To The Legislature

In my annual message I expressed the hope that in the consideration of important state affairs there might be informal or official conferences between the Legislature and the Governor. May I suggest that this might be carried out satisfactorily and practically in considering the various needs of the prisons, with the parole board, building program and the phylogistical which have been made in regard to Union crime laws, good prisoners sentences and parole?

I have already notified your honorable body of emergency legislation to take care of matters of the moment, such as better food and clothing, temporary prison camps to relieve overcrowding and the creation of a prisoner guard corps.
