Dear Mr. Mandel:

I have your letter of May 5, 1945, enclosing a copy of the issue of Egyeseti Elet of that date in which there appears an open letter addressed to the War Refugee Board concerning some 1,670 Hungarian refugees who were given temporary refuge in Switzerland.

As you are undoubtedly aware, the Government of Switzerland was most generous throughout the war years in receiving within its borders refugees from enemy and enemy-occupied countries. The large numbers of persons who thus benefited from the hospitality of the Swiss placed an increasing strain on the ability of the Swiss to provide food and clothing supplies and shelter facilities to care for them. In accordance with the announced policy of this Government to take all possible measures to rescue and save the victims of enemy oppression consistent with the successful prosecution of the war, the Swiss Government was assured that additional groups of refugees admitted into Switzerland would be evacuated from that country as soon as possible.

Among others who found safety on Swiss territory under this plan are the 1,670 Hungarian refugees who came from the concentration camp at Bergen Belsen. According to latest reports, a large number of these refugees desired to proceed directly to Palestine and the Swiss Government is now giving consideration to permitting this group to remain in Switzerland until they can go to Palestine. At the request of the Swiss Government, arrangements are being made to move the others to a refugee camp in Southern Italy where they will be under the care of the United Nations Relief and Rehabilitation Administration until such time as
it becomes physically possible for them to be repatriated
to their native lands or to emigrate to other countries.

Very truly yours,
