dated 1/1/43 - "Bill rendered \$16.95"

PSF: Hyde Park

CENTRAL HUDSON GAS & ELECTRIC CORPORATION

50 MARKET ST.

POUGHKEEPSIE, N.Y.

January 15, 1943

Miss Grace G. Tully
The White House
Washington, D. C.

Dear Madam:

On July 7, 1942 I wrote you regarding the revision of billing for electric service rendered to the President's Estate at Hyde Park and enclosed a check for \$20.42, drawn to the order of Franklin D. Roosevelt, covering a credit due him as the result of dividing the billing between that used for household purposes and that used by the Secret Service Department.

According to our bank statement, this check had not been cashed up to the end of the year. It is possible that it has been mislaid or lost. If this is true, we will be glad to stop payment on this check and issue a duplicate to the order of the President, if you so desire.

Yours very truly,

CENTRAL HUDSON GAS & ELECTRIC CORP.

By

CENTRAL HUDSON GAS & ELECTRIC CORPORATION

50 MARKET ST.

POUGHKEEPSIE, N.Y.

July 7, 1942

Miss Grace G. Tully
The White House
Washington, D. C.

Dear Miss Tully:

We have finally completed the arrangements with the Secret Service Department by which they are billed for all of the electric usage at the President's Estate in Hyde Park, N. Y., less \$15.00 per month, which was agreed to be the average amount which could be considered as used by the President's household.

We are enclosing herewith a corrected bill for this \$15.00 per month charge from July 25, 1941 to June 29, 1942. From this has been subtracted the payments, which the President made on November 18 and December 22, 1941, leaving a credit of \$20.42, a check for which is enclosed.

We will in the future, therefore, as long as this arrangement continues with the Secret Service Department, bill the President for \$15.00 each month as the portion of the electricity used by his household at the Estate. In addition to this bill you will, of course, receive the one for the farmhouse and for the Memorial Library in the Village of Hyde Park.

Unless we hear from you to the contrary, I will assume that this arrangement is satisfactory to you.

Yours very truly,

CENTRAL HUDSON GAS & ELECTRIC CORP.

By

A handwritten signature in dark ink, appearing to read "J. E. Doolittle". The signature is written in a cursive, slightly slanted style. The first letter "J" is large and loops around the "E". The last letter "e" is also large and loops around the "l".

January 26, 1943

Miss Grace G. Tully
The White House
Washington, D. C.

Dear Miss Tully:

Acknowledging receipt of your memorandum of January 25, enclosing the registration forms on rental dwellings in Hyde Park, New York, in which the President has an interest, I am taking the liberty of handling this matter directly with the Area Rent Office at Poughkeepsie so that your office will not be further burdened about it.

I do not understand Mr. Hackett's statement that on two projects where the rent had been reduced since March 1, 1942, and each tenant now pays for his own heat and light, the President's agent was informed that "these rents have been increased instead of reduced and that the President was subject to a fine or some other penalty." Either Miss Linaka misunderstood the statements made at the Area Rent Office, or the office made an erroneous interpretation of the appropriate regulation.

In circumstances described above, the landlord is required to register and file an appropriate petition for the reduction of services if such services have been decreased since the maximum rent date. Then the maximum legal rent is adjusted on the basis of the difference in rental value resulting from the decrease in services. I am quite certain that the rent determined at the expiration of the lease on June 1, 1942 on one project and the rent charged on August 14, 1942 on the second come within the rental range of comparable dwelling units within the area.

I am writing you these facts so that you may close your file on this matter. I have instructed the Area Office at Poughkeepsie to communicate with Miss Linaka and Mr. Hackett and to take the appropriate steps to clear up what is really a

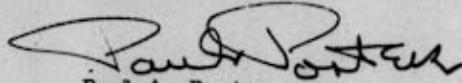

Miss Grace G. Tully

Poughkeepsie, New York

Miss Grace G. Tully
The White House
Washington, D. C.

My dear Miss Tully:

On Thursday evening, Jan. 14, Miss Linaka went to the rent control office of the OPA at 321 Mill Street, Poughkeepsie, N. Y. to make out the registration forms for the six "projects" from which she collects the rent for the President. She made out and filed the blanks for projects Nos. 1 and 2 but when she undertook to make out the blanks for Nos. 3 and 5, where the rent had been reduced since March 1, 1942 and each tenant now pays for his own heat and electric light, she was informed that these rents had been increased instead of reduced and that the President was subject to a fine or some other penalty.

I am now enclosing herewith the registration forms of projects 3,5,6 and 8 made out by her conforming to the facts.

I would suggest, in view of the attitude of the local board, that the question of whether or not the rents of "projects" 3 and 5 have been increased be taken up with some person who is in a position to give a final ruling.

Very truly yours,

(signed) HENRY T. HACKETT

*Delivered
Mr. Porter 1/16/43
& obtained extension
GHT*

Jan. 15, 1943.

Miss Grace G. Tully
The White House
Washington, D. C.

My dear Miss Tully:

Miss Linaka, who collects the rent from six of the projects on Violet Avenue, yesterday attempted to make out and file the Landlord's statements of rental dwellings for these projects at the local office, 321 Mill Street, Poughkeepsie, N. Y. She made out and filed two which appeared to be all right. The man in charge of the local office told her that the President had raised the rent since March 1, 1942 in projects three and five and was liable to a fine. Today is the last day to file these statements here. I told her not to sign and file any statements which would render the President liable to a fine.

In project three the rent was reduced from \$29. to \$16.50 per month since March 1, 1942, but the tenant has to pay for his own heat and light.

In project five the rent was reduced from \$24. to \$15. per month since March 1, 1942, but the tenant has to pay for his own heat and light.

The local office claims that these rents have been increased and not reduced.

I do not want to trouble the President about this, but wish you would get in touch with someone in authority in the Rent Control Bureau of the OPA and obtain an extension of time for Miss Linaka to make and file the remaining four statements.

Very truly yours,

Henry T. Hackett

OFFICE OF PRICE ADMINISTRATION
WASHINGTON, D. C.

Personal

January 16, 1943

Miss Grace Tully
The White House
Washington, D. C.

Dear Miss Tully:

Enclosed is a copy of a telegram which has today gone to the Area Rent Office in Poughkeepsie. The only purpose of this communication is to have the record clearly show that the President was in no sense delinquent in the filing of the registration.

I do not fully understand from our telephone conversation just what the complication is that requires the President's personal attention. If there were a reduction in services since March 1, 1942, the maximum rent would be the first reduced rent collected since that date. Otherwise the maximum rent would be the rent collected for the rental period ending March 1, 1942.

Not having all of the facts, I am unable to determine just why the President's attorney found it necessary to refer the matter to him, or why our Area Rent Director did not suggest that the registration be accepted when completed by the President's authorized agent. However, if you desire this office to examine the forms, I will be glad to do so with the objective, of course, of conserving the President's time and avoiding the necessity of bothering him with this matter. Please advise if I can be of any help to that end.

Sincerely,

Paul A. Porter

President.

RRR:EMB

North River Coal Company

CONDITIONS OF SALE AND SHIPMENT.

1. Orders will not be binding until accepted.
2. In accepting orders it is expressly stipulated that:-The price to be paid for the coal will be our price at time of shipment regardless of date of the order; all prices are subject to change without notice.
3. We assume no liability for change in freight rates or other charges.
4. **TERMS OF PAYMENT:** WHERE CREDIT HAS BEEN ESTABLISHED, net cash in New York Funds within 30 days from date of shipment. Our regular discount, if any, will be allowed subject to our terms in effect at date of shipment. Overdue accounts will be subject to sight draft without notice. Should the purchaser's credit, in our judgment, become impaired at any time, we shall have the right to require payment in advance before making further shipments. **NON-COMPLIANCE WITH THESE TERMS WILL, AT OUR OPTION, CANCEL WITHOUT NOTICE, ORDERS UNFILLED.**
5. All coal will be carefully weighed by competent weighers at the time of shipment, and bills of lading and invoices made in conformity therewith, and no claims will be allowed for short weight. Bills of lading or other regular testimony of shipment to be proof of delivery, both as regards time and quantity, and coal shall be settled for whether same has arrived at its destination or not. **ALL CLAIMS MUST BE MADE BY THE CONSIGNEE AGAINST THE DELIVERING CARRIER.**
6. Cars or boats are required to be unloaded in accordance with the rules and regulations of the transporting companies and detention will render consignee liable to charges for demurrage. Cars or boats are not allowed to be sent beyond the station designated in manifest or bills of lading as the place of delivery. Captain is not permitted to hold guy; this service must be arranged for and paid by consignee. In all cases where "alongside" delivery is agreed upon, the consignee is to pay wharfage.
7. If at any time the operations or business of the company mining the coal, or the railroads or transportation companies by which it is transported to any place where delivery is to be made, are interrupted or curtailed by reason of war, actual or threatened, strikes, shortage of labor, inability to secure sufficient cars or boats for loading, or for any cause whatever, the obligation of the North River Coal Company to deliver coal under its contract or agreement shall, with respect to the period of such interruption or curtailment, cease, and no liability shall rest upon it by reason thereof, notwithstanding the result be to reduce tonnage contracted for or agreed upon; but the benefit of this provision may be waived by the North River Coal Company in any instance and without thereby waiving it generally.

February 12, 1943

Dear 1942 Farm Bureau Member:

The membership rounding for 1943 members was completed January 1, 1943. Due to general wartime circumstances, rounding by personal visit to all members by committeemen was not as complete as in past years.

In checking our mailing list for literature service to members we find that you have not renewed your membership. We would like to be of agricultural informational service to you. If you have not received expected or otherwise satisfactory service in the past, it is most likely that you have not asked for it or have not indicated your interest in any particular type of farming.

If you are not interested in farming or any agricultural activity, we would still appreciate having you continue as a cooperating member—but do as you see fit about renewing your membership.

1943 will bring more exact regulatory and adjustment information to Dutchess County Farm Bureau members that ever before, and a continuation of our machinery repair program, fertilizer and stock feeding adjustments, fruit spray service letters and meetings, Victory Garden culture, pest control and preservation suggestions.

Please have your cash, check or money order for \$3.00 payable to the Dutchess County Farm Bureau to us within 5 days of the date of this letter, or we will conclude that you are no longer interested or are unable to pay, and will have to remove your name from our files.

If you are unable to pay please so indicate.

Sincerely yours,

A. L. Shepherd

BILL FOR TREES

Order No. 77, 171

STATE OF NEW YORK

CONSERVATION DEPARTMENT

Date 3-12-43

IMPORTANT INFORMATION

Your attention is hereby directed to the articles of agreement appearing below which have been accepted by you in signing your application blank for trees now on file in the office of the Conservation Department. Will you therefore see to it that all the provisions of these articles are fully complied with by yourself or your agents. Persons who fail to live up to their agreement will be denied further shipments of trees.

USE OF TREES

Article 2 of the terms of agreement specifies that trees purchased from this department must be used for the sole purpose of reforesting lands in the State of New York. Reforesting means the establishment of a forest by completely planting an area of open land or by supplementing natural forest cover by filling in open spaces. Trees must be planted directly in their permanent situation. In no case shall they be planted in nurseries or used for ornamental purposes.

COPY OF AGREEMENT

You may consider this an order for the trees specified below. If this order is granted, I agree to comply fully with all the conditions herein which I have carefully read.

1. To pay the purchase price to said Conservation Department within ten days after receipt of bill.
2. That the trees are to be planted for the sole purpose of reforesting lands in the State of New York. That the trees will be planted only on land which is assessed at less than \$50 per acre, when privately owned. That these trees will be planted and are not obtained for the purpose of sale, and will not be sold, given away, replanted, or moved with the roots thereon.
3. That if I sell or offer the trees for sale for ornamental purposes I shall become liable to the State for the payment of a penalty equal to three times the sale value of the trees sold, in addition to any other penalty prescribed by law.
4. I agree to return the empty crates to the express office promptly or pay for them.
5. I agree to protect the planted area as well as possible from fire, grazing, and other damage.
6. In case of white pine, I agree to remove all currant and gooseberry bushes, both wild and cultivated from the area to be planted and from a space approximately 900 feet surrounding the plantation, not later than June 1st following the planting.
7. That the applicant is the owner or the agent of the owner of the land to be planted.
8. I agree to make reasonable reports in regard to the condition of the plantation upon request.

I understand that this is an agreement for the purpose of reforesting land and I agree to all the above conditions. I also understand that if any of the terms of this agreement are violated the Conservation Department will not fill any future tree order of mine.

DIRECTIONS FOR PLANTING

The actual work of planting is simple and can be done successfully and readily by anyone. When the trees are received, they should at once be taken to the planting field, unpacked and "heeled in." The latter process consists of digging a trench the width of a shovel and depth half the height of the trees, into which the trees are placed roots down and packed solid. They should be well watered and may be thus stored for a week or more, but should be planted as soon as possible. The planting is best done by two men, one with a grub hoe to make holes, the other with a pail of trees to do the planting. The trees should be set approximately six feet apart, each way, but judgment should be exercised in selecting the best soil or spot within a reasonable distance. The hole should be deep enough to permit the roots to lie in a normal position and the trees set at the same depth that they were before digging. The man who digs the holes should leave the dirt at the side of the hole and in as accessible position as possible in order to assist the planter. The planter takes a tree from the pail, places it in the hole and packs the soil around the roots, endeavoring to get the roots in a normal position. When all the soil is returned and the hole filled, the earth is firmed by the root, but care should be taken not to bark the tree. This operation should continue until the planting is done. As many pairs of men as are necessary may be employed. Care should be taken to see that the roots of evergreen trees never become dry. The rates of planting will depend upon the efficiency of the labor and the character of the soil and vegetation where the work is done. Planting six feet apart each way requires about 1,200 trees per acre. Two good men should, where the soil is not heavy, set out about an acre per day.

Preparation of soil is not necessary but the plantation must be protected from fire, and grazing prohibited. For further details see Bulletin 2 on Reforesting.

Bill sent to Mr. Bie for OK

Hon. Franklin D. Roosevelt,
The White House,
Washington, D. C.

Dear Mr. Roosevelt:

The attached bill for work at the "Dream Cottage" is being sent as you requested. The prices thereon should be explained.

Material bought is being invoiced at cost - labor at the job is charged at it's cost to us. The work at our factory is charged at prices which cover our costs and overheads.

Mr. Bie is working steadily week-days at the Cottage. It is our desire to finish the work as quickly as possible so you may have the full use of your home. We hope this present arrangement is entirely satisfactory to you.

Thank you again for your help and interest - we are busier than before on some nice sub-contract work.

Sincerely,

LUMB WOODWORKING COMPANY INC.

Dutchess Hill Dec 25th 42

Dear Miss Sully. ^{to pay?}
yes

Thank you so much for sending me these bills for examination. The Rumb bill was not correct. At the end of the bill it had 168 hrs at building at cost. It should have been 130 hrs, as I had in my record. I had Mr Rumb change that from 168 to 130 hrs which is correct. As for one Lionel: The pump broke down sometime last Fall. As he only has fixed it temporary, I sent the bill back to him, for payment when the job is completed. Mr Harrings contract for the plaster job

was \$30.00. As I spoke to the President
at the Library party last December, I asked
The President what he thought of the plaster
job at the Cottage. Fine was the answer.
It should have had another white coat, but
The President ^{said} it was alright the way it was,
and that we may paint the hallway at a
later date. That is why Mr Hering's bill is
only \$17.75 instead of \$30.00

Respectfully

Christian Bie

Dear Miss Tully.

As I spoke to you at the Library, the understanding was that I was to sign all bills concerning The President's Cottage, before they was sent to you for payment. I did inform the different contractors about some including Mr Lusk. He now tells me, that he already has sent The President a bill having forgotten I told him the bill was first to be sent to me, for me to O.K. it, and then forward it to you. I would be very thankful to you, if you would send me that bill, so I could examine the different items, and returning it to you.

Very sincerely yours,

Christian Pie

March 18, 1943.

Dear Mr. Plog:-

I think that this Spring you ought to plan primarily to put in vegetables which can be put in cans. I wonder if Mrs. Depew would come in to the kitchen and put them up as they ripen. I think we could put up, in glass jars, corn, beans, beets and tomatoes -- also peas, provided they are picked and put up while still very young. I think we should grow plenty of carrots, onions and turnips for use next Winter.

We will not need much in the way of vegetables for the house because during the Summer we will probably have only three or four people for a weekend about once a month, or, if we have more for a weekend, we can always buy what extras we need.

Mrs. Roosevelt tells me that she wants Bill, who works for her, to put in a good-sized garden but, as you know, Bill needs supervision in a thing like this and I wonder if you could undertake to supervise him in what he plants and in putting in any fertiliser he needs. I think if you can have a talk with him and drive over for a few minutes every two or three days, he will be able to do it all right, and he may be able to hire a boy from high school to help him.

Mrs. Roosevelt also said that she would like to have the pool cleaned and put in order -- but not until about the first of June.

I hope to be back, without fail, the first Sunday in April. I suppose the frost is coming out of the ground by now and that you are also getting this warm spell.

Very sincerely yours,

Mr. William A. Plog,
c/o Hon. Franklin D. Roosevelt,
Hyde Park,
Dutchess County,
New York.

March 24, 1943.

My dear Harry:-

I had hoped to see you the last time I was home but it was so icy I could not get around. I have tried to figure out some way of making major repairs to the Tompkins house but, frankly, I cannot afford to do it and also there is the definite government request not to make major changes or repairs during the war. The principal cost of your suggestions would be in the fitting up of a bathroom on the second floor. I do not think I could do this. However, I would be willing to buy the wall paper, paste and paint for upstairs (except for the living room and kitchen) if you can do the papering and painting work in your spare time.

I am asking Mr. Plog to look over the problem of the leaky roof. That, of course, must be mended. You might see Mr. Plog before I get home the next time.

Very sincerely yours,

Mr. Harry B. Johannssen,
Violet Avenue,
Hyde Park,
Butchess County,
New York.

9
Violet Avenue
Hyde Park, New York
January 25, 1942

My dear President Roosevelt,

I'm sorry to bother you at this time when I know you have such very important matters on your mind. For that reason I spoke to both Mr. Henry Hackett and Mr. William Plough about the necessary repairs for the Tompkins house which I rent. As I have had no definite answer from either and was unable to see you on your recent visit here I trust you will let me know if you can make these repairs.

I rent the house and sublet the downstairs. Back floor need to be cleaned but downstairs has been done more recently than upstairs which hasn't been papered or painted in thirteen years with

one side for ² the bathroom and repairing a small area of the living room ceiling which is about to fall down.

We like this house and its location a great deal and would hate very much to move, but we feel that the way the floor is it is not really livable and unless it can be repaired it will be necessary to look for something else. Because of this, Mr. President, I would greatly appreciate an answer at your earliest convenience.

If these repairs are made I would be willing to pay a substantial part in part.

Trusting that you will be able to make these repairs I am,

Very respectfully yours,
Harry B. Goldspink

²
the exception of the living room and kitchen which we did fix ² year ago when we moved in.

Upstairs has neither a kitchen sink or a bath tub and we would greatly appreciate the installation of these. There is at present a small wash basin and toilet off the kitchen.

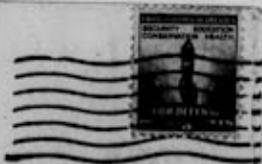

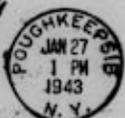

During the recent rain storms, the roof leaked over the entire house. When I first contacted the Board he asked me to get estimates, which I did. They are as follows:

For papering and painting the entire upstairs, including both the paper and paint - \$100

For buying and installing ² a kitchen sink and bath tub - \$365

There would also be a small carpenter's job of breaking down a wall and sloping off

Miss Grace Tully,
The White House,
Washington, D.C.

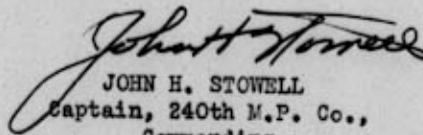

Dear Miss Tully:

In compliance with your telephone request upon your last visit here in Hyde Park, I have had two electrical contractors, namely, Mr. L. L. Jaminet and Mr. J. D. Quinn, both of Poughkeepsie, New York, thoroughly examine the signal system within the Big House. I am enclosing both Mr. Venable's and Mr. Jaminet's bids for your consideration and as yet I have not received such from Mr. Quinn due to the fact that he has stated that he wants to make certain that he can get the material required for proper installation of the system.

In talking over the work with the above mentioned contractors, the consensus of opinion seems to be to put in a complete new annunciator as it is felt that the ones now installed have reached the end of their useful life. There also seems to be some question as to whether or not the present wiring is in A No. 1 order, or whether or not it would have to be taken out, but in any event they all agreed that a workable system can be installed without too much trouble.

Forgive this long delay in writing you, but I was anxious to have a complete story for you, and the moment Mr. Quinn's bid is received by me, I shall forward the same to you. Trusting the above will somewhat answer your questions, and if there is anything further I can do for you, please don't hesitate to call me.

Very truly yours,

JOHN H. STOWELL
Captain, 240th M.P. Co.,
Commanding.

Miss Grace G. Tully
c/o Roosevelt Estate
Hyde Park, N.Y.

My dear Miss Tully:

At your request I have checked and inspected the bell system at the Presidents Estate and repaired it the best I can under the present conditions.

However, I can not say how long the system will continue to operate as the annunciators are beyond repair. This system has been in service about thirty years and has just given out from use.

On Thursday I installed 20 new dry cells, but I am afraid even this will do very little good. To date I have spent twenty five (\$25.00) dollars in my endeavor to correct the fault, but I must admit without success.

I would suggest that you advise the President to have installed a new 24 drop annunciator which would be hand reset rather than electric. Using a power transformer you would do away with the constant cost of installing dry cells,

The cost of this new system will be One Hundred Thirty One (\$131.00) Dollars. I will be happy to guarantee the new system for two years.

I will await hearing from you regarding the above matter before doing anything more.

Very truly yours,

J. B. Venable

March 16, 1943

Capt. John H. Stowell,
M. P. Co. 240,
Hyde Park, N. Y.

Dear Sir:

As requested by you, I am pleased to submit a proposal covering electric work in connection with the present installed call system at the President's residence, Hyde Park, N. Y., as per the following:

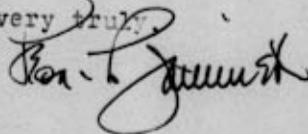

The existing wiring used to operate the call bell or signal system appears to be in operating condition, and I am assuming that such is the case. It is my understanding that the three existing 16-drop and 4-drop annunciators, one of each now located in pantry, servants' dining room and servants' hall, will be discarded, together with the dry cell batteries which supply current for these units, since this equipment has been in service quite some time, and is in need of replacement.

We propose to install, in the pantry, one 24-drop surface type, manual reset annunciator, which will replace the two now at this location. The existing annunciators, in servants' dining room and second floor passage will be disconnected from the system and will cease to operate. In the second floor passage, we will install a three-inch adjustable bell or buzzer type signal, which will sound each time a call registers on the new pantry annunciator. The foregoing will be operated by a new power unit, replacing present operating batteries, which will be connected and installed by us. The cost of this work, with necessary wiring installation, reconnections and changes, ready to operate, all as per the above, would be \$148.00 (One Hundred Forty-Eight Dollars).

In the event that a bell type signal is desired for location in servants' dining room, which would ring when a call is registered on new pantry annunciator, the additional cost would be approximately \$10.00 (Ten Dollars).

Hoping that our proposal meets with acceptance, I am

Yours very truly,

PSP Hyde Park folder

March 26, 1943.

Dear Sheila:-

I am delighted that your Father is home. Give my my best and tell him I bet he has forgotten how to use a bo'sun's pipe. I hope he can still be at Hyde Park on Friday, the second of April. I get back that morning -- but don't tell anyone. If he is ordered to report before that I think I can get him a couple of days extra leave.

Very sincerely yours,

Miss Sheila A. Linaka,
Van Wagoner Road,
Poughkeepsie,
New York.

March 23, 1943

Dear Miss Tully:

Will you please let the President know that Dad arrived home this morning on a 10-day leave. He is being sent to Norfolk, Va. and is to report to the Commander Landing Craft Group, Amphibious Force, Atlantic Fleet, Naval Operating Base.

He seems to be in excellent health and is very happy to be home. I must say, he covered quite a lot of territory for the first day looking over the place.

Sincerely yours

Shirley A. Loraka

Memorandum for the President:

The following is from a recent letter
from Nancy Cook:

"I am returning you a check for \$40.00
as we did not have to have the snow plough or
extra man to shovel the snow this winter.
The Army kept the road open. However, we spent
about three times as much last summer for
keeping the road in repair, but that is some-
thing we cannot help with so many cars and
trucks."

Can't the Army keep the road in repair
since their jeeps cut it up?
