Gentlemen: I have just read
newspaper accounts of the atrocities
described in the booklet is-
sued by the War Refugee Board.

Nauseating, yes! But when
I ask myself whether I would
rather starve to death in almost
agony under an allied economic
blockade or be blown to bits
in a shocking and terrifying
bomb raid I have to confess
that being gassed to death in

700411

in 3 minutes under the belief I was
being given a bath and a de-
lousing seems "mercy killing".
War itself is an atrocity, and
everything connected with it is
of the Devil. Let us take care
if God gives us another chance
to make the peace, we make
a peace as fair economically
to all that no nation here-
after will risk a war as its
only way out of its inferiority
complex as a lesser people and
a "have not" nation.

Let's not waste time in
"hell is here" pamphlets.
Instead let us immediately
get us a through study of

injuries + deaths of innocent ~~people~~ people under
assault attacks. The Devil Mr Roosevelt in the
Pearl Harbor - this campaign because he would not
again and again that he would not stand on my
shoulders, just as it should be plain to keep us
out of men. Miss Helen Gurnie to aggressively
highlight the strengths of Germany that he would
right German positions and back the struggle lead
of Iran on Germany's economy without men.
Let us prepare ourselves to fight on the

in 3 minutes under the belief I was
being given a letter and a de-
claratory name "money killing".
War itself is an atrocity and
everything connected with it is
to be denied. Let us take care
of God give us another chance
to make the peace, or make
a peace as fair economically
to see that no nation has
after war rise a war as the
only way out of its inferiority
complex as a lesser people and
"have not" nation.
Let's not waste time in
"believe them then" pamphlets.
Instead let us immediately
get us a through study of

injuries + deaths of innocent peoples under
armed attack. We elected Mr Roosevelt in the
past before this campaign because he assured us
again and again that he would not send our boys
overseas, just as we elected Wilson to keep us
out of war. Didn't Hitler promise to agreedly
peaceless abolish of Germany that he would
right German frontiers and break the strangle hold
of Jews on Germany's economy without war?

Let us have done with stirring up hate as we
will surely pay in the justice of God.

Yours sincerely
Tom Carlock
