, which will cover all trees of a fair shape and over four feet in height.

It would not be necessary to tie these trees into bundles, as we would have our trucks pick them up and deliver them directly to our stores.

Dear Mr. Kaelin:

I shall have some more Christmas trees for sale this year from my place at Hyde Park. If you are interested in buying any and will send a representative to Hyde Park to see Mr. William A. Plog, he will be glad to show him the trees in the field.

The trees in the ground run in classes and I suggest separate bids if you want any on the basis of classification — those, for example, from 3 ft. to 4½ ft. tall, those 5 ft. to 6 ft. tall, and those 6 ft. and over. They are mostly Norway spruce, with a rough estimate of 1500 available; there are 60 to 100 balsam fir trees; about 100 Douglas fir trees; and if you desire table trees, the total could run up to 2500 or 3000.

The trees would be delivered to your truck (with the branches tied) on Violet Avenue, about five miles north of Poughkeepsie, or at a point on the field road close to the plantations. May I suggest that it will pay to have these trees cut as late as possible to insure good condition on December 25th.

If you will get in touch with Mr. Plog at Hyde Park, Dutchess County, New York, he will be able to see your representative at any time.

Very sincerely yours,

Very sincerely yours,
Dear Mr. President:

It was grand to see you looking so well and standing up under the popgun fire of the serious-minded District Attorney.

Our estimate of the 2000 trees available for cutting in December was based upon the number of trees 3 to 4 feet tall, those 5 feet, and those 6 feet and up. We found 1365 available in the 1936 plantation including 65 balsam fir trees. This is the lot just east of the Bacchus lot. We estimate there are 100 available in the Douglas fir plantation, about 50 spruce south of Mose Smith's place, and 100 in the 1937 spruce plantation on the left of the road leading up the hill, together with 50 along the Creek Road. This means a total of 1665 trees. The proportions of those counted indicate that about one-half are 3 to 4 feet tall and the balance are 5 to 6 feet in height. Last year we made a heavy cutting of every available tree for sale and we got some very good prices.

This is why there will not be so many available for this year's cutting. In another few years we will have a very large volume running into the thousands.

I believe there will be a good demand for trees this December. If this is true, we could probably sell as many as 2,000, possibly more. Last year we cut 3480 trees and combed every plot to get them.

May I suggest that you send out inquiries for separate bids on trees 3 to 4½ feet tall, those
5 to 6 feet tall, and those 6 feet and up. Representatives of prospective buyers should visit the plantations and have an opportunity to look over the class of stock available. I suggest you write to the A & P, Grand Union, Red & White, Community Stores, Safeway Stores, and any of the others. It might be well to write to some of the big commission houses who deal in Christmas trees along lower West Street and other distributing sections in New York, although the latter generally buy carload lots from Vermont and Canada and, after selling the trees, the farmer or cutter gets what's left and that isn't very much.

May I suggest that Bill Plog get some help to continue the job of trimming the brush around the Christmas trees and to cut off such long leaders and wide branches that will interfere with the sale in succeeding years at attractive prices? A little expense in trimming up the trees, cutting off dual leaders, etc. will prove to be a profitable investment. Frank Draiss knows how to do this as we have gone into it in detail.

For next spring's planting I will get as much Canadian white spruce, balsam fir, Douglas fir and Fraser fir as is possible. This year for the first time we found the white pine weevil in the Norway spruce, and for this reason I think we can do better with other species, although I have no reason to believe that the present planting of Norway spruce is seriously threatened. However, the terminal shoots must be cut off and burned before July 1st in order to prevent its spread in spruce. You may recall that last spring we cut down Norway spruce to only one-quarter of the total planted. Our success with Douglas fir and balsam fir indicates that we can do well with these trees, and I understand Fraser fir will prove to be a very good tree. We may have to go outside of the New York nurseries in order to get some of these trees.
Your willingness to see me on this unexpected visit is very much appreciated. Lots of luck in the closing days of the campaign. I think it's already "in the bag". Best regards, and again many thanks.

Sincerely,

NELSON C. BROWN

Dear Mr. President:

In accordance with your suggestion, we had one of our field men visit with Mr. William A. Plog at Hyde Park and inspect the trees in the field. We are again interested in purchasing these trees and submit the following offer.

- Trees 3 ft. to 4-1/2 ft. to be packed in bundles of 4 - $70 per tree f.o.b.
- Trees 5 ft. to 6 ft. to be packed in bundles of 5 - $90 per tree f.o.b.
- Trees taller than 6 ft. to be singles and the price to be $1.10 per tree f.o.b.

We believe your suggestion to cut the trees as close to December 25th as possible an excellent one and agree with that suggestion.

We further agree to pay the additional labor and the cost of the tags necessary for the tying and tagging of these trees in bundles.

We trust that our offer shall be accepted and trust that we may hear from you shortly.

GRACE:

There is no record of a letter having gone to this man, in regard to the Christmas trees.

Audrey
President Franklin D. Roosevelt
Hyde Park, New York

Dear President Roosevelt:

I wish to contract for your entire supply of balsams and
doughasses at 12 cents per foot. I also would like to
purchase 50-3 foot, 150-4 foot, 300-5 foot, 300-6 foot,
100-7 foot, 100-8 foot spruces at 10 cents per foot.

If this estimate proves satisfactory, please advise as
soon as possible. I will then immediately call Mr. Plogg
and advise when to cut.

Please note that the trees do not have to be tied in
bundles.

Very truly yours,

Joseph R. Morrill

My dear Mr. Tomlet:

The President asks me to thank you for your letter and tell you how sorry he is that he cannot comply with your request. He had already contracted to send his Christmas trees before your request was received.

Very sincerely yours,

Dear Sir:

I would like to buy Christmas trees, if you have some available. I would prefer balsam. I can handle one carload.

I would appreciate an answer to this letter.

Very truly yours,

Mr. William Plog,
Supt. to Hon. F. D. Roosevelt,
Hyde Park, N. Y.

Dear Mr. Plog:

First of all, we wish to express our thanks to you for your kindness in showing us the trees which will be for sale for the Christmas holiday season, when we visited you on October 22nd.

It is rather difficult to determine the exact number of trees we will need for the coming season. However, we wish to enter our bid on the following:

- 50 Trees, 15-18" (Table Trees) @ .25 each
- 50 " 2-3" @ .50 "
- Norway and Balsam mixed
- 50 Douglas Spruce 4-5" @ .75 "
- 100 " 5-7" @ 1.25 "

We understand that we are to take care of the transportation.

We hope you may find the above prices acceptable and that we may look forward to hearing from you at your convenience.

Again thanking you, we are

Very truly yours,

A. C. NURSERIES, INC.
