Dear Missy:

 saying good bye to you
 "soot" because I thought I'd
 appreciate it more. - I
 did love my first more
 than I can explain to anyone
 & I don't forget one little
 talker - please for I like
 for my next

Dear Miss Delano:-

Thank you ever so much for your nice letter. I am sending the white material to you today. I think you are quite right that it would be nice to have a different model from the gray. I would like to have them sent to me here in Washington.

Affectionately,

M. A. L. H.

Dear Missy =

Am just home.
Your address please is
not yet here but as
soon as it comes
I will do what
you want & also make
a sketch of return ticket
to Washington unless
you ask otherwise.
The white material is
lovely & if you send

it will make
- a summer wedding
dress but I think
you would rather
have another model
instead of repeating the
gray tho I love that
model. - If you are
sure you want it again
please let me have your
gray for just a few
days! - I'll let you
know about the dress
for the wedding later
but am sure I can

Handwritten notes on a separate sheet of paper, partially overlapping the main page. The text is written in cursive and includes phrases like "at home", "Rhinebeck", and "New York".
