Dear Phil:

Thank you for your letter of October 15th and your good wishes. With the situation in Europe changing so rapidly, the work of the War Refugee Board is gradually closing down in many areas. However, we are still desperately trying to do something for the persecuted groups remaining in enemy-occupied territory -- in particular we are concentrating on the situation in Hungary and Slovakia. In connection with the work we have done, you may be interested in the enclosed copy of a speech I gave in Boston last Sunday night.

With kindest personal regards,

Sincerely,

Is/ John

Dear John

Last night I ran across a copy
of September's Survey Graphic carrying
Blair Bolles' story on the WRB. It was
a mighty pleasant surprise. A bleak Army
camp like this one is hardly the place you'd
expect reminders of FFC & the Board.

I was happy about the support ^{the WRB} got in
the article. I hope things continue to go
well & that I can be back with you at
the team, before too long.
