Telegram from London dated December 30th.

Attacks on Shipping. British merchant vessel (5,000 tons) bombed and set on fire in North Western approaches yesterday and has been abandoned. Greek ship (4000 tons) also attacked in the same area but no report of damage received.

2. Yesterday afternoon, a coastal convoy was unsuccessfully attacked by aircraft in the Thames Estuary.

3. It is understood that progress is being made with the clearing of the block in the Kiel Canal referred to previously.

4. On December 28th eight enemy bombers and seven fighters made two attacks on Sollum but only caused slight damage. Our Hurricanes shot down one bomber and one fighter (confirmed) one fighter (unconfirmed) and damaged four other bombers.

5. In the Southern area Italians now have four infantry divisions, part of one armoured division, and various other units totalling 80,000 - 90,000 men.

6. During the night 29th/30th, twenty-seven aircraft despatched to attack aerodromes in occupied territory, inland port at Frankfurt, marshalling yards at Hamm and docks and shipping at Boulogne. Reports not yet received. Two aircraft missing.

7. German Air Force.

During raid on Plymouth night of 28th/29th over a thousand incendiaries but only nine high explosive bombs were dropped. Most damage was done to dwelling houses. Casualties now reported at eleven killed and thirty-four seriously injured.

8. During December 29th main enemy activity took place.
place over the channel and North Sea, and the majority of our fighter aircraft were directed against these aircraft for the protection of shipping. One enemy bomber was probably destroyed and two others damaged. Six enemy aircraft operated inland, and Crewe was bombed, one war factory being damaged, but not seriously.

9. During the night of December 29th/30th an intense but comparatively short attack was made on London by about 140 enemy aircraft. Attack developed from 18.00 hours to 22.00 hours. Main attack concentrated on the City and practically the whole area from St. Pauls to the Guildhall and from the Guildhall to Finsbury was set on fire. The roof of the Guildhall was destroyed and St. Lawrence Jewry Church gutted. Various key points including docks were affected but details not yet available. Up to the present the number of casualties reported is remarkably small.

10. Aircraft casualties in the above operations over and from the British Isles.

Enemy: one bomber probably destroyed, 2 bombers damaged.
British: two heavy bombers missing. In assessing comparative results it will be appreciated the summaries of casualties do not include enemy night bomber casualties approaching or returning from this country.
Telegram from London dated December 31st.

Naval.

Two remaining ships of convoy referred to in telegram of December 26th, first paragraph, have been located and were expected to join the main body this morning. Senior officer of escort reports that one ship of the convoy was hit above water line and might be one of the enemy claimed to have sunk.

2. Attacks on shipping. A British tanker of 8000 tons was damaged by mine off Liverpool yesterday morning.

3. A convoy of ten ships has arrived safely from Sierra Leone.

Royal Air Force.

4. Home Front. Night of December 29th/30th. Owing to very bad weather conditions only ten bombers attached certain targets in Germany and aerodromes in German occupation.

5. There were no operations by our bomber command during night of 30th/31st.

7. All fires are now out except for some smouldering.

Factories. One platinum factory: work seriously reduced from loss of gas pressure. One diving apparatus and one machine tool factory seriously damaged by fire.

Railways. Services to three London railway termini temporarily stopped but since resumed. Six underground stations temporarily closed.

Public utility. No really serious damage either to gas or electric services. Water supply normal except in city and other central areas where pressure is low.

Docks/
Docks. Some damage to docks and considerable damage to certain food warehouses in the dock areas.

Tele-communications. One main telephone exchange completely out of service. Central telegraph office and Phonograms temporarily out of action. London temporarily not in telephonic communication with South East England and telegraph service with South and South East England is severely interrupted. Communication between London and important towns in other districts are available.

8. The Guildhall was burnt out as were several churches and nine hospitals were affected to a varying extent by fire.

9. Casualties so far reported: Killed 89, seriously injured 314.

10. Roumania. It now seems probable that German troops destined for Roumania are those of twelfth army. This army has recently been in South West Poland and is commanded by Field Marshal List. Average strength of an army is 10-12 divisions. Projected train movements suggest that this figure may be exceeded to allow for internal security in Roumania. There are indications that the Army will include mostly motorised and armoured divisions.
Dear Mr. President,

I enclose herein a copy of the latest report received from London on the military situation. It is dated January 1st, 1941.

2. **Attacks on shipping.** A Norwegian ship (5500 tons) and a British tanker (8500 tons) were both torpedoed and sunk by a German submarine west of Dakar on December 21st and December 31st, respectively. A Swedish ship (5600 tons) was damaged by a mine in Liverpool Bay yesterday afternoon.

An anti-aircraft ship at Flushing, a building at a Dutch aerodrome, a factory at Cologne and a bridge near Emmerich. Two failed to return.  

6. **Night of 31st /1st.** All operations were cancelled.  

7. **Libya.** On the night of December 29th/30th Tobruk and an Italian landing ground were bombed and a number of fires started.  

8. **Italian Somaliland.** Four Hurricanes of the South African Air Force attacked Bardar an aerodrome on December/
December 29th where they destroyed one bomber and possibly damaged two others. They were intercepted by Italian fighters and two failed to return.

Night of 31st/1st. No enemy activity reported.

9. Italy. Italian air activity was very strong on December 29th and efforts were made to hamper the Greek offensive along the whole front. An Italian naval bombardment of Himara was covered by continuous strong patrols over Corfu.

10. London. Night of 29th/30th. Having regard to the severity of the attack it is considered that the amount of damage to food in warehouses is surprisingly small.

Telegram received from London
dated January 2nd, 1941

Naval.

On January 1st at Tripoli were 3 cruisers, 4 destroyers, 20 large merchant vessels. Tanker "British Zeal" reported torpedoed 180 miles west of Dakar on December 31st was still afloat p.m. January 1st and has been boarded again.

2. Royal Fleet auxiliary "Attendant" mined and sunk in Thames Estuary a.m. January 1st and anti-submarine trawler "Bandolero" sunk in collision p.m. December 30th in Gulf of Sollum.

3. Since the beginning of the war 46,610 ships British Allied and neutral have been convoyed; representing shipping of 165 million gross tons with a cargo carrying capacity of 280 million tons. Total losses of ships in convoy amounted to 987,000 gross tons.

4. Mediterranean. An East-bound convoy of 4 French merchant ships escorted by an armed trawler was intercepted off the Spanish Morrocan coast outside territorial waters by 5 of our destroyers and is being escorted back to Gibraltar.

5. On December 30th a Naval trawler was in collision with a British destroyer in the Gulf of Sollum and sank.

6. Military. Libya. Check of Italian captured war material to January amounts to: field and medium guns 261, anti-tank guns 48, heavy anti-aircraft guns 20. Many pieces are unserviceable.

7. Albania. Central sector. During the mopping-up operations Greeks have occupied some heights and several small
small villages North East of Kelcyre.

8. **Epirus sector.** Italians launched an unsuccessful attack with armoured fighting vehicles. Greeks captured one armoured fighting vehicle and eight guns.

9. **Royal Air Force.** Night of January 1st/2nd. A total of 151 aircraft were despatched as follows:

<table>
<thead>
<tr>
<th>Locality</th>
<th>Target Raided</th>
<th>No. of Aircraft</th>
</tr>
</thead>
<tbody>
<tr>

<td>Industrial, shipping and transport.</td>

<td>Train ferrys</td>
<td>14 Coastal</td>
</tr>
<tr>
<td>&quot;Invasion Ports&quot;</td>
<td>Docks and shipping</td>
<td>4 heavy, 4 medium and 1 coastal</td>
</tr>
</tbody>
</table>

10. All aircraft returned safely except 3 heavy bombers which crashed on landing. The crew of one aircraft is safe but crews of other two were all killed except for one person.

11. **Italy.** It is becoming increasingly evident that Italian air resources are being severely taxed. Our bombing of Adriatic ports has forced Italians to rely more and more on air transport and the presence of several German troop carriers indicates a serious effort by the Italians to develop air communications and (some words undecipherable) mean to do so by themselves. It is reliably reported that the aircraft supply situation for Albanian campaign is causing anxiety, especially as regards fighters owing to the requirements of the Libyan front.

12. **Germany.** Serious railway dislocation resulted from recent Royal Air Force raids on Mannheim owing to the cutting of the lines between Mannheim and Ludwigshaven;
this sector is specially important since it carries military traffic between Germany and occupied France and also North-South traffic including coal supplies for Italy.

13. **German Air Force.** Night of January 1st/2nd.

About 80 enemy aircraft were operating over the country. The attack was scattered and was not heavy. Reported one aircraft flew as far as Dublin.

Two parachute mines were dropped in the London area; elsewhere only a few bombs are reported causing slight damage and few casualties.

15. **France.** It has recently been reported from Brittany that fishing activities which had been severely curtailed by lack of fuel are now in full swing and that fishermen have no difficulty in obtaining diesel oil. One French boat has even fished off the Irish coast.
