GEORGIA WARM SPRINGS FOUNDATION

120 BROADWAY

NEW YORK

PRESIDENT
FRANKLIN D. ROOSEVELT
TREASURER
BASIL O'CONNOR

January 22, 1940.

The President,
The White House,
Washington, D. C.

Dear Mr. President:

Will you please write Mr. Haughey
at Warm Springs, immediately, just what arrangements
you have with the manager of your farm and any tenant
farmers. Please send me a copy of the letter.

Faithfully yours,

Chairman, Executive Committee.

1. There is a Tavern in the Town

There is a tavern in the town,
And there my true love sits him down,
And drinks his wine 'mid laughter free,
And never, never thinks of me.
Fare thee well, for I must leave thee,
Do not let the parting grieve thee,
And remember that the best of friends must part, must part.
Adieu, adieu, kind friends, adieu,
I can no longer stay with you,
I'll hang my harp on the weeping willow tree,
And never may the world go well with thee.

2. The Band Played On

Casey would waltz with the strawberry blonde
And the band played on;
He'd waltz cross the floor
With the girl he adored,
And the band played on;
His brain was so loaded,
It nearly exploded;
The poor girl would shake with alarm
He married the girl with the strawberry curl
And the band played on.

3. There is a Tavern in the Town

There is a tavern in the town,
And there my true love sits him down,
And drinks his wine 'mid laughter free,
And never, never thinks of me.
Fare thee well, for I must leave thee,
Do not let the parting grieve thee,
And remember that the best of friends must part, must part.
Adieu, adieu, kind friends, adieu,
I can no longer stay with you,
I'll hang my harp on the weeping willow tree,
And never may the world go well with thee.

4. Darctown Strutters Ball

I'll be 'round to get you in a taxi, honey
Better be ready 'bout half past eight
Now, honey, don't be late
I wanta be there when the band starts playin'
Remember when we get there, honey
Two-step baby's goin to have them all
I'm gonna wear out both of my shoes
When they play those jellyroll blues
Tomorrow night at the Darctown Strutters Ball.

5. We did it before

We did it before and we can do it again
And we will do it again
We've got a heck of a job to do
But you can bet that we'll see it through
We did it before and we can do it again
We're one for all and we're all for one
They'll get a lickin' before we're done
Millions of voices are ringing
Singing as we march along
We did it before and we can do it again
And we will do it again
We'll knock them over and then we'll get
The guy in back of them
We did it before, we'll do it again.

And we will do it again
We'll knock them over and then we'll get
The guy in back of them
We did it before, we'll do it again.

6. Deep in the Heart of Texas

The stars at night are big and bright (clap)
Deep in the Heart of Texas.
The prairie sky is wide and high (clap)
Deep in the Heart of Texas
The sage in bloom is like perfume (clap)
Deep in the Heart of Texas
Reminds me of the one I love (clap)
Deep in the Heart of Texas.

7. Jingle Jangle Jingle

I got spurs that jingle jangle jingle
As I go ridin' merrily along
And they sing "Oh, ain't you glad you're single!"
And that song ain't so very far from wrong.
Oh, Lillie Belle, oh Lillie Belle
Lillie Belle tho' I may have done some foolin'
This is why I never fell
I got spurs that jingle, jangle, jingle
As I go ridin' merrily along,
And they sing "Oh ain't you glad you're single!"
And that song ain't so very far from wrong.

8. Clementine:

(1) In a cavern, in a canyon	(2) Light she was, and like a fairy,
Excavating for a mine	And her shoes were number nine,
Dwelt a miner, forty-niner	Herring boxes, without topses
And his daughter, Clementine.	Sandals were for Clementine.

(3) Drove the ducklings to the water	(4) Ruby lips above the water
Every morning just at nine,	Blowing bubbles soft and fine,
Hit her foot against a splinter,	Alas for me! I was no swimmer,
Fell into the foaming brine.	So I lost my Clementine.

Chorus: Oh my darling, oh, my darling
Oh, my darling, Clementine.
You are lost and gone forever,
Drefferl sorry, Clementine.

9. Praise the Lord and Pass the Ammunition.

Praise the Lord and pass the ammunition
Praise the Lord and pass the ammunition
Praise the Lord and pass the ammunition and we'll all stay free.
Praise the Lord and swing into position,
Can't afford to sit around a-wishin'
Praise the Lord we're all between perdition and the deep blue sea.

10. For he's a Jolly Good Fellow

For he's a jolly good fellow, for he's a jolly good fellow
For he's a jolly good fellow, which nobody can deny.
Which nobody can deny, which nobody can deny,
For he's a jolly good fellow, for he's a jolly good fellow,
For he's a jolly good fellow, which nobody can deny.

11. The Marine Hymn.

From the halls of Montezuma
To the shores of Tripoli
We fight our country's battles
On the land as on the sea.
First to fight for right and freedom
And to keep our honor clean,
We are proud to claim the title of United States Marine!

PSF: Warm Springs folder -
1944

4957 Washington Park Court,
Chicago 15, Illinois,
December 5, 1944.

President Franklin D. Roosevelt,
The Little White House,
Warm Springs, Ga.

Dear President Roosevelt:

I am happy to hear that you are resting in Warm Springs again. I am sending you this letter through my mother, Daisy, [Bonner] to remind you that I am her older daughter.

It has been a long time since the first time I greeted you as the President of the United States and was so excited I forgot my age. Since then I have grown up, graduated from college and gotten married, and as evidence of your capability you are still the President.

Quite recently I received the greatest thrill of my lifetime when I had the privilege of casting my first ballot for a President that I really know to be a great and good man.

My husband, a Lieutenant, overseas voted for you also, as I did some personal campaigning for you.

Both you and Mrs Roosevelt have done some wonderful things for this country and especially for my race. I sincerely hope that you will remain in office so that I can vote for you many more times as proof of my genuine admiration and respect for you as a man and as America's President.

Sincerely yours,

Ezrene M. Watkins
Mrs. Ezrene M. Watkins

PSF: Warm Springs folder

March 12, 1945.

Dear Woodall:

For your confidential information, the President is planning to leave Washington on Thursday, March 29th, arriving in Warm Springs in time for dinner on Friday, the 30th. Would you be good enough to have Daisy available on that date? I should think the President would be there for at least two weeks.

With best wishes,

Very sincerely yours,

Grace G. Tully
Private Secretary

Mr. Woodall Bussey,
Georgia Warm Springs Foundation,
Warm Springs, Georgia.

THE WHITE HOUSE

WASHINGTON

March 12, 1945.

MEMORANDUM FOR

DEWEY LONG:

The President has decided to leave for Hyde Park on Saturday night, March 24th. He will leave Hyde Park for Warm Springs on Thursday morning, March 29th at 11:00. We will go straight through to Warm Springs, stopping in Washington to pick up the rest of the party, such as Tol, Dr. McIntire, Ambassador McCarthy, etc.

I understand Lizzie McDuffie left for Atlanta because her mother is ill. However, she asked to be notified in case the President was to be at Warm Springs. Her address in Atlanta is: 103 Randolph St. N.E. and telephone: Jackson 7224.

Will you have somebody let her know around the time so we can either pick her up in Atlanta or she can come over to Warm Springs?

G.G.T.

file PSF: Warm Springs folder
4-45-

March 14, 1945.

Dear Fred:

I wrote Woodall Bussey a note the other day telling him that you could expect a certain distinguished personage to arrive at Warm Springs on Friday, March 30th. In the meantime, Mike Reilly and Dewey Long will be down to make the necessary arrangements with you and Woodall for the party.

Isn't it grand having a ship named for Missey? I think it would be fine if we could all go to Mississippi for the launching but it is a long trip and traveling conditions are so difficult these days, I am afraid a good many of those who are invited will have to forego the pleasure of being there.

My best to you and all my friends at Warm Springs. We look forward to seeing you the end of the month.

Affectionately,

Grace G. Tully
Private Secretary

Mr. Fred Botts,
Warm Springs,
Georgia.

FRED BOTTS
WARM SPRINGS, GEORGIA

March 12, 1945

Dear Grace:

There is a gossip pattern unfolding itself this morning and maybe you can add a new design to the fabric and maybe not. But, I wish I could receive the slightest intimation as to whether or not I can continue to keep our guest accommodations fully occupied for the next -- well, indefinitely or, if I should reserve space for certain distinguished personages by the end of this month or later??

Grace, I received an invitation to attend a ship launching, The S. S. Marguerite A. Le Hand at Pasagoula, Mississippi on March 28th. I know it would be a thrill never to be forgotten could I attend this ceremony but I am of the opinion that unless special provisions are made a lame fellow like me would have difficulty getting about on the water front. Don't you think so?

Affectionately,

Fred

GEORGIA WARM SPRINGS FOUNDATION
120 BROADWAY
NEW YORK

January 22, 1940.

The President
The White House
Washington, D. C.

Dear Mr. President:

Your inquiry in your letter of January 18, 1940, as to whether capital improvements on your farm costing approximately \$2,000 could be deducted as a capital loss in your income tax return for the year in which the farm is sold, presents more of a problem in connection with the sale of the farm than can be answered by simply "right" or "wrong". Generally speaking any loss that you incur at the time of the sale of the farm will be deductible as a capital loss, including in the cost basis, not only improvements, but the original cost as well.

That brings up the subject of depreciation. Any items of a depreciable nature such as buildings, equipment, etc. acquired at the time the farm was purchased and any such additions thereto will have to be depreciated from their respective acquisition dates and at their respective rates in arriving at the present cost basis for tax purposes. That is true even though you have not included a deduction for depreciation in the annual loss incurred in running the farm. Unless this can be readily determined from your accounts it will present somewhat of a problem as to do it correctly, means, that the original cost should be apportioned between land and depreciable items and the same procedure followed as to any improvements or additions. If you wish to send me your figures in as much detail as possible I will be glad to examine them and see what further information is necessary, if any.

Faithfully yours,

Doc

1-2

January 18, 1940

Dear Doc:

I entirely approve Mr. Haughey's suggestions and will try to get you the amounts of the original purchase prices by me for the farm lands.

xPP776

Am I right in the following:

Each year except one, I have deducted from my personal income tax an amount equal to my loss in running the farm, this loss not including the cost of permanent improvements such as road building, house building and tree plantations. The total cost of these is not very high -- not more than two thousand dollars, but I think I can deduct this two thousand dollars as a loss in next years return because it represents capital. Am I right?

xPP7156

PRESIDENT
FRANKLIN D. ROOSEVELT
TREASURER
BASIL O'CONNOR

January 17, 1940.

PRESIDENT'S FARM

The President,
The White House,
Washington, D. C.

Dear Mr. President:

Enclosed is a copy of a letter under date of January 13th from Mr. Haughey relating a conversation which he had with Mr. Bennett about your farm.

Is it agreeable to you that we proceed with the recommendations made by Mr. Bennett? Please let me know immediately as you will see that time is of the essence.

I have your memorandum of January 16th about your farm, and suggest that we go ahead with the purchase when I get the figures from you. *mf*

Faithfully yours,

Basil O'Connor
Chairman Executive Committee

Enc.

PREFACE

Paul de Kruif needs no introduction. He is well known in this country and abroad as a fearless and penetrating writer on the subject of Health. He is the author of many widely read books including MICROBE HUNTERS and THE FIGHT FOR LIFE.

He is Secretary of the General Medical Advisory Committee of The National Foundation for Infantile Paralysis. As such he gives unstintingly of his time to the affairs of the Foundation without receiving or wishing to receive any compensation whatsoever. He even insists on paying all his expenses incurred on the Foundation's work.

He was not requested to prepare the article presented herewith. He wrote it as an introduction to a report he made to the Foundation on its activities in the field of virus research. One can truthfully say, therefore, that he wrote this article undesignedly.

de Kruif's article sets forth so clearly and sincerely the need for The National Foundation for Infantile Paralysis that the Trustees of the Foundation felt it should be made available to all who are interested in its work.

BASIL O'CONNOR,
President

BLANK PAGE

WHY THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS?

By Paul de Kruif

I. Of the ills of mankind infantile paralysis is admittedly a long way from the most deadly. In any one year, or in any given epidemic it does not leave its crippling mark upon a large proportion of the children of any community. These truths are sometimes cited in deprecation of our constantly increasing intensive and extensive effort against this crippling malady. These are also the facts used by public health authority to soothe citizens at those times when the increase of cases of infantile paralysis begins to make frontpage headlines.

Yet the National Foundation for Infantile Paralysis is essentially the American people's foundation and as such it is responsible to them. The most skillful propaganda has failed to remove infantile paralysis from its top rank as terrifier of the people. The human insight of fathers and mothers looks through the reassuringly low sickness and death rates displayed to them by our public healthmen. The fact that relatively so few children are killed or lamed by the paralytic terror—that truth is no comfort to parents if their own baby is wrecked for life at life's beginning.

Even though the incidence of infantile paralysis is low compared to certain other and major ills, yet it cannot be dismissed as no serious menace to society. This is what is socially most disturbing about the paralytic plague: crippling relatively few children and young people in any given year, each epi-

demic adds to an ever mounting accumulation of living human wreckage. From pneumonia after a few days' ordeal you die or get better. From our almost yearly epidemics of infantile paralysis—each one no account statistically—there is a growing totality of tragedy often worse than death. The number of infantile paralysis cripples alive in our land to-day is not exactly known, but it runs into hundreds of thousands.

II. There is no greater challenge than that of infantile paralysis to medical science, again in spite of the relatively few that this disease maims and kills. Maybe, if public health authorities and men of medical science could offer citizens some hope of prevention or cure, then there would be an end of public panic notable in epidemic seasons. But this is the fact about infantile paralysis, admitted by the medical and public health experts of the Committee on Virus Research and the Committee on Epidemics of the National Foundation for Infantile Paralysis, at their first meeting, in July, 1938—

After thirty years of research, in the laboratory and in the field, knowledge leading to the prevention, cure, or control is not yet available.

Orthopedic surgeons can somewhat mitigate the deforming and crippling effects of the disease. They can soften the cruelty of the after effects of it upon individual children.

But public healthmen have no science to guard children against epidemic infantile paralysis. No individual child can be so guarded with absolute certainty, though, if its parents are well-to-do and sufficiently frightened, that individual child can be

protected by removing it far from the zone of epidemic influence. Provided the child is not already harboring the virus when it is so sequestered from the plague's marauding.

Furthermore, in spite of claims persisting among certain men of medicine, physicians have no serum or medicine to check or cure the malady in its acute, early states—with proven power to prevent subsequent maiming or fatal outcome.

This then is the challenge faced by the scientific and public health experts of the National Foundation for Infantile Paralysis at the beginning of their activities a year and a half ago. They are faced with the responsibility of disbursing the money of American fathers and mothers in such a way as to meet that challenge as rapidly as possible. The experts must be haunted by the worry of parents when ominous figures—sometimes accompanied by public health authority's assurance that "the situation is under control"—appear on newspaper front pages. This riddle must give the Foundation's experts sleepless nights because they realize that more and more parents—to whom they are responsible!—know that the infantile paralysis situation remains under control of God, not man.

So the expansion of the fight against infantile paralysis is without question justified.

New York, N. Y.

President's Farm

Dear Mr. O'Connor:

Yesterday afternoon I had a long conversation with
Mr. Tap Bennett, Director of the Pine Mountain Valley Resettlement. x

x
Mr. Bennett says that it is too late in the year to carry
out the program as discussed with the President this fall, and suggests
that the following steps be taken:

1. Make settlement with Otis Moore, present tenant, and
get him to vacate house as soon as possible.
2. Secure new tenant or farm manager at the earliest pos-
sible moment on the approximate terms of \$50 cash salary a month, plus
enough land for gardening for his own use.
3. Secure two good negro tenants (he calls these "two mule
tenants") giving them land for cotton patch and garden.
4. Round up all cattle and take inventory of winter feed
for them. If there is sufficient winter feed to carry them over the winter,
do so. If there is a shortage of feed, cull the herd severely, retaining
only the prime stock and selling the culls for whatever we can get.
5. In the spring have tenant plant enough corn and oats to
supply winter feed for the most economical number of cattle to run, which
in turn will depend upon the available pasturage.
6. Start to build up the farm gradually by planting certain
fields in crops which will improve the soil.
7. Mr. Bennett doubts the advisability of cattle-raising for
the benefit of the Foundation, inasmuch as the Foundation has no facilities
for slaughtering and conditioning the beef. Furthermore, if the Foundation
handles it in this way, they lose the value of a great many of the by-products
of the steer out of which the regular abattoirs make their profit. He sug-
gests the possibility of developing it as a poultry farm.

I have given Mr. O. A. Riehle instructions to proceed with
the clearing of the fire breaks on the President's Farm, which he has been
doing for the past several years in a very satisfactory manner. This expense
will run between \$300 and \$350 and has in the past been charged to the Presi-
dent's Farm account on the Foundation books.

Mr. Bennett has expressed his willingness to cooperate in any way in order to put the President's Farm on its feet and will gladly help in selecting a new tenant and will instruct him as to the most feasible methods of developing this property.

I believe that this situation calls for fairly immediate action as the change-over in tenants should be done early enough to allow the new tenant to get his spring plowing and planting done - which in this section of the country is normally done in March.

I would appreciate your prompt advice on any further action you wish me to take.

Yours very truly,

(Sgd.) Louis C. Haughey
Comptroller

January 16, 1940.

MEMORANDUM FOR

BASIL O'CONNOR

In regard to the farm, i.e., the 2,200 acres in my name on the top of the mountain at Warm Springs, this is to confirm what I told you in regard to the lease of it to the Pine Mountain Valley Rural Community Corporation. This is the organization which runs the government built cooperative project just below the Knob in Harris County. Mr. W. T. Bennett (Tap Bennett) is the Manager and he agreed with me verbally to take over the property on a lease for an amount which would fully cover the taxes on the land, reserving from the lease about thirty or forty acres of farm land which have been or are about to be planted to pine.

He would run the farm for the production of beef cattle and I would sell to him the cattle now on the farm for an agreed on price. Using this herd as a nucleus, his Corporation would propose to sell to the Foundation one steer a week or two steers a week when the herd is built up. As I have told you, I am certain that the Foundation, by a very slight enlargement of their refrigeration, can use at least two head a week at a great saving over Atlanta prices.

When the purchase of the property by the Foundation from me goes through, I suggest that this verbal agreement between Mr. Bennett and me be confirmed in writing between the Foundation and him.

F. D. R.

January 15, 1940.

Dear Tap:-

The Foundation is preparing to take over the farm from you and I hope the thing will go through in the course of the next week or two. In such an event, I am certain that the Foundation will go ahead with the same arrangements which you and I outlined so that you can lease and occupy the land. I will let you know as soon as I hear.

Very sincerely yours,

W. T. Bennett, Esq.,
Georgia Pine Mountain Valley Rural Community Corp.,
Pine Mountain Valley,
Georgia.

December 26, 1939

MEMO FOR DOC

If I can rent the farm for an amount equal to the taxes to the Pine Mountain Valley Cooperative Association, why doesn't the Foundation buy said farm from me?

It would cost the Foundation nothing to maintain it and the Foundation would have a definite asset in the timber which grows in value \$400 or \$500 a year.

My dear Mr. President:

I have your note of December 26, 1939 about your farm. Just as soon as I can get some additional information from Warm Springs, I will take this up with you definitely.

Faithfully yours,

Basil O'Connor
Chairman, Executive Committee.

THE WHITE HOUSE
WASHINGTON

February 6, 1940.

MEMORANDUM FOR

BASIL O'CONNOR

I have no arrangement with Mr. Moore except that he is paid monthly and should have, I think, at least thirty days notice before the termination of his employment.

In regard to the tenant farmers, Mr. Haughey will have to find out what the agreement is with each of them. It is possible that they have been given the usual agreement for the coming crop year but I do not know. I do not think they should be made to move at this time of year, as it is too late for them to make other arrangements for this coming crop year.

MEMORANDUM FOR

MR. LOUIS C. HAUGHEY

How do you think we should
answer this letter from Mrs. Otis
Moore?

F. D. R.

A Centre for the After-Treatment of Poliomyelitis (*Infantile Paralysis*)

GEORGIA WARM SPRINGS FOUNDATION
WARM SPRINGS, GEORGIA

February 13, 1940

BSF
Warm Springs

Honorable Franklin D. Roosevelt,
The White House,
Washington, D. C.

Dear Mr. President:

Very frankly, I do not have the slightest idea as to how to reply to Mrs. Otis Moore's letter of February 1, which you sent me on February 7. I have delayed answering this until such time as I have been able to see her husband. Today was the very first opportunity I had to contact him.

Mr. Tap Bennett has very definitely informed me that he will do nothing about the farm until Mr. Moore has left the premises, and that he does not desire Mr. Moore as the tenant in charge of that operation.

With regard to selling him a small farm, the question of housing enters into it, as Mr. Bennett wishes their house for whatever man is put in charge of the cattle and farming operation. I understand that Mr. Moore is a fairly capable sawmill operator, and it might be that we could use him part of the time at the Foundation to carry out the program of thinning which you suggested during your Thanksgiving visit here. However, as you know, it is impractical to do any sawmilling during the summer months because of the danger to the remaining trees from borers. In fact, a State Forestry Department man dropped in to see me the other day and said that it is dangerous to carry on any operations after March 15, and that April 1 is the absolute limit. Therefore, the Moores' problem is to carry them over the summer, and I see no solution to this problem. It would certainly be very desirable from our angle if we could get Mr. Moore out of this section of the country, but personally I do not see how it can be done.

In any event, the Moores will have to be off the farm before Mr. Bennett will take over and I am using my best efforts to this end.

Again, may I express my regret at not being able to offer a constructive reply to Mrs. Moore's letter.

Respectfully,
Louis C. Haughey
Louis C. Haughey
Comptroller.

Enc.

Warm Springs, Ga.,
Feb. 1, 1940.

Hon. Franklin D. Roosevelt,
The White House,
Washington, D. C.

Dear Mr Roosevelt;

Referring to Mr Haughey's letter of Feb. 1, 1940 with reference to Mr Bennett taking over the Farm was indeed a blow to us as when you were here last November you left the impression with Otis that he would continue his routine of work on the farm as usual and living under that impression the above information has placed us in a very embarrassing position as we had made no other plans for this year.

I wanted to talk to you when you was here last Nov. about selling us the lot of land we live on but Otis said "No, not to bother you then that he believed when you decided to sell you would give him a chance to buy us a small part of your farm, enough for us to farm and make a living.

Mr Roosevelt would you consider selling us a small farm? Of course at present we do not have the first dime if we had had we would never have sent you a pay-roll, due to the fact that we have been taking care of eight families paying the Wage & Hour bill and competing with so many other saw-mills that do not pay it is why we do not have any money. I wonder if it would be possible for us to buy us a small farm from you through the Farm Security Administration.

We have lived here so long we have grown to love the the place very much and nothing would make us happier than to continue to stay here. Otis has known Mr Bennett for a number of years and consider him as finer man as he ever knew and would be more than pleased to work under his instructions.

If you would allow Otis to keep the saw-mill we believe we could pay for an run a small farm. As you very well know we have a large family and have got to live and work some place and it is quite late now to start out looking for a farm, Farming and saw-milling is about all that Otis really knows how to do.

Mr Roosevelt. it has indeed been a pleasure working and dealing with you and an experience that we will never forget and for which we are deeply grateful to you and we feel that you have been instrumental in doing more for the farming class of people than anybody else ever has, and we trust that you will find some way to help us out now.

I know you are wondering why I am writing you, but it is that I feel the responsibility of this family is just as much mine as it is Otis's and I am going to help him in every way that I possibly can. I have kept all of his books for the past four years and I know that he has cooperated in every way he knew how during this administration.

You know that Otis's education is very limited and with the News-paper men an General Public to handle he has quite a big job on his hands trying to handle it in the right way.

As you see by Mr Haughey's letter he tell us to Vacate not later than Feb. 28, 1940 I trust that we may hear from you at an early date and assuring you that any consideration shown us in this matter will be greatly appreciated by all of us,
I beg to remain,

Very truly,

*Mrs Otis Moore
Roosevelt Lanes
Warm Springs Ga.*

Warm Springs, Ga.,
February 1, 1940.

Mr Otis Moore,
Warm Springs, Ga.,

Dear Mr Moore;

I have just received word from President Roosevelt that he is concluding a lease of his farm to the Pine Mountain Valley Rural Community Corporation, to become effective on March 1, 1940.

One of the conditions of the lease is that your House shall be vacated by that date.

This letter serves as formal notice to you to arrange to vacate this property not later than February 28, 1940.

In taking over the farm, the Pine Mountain Valley Rural Community Corporation is going to purchase all the live stock and lease all the farm equipment, and I would appreciate your getting this live stock and farm equipment in condition for an inventory to be taken at this time of turning the farm over to Mr Bennett.

Will you kindly arrange to call on me some time in the near future so that we can make final arrangements.

Yours very truly.

Louis C. Haughey
Comptroller.

This is a copy of Mr Haughey's letter to Otis.

Dear Mr. Haughey:-

I am enclosing herewith a letter from Otis Moore, together with his bill and check for \$437.00 to cover it. As I understand Mr. Moore is leaving soon, will you be good enough to see that the bills are paid? Please return his letter with receipted bill at your convenience.

Very sincerely yours,

M. A. Le Hand
PRIVATE SECRETARY

Miss M. A. Le Hand,
The White House,
Washington, D. C.

Dear Miss Le Hand:

This will acknowledge receipt of your letter of February 9 enclosing check for settlement with Otis Moore. I have delayed acknowledging this until I had a chance to contact Mr. Moore and have just seen him. Due to the delay in making settlement with Mr. Moore, I have deposited the President's check with the Foundation and will issue Foundation checks as required, and will send the receipted bills when we receive them. I enclose the Foundation's receipt for the check you sent me.

As the bills which Mr. Moore included in the account have not been paid, I have requested him to submit the unpaid bills so that I may pay them direct and get clearance on the matter for the President.

Mr. Moore informs me that in addition to these bills, there are other small bills outstanding in the name of Roosevelt Farms, approximating \$100. He has promised to return tomorrow noon with a complete list of these bills and I am planning to settle them all direct. He tells me that he maintains a bank account in the name of "Roosevelt Farms". Does the President wish me to close up all accounts with Mr. Moore, including the bank account, at the time of this settlement? If he does, would you please let me know at the very earliest possible moment?

Yours very truly,

Louis C. Haughey
Louis C. Haughey
Comptroller.

February 15, 1940

Miss M. A. Le Hand,
The White House,
Washington, D. C.

Dear Miss Le Hand:

In our conversation today Mr. Otis Moore has asked me to request the President to give him permission to use the sawmill. He informs me that if he can have the use of the sawmill he will be able to make out; but that if the sawmill is taken away from him, he sees no chance of making a living this summer.

Inasmuch as it is undesirable to do any cutting either on the President's farm or on the Foundation until next winter, I believe that it might be a desirable thing, and will possibly obviate a good deal of unpleasantness. It is possible by doing this that we could be reimbursed for this tractor expense, which I am sure we will have to assume.

yes
Mr. Moore is of course very anxious to know about this matter, and if you have any inkling as to the President's wishes that would permit me to tell Mr. Moore - strictly unofficially - that it is probable that the President will accede to his request, I would appreciate your letting me know promptly.

This seems to be the only out for Mr. Moore for at least the coming summer, as he certainly has not enough resources to carry him through until he can get going again.

Miss M. A. Le Hand,
The White House,
Washington, D. C.

Dear Miss Le Hand:

I have just had another conference with Mr. Otis Moore with regard to the President's Farm and I find, on getting into the accounts, that there are several matters which have to have a reasonably immediate decision.

I find that Mr. Moore did not purchase the 7 tons of fertilizer, 3 tons of soda or the 15,000 pine seedlings, which he had on his expense account for January. These three items total \$315 out of the total of \$437 which you sent me.

We have paid Mr. Moore his salary of \$75. Incidentally, the President suggested that Mr. Moore be given a month's notice. Does that mean he wishes me to pay him an additional \$75; or was the \$75 which we have just paid him for the month of February?

We will have to pay for the paint, which amounts to \$47.75 rather than \$47.00 as in the list.

There are, in addition, charged to the Roosevelt Farms the following items:

Daniel Lumber Company	\$15.19
Telephone charges dating back to Nov., 1938	25.00
Greenville Warehouse and Oil Mill	49.00

Mr. Moore states that this Greenville Warehouse and Oil Mill account dates back to before the time he took charge and that it is at least six or seven years old. I will make a thorough investigation of this matter before I pay this bill.

In addition to the above, the bank account in the name of 'Roosevelt Farms' shows an over-draft of \$42.19, as of January 30, 1940. Mr. Moore states that there have been no further transactions in this account and that this represents the present over-draft. We have not checked this statement, however.

Page 2,
Miss Le Hand,
Feb. 15, 1940

I believe that all of the above items are properly in line for payment and on advice from you will issue the necessary checks, which total \$179.13 - plus the \$75 paid Mr. Moore - which makes a total of \$254.13 to be expended out of your remittance of \$437.00; leaving a balance to the President's account of \$182.87.

The last and most important matter which came up is the fact that on December 1 Mr. Moore traded in the tractor unit to the Valley Truck and Tractor Company, with an agreement to pay a total of \$325 on time; paying this with a note for \$50 and an installment contract calling for a total of \$287.12 in twelve payments. Although this was dated December 1, Mr. Moore has only paid one installment of \$25.76, and has not paid the note of \$50, which was due on December 1. Mr. Moore tells me that this transaction was conducted in the name of the Roosevelt Farms and is thus a liability of the President.

ok
Mr. Moore asked me to say that he had no intention of ever presenting this account to the President as he intended to pay it off from the profits of his sawmill operation. He also wishes me to say that if the President will allow him to use the sawmill, he will make the payments for this tractor. I would seriously question his ability to do this; and certainly if the President sells the tractor to the Foundation, undoubtedly these payments will have to come from either the President or the Foundation. Very frankly, I believe that the President should at least authorize me to pay the \$50 note and the three installments which will be due and past due on March 1 - which will total (including the note payment) \$123.28. This will give us time to consider the matter more fully.

I am aware that the President has started off on a ten day visit, but hope that inasmuch as the total payments called for will be less than the amount sent me, you will feel able to authorize me to settle these matters on the above basis, as undoubtedly the tractor is urgent due to the note angle.

Yours very truly,

Louis C. Haughey

Louis C. Haughey
Comptroller.

PSF
Warm Springs

February 19, 1940.

Dear Mr. Haughey:-

I have your two letters of February fifteenth and will answer it as best I can in the President's absence.

The salary you paid Mr. Moore was for the month of January so I suggest you pay him his February salary out of the balance.

I know nothing of the account with the Greenville Warehouse and Oil Mill but I am at a loss to understand how this account could have run six or seven years.

If the tractor transaction was authorized by the President then, of course, he will have to pay it, but I suggest you use your own judgment in this matter.

I do not know what the President has in mind about the sawmill and as we are trying not to bother him with anything but official matters while on the cruise, I think this decision will have to wait until he returns to Washington.

The important thing is to get Mr. Moore to vacate the premises so that Mr. Bennett can take over as arranged.

-2-

I hope you can work everything out satisfactorily for the present and I will give your letters to the President on his return and you will hear from him soon thereafter.

With kindest regards,

Very sincerely yours,

M. A. Le Hand

GEORGIA WARM SPRINGS FOUNDATION

WARM SPRINGS, GEORGIA

February 22, 1940

Miss M. A. LeHand,
The White House,
Washington, D.C.

Dear Miss LeHand:

Thank you for your letter of February 19.

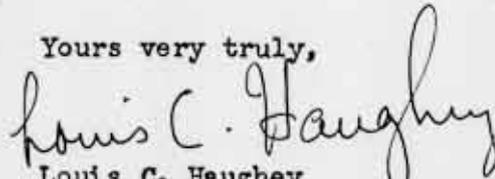

I have paid Mr. Moore salary for the month of February and have arranged that he will turn over the farm next Monday, February 26. Mr. Tap Bennett has secured a very desirable tenant, Mr. Durham, who has been in the livestock business for some time, and who I believe will make a very satisfactory tenant.

In setting this new tenant up in business, there will probably be some expense involved, as Otis Moore has no feed left for the cattle he has on hand, and they will probably have to be barn-fed for another month. In addition, he only put in about eight acres of winter oats so that it looks very much to me as if there may be even more feed necessary. Also, in addition to the above expense, in discussion with Mr. Bennett we believe the best way the Foundation can assist the new tenant is to help him develop a chicken business, as our purchases of eggs and fowls are more steady and larger than our purchases of beef.

I have taken it upon myself to assure Mr. Bennett and Mr. Durham that we will see that the necessary money is forthcoming. Mr. Bennett and Mr. Durham are now laying out their plans and making up a tentative budget.

Mr. Bennett feels that after a fair start, Mr. Durham should certainly put the farm on a self-supporting basis, and will just need enough money to tide him over until he can get into production.

Yours very truly,

Louis C. Haughey
Comptroller.

Honorable Franklin D. Roosevelt,
The White House,
Washington, D. C.

Farm

Dear Mr. President:

We are enclosing a copy of an inventory taken at your farm on February 26 by Mr. Bennett, Mr. Durham (the new tenant), Mr. Otis Moore, Mr. Williams and myself.

I would like to comment here that the livestock were in very poor shape and we had to rush some feed out from the Foundation to keep them going. The physical condition of the farm implements and miscellaneous equipment was distinctly poor.

At this time Mr. Bennett and I had a discussion with Mr. Durham in which the following points were brought out:

- (1) The farm is in such poor condition and only 25 head of cattle, that there is absolutely no chance of a tenant becoming immediately self-supporting. In fact, from the cattle alone, it will require at least two years before there will be any cash income from the farm.
- (2) Mr. Durham said that during this time he would require \$40 each month for maintenance of his family, and wages for two negro laborers at 75¢ a day, practically continually. The total of this labor would run between \$35 and \$40 a month. This represents a total expenditure of \$80 a month for the tenant and negroes.
- (3) It was decided that the most immediate source of income would be from chickens and Mr. Bennett has agreed to finance Mr. Durham in this activity, with the exception of a new chicken house which will have to be built. Mr. Bennett states that the material will cost approximately \$80, and there will probably be some cost for labor and erecting, although the major part of it will be done by Mr. Durham and his laborers.

Page 2,
The President,
Feb. 27, 1940

(4) The only wagon on the place is practically useless, and Mr. Durham would like to purchase one that he knows about for \$65 which is complete with hayrack and other equipment. New, this wagon with attachments would cost about \$100, and Mr. Bennett informs me that he thinks this would be a good buy.

(5) There will also have to be some work done on the stables, as Mr. Durham is planning to raise a few horses. He now owns seven mares and a stallion and the stable has to be put in condition for them. How much this expense will run to I am not sure, but should not be over \$100 - \$150.

(6) Later, Mr. Durham feels that the cattle herd should be increased to about 60, and this will involve the purchase of the additional 35 cattle. However, he does not wish to do this until such time as he has gotten the fields in shape and has enough feed planted to carry them over the winter, so these purchases will probably be delayed for some time.

In addition to the above expenditures, Mr. Durham will require money for seed and fertilizer. How much this will run to, it is impossible to say, but it is certainly a necessary expense.

I know that your idea was to sell cattle to the Pine Mountain Valley Corporation to secure capital for the new tenant.. However, Mr. Bennett informs me that it will take some time to put this through at the best, and that there is a grave question as to whether it would be possible to do this, due to regulations which forbid their dealing with employees of the government.

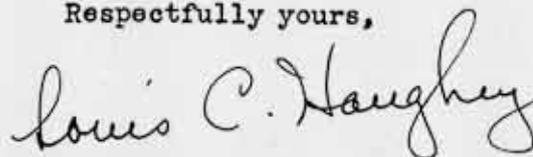

Mr. Durham has the highest possible recommendations not only for honesty and dependability, but as a livestock man; and I feel certain that at the end of two years the farm will be not only self-supporting, with a good living for the tenant, but I believe that there will be a good chance of repayment of any advances made, with the exception of the capital improvements such as the chicken house and barn repairs.

Page 3,
The President,
Feb. 27, 1940.

Mr. Durham has been working shares with Mr. Henry Zachary, President of the Chipley Bank, who gives him the highest possible recommendation, and is releasing him only to help you work out a satisfactory solution to your farm here, at the earnest solicitation of Mr. Bennett.

No formal agreement has been made with Mr. Durham, but I have verbally assured him that he would be carried over the next two years on the basis mentioned above. I will endeavor to keep you advised of all developments in this connection as rapidly as they arise.

Respectfully yours,

Louis C. Haughey
Comptroller.

Dear Mr. Roosevelt:

This will acknowledge your letter of May 11 regarding the President's new Willys Overland.

As you can see by the enclosed letter, we changed the controls with the exception of the gear shift on the steering wheel, at the President's request.

As soon as I hear from Miss LeHand, I shall let you know.

Yours very truly,

Louis C. Haughey
Comptroller.

Warm Springs Foundation,
Warm Springs, Georgia.

Gentlemen:

The President advises that the controls on the new Willys Overland are slightly different from those of his previous car.

I am enclosing a copy of a letter from the Willys Overland Motors, Inc., dated May 9, 1940.

If anybody is coming to New York would it be possible for them to drive the car up north and deliver it to Amon-Willys, Inc. 985 Broad Street, Newark, N. J.

I would appreciate your advising me if this is done.

Yours very truly,

G. HALL ROOSEVELT (Signed)

GHR:m

C O P Y

May 9, 1940

Mr. G. Hall Roosevelt,
Poughkeepsie, New York.

Dear Mr. Roosevelt:

Mr. Frazer advised me that you informed him that while the President was pleased with the roadster, he was not very well satisfied with the remote control mechanism and that he would much rather have exactly the same kind of equipment on his Willys as on the other cars he drives.

This is quite a disappointment to us as we felt that the controls we put on this roadster were far superior to the ones on the other car and much easier to operate.

It is Mr. Frazer's desire to make the necessary changes in the controls of the roadster to conform with those of the other cars the President drives and we would like to have you send us a letter authorizing us to pick up the roadster at Warm Springs and take it to Newark where the changes will be made, after which we could deliver it to Hyde Park.

Better still, if there is someone at the foundation who intends to come to New York in the near future he could drive the car through and deliver it to Amon-Willys, Inc., 985 Broad Street, Newark, N. J.

- Please let us know if you can arrange this and if not be sure and send us a letter that will enable us to pick up the roadster at Warm Springs.

With kindest personal regards,

Yours very truly,

WILLYS OVERLAND MOTORS, Inc.,

D. A. Walters (Signed)

Service Manager.

PRESIDENT
FRANKLIN D. ROOSEVELT
TREASURER
BASIL O'CONNOR

GEORGIA WARM SPRINGS FOUNDATION
120 BROADWAY
NEW YORK

NOTICE OF ANNUAL MEETING OF MEMBERS

New York, N. Y., January 26, 1940.

To the Members of

GEORGIA WARM SPRINGS FOUNDATION

Notice is hereby given that the annual meeting of the Members of Georgia Warm Springs Foundation will be held at the office of the Foundation, No. 120 Broadway, New York, N. Y., on the seventh day of February, 1940, at 11 o'clock in the forenoon, for the following purposes:

1. To elect a Board of Trustees to serve for the ensuing year.
2. To vote upon a proposal to dissolve and liquidate Meriwether Reserve, Inc., a Delaware corporation, and, as the holder of all of the outstanding capital stock of such corporation, to execute and file a consent to such dissolution.
3. To amend the By-Laws of the Foundation by striking out all of Article VIII (which now provides that the fiscal year of the Corporation shall be the calendar year) and inserting in lieu thereof the following: "The fiscal year of the Corporation shall begin on the first day of October in each year and shall end on the thirtieth day of September following".
4. To transact such other business as may properly come before the meeting.

Members who do not expect to attend in person are requested to date, sign and return the accompanying proxy to Georgia Warm Springs Foundation.

RAYMOND H. TAYLOR
Secretary.

Accountants' Certificate

GEORGIA WARM SPRINGS FOUNDATION:

We have examined the balance sheet of Georgia Warm Springs Foundation, a New York corporation, as of September 30, 1940 and the related statement of fund reserves for the year ended that date (including the operations of its subsidiary, Meriwether Reserve, Inc. to April 30, 1940 the effective date of its dissolution), have reviewed the system of internal control and the accounting procedures of the Foundation, and have examined or tested its accounting records and other supporting evidence by methods and to the extent we deemed appropriate.

In our opinion, the accompanying balance sheet and related statement of fund reserves present fairly the financial condition of the Foundation at September 30, 1940 and the results of operations for the year ended that date (including Meriwether Reserve, Inc. for the period indicated above) in conformity with generally accepted accounting principles, and on a basis consistent with that followed in the preceding year.

PRESIDENT
FRANKLIN D. ROOSEVELT
TREASURER
BASIL O'CONNOR

December 20, 1940.

*Warm Springs
file
Personnel*

To the Board of Trustees of

GEORGIA WARM SPRINGS FOUNDATION

Gentlemen:

I am enclosing herewith financial statements for the year ended September 30, 1940, as certified to by Messrs. Haskins & Sells, Certified Public Accountants.

The statements are marked "Not for Public Release" only because they will form part of an annual report which will be released to the public in a short time. Please be sure, therefore, that the statements do not get out of your hands.

I hope you will examine these statements carefully and feel free to make any inquiries that may occur to you.

In case you do not have at hand corresponding financial statements for the calendar year ended December 31, 1938, and for the nine months ended September 30, 1939, I also enclose copies of those two statements.

Inasmuch as the financial year of the Foundation was changed in 1939 from a calendar year basis to a fiscal year basis ending on September 30, it is not possible for you to make direct comparisons of these three statements. For practical purposes, however, it is possible to arrive at satisfactory comparisons by increasing the figures in the statement for the nine months ended September 30, 1939, by one-third in order to place them on an annual basis. This, of course, is not scientific, but a precise comparison would be possible only through the expenditure of additional moneys for auditing fees, which does not seem necessary for this purpose.

Adjusting the 1939 statement as aforesaid, comparison of Revenue from Patients, etc., Salaries and Wages, and Total Expenses and Other Charges is as follows:

Revenue from Patients and
from other activities at
Warm Springs, Georgia

1938	\$206,000.71
1939	\$138,678.89
1940	\$159,167.78

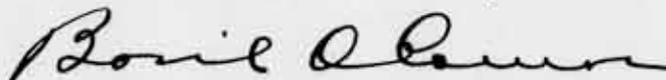

Salaries and Wages

1938	\$181,784.29
1939	\$160,055.21
1940	\$146,294.83

Total Expenses and Other

1938	\$452,738.06
1939	\$405,425.75
1940	\$356,982.61

Very truly yours,

Chairman Executive Committee

Miss M. A. LeHand,
The White House,
Washington, D. C.

Dear Miss LeHand:

We are enclosing several statements covering the operations of the Roosevelt Farm, as well as the President's personal account at the Little White House for the year 1940. No comment is needed upon the President's Little White House account except for the fact that included in this account are the total taxes paid, including those on the farm. This amounted to -

Harris County Taxes -	\$ 83.81
Meriwether County " -	379.97 -

and these taxes are again due for the current year, but have not been paid as we are endeavoring to get a reduction on the Harris County taxes.

Statement No. 2 is the settlement with Otis Moore in order to get him off the farm. This shows a credit balance of \$80.29 on the \$437.00 received from the President in February, 1940. I think all of these items are self-explanatory.

Statement No. 3 is the statement of the sawmill operations. As you know, the motor and everything was purchased by Otis Moore under the President's name, so that we had to take care of it. In addition, it was in such very bad shape that we had to spend a considerable amount of money to re-condition it. This account shows a debit balance of \$722.47, but we expect to have an income of around \$450 which will be payable this year... This is made up of about \$375 from Mayor Harry who has rented the sawmill, and about \$75 from the Foundation for their use of the mill in cutting their trees. In the meantime, we are offering it for sale and I believe that we will be able to sell the whole thing before spring for around \$900 or \$1000.

Statement No. 4 is a statement of Other Expenses for the Roosevelt Farm. These charges date back to 1937 and show a total balance of \$1,152.22. Of this amount only \$308.15 was incurred in 1940 and was the cost of clearing fire breaks last February and March. . . This work is being done again this year largely by Mr. Durham, the present tenant.

Page 2
Miss LeHand
Jan. 27, 1941

Statement No. 5 shows a total expense of \$370.99 representing labor and material for general repairs to the house, barn and water works, which was absolutely necessary to put the place in condition for Mr. Durham. We have not itemized this statement as it was largely labor and material taken from the Foundation and furnished to the President at absolute cost. If you desire a more itemized statement, we shall be glad to submit it.

Statement No. 6 shows the transactions of Mr. Roy Durham with the Georgia Pine Mountain Valley Rural Community Corporation. This is itemized and broken down, and I think shows the complete story. I am also enclosing a letter addressed to me from Mr. Tap Bennett with regard to this matter.

Statement No. 7 shows the advances made to Mr. Durham by the Georgia Warm Springs Foundation. This is also self-explanatory.

It will be noted that the total operations with Mr. Durham show a total net outlay of \$1,751.12, of which permanent improvements and new equipment amounted to \$326.84, which leaves a real net cost of operating the farm of \$1,424.21. Although this loss may seem high, actually when you consider the condition of the farm at the time Mr. Durham took over, it really is a fairly good showing. Over \$400 worth of feed had to be purchased because of the failure of Mr. Moore to properly farm the year before. In addition, fertilizer costs were high in order to build up the land for future use. I might say that in my personal opinion, the farm's value has increased well above this year's loss.

Yours very truly,

Louis C. Haughey

Louis C. Haughey
Comptroller.

January 23, 1941

Mr. L. C. Haughey
Comptroller
Warm Springs Foundation
Warm Springs, Georgia

Dear Mr. Haughey:

Please find enclosed statement for the operation of the President's farm for 1940.

As you remember, when Mr. Durham began in March, the place was in a very bad shape, having been neglected for some time; terraces in bad repair; practically no possibility for grazing cattle, with no feed of any kind; fences in bad shape; no place to store and house the work stock, along with other repairs as necessary to do.

The statement is broken down, showing amount of money expended for subsistence, extra labor, permanent improvements, seed, feed, fertilizers, grapes and incidentals, which includes blacksmithing, plow points, scooters, scrapes and other small equipment.

I think, under the circumstances, the operation has been expensive, but the farm and pastures are in much better shape at present than they were a year ago. A great deal of work has been done on mending terraces, laying off new ones, grouping and improving the pastures which should produce an income in the future.

We were able, despite unfavorable seasons, to produce practically all the feed needs for both work stock and cattle for this year. We will need a little hay and a small amount of corn, but I think it is better to do this than to neglect either the cattle or work stock.

We are expecting to have better yields this year and will not take the amount of money to operate as it did last year, so our expense will be considerably less.

In order to know and have a long time plan, we are working with the Soils Conservation representative, in mapping the farm, establishing a system of cropping as best suited for the farm. We plan to plant about fifty acres of Kudzu on the steeper and more rolling lands that are washing and will not be able to cultivate profitably. This is being planted for future grazing and hay production. This will necessitate the largest individual item of cash outlay, which will require approximately 35,000 Kudzu plants at \$6.00 per thousand and labor to plant.

It is their recommendation and I concur, that we should also plant a few acres of scuppernongs for additional cash income, four years hence. We can

-2- Mr. L. C. Haughey, Warm Springs, Georgia
January 23, 1941

We can inter-plant this land in vineyards with other crops and take care of them at the same time. It will require about \$225.00 for the ten acres of scuppernongs if Mr. Durham has the labor and time to get them planted, that is, 165 plants per acre, what we are supposed to use.

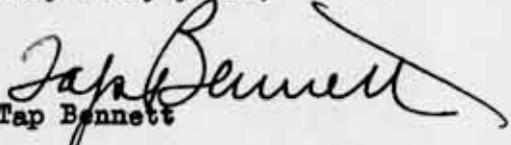

It is our desire that we produce ample feed this year if possible for food and feed for the family and live stock and plant an acreage in cotton for cash income but this will be limited and enable us to cooperate in the National Agricultural Program.

We will also try to produce some poultry for additional cash income and family needs.

It has been pleasant to work with you and Mr. Durham on this farm and I not only hope but anticipate that within the next two years the farm will be on a profitable basis.

Thanking you for your many courtesies, I am

Very truly yours,

Tap Bennett

Enclosure

PSF

January 27, 1940.

Dear Mr. Haughey:-

Mr. O'Connor has asked me to write you what arrangements I had made with Tap Bennett in regard to the lease of all my land on Pine Mountain and this is my recollection:

The Pine Mountain Valley Rural Community Corporation would lease all of the land, including the farm house and tenant houses, for a number of years in order to use the land for cattle pasturage and the growing of crops to feed the cattle.

I was to have reserved the acreage planted in pines -- not acreage on which pines are growing through natural seeding. I was to reserve also all timber of marketable type but not the trees of little or no value, such as blackjack oak, etc. The land leased was not to include the two and a fraction land lots which I bought from Miss Georgia Wilkins, and which lies west of the Cascade and southwest of the golf course.

The Pine Mountain Valley Rural Community Corporation was to pay as rental a sum equal to the total annual taxes. They were to purchase from me for cash, after a mutually agreeable appraisal, all of the cattle and mules now owned by me and on the property. They were to maintain existing fences with the right to add such other fences as might be necessary but with, of course, provision for a right-of-way from the Foundation up through the former Georgia Wilkins lots to the new parkway near the Persons' half lot, and also a permanent right-of-way out to the Knob.

Tap Bennett has written me suggesting that he does not want to keep Otis Moore and I, therefore, make the suggestion that when the actual purchase of the land by the Foundation from me is completed, you talk with Tap Bennett and arrange a definite date for Mr. Bennett to take possession under a lease. I suggest that in fairness to Otis Moore he be given at least thirty days' notice, and I think you had better speak to him about this.

NICHOLAS M. SCHENCK
1540 BROADWAY
NEW YORK

*File Warm Springs
PSF:*

June 16, 1943

President Franklin D. Roosevelt,
White House,
Washington, D. C.

Dear Mr. President:

On behalf of the motion picture theatres of America, it is my privilege to hand you herewith check for \$1,000,000. made payable to the National Foundation for Infantile Paralysis.

This represents approximately half of the money raised in February through the collections in some 12,000 theatres throughout the nation. One-half of the collections remain in the communities collecting. An additional check will be sent to the Foundation when the audit is completed.

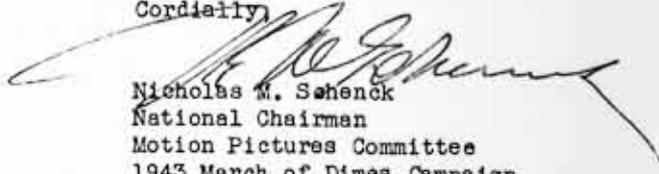

The collections this year compare very favorably with the \$1,450,000. raised through our theatre drive in 1943. The gratifying increase in results may be traced to the enthusiastic cooperation of theatre owners and their staffs everywhere throughout the nation, and to the ever growing interest of the public in this worthy cause.

It is noteworthy that the \$2,000,000. in contributions represents millions of donors. Not only grownups contributed but millions of children did their share as evidenced by the number of pennies collected from them.

Our committee is proud to advise you that the campaign was conducted with a minimum of expense, which we estimate will not exceed 2% of the total. Most of this expense was for raw film purchased for the making of a trailer. Attached is a preliminary report from the accountants, showing tabulations of collections reported by States to date.

The entire motion picture industry is grateful for this opportunity to serve in your fight against infantile paralysis.

Cordially,

Nicholas M. Schenck
National Chairman
Motion Pictures Committee
1943 March of Dimes Campaign

For foot-notes see page #2.

There is one more item which I forgot to mention. The tools and farm implements are, of course, mine and I suggest that they be leased with the property, the lessee to return them or their equivalent in case the lease is terminated at any time.

Also, I own a portable sawmill and I told Mr. O'Connor the other day that I thought the Foundation should purchase this for its own needs in sawing lumber on the Foundation for its own use. The value should be the original cost of it to me, less depreciation. Otis Moore can tell you how much I paid for it and approximately when I bought it.

Tell Tap Bennett that I do hope this lease can go through. I still think there is a definite local market for reasonably fat steers if he has someone who knows how to put the finishing touches on them before slaughtering.

Always sincerely,

Louis C. Haughey, Esq.,
Comptroller,
Georgia Warm Springs Foundation,
Warm Springs, Georgia.

Notes

*Includes \$3,600. apportioned from United War Fund collections in theatres;
no portion to National Foundation.

**Check for \$1,000,000.00 dated June 15, 1943 drawn to the National
Foundation.

CHAPTER III

Songs

Hail, Hail

Hail, Hail, the gang's all here
Hail, Hail, the gang's all here
What the heck do we care, what the heck
do we care,

Hail, hail, the Gang's all here
What the heck do we care now?

Playmate

Oh, Mr. Roosevelt
Come out and play with me
And bring your dollies three
Climb up my apple tree
Shout down my rain barrel
Slide down my cellar door
And we'll be jolly friends forever more.
Well, He couldn't come out and play
It was a sunny day
With a tearful eye, he breathed a sigh
And I could hear him say:
I'm sorry, playmate I can not play with
you
My dollies got the flu, boo hoo, boo hoo
boo hoo

Ain't got no rain barrel
Ain't got no cellar door
But we'll be Jolly friends forever more.

I've Been workin' on the Railroad

I've been workin' on the Railroad
All the live long day
I've been workin' on the railroad
just to pass the time away.

Don't you hear the whistle blowin
Rise up so early in the morn
Can't you hear the Captain shoutin
Dinah, Blow your horn.

Dinah won't cha blow, Dinah won't cha
blow
Dinah won't cha blow your horn, horn,
horn
Dinah won't cha blow, Dinah won't cha
blow
Dinah won't cha blow your horn.

He's A Jolly Good Fellow

Oh, He's a Jolly Good Fellow
Oh, He's a Jolly Good Fellow
Oh, He's a Jolly Good Fellow
Which nobody can deny.

Someone's in the Kitchen with Dinah

Someone's in the kitchen with Dinah
Someone's in the kitchen I know-o-o-o
Someone's in the kitchen with Dinah
Strummin' on the ol' banjo--I hear it
Fee Fi Fidly-i-o, Strummin' on the
" " " " " " old banjo.

She's a one-black, two-black, honest-to-
gosh shoe black

Chocolate to the bone

If you see my gal comin' down the street
You'd better leave my gal alone.

She's got eyes like a je-beel, teeth
like a pearl

Good gosh-a-mighty she's a gift to
the world

She's a one-black, two-black, honest-to-
gosh shoe-black

Chocolate to the bone.
